PRICES ON CURB ARE IRREGULAR

Most Prominent Stocks React in Last Hour Under Heavy Selling Pressure.

In an unusually active market curb stocks yesterday moved in an irregular manner. Following a firm opening, prices rallied, but in the last hour of trading a heavy selling movement developed and most of the prominent issues closed with small losses. The packing issues were again active with weakness in all of them in the afternoon carrying prices below last week's closing levels.

Cities Service on and new shares were in good demand, the old rising to a new high with a gain of several points. Keystone Tire and Rubber advanced to a new high record in the morning. Coal stocks were firm, with Pearson selling near the high record on inside buying. Tobacco stocks were firm, Philip Morris again advancing fractionally.

Oil stocks were strong early, but likewise reacted in the last hour. Sinclair Gulf established a new high record, but reacted about 3 points from the high level, while Merritt Oil lost more than a point and substantial declines were recorded among the Standard Oil issues. Boone Oil touched a new high early.

Mining stocks showed more activity than for several days past. The silver issues again received the most attention, with renewed strength in the Tonopah district stocks. McNamara sold at a new high, and there was a good demand for Cerbat Silver. Motherlods old and new shares were high.

Bonds were generally quiet and little changed.

COFFEE MARKET.

The coffee market was again quiet yesterday, with a small volume of business transacted. On the call prices were 4 to 13 points higher than the previous close, with a noticeable absence of selling pressure which held prices firm throughout the session, the market closing net 9 to 11 points higher. The official cables reported but little change in the situation in the primary markets, the Rio and Santos spot markets being unchanged, with Santos futures very inactive and unchanged to a decline of 25 reis. Brazil shows no disposition to weaken and firm offers were irregular at practically unchanged prices. There have been sales of Victoria 7s and 8s at 14.80c., American credits, steamship shipments. The local market remains firm.
