ELECTRICAL SHOW OPENED.

Grand Central Palace Display Has 204 Exhibits.

Illustrated by artificial daylight, the 204 exhibits of the Electrical Exposition and Motor Show were opened to the public at Grand Central Palace last night. The show fills three floors and includes displays sent by the War and Navy departments, the city Health Department and Board of Education and private exhibitors.

A half dozen well curried cows will be milked daily on the third floor with an electric milking machine. There is a model bakery and laundry, and hundreds of labor saving devices, all run by electricity. A competition for inventors, to uncover Thomas A. Edisons of to-morrow, has been arranged by President Arthur Williams.

The exposition will be open daily from 11 A. M. to 11 P. M. until October 21.
