WRONG GUESSES ON CROP LOWER WHEAT

Official Forecast for 1917 Shows Gain Much Below Traders' Expectations.

CHICAGO, June 8.—Although ultra-bearish forecasts of the Government crop report caused the wheat market today to average lower, prices rallied in the last half hour to an extent which has perhaps discounted the fact that the official estimate of the winter crop proved to be too pessimistic as judged by a majority of traders. The market closed unsettled at the same as yesterday's finish to 1½c. advance, with July at $2.24 and September at $1.95. Corn gained 3½ to 3½c. net and oats ¼ to ⅝c. Provisions wound up unchanged to 20c. higher.

Until the last half hour wheat had a decided downward slant, owing largely to predictions that the Government estimate of yield for this season would total as much as 50,000,000 bushels more than was harvested in 1916, whereas the actual figures received from Washington after the close put the probable gain over last year at only 16,000,000 bushels. Selling on the bearish guesses in regard to the Government report, however, was not at any time aggressive and was somewhat offset by dry weather complaints from the spring wheat States and from Canada. Late strength came about chiefly as a result of a notable bulge in corn.

Export demand made corn soar. The Atlantic seaboard was an active bidder, with advices also of business for Europe having been done by way of the Gulf of Mexico. Besides, domestic country offerings were light, and it was said no accumulation was likely at any of the leading terminal points for at least a week yet, while farmers were trying to counterbalance time lost by recent heavy rains. The fact that to-day's weather was favorable had only a transient bearish effect.

Buying for seaboard account rallied oats. Even the most conservative crop guesses were 19,000,000 bushels above the Government estimate. Provisions finished firm in sympathy with corn.

WHEAT—Reports from abroad were not encouraging regarding crop conditions and leading officials were quoted as saying that Europe would require an importation of 1,000,000,000 bushels of cereals the coming season and that America will be called upon to furnish the largest share.

CORN—Local market: No. 2, yellow quoted at 1½@1¾c. c. i. f. New York.

OATS—Cash locally higher, as follows: Standard, 71@71½c.; No. 2 white, 71½c. nominal; No. 3 white, 70½@71c.; No. 4 white, 70c.; fancy clipped white, 72½@73c.; ordinary clipped white, 71½@72c., all elevator.

RYE—Steady. No. 2 Western, $2.45 c. i. f. New York.

BARLEY—Quiet. Feeding, $1.45, and malting, $1.50@1.70 f. o. b. New York.

Wheat, including flour, exports for week, according to Bradstreet's, aggregate 8,447,302 bushels, against 6,179,534 previous week and 9,246,153 that year; since July 10, 326,082,333, against 421,474,639 last season. Corn exports for week, 605,952, against 709,749 and 962,951; since July 1, 56,715,832, against 27,279,748.

SUBMARINE BOAT CO. LEASED NEWARK SITE

Conditional Upon Receiving Government Ship Order.

The Submarine Boat Corporation is the shipbuilding concern which leased land at Port Newark Terminal on Newark Bay for the construction of steel ocean going vessels. This became known yesterday, when the company leased 29.99 more acres in addition to the 82.80 acres it leased several weeks ago. Both leases are conditional upon the company receiving a contract from the Government next Friday.

Early in the war the Submarine Boat Corporation, under the name of the Elco Boat Company, filled an order for 550 submarine chasers at Bayonne and Montreal and has built submarines in New England.

About three miles to the north of Port Newark, on the Kearny side of the Passaic River, the Foundation Company of Broadway, New York, has a force of about 200 men building the ways on which wooden ships are to be built for the Government. Three of the proposed twelve ways are completed, another is nearing completion and two others are being rushed as speedily as possible.

The ways are on property recently acquired by Henry Ford, and while it is said that he is not interested in the shipbuilding company, he has lent the property to the Government. The ways are about 35 feet wide, 225 feet long and about 15 feet in height at the highest point.

It was reported that the first ship would be completed by August 1.

COTTONSEED OIL—Prices heavy early, with increased selling prompted by declining tendency noted in tallow market as well as easier feeling in some other greases. Offers readily absorbed and reports from the South indicated little disposition of trade to sell crude. This started covering, which brought about a sharp rally. Close firm with net gains of 12 to 20 points. Sales, 36,900 barrels.
