Notice.—Those persons in various parts of the County who have charge of the remonstrances against the division of the County, are requested to send them to D. C. Larrabee at Coudersport *immediately*.

The Cameron *Herald* copies our account of a man being sent from Emporium to Port Allegany on the cars who had the smallpox, and adds the following explanation:

"Intentionally the Editor does one of our most worthy citizens great injustice. The sick man, whose name was John Wiley, had been at work for Mr. J. G. Bryan in a lumber camp in the woods. He had been in the camp at work for thirteen days when he complained of being sick and left the woods; he came into town, went to the St. Charles Hotel and sent for Dr. Bryan, told him he was too sick to work and that he wanted to be paid off so he could go home; Mr. Bryan figured up his time, paid him off and left the hotel. He did not again see Mr. Wiley. At that time Mr. Wiley had not broken out, and there was nothing about him indicating that he had anything more than a severe cold; he had been in the camp *thirteen* days and there was no case of smallpox in the camp or in that neighborhood. If he had the smallpox *when* and *how* did he catch it?"

Dear Journal.—Please say to your many readers that the donation at the M. E. Parsonage in Wharton on Friday the 31st of January, for the Rev. P. Bird, was a grand success; the parson received $80.00 in cash. Is not Wharton ahead as far as heard from?

Yours, P. BIRD.

Wharton, Pa., Feb. 18, 1873.

Somebody, before the repeal of the franking privilege, must have sent the editor of the Cameron *Press* a copy of the last census report, and he has evidently been wading through its endless columns of figures and its interminable tables. At all events he has somewhere run against a couple of facts that seem to stick in his upper story: one is that Potter county is decreasing in population; the other is that McKean county is ditto.

He would have made a splendid statistician if journalism had not lured him into another field.

Mr. Isaac Thompson of Harrison last week came into this office and paid in advance for volume 25 of the JOURNAL. Mr. Thompson stated that he had taken the JOURNAL continuously since its first issue, without a single stoppage, and he could in no way get along without it. He knows the value of a local paper.

Last summer Mr. H. H. Dent gave to the Baptist Society of this place a certain cherry tree, then standing on his lands on Niles' Hill, about a mile from Main street. Mr. A. B. Goodsell has lately cut the tree down and prepared it to be hauled to the mill. He took off eight feet of the butt end to avoid "shakes," and above that cut three logs ten feet in length each and two logs twelve feet each. This makes the hight of the tree from stump to limbs 62 feet. The top end of the butt log measured exactly 3 feet in diameter.

We wish to call the attention of our readers to the County Auditors' Report and the County Commissioners' Statement of Receipts and Expenditures, published in this week's paper.

The object of printing these reports is to place the financial condition of the County before the public, in all its details; to let the people see what becomes of the money that is drawn from them in taxes; to give them an opportunity to ascertain if any expenditures are extravagant or illegal.

It is not only the right but the duty of every tax-payer to examine these reports carefully and thoroughly, and judge for himself what has been the management of the County finances. We believe they have been, and are skillfully and economically managed, but the tax-payer, with the figures before him, has no excuse if he fails to form an intelligent opinion of his own. It is a duty he owes to himself, and also to the officers who are serving him.

If these reports are generally examined and understood the political capital of the opposition in this County will be greatly reduced. For the last two or three years the management and extravagance of the County Commissioners has been dwelt upon and described in choice terms in every school house from one end of the County to the other, about election time. The reports put it in every one's power to know just how much of that sort of thing to believe.

Farther than this, if there is anything wrong now is the time for the people to know it and apply the proper remedy.

By all means examine these reports.

At a regular meeting of the Coudersport Library and Literary Society, held Monday evening, Feb. 24, 1873, the following resolution was selected for debate at the meeting of March 10, 1873.

Resolved, That the action of the Constitutional Convention, in providing for biennial sessions of the Legislature, is unwise, and should be repudiated by the people at the ballot-box.

Affirmative.	*Negative.*

Wm. Shear.	D. C. Larrabee.

And the following questions were referred for answers:

What are the different metals, their properties and uses, and relative qualities? To M. W. MANN.

In a rectangular garden, the length of which is 88 yards and its breadth 66 yards, there is a pond in the shape of a trapezium, the opposite angles of which are in direct lines with those of the garden, and the distance of these angles, taken in succession are 20, 25, 40 and 45 yards. Required the area of the pond. To W. D. WEAVER.

At the next meeting, (Monday, Mar. 3rd,) the paper of the Society will be read, and the public are cordially invited to attend.

Last Tuesday evening the residence of Hon. Isaac Benson, in this place, caught fire from a stove pipe which passed from one of the upper rooms into the garret, close to the roof. It seems that where the pipe entered the garret it was only about four inches from a rafter. When discovered it had evidently been burning some time, as one of the large beams was entirely burnt off.

When the fire was first seen, Mr. Benson was over town, and there being no one around the house but Mrs. Benson and the hired girl the former made her way into the garret, through a small opening, and succeeded in putting out the fire. But now she found herself a prisoner, for though she had somehow got up there the aperture through which she came was so small that it required nearly an hour's labor from parties below to enable her to get down.

Last Tuesday a man in Sharon township, the father-in-law of John Voorhees—we cannot give his name any nearer at present—committed suicide by shooting himself. We will give the particulars next week.

Quarterly Meeting at the M. E. Church next Saturday and Sunday. Preaching by the Presiding Elder, Rev. E. A. Rice.

Report says that Wednesday they had a row in Port Allegany in which a man was shot.

We have received a card from Rev. J. L. Landis, but other matter has crowded it out. It will appear next week.

We see by the Fillmore County *Bulletin* that F. M. Johnson Esq. of Tekama, has been appointed chairman of the Republican State Central Committee of Nebraska. Mr. Johnson was a Potter County boy, and has only been in the west about two years. We are glad to see he is getting ahead so finely.
