Customs Receipts $389,091.36.

The total receipts for duties at the Custom House yesterday were $389,091.36, of which $[illegible] was for merchandise withdrawn from bonded warehouses and $[illegible] for recent importations.

FINANCIAL NEWS AND COMMENT

Heavy Declines in Scores of Industrial Stocks, Especially War Brides.

RAILS CONTINUE UPWARD

Banking and Brokerage Positions Strong After Week of Falling Prices.

Loans made yesterday carry over to Monday. In that most important respect of operations in the securities markets the week ended yesterday. It ended comfortably, according to reports from all the big banks and all the big brokerage houses. Call money touched 6 per cent., but the prevailing rate was 4 per cent., which is lower than that of most previous days of the week. Over the year money could be had at 5 per cent. on all industrial collateral and at 4½ per cent. on half and half. The big banks were looking for six months loans on all industrial envelopes at 6 per cent. and on mixed collateral at 5½ per cent.

The brokerage position was as strong as the banking position. It was the consensus in all of the banks which loan heavily on Stock Exchange collateral that not a breath of suspicion should be directed against any Stock Exchange house or that any rumor had been circulated regarding the solvency of any firm of Stock Exchange membership. The ease of money and the strength of the banking position in a week of market declines was extraordinary. A solidarity in the brokerage business defying the most desperate bearish criticism was more remarkable still.

Declines in scores of industrial stocks were heavy. Thousands of speculators the country over lost a great deal of money. The wire houses in the morning closed out thousands of accounts for interior customers. The war shares came back closer to the point of beginning, but what was taken from the speculators in these shares had been taken from the market and was of no consequence whatever as affecting the progress and prosperity in general business.

The banking community has little interest in the fluctuations of those industrial shares which before the war were thought of by nobody, and which since then may or may not have acquired equities for the stockholders. The bloom is off the war brides. Hereafter the stock market and the bond market are not likely to be much bothered about them either way.

Seasoned railway shares advanced steadily and impressively, while chaos continued in the market for the war stocks. Atchison, Baltimore and Ohio, Chesapeake and Ohio, Rock Island, Denver preferred, Great Northern, Louisville and Nashville, Reading, Southern Pacific, Southern Railway common and preferred and Union Pacific made gains on the day, while Pennsylvania broke even, and whatever losses were sustained in other railroad stocks were only fractional. The trend to tried and true securities was not strong enough to induce heavy buying of the standard dividend paying rails. There was little of the speculative buying that seeks a quick turnover, but enough of it to show some safe and sane speculation.

Houses with lively Western wires had a big break in wheat as well as the break in stocks to think about. These houses have more difficulties in communicating with their customers than do the houses in Wall Street, whose customers may be called up at once by telephone. The Western wire houses sent out notifications on grain as well as stock commitments, and it took them longer to receive responses.

Many of the responses were, of course, to the effect that customers could pay no more, and at the same time there was a shifting of accounts from wheat to stocks and stocks to wheat. The same impulse, though, from cotton to stocks and vice versa, has affected both the securities and the commodities markets of the week. In times of tight money such as has accompanied every other big decline in stocks those movements would have been embarrassing; this week they occasioned no trouble whatever.

In grain, cotton and stocks the entire trend has been toward a wholesome liquidation. It has been a liquidation which has strengthened the structure of the market for securities. By the same token, according to *Dun's Review*, the liquidation has exerted a beneficial influence on general business.

"Foreign developments," says *Dun's*, "have accentuated the tendency toward wholesome conservatism without affecting the progress of finance or lessening the volume of transactions in trade and industry, and recent speculative readjustments have made the general outlook distinctly clearer."

LONDON MARKET.

LONDON, Dec. 15.—Money quiet to-day and discounts unchanged. Chancellor Bonar Law's statement yesterday was disappointing to the stock market, as no mention was made of a new method of financing. This caused the war loan to ease, although the huge expenditures created no dismay. Market quietly steady, with a further recovery of console, shipping shares and rubbers. Otis Steel rose to 121. Home rails benefited from rumors of increased fares. Americans dull, trading being checked by Wall Street's decline. Consols for money closed at 54½; new 4½ per cent. war loan at 95½. Money, 4½ per cent. Discount rates, short and three months bills, 5½@5⅝ per cent. Gold premiums at Lisbon, 75.00.

London Wool Auction Sales.

LONDON, Dec. 15.—At the wool auction sales to-day 8,500 bales were offered. Victorian secured merino realizing 5d. 2d.; Queensland, 4d. 4½d., and New Zealand crossbreds, 2d. 3½d.

NEW YORK STOCK EXCHANGE PRICES.

FRIDAY, DECEMBER 15, 1916.
