COTTON MARKET.

An early decline in the cotton market yesterday was followed by rallies, January selling up from 16.66 to 16.94. Closing prices showed reactions of 14 or 15 points from the best, but the final tone was steady at a net advance of 4 to 13 points. The opening was irregular, first prices being 8 points higher to 3 points lower, and the market early sold 6 to 11 points lower. This reflected a renewal of the realizing movement which developed around 17 cents for January contracts on Monday, and there also seemed to be Liverpool selling here in expectation of widening differences. Offerings tapered off on the reaction of some 25 or 40 points from Monday's high level, and the market soon turned firmer on trade buying, covering and renewal of bull support. The failure of Southern hedging to assume more important proportions disappointed early sellers. Buying became more active on the advance which carried active months about 15 to 23 points net higher. The closing reaction was attributed to realizing, while buying was promoted by reports of a large spot business at the higher prices in the South.

Private predictions of unfavorable weather in the Southwest checked the opening decline, but they were not confirmed by official forecasts. Berlin press advices asserting that a blight had been discovered which could be used as a substitute for cotton attracted some attention. Manchester cabled that yarns were in moderate demand, with cloths quiet and firm. Reports from the domestic goods trade indicated that the big advance in raw material had led to the withdrawal of several lines of cotton goods in the expectation of higher prices. Domestic spinners were reported buyers of contracts, and the rumor was that there were a good many orders in for that account for execution on a scale down. Spot sales in five Southern markets aggregated the unusual total of 41,000 bales. Ginners reported ginnings to Sept. 21 of 2,961,731 bales, making 9,262,731 so far this season, against 707,683 last year.

Liverpool Cables—Spot in good demand; sales, 10,000 bales; speculation and export, 1,000; American, 8,000; imports, 45,000, all American. Middling upland, 9.72d. Futures opened steady, 6 to 2 points higher and closed very steady at net advance of 1 to 3 points. October-November, 9.59½; January-February, 9.63¼; March-April, 9.67; May-June, 9.69½; July-August, 9.65½.

GRAIN MARKET.

WHEAT—Further bullish advices from Argentina yesterday sent wheat prices up about 3c. a bushel and to new high records for the season. There was a partial reaction at the close under profit taking, but final quotations were 2½ to 3½c. net higher. The Buenos Ayres market was strong and higher, opening at an advance of 5c. a bushel, which made a perpendicular gain of close 7c. from the low level of last week. Private reports from Argentina showed continued dry, hot weather and it was the prevailing impression that much of the damage done is of a permanent character and that unless relieved by rains in the immediate future a serious loss will be experienced.

While the sharp advance served to check export business, sales are estimated at about half a million bushels. The Western cash markets were strong and holders of good milling wheat are loath to part with it. *Bradstreet's* visible supply failed to show as large an increase as last year by about 4,000,000 bushels, but the total east of the Rockies is 68,430,000, compared with 19,540,000 last year, while the total stock in the United States and Canada is 95,540,000, against 43,227,000 last year. A leading Western statistician estimate the total crop in the United States this year at 603,000,000, compared with the last Government estimate of 611,000,000.

In the local cash market No. 1 durum was quoted at $1.31@$1.35; No. 3 hard, $1.75¾; No. 1 northern Duluth, $1.88; No. 1 northern Manitoba, $1.84¾, all f. o. b. New York.

CORN—There was a strong undertone, and final prices, although a shade off from the top, were ½ to ¾c. above the previous night. Factors were strength in wheat, some buying on firm cables, interior receipts of almost a million bushels less in the last two days than for the same time a year ago, and firmness in cash corn. Argentina reported an urgent demand from exporters, with freights easier. A sale of new No. 2 yellow was reported from Iowa at 74c. for December shipment. Locally No. 2 yellow was quoted at $1.04¾, c. i. f. New York. Snow issued an estimate of 2,585,000,000 bushels, a little above his figures last month.

OATS—With a moderate trade, oats were firmer, closing ¼c. net higher. The heavy speculative buying continued to receive support and partly counteracted the moderate export inquiry. Standard oats here closed at 52½@52¾c. for white, 53@53½c. for No. 3 white, 52½@53c. fancy clipped white, 57@58c.; ordinary clipped white, 54½@56c. all elevator.

RYE—Market steady. No. 2 Western, $1.31 c. i. f. New York.

BARLEY—Market steady. Feeding, 93c. c. i. f. New York.

MAY—Market easy. No. 1, $1.05; No. 2, 95c.; No. 3, 90c.; shipping, 87@88c.

COFFEE MARKET.

The coffee market was quiet yesterday. March sold off to 8.60, or within 2 points of the low level last week and about 25 points under the best on the more recent rally. Closing prices were the lowest of the day, showing a net loss of 4 to 10 points, with sales reported of 36,250 bags.

The market opened steady and 2 points higher, but July was the only month to sell above Monday's closing figures, and after touching 8.91 early that delivery eased off to 8.85. Expectations that the world's visible supply showed an increase of about a million bags for September probably tended to restrict demand. Part of the selling seemed to come from trade sources. Local spot market dull and unchanged at 9½c. for Rio 7s, and 11¼c. for Santos 4s.
