## COTTON MARKET.

The cotton market was unsettled yesterday and failed to respond to bull operations. In the last hour it became weak under heavy selling for Wall Street account inspired by the weakness in stocks. Peace rumors exerted some influence early in the afternoon, but did not attract the general buying which has attended previous reports of this character, giving the impression that the market had discounted such news. Final prices were near the lowest, and 1 point higher to 12 lower, compared with the previous night.

Around middle prices were about 6 to 9 points net higher. Some recent large sellers returned to the bull side, and there was support from spot houses, with reports of a good demand for spots in New Orleans. Rumors that an embargo had been placed on coastwise freight for Galveston and New Orleans tended to alarm shorts here, particularly in December, which delivery led in firmness during the forenoon. The estimated stock for yesterday was due to 10,000 bales, the smallest this season. It was said that Texas points were offering cotton landed in New York on the basis of 10 points under December, but it was difficult to get freight room.

Much of the day's hedge selling was from the Southwest, and there was considerable pressure around the opening based on the failure of frost to materialize, which caused the partial opening decline of 16 points. Both Liverpool and New Orleans bought in the first hour. After midday the selling pressure grew more aggressive and the absence of fresh commission support created a weak situation. Liverpool at the hour of the local opening was 4½ to 1½ points net lower. The Exyptian market was strong at 20 points advance.

## GRAIN MARKET.

WHEAT—The market developed a reactionary tendency, and at the close values were 2½c. to 3½c. net lower. There was moderate buying early, and the May position in Chicago sold at $1.60, making a new high record for the season, but subsequently the whole list eased off under heavy liquidation. The market was in a weaker technical position from heavy buying during the week, when prices advanced nearly 7c. a bushel. Argentine advices were of a less bullish character, but the most pronounced selling came toward the close on peace rumors, which were not generally believed. The reports led to revived predictions that the Dardanelles will be opened soon and that the world will be able to draw upon Russia's large stocks of grain. Reports from Argentina indicated unsettled weather and rain in some sections. The *Modern Miller's* favorable report was reflected in a decline of 3c. a bushel in the July position in Chicago. Export sales were estimated at 400,000 bushels. In the local cash market No 1 durum was quoted at $1.85½; No. 2 hard, $1.72½; No. 2 Northern, Duluth, $1.87; No. 1 Northern, Manitoba, $1.84½, all f. o. b. New York.

CORN—Early market steady, prices at one time showing ¼c. to ½c. net advance on a little local covering, but the main trend of values was downward. In the afternoon decided weakness appeared under aggressive selling, due to peace rumors and a less active export demand, with favorable weather conditions over the belt. Prices dropped nearly 2 cents a bushel from the highest on December and closed at the lowest point, 1¾c. down on December and ¾c. net lower on May contracts. The Argentine market was easier and there was selling of December corn by elevator interests. Chicago reported that while export bids at the Gulf were strong, industries were paying higher prices. Cash market locally showed weakness in sympathy with futures, with No. 2 yellow quoted at $1 c. i. f. New York.

OATS—Considerable buying in the first hour lifted prices about ¾c. over the previous night, following a strong upturn in Winnipeg, but the close was rather easy at ¼c. to ½c. net decline. Export bids failed to result in much business. Cash oats locally firm and higher, as follows: Standard, 53¾ to 54¼c.; No. 3 white, 53¾ to 53¾c.; No. 4 white, 52¾ to 53¼c.; fancy clipped white, 57 to 58¼c.; ordinary clipped white, 54¼ to 56c., all elevator.

RYE—Market easy. No. 2 Western, $1.33 c. i. f. New York.

BARLEY—Market steady. Feeding, 94c. c. i. f. New York.

HAY—Market quiet. No. 1, $1.05; No. 2, 95c.; No. 3, 80c.; shipping, 75@85c.

Wheat, including flour, exports for the week, according to Bradstreet's, aggregate 7,882,717 bushels, against 9,747,558 the previous week and 10,909,946 last year; since July 1, 113,482,325, against 77,721,314 last season. Corn exports for the week, 1,114,323, against 450,059 last week and 58,055 last year; since July 1, 16,946,550, against 2,266,748 last season.

### "Modern Miller's" Outlook.

CHICAGO, Oct. 6.—The *Modern Miller* says: "A moderate increase will be made in winter wheat acreage in Nebraska and a large increase in Kansas. More progress was made in seeding the last week than at any other time this fall. The seed bed in many localities is undesirable. Country offerings in the southwest continue to fall off. Farmers in many sections ask higher prices."

## COFFEE MARKET.

A further decline occurred in the coffee market here yesterday, with most deliveries making new low ground for the movement. March contracts sold at 8.60, or 24 points under the high level on the recent bulge and about 7 points under the low price touched on the reaction toward the end of September. Closing prices, the lowest of the day, showed a net loss of 11 to 13 points as compared with Thursday's finals. Sales, 22,500 bags. Reports of easier Brazilian markets and bearish world's visible supply figures accounted for part of the selling, while some Wall Street liquidation resulted from the stock market decline. The impression was that the bulk of the offerings were for long account. Cost and freight offers unchanged. The world's visible supply statement showed an increase of 1,046,000 bags for September, compared with 243,000 last year, making the world's visible as of October 1 8,778,000, against 9,882,000 last year. Local spot market quiet, with prices unchanged on the basis of 9½c. for Rio 7s and 11½c. for Santos 4s.
