CURB ISSUES GAIN TOWARD CLOSING

Demand in Early Afternoon Is Cause of Advances to Several New Highs.

MORE INTERESTS IN MINES

Bonds Moderately Active and Russian Government Are Weaker.

A vigorous demand in certain quarters featured the afternoon trading in the outside securities market yesterday. The first part of the session was quiet, but in the early afternoon several stocks were in constant demand and sold from 1 to more than 6 points higher. Several new high records were established.

Commonwealth Petroleum was one of the most active in the oil group and advanced 5 points to a new high, but lost half of that improvement before the close. Houston Oil was 5 points higher on light trading and Sinclair Gulf moved more than a point forward. Midwest Refining was dull and heavy.

National Ice was the strongest feature in the industrial group, moving to a new high, with a gain of almost 7 points. Martin-Parry and General Asphalt common and preferred were a point higher, while Pacific Gas and Electric and Union Carbide advanced 2 points. Farrell Coal gained almost 4 points.

More interest developed in the mining section, due to the introduction of several new issues. Victory Divide, Belcher Divide and Belcher Extension were traded in for the first time. Candalaria Silver changed hands at a high record.

Bonds were moderately active with weakness in the Russian Government issues.

Total sales and range of prices follow:
