CURB SECURITIES CLOSE UNSETTLED

Market Opens Active and Firm, but Profit Taking Is Cause of Losses.

TRADING IS FEATURELESS

Attention Is Concentrated on Independent Oil Issues and Industrial Stocks.

Following a firm and moderately active opening, the market for outside securities yesterday was unsettled. Profit taking by outsiders and traders resulted in losses, but movements generally were narrow and in some issues there were small rallies. The market was without special features, but most attention was directed again to the independent oils and several of the industrials.

One of the strong spots in the latter group was General Asphalt, which advanced about 2 points on buying by Philadelphia and local houses. United Retail Stores opened at a new high, but on heavy profit taking lost the improvement. Intercontinental Rubber was stronger, due to covering by the shorts. A firm undertone was found in some of the other tire and rubber issues.

In the oils Midwest Refining lost an early gain of about 3 points and heaviness was displayed in the Sinclair issues after strength in the morning. Ventura Consolidated was in vigorous demand in the late trading and sold to a new high for the present movement. Livingston Oil also was bought heavily. Standard Oil securities were dull and generally a few points lower.

Mining shares were dull and irregular. Alaska Mines was in fair demand.

Russian Government 6½s recovered a loss of 5 points made at the opening, but again turned weak.

CONSOLIDATED EXCHANGE.

On the prospect of greatly extended markets for American food products to follow an immediately official peace declaration with Germany, foods were advanced substantially in the trading on the Consolidated Stock Exchange yesterday. The motor issues also were given impetus, and steels, rails and oils were in supply and showed a sagging tendency.

Corn Products was bid up 4½ points to 76⅝; Food Products, 2⅝ to 82⅝, and American Linseed, 2⅛ to 78⅛. General Motors moved up 8⅛ to 239, a new high, and closed at the top. Studebaker, which gained at the start 1⅝ to 108⅛, ended about unchanged from Saturday's close, and Pierce-Arrow about a point better at 62½. Rubber ranged between 123⅛ and 128⅛, gaining 2½ points from Saturday's final figure. Steel, after opening a half higher at 108⅝, fell back to 106⅝ on free offerings and finished at 107⅝. Bethlehem B receded to 87, Republic Steel to 89, and Colorado Fuel and Iron to 47⅝. Baldwin Locomotive moved irregularly, ranging between 106⅛ and 103½. Tobacco Products was best of its group, gaining 1½ to 108⅛. United Cigar Stores, at the outset, gained 1⅛ to 66⅛. Texas and Pacic moved widest of the rails, ranging between 64⅛ and 60, the others of its group selling fractionally below the previous close. Nevada Consolidated was best of specialties, being bid up to 23. Industrial Alcohol gained 1⅝ at the start to 154⅛, and Central Leather 1⅝ to 106⅝.

LIVE TOPICS OF THE COMMERCIAL WORLD

WOOL PRICES HIGH AT LAST AUCTION

Practically Whole Offering Sells Readily at Final Boston Sale.

Special Despatch to THE SUN.

BOSTON, June 23.—Government wool auctions here ended to-day with the sale of nearly all of the stock offered, which included 525,000 pounds of domestic fleece, 3,350,000 pounds of territory wool and 1,500,000 pounds of Texas wool. All of the fleece and territory wool was disposed of, while 99 per cent. of the Texas offerings found buyers.

It was estimated that greased prices were on an average from 5 to 10 per cent. above the Government "upset" figures. Even in the case of inferior wools prices ranged high, being from one to three cents per greased pound above the Government minimum figures.

With the sale of 7,000,000 pounds of carpet wool in Philadelphia June 26 the Government wool auctions will end for this season.

Some Salesmen Are "Brokers."

When is a salesman a broker? When he sells goods for more than one concern, say Internal Revenue Agents, who add that in cases where salesmen are so classed they are subject to the tax of $50 imposed on "brokers."

The National Council of Travelling Salesmen's Associations object to the verbal ruling given in the matter and it is expected that at a meeting of the council to be held here Thursday evening steps will be taken to send a protest to Daniel C. Roper, Commissioner of Internal Revenue.

Revenue agents are operating on the theory that a "broker" is a person who offers for sale the product of more than one concern. If the salesman is employed by one house or by concerns owned entirely by the same persons, revenue agents say that he would then be merely an employee, but if either known or unknown to his employers he carries lines for other houses he would then be taxed $50 as a broker. Where a salesman operates on a commission basis and "negotiates purchases or sales" other than for one concern it is claimed he is broker.

Cheap Fountain Pens From Japan.

Fountain pens to sell at five cents and pencils to retail at two for a cent were included in a large shipment of merchandise from Japan received here a few days ago.

The pens were accompanied by a glass dropper and were packed in a cardboard box. They were invoiced at $3.40 per gross. The pencils were invoiced at 20 cents per gross.

Gingham Prices Up.

Amory, Browne & Co. announced yesterday tentative prices on their ginghams for the spring season of 1920, which in all but one instance are about one-half cent a yard under the Government's maximum war figures for this class of goods.

The firm also announced that it will be necessary to allot their production, which will be seriously curtailed, due to the reduction in working hours and other unforeseen conditions. Actual prices will be named in September.

More Pay for Silk Dyers.

PATERSON, N. J., June 23.—Dyers and dyers' helpers employed in the silk industry here have been granted an advance of 10 per cent. in wages. The workers asked for an advance of 20 per cent.

Labor Costs Mount in Japan.

Cheap Japanese labor is due to become a thing of the past if labor costs in Japan continue to mount as rapidly in the future as they have in the last year, according to B. Kosugi and M. Nagata, representing the Federation of Knit Goods Interests, both of Tokio, who are in this city.

Hence those engaged in the manufacture of knit goods in Japan are desirous of obtaining labor saving machinery designed to offset the increased labor costs, and Messrs. Kosugi and Nagata are visiting the American market with this purpose in mind, and at the same time to develop export and import relations with American manufacturers. They also desire to enlist their support toward the complete removal of the British embargo upon knitted cotton goods.

Japanese manufacturers, particularly the hosiery interests, they said, are anxious to enter into closer trade relations with merchants of the United States, pointing out that each country affords a wonderful market for the other.

May Auction Surplus Materials.

Special Despatch to THE SUN.

WASHINGTON, June 23.—Officials of the Surplus Property Division, Q. M. C., are planning to attend the navy auction of blue flannels to be held in the auction rooms of Burling & Dole, New York city, Thursday, for the purpose of making a close study of the bids with a view to conducting future sales of surplus materials by auction instead of by sealed bids.

To Postpone Convention.

CHICAGO, June 23.—Instead of holding a convention in Chicago during the latter part of June the National Association of Men's Apparel Clubs has decided to assemble here in September at the time of the convention of the National Association of Retail Clothiers.

Record Price for Raw Silk in Yokohama

CABLEGRAMS received from Yokohama in the local silk market yesterday quoted Sinshui No. 1 at 2,220 yen, a record price for this grade of silk. This is an advance of 20 yen from the last figures received here. The visible supply of silk in the Yokohama market was said to be down about 6,000 bales, mostly poor stock.

Silk here is up to $10.25 now, and the prediction is freely made in the local market that manufacturers will pay $12 for their supplies before the advance ceases. Recent activities indicate that manufacturers are not buying very freely into the future except where they can secure favorable contracts for new crop stock.

Canton cables state that prices are advancing under the stimulus of heavy buying from both American and European sources.

In Shanghai the best steam filatures are now held at $10 a pound.

Assignment.

SAMUEL WEISS—Trading as the Fashion Shop, dealer in ladies' cloaks and suits at 58 West 125th street, assigned yesterday for the benefit of creditors to Morris Israel.
