MINE SHARE TRADES FEATURE THE CURB

Advances Are Recorded Early, After Which Profit Taking Sets In.

INDUSTRIALS ARE WEAK

Green Monster at New High Mark, as Is Louisiana Consolidated.

Renewed interest was manifested in the mining department on the Broad street curb yesterday, which featured dealings throughout the day. Trading was on an exceptionally heavy scale, with transactions well distributed in a broad market. Advances ranging from a fraction to 4 points were recorded during the forenoon, but in the later trading profit taking set in and parts of the gains were erased. Among the lower priced shares Louisiana Consolidated was prominent toward the close, showing a record turnover and being carried to a new high record, selling at 72, compared with a close of 45 the night before. Cerro de Pasco closed unchanged after early selling at 45½, a high record for the current movement. Butte Copper and Zinc advanced about a point, while Green Monster established a new high mark.

Midvale Steel reacted fractionally, as did most of the leading shares in the industrial department. Lower priced oils were well supported at their recent high levels, while bonds were steady to higher in spots. Cerro de Pasco 6s, with sales to 124, improved 3 points, strength being associated with the strong position of the stock. Sales and quotations:

Nov. 7, 1913	6	5	..	..	4½

TIME MONEY—Market active and soft. Sixty days, 2¾@3%; ninety days, 3@3¼%; four months, 3¼@3½%; five months, 3¼@3½%; six months, 3¼@3½%.

The range in the week ended November 3, 1915 was from 2½% for sixty days to 3@3½% for six months; range in week ended November 4, 1914 from 6% for sixty days to 5¼@6% for six months; range in the week ended November 7, 1913 from 5% for sixty days to 4½@5% for six months.

COMMERCIAL PAPER—Continued inactive. Rates of 3¼@3½% for sixty to ninety days and of 3¼@3½% for four, five and six months were quoted. For spot delivery prime acceptances eligible for member banks were quoted at 2⅝@2⅞% for thirty days, 2½@2¾% for sixty days and 2½@2¾% for ninety days. Eligible non-member banks about ¼ higher. Ineligible bank bills ranged from 2¾@3½%.

NEW YORK BANK CLEARINGS.

The volume of business transacted in or through New York on Tuesday is indicated by the fact that bank clearings reported yesterday by the New York Clearing House totalled $707,648,526. These daily figures lack significance unless compared with the daily averages in the corresponding periods of former years. New York, the financial centre, reflects more or less accurately business and financial conditions throughout the country. The comparisons will be found even more valuable when considered in connection with the summary of railroad earnings published under "Railroad News."

DAILY AVERAGES.

	Jan. 1 to date	October.	September
1916	$499,746,092	$625,447,837	$578,237,639

Rates for trade acceptances, with maturities of ninety days or less, purchased in open market, without member bank indorsement, by New Orleans branch of Atlanta bank, 3¼@4%. Rate of 5% for commodity paper with maturities of from sixty days to six months fixed for San Francisco bank.

FOREIGN EXCHANGE.

Swiss exchange is attracting attention because of its persistent strength. The closing rate for checks last night was 5.23½, this rate favoring the United States to the extent of approximately 1 per cent. One month ago the rate was 5.32, a discount of approximately 2 2-3 per cent. Demand for the bills has been on the increase, particularly in the last week or so. Italian lire resumed their decline yesterday, closing again at 6.70. Russian rubles established another low record for the movement, closing at 30.50, a loss of 50 points since Saturday. Marks moved lower, but recovered before the close, the final rate being 1-16 higher than on Wednesday. French francs reacted to 5.84% in the afternoon. Sterling was unchanged.

In the following tables, when the "demand," "sight" or "check" rate is quoted in United States currency it is said to "favor" this country if less than par, but when quoted in foreign currency it is said to be "against" this country if less than par. For the convenience of readers such rates are marked "F" when in favor of and "A" when against this country.

DENIES M. P. SOLD RIO GRANDE STOCK

Arthur Coppell Says D. & R. G. Will Continue to Operate Independently.

HE HOLDS DUTCH PROXY

Asserts All Holders Are Represented in Choice of Directors.

Arthur Coppell, elected vice-president of the Denver and Rio Grande Railroad Company yesterday, issued a statement denying that the Missouri Pacific had disposed of its holdings in the Denver and Rio Grande. It was recently said that the Missouri Pacific's holdings had been exchanged for George J. Gould's holdings in the Texas and Pacific as a result of an agreement reached whereby Mr. Gould agreed to help the reorganization of the Missouri Pacific. The statement, in part follows:

"The Denver and Rio Grande is now being operated and will continue to be operated as an independent property. It is the theory in the election of directors that all stockholders should be represented. In this connection it is to be said, in order to correct mistakes recently published, that seven of the directors were the choice of two of the largest stockholders, namely George J. Gould and the Missouri Pacific.

"My connection with the property, of which my father was for many years chairman, rests mainly upon the fact of my being the proxy of the Dutch administration, the latter representing very considerable holdings of stock in Holland.

"I may add that I am informed that the report that the Missouri Pacific had disposed of its holdings in the Denver and Rio Grande is without foundation."

BALTIMORE & OHIO—Has established commercial department designed to bring together producers and consumers of manufactured articles and foodstuffs in its territory as well as in outside markets. This is part of an intensive development programme outlined by President Willard.
