The Carbon Advocate.

H. V. MORTHIMER, ... EDITOR.

LEHIGHTON, PA.:

SATURDAY MORNING DECEMBER 20, 1873

The people of the Commonwealth, on Tuesday last, decided by a majority of about 175,000 to adopt the new Constitution as submitted by the Convention elected last year. The official majority in this county was 1,048 votes.

Col. Frederick Dent, father of Mrs. Grant, died in Washington Monday night. Col. Dent was in his eighty-eighth year. He complained of being ill Monday, but no alarming symptoms were apparent until a short time before his death, which occurred without a struggle.

Several large manufacturing establishments in Philadelphia have resumed work, and are running from three days in the week to full time, most of them with the full complement of hand, but at a reduction of wages of from 10 to 15 per cent. The mills in Manayunk are starting, 20 of them having done so within the past week, and it is stated that the remainder will be running by the first of the year.

Congress has been laying out for itself a vast amount of work, and it is hoped that some of it will be done. On the three bill days the enormous amount of 850 bills were presented. Most of these were for buncombe or personal purposes. The large deficiency in the Treasury demands immediate attention, but what will be done to replenish it does not yet appear. No matter what the exigencies of the public service partisan politics must have a controlling influence on both sides in directing legislation. O for a few days of united devotion to the intersts of the nation!

POSTPONEMENT—FOURTH GIFT CONCERT OF PUBLIC LIBRARY OF KENTUCKY—A CARD TO THE PUBLIC.—The Trustees of the Public Library of Kentucky and the management of the Gift Concert announce the postponement of the Fourth Gift Concert until Tuesday, the 31st of March next. The public will readily understand the causes which have made the postponement necessary. The financial panic, which has for the last two months paralyzed the business of every section of this country and Europe, has prevented thousands from investing in tickets. The epidemics pervading almost the entire South have cut off a large and available market. And, too, the public, judging from the effect of these causes, have expected a postponement, and have declined to invest without a more positive assurance of the drawing taking place on a fixed day. All interestsd desire a full drawing, but for the reason just stated this could not be had on the 3d of December, but the short postponement now announced will secure it. The management have met with unprecedented success. The sales of tickets, the proceeds of which have already been received, amount to over a million dollars, with a number of agencies in this country yet to hear from, and all those in Europe. Thus the drawing (scaling the gifts one-half) could be had now, but the management deem it best to have a postponement and a full drawing. This postponement assures the sale of all the tickets and a full drawing. That this determination will meet with the approbation of nearly every one interested is made apparent by the very numerous letters received from every section of this country and the Canadas asking for a postponement. This action of the management will work no detriment to any, but will be for the good of all. By it the fortunate ticket holders will receive their gifts in full, while it will not affect those who do not draw gifts. In making this announcement the management emphatically state that there shall be no further postponement, and to this end all agents will be imperatively required to close up and transmit their accounts to this office by the 21st of March. THOS. E. BRAMLETTE, Agent Public Library of Kentucky.

Victoria C. Woodhull was arrested at Jackson, Mich., Sunday last, on charge of selling obscene literature, called "The Elixir of Life." The complainant was one J. Videto, who has acquired some notoriety as the prosecutor of liquor suits. Victoria was immediately bailed, and lectured to about 600 people, on the "Social System," the same evening.

On Saturday last, at West Chester, Udderzook, the murderer, was brought into court, when Judge Butler gave his decision against granting a new trial, and pronounced the sentence of death upon the prisoner.

Ireland is profiting by the large increase in the price of coal in England. The island is known to contain many rich coal fields, which have been hitherto worked on a very small scale. Capitalists are now beginning to look to these as profitable investments, and preparations are being made to work the coal on a large scale.
