FINANCIAL NEWS AND COMMENT

Sales of 2,000,000 Shares on Consecutive Days Equal Record Made in 1904.

BIG LEAPS IN COPPERS

Industrials Move Upward on Glowing Reports and Dividends Declared.

In the stock market of the fall of 1904, following Roosevelt's election to the Presidency, there were two successive days of 2,000,000 shares. Not until Thursday and yesterday had that record been equalled.

In yesterday's 2,000,000 share day the characteristics of the market were almost identical with those of its immediate predecessor. There were buoyant and enthusiastic upward movements in most of the industrial stocks. Copper shares were in great demand. By comparison the railroad shares were dull and heavy.

As on Thursday, the speculative imagination, already high, was further inspired by the declarations of increased dividends by Union Bag and Paper, Republic Iron and Steel and Chesapeake and Ohio. So yesterday the increase of the General Chemical dividend to 8 per cent. and the declaration by the same company of an extra dividend of 5 per cent. and a special dividend of 15 per cent., all payable in cash, and increases by Calumet and Hecla and Crucible Steel further flattered the hopes of speculators who are expecting huge income returns from industrial companies.

Bullish sentiment was also fostered by the avidity with which leading business men are grasping opportunities for business and profit, after as well as during the war, as was exemplified by the purchase of the New York Shipbuilding Company by the American International Company. Similarly attention was attracted anew to the supreme financial position of this country by the official announcement of the $50,000,000 Russian Government loan and by the sale of $5,000,000 Chinese Government obligations to a Chicago institution. Bullish sentiment on account of the country's financial position may be further strengthened to-day when it is generally known that $60,000,000 bonds of French municipalities have been purchased by our bankers.

In one respect the sale of the $5,000,000 Chinese Government bonds to a Chicago banking house was the most significant of the day. It showed that there is competition for foreign government issues between bankers in the interior and bankers in New York, and by the same token indicated that the investment demand for foreign government issues is keen in the interior, as it is strong in New York and other cities of the East.

An interesting feature of the exchange situation was a decline of exchange on Denmark below 27c. For many months the neutral Scandinavian countries have been superior to New York in exchange rates. Exchange on Denmark three months ago, for instance, sold at 5¼ per cent. premium. Yesterday's decline brought the premium down to 3-5 of 1 per cent. Obviously the trend of trade with neutral countries has changed in this country's favor, as it has long been in favor of the United States with the belligerent nations.

All of the commission houses reported heavy buying orders from the interior, and the majority of traders in the houses displayed the utmost confidence and enthusiasm. The gain of twenty-five points in Bethlehem Steel, carrying that stock to a new high record, was pointed to as a thing that might be expected in many other stocks. Almost without exception industrial shares advanced steadily, with many of the gains ranging between two and five points.

Only a six point drop in Sloss-Sheffield, which for several days had been selected as one of the pool favorites, and a break of fifteen points in Driggs-Seabury gave reminders of the law of gravity.

CONSOLIDATED EXCHANGE.

Copper stocks were particularly strong and active yesterday on the Consolidated Stock Exchange, practically all recording substantial price gains. Underlying their movement was the growing realization of the great profits resulting from the record breaking rise in the quotation for the metal. In the closing trading, realizing sales caused moderate reactions from the best levels of the day. Anaconda Copper, of which about 15,000 shares changed hands, sold at high at 103⅝, and closed at 102⅝. High prices attained by other copper shares, included Inspiration, 72⅝; Utah, 123¼; Chino, 72; Chile, 33¾; Miami, 47⅛; Kennecott, 61⅝, and Ray Consolidated Copper, 36⅛. Strength developed elsewhere in important sections of the list. Commission business was on a large scale, with the dealings in odd lots broadly distributed. Early different stocks were represented in the transactions.

Sales of mining stocks were as follows:

Sales.		Open.	High.	Low.	Last.
100	Cresson	6.75	6.75	6.75	6.75
500	Comstock	.08⅛	.08⅛	.08⅛	.08⅛

Customs Receipts, $320,628.61.

The total receipts for duties at the Custom House yesterday were $320,628.61, of which $295,921.13 was for merchandise withdrawn from bonded warehouses and $24,677.48 for recent importations.
