COTTON MARKET.

More favorable private condition figures and easier cables promoted some selling in the cotton market early yesterday, but an early decline was followed by rallies, and the close was steady, net 1 point lower to 2 points higher. Business was quiet and much of the trading was supposed to reflect a continued disposition to even up commitments for over the Government report expected the first of next week.

The market opened barely steady at a decline of 2 to 14 points. There seemed to be a feeling here that relatively weak cables might have resulted from hedge selling, while local pessimism was encouraged by reports that a prominent Southern statistical bureau estimated the condition of the crop at 59.8, against 57 last month. According to the same report ginning prior to September 25 reached the record breaking total of 4,290,000 to 4,350,000 bales. This naturally strengthened expectations of bullish figures from the Census Bureau on Monday, but early offerings were well absorbed by Wall Street, Liverpool and trade buying. December contracts sold at 16 and January at 16.08, or even with the low point of Wednesday, and then rallied to 16.10 and 16.18 respectively, or about 4 to 8 points above the previous close. The Western belt forecast for frost in the Panhandle and northern Oklahoma, but for warmer weather to-day, seemed reassuring and the market became quiet after the rally, with little fluctuations irregular.

Some reports from the Southwest say that receipts are beginning to fall off, but active progress with picking and ginning is indicated and it is expected that supplies will reach heavy figures in the interior next month.

Exports were 12,171 bales, making 801,801 so far this season, against 606,845 last year.

Range of prices:

LIVERPOOL CABLES—Spot in good demand; sales, 10,000 bales; speculation and export, 1,000; American, 9,000; imports, 1,000, all American. Mid upland, 9.41d. Futures opened quiet but steady, near months 1 to 2 points higher and other positions 3 points higher, closed quiet at net decline of 2½ to 5 points. October, November, 9.24d; January-February, 9.37; March-April, 9.41; May-June, 9.43¾; July-August, 9.29½. Manchester—Yarns, firm; higher prices check cloth business.

GRAIN MARKET.

WHEAT—The political news from Europe proved disturbing to the wheat market early, and prices declined ¼ to 1 cent a bushel from the previous close under liquidation by longs, who felt that prospects were brighter for opening commercial connections with Russia. The Liverpool market was also lower, but on the early decline exporters bought quite freely, active covering resulting. Prices subsequently rallied sharply and at the close were 2¾c. to 3¼c. above the final of Wednesday. Export sales were estimated at about a million bushels, the orders being principally for American wheat from the Dutch and British Governments and the Belgian Relief Commission. Private cables from Argentina said the weather continues dry and that in the north it was believed the damage is irreparable. The domestic cash position was again firm, and advices from the Northwest said that the flour trade had improved during the last week for domestic account, although there was little or no inquiry from abroad. Argentine freights were again firmer, and while Argentine wheat was offered here at about $1.66 c. i. f. New York it found little demand. Reports from abroad indicated generally favorable weather for harvesting, and an official French report made the yield to be 15 per cent. less than last year. In the local cash market No. 1 durum was quoted at $1.72; No. 2 hard, $1.71; No. 1 northern Duluth, $1.84; No. 1 northern Manitoba, $1.80, all f. o. b. New York.

CORN—September contracts again led a strong upward movement, closing 1½c. net higher against ½@¾c. advance in later position. Cash corn was in good demand and again higher. It was reported that a large amount of heat room out of Chicago had been taken, and there was some talk of further extensive shipments. The market opened ¼c. higher and continued to advance most of the session, closing at about top prices. The prospect for colder weather in the West attracted little comment, as the crop is believed to be safe from frost. No. 2 yellow in the local market was quoted at 90c. c. i. f. New York.

OATS—Firmness was a feature and closing prices, at ¼c. net advance, were about the best of the day. A considerable short interest exists in Chicago, and the strength in other grains had a tendency to inspire covering. Clean oats were firm in the West and higher here, with sales reported at 53@53½c. No. 3 white, 52¾@53¼c.; No. 4 white, 52@52½c.; fancy clipped white, 55¾@56¾c.; ordinary clipped white, 53¾@54½c., all elevator.

RYE—Market steady; No. 2 Western, $1.22 c. i. f. New York.

BARLEY—Market steady; feeding, 91c. c. i. f. New York.

HAY—Market quiet; No. 1, $1.15; No. 2, $1.05; No. 3, $1; shipping, 80@90c.

COFFEE MARKET.

The steadier tone noted in the coffee market on Wednesday was in evidence again yesterday. Offerings were comparatively light, and the close was 5 to 14 points net higher with sales of 45,500 bags. Buyers had the encouragement of a steadier tone in Brazil, and there were reports that some primary shippers were asking higher prices. The support seemed to come largely from one broker, whose purchases were supposed to be for outside account. March contracts sold up to 8.84c., and May to 8.91c., or about 17 to 21 points above the low level of the week. Cost and freight offers were reported firmer at 10.50c. to 10.60c. for Santos 4s on the basis of London credits, while Rio 7s were quoted unchanged at 9.30c. to 9.50c. American credits. Rather a better demand was reported for spots, but prices were unchanged at 9½c. for Rio 7s and 11½c. for Santos 4s.

Range of prices:
