THE
ONLY PREPARATION
WORTHY OF
Universal Confidence and Patronage.
For Statesmen, Judges, Clergymen,
Ladies and Gentlemen, in all parts of the world, testify to the efficacy of Prof. O. J. Wood's Hair Restorative, and gentlemen of the Press are unanimous in his praise. A few testimonials only can be given here; see circular for more, and it will be impossible for you to doubt.
47 Wall street, New York, Dec. 20, 1859.
GENTLEMEN: Your note of the 15th inst., has been received, saying that you had heard that I had been benefitted by the use of Wood's Hair Restorative, and requesting my certificate of the fact if I had no objection to give it.
I award it to you cheerfully, because I think it due. My age is about 50 years; the color of my hair auburn and inclined to curl. Some five or six years since it began to turn gray, and the scalp on the crown of my head to lose its sensibility, and dandruff to form upon it. Each of these disagreeabilities increased with time, and about four months since a fourth was added to them, by hair falling off the top of my head, and threatening to make me bald.
In this unpleasant predicament, I was induced to try Wood's Hair Restorative, mainly to arrest the falling off of my hair, for I had really no expectation that gray hair could ever be restored to its original color except from dyes. I was, however, greatly surprised to find after the use of two bottles only, that not only was the falling off arrested, but the color was restored to the gray hairs and sensibility to the scalp, and dandruff ceased to form on my head, very much to the gratification of my wife, at whose solicitation I was induced to try it.
For this, among the many obligations I owe to her sex, I strongly recommend all husbands who value the admiration of their wives to profit by my example, and use it if growing gray or getting bald.
Very Respectfully, BEN. A. LAVENDER.
To O. J. Wood & Co., 444 Broadway, New York.
My family are absent from the city, and I am no longer at No. 11 Carroll Place.
Slamston, Ala., July 20th, 1859.
To Prof. O. J. Wood: Dear Sir—Your "Hair Restorative" has done my hair so much good since I commenced the use of it, that I wish to make known to the PUBLIC of its effects on the hair, which are great. A man or woman may be nearly deprived of hair, and by a resort to your "Hair Restorative," the hair will return more beautiful than ever; at least, this is my experience. Believe it all!
Yours truly, WM. H. KENEDY.
P. S.—You can publish the above if you like. By publishing in our Southern papers you will get more patronage south. I see several of your certificates in the "Mobile Mercury," a strong Southern paper.
WOOD'S HAIR RESTORATIVE.
PROFESSOR O. J. WOOD: Dear Sir—Having had the misfortune to lose the best portion of my hair, from the effects of the yellow fever, in New Orleans in 1853, I was induced to make a trial of your preparation, and found it to answer as the very thing needed. My hair is now thick and glossy, and no words can express my obligations to you in giving to the afflicted such a treasure. FINLEY JOHNSON.
The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, and retails at two dollars per bottle; the large holds a quart, forty per cent. more in proportion, and retails for three dollars.
O. J. WOOD & CO., Proprietors, 444 Broadway, New York, and 114 Market street, St. Louis, Mo.
And sold by all good Druggists and Fancy Goods Dealers. [January 18, 1860-1y

SWIFT'S DRUG STORE.
NEW ARRANGEMENT.
CHARLES E. SWIFT having become sole proprietor of the establishment long known as "Swift's Drug Store," at the sign of the Golden Mortar, wishes to inform the former patrons of the concern, and as many new ones as are disposed to favor him with their custom, that he intends keeping a full assortment of Drugs, Paints, Varnishes, Oils, Coloring Materials, Glass, Patent Medicines, Perfumery, &c. And in order to correct a misapprehension existing in the minds of many, that the Drug Store is to be visited only for the purpose of purchasing a box of pills or a barrel of oil, he desires to call particular attention to the fact that besides a general assortment of those articles usually considered as belonging to the Drug trade, he designs keeping a great variety of such as are needed in every well supplied family, including a superior article of Fifty Cent Tea, Black Cocoa, Rio Coffee, White Sugars, Pepper, Spices of every description, Prime Rio Coffee, Raisins, Currants, Prunes, Flavoring Extracts, Starch, Sago, Corn Starch, Farina, Baking Powders, Cream Tartar, &c. As the Dollar and Dime principle is the only one by which people are supposed to be governed in matters of trade, and as everybody expects to make their purchases where the largest amount of goods can be obtained for the least money, he confidently expects a large share of patronage.

He will visit the above places once in five or six weeks, for one year, thus giving those who consult him, opportunity to continue till cured. Those cases which have been treated by others, and pronounced incurable, are requested to call, it will cost you nothing to have your case examined and explained.

DR. H. W. WADSWORTH—Dear Sir: In November, 1857, I suffered severely from inflamation of the eyes, pronounced by several physicians, scrofulous sore eyes. I tried several prescriptions given me by my family physician and others, but all failed in giving relief. During the winter and spring they continued to grow worse and when hot weather came in the summer I thought I would have to resign my commission as Justice of the Peace. At this time I noticed your card in the Cleveland Plaindealer, and was induced to call upon you. The result has been highly satisfactory. After taking two or three prescriptions my eyes gradually improved. I ought to have acknowledged my gratitude to you long ago, as my eyes have been perfectly restored to their original healthy state by your treatment. If you think the above statement of any use to you, or those similarly afflicted, you may make what use of it you please for that end.
JOHN THOMPSON,
Justice of the Peace, Streetsboro', Portage Co.

BEAUTIFUL AND COMFORTABLE.
NO ONE can view a Park, Cemetery, Lawn, or Avenue, which is tastefully ornamented with vigorous Maple, Fir, Elm, Spruce, Horse Chestnut, Cedar, Catalpa, Pine, Larch, Mountain Ash, Willow, Arbor Vitæ, Birch and Laburnum trees, without realizing something of the magnificence of nature! Whoever owns a house with plats before and behind it, may have life long pleasure by the outlay of a very few dollars thereon, in the planting of Fruit and Ornamental trees. The Spring is a good time to transplant Peach, Pear, Apple, Cherry, Quince and Evergreen trees; as also Currant, Gooseberry, Blackberry, Raspberry, Grapes, &c., &c. In Cleveland, I have a large stock of all the foregoing, as also everything in the Nursery and Floral line, all of which is reared on the pre-eminent nursery soil of the lake shore. All orders for the delivery of Fruit and Ornamental Trees, or for the mapping out and ornamenting of Fair Grounds, Cemeteries, Church Yards, Lawns, Avenues, &c. promptly attended to.

We are bold to say that we have as good an assortment of Spec Glasses as can be found in the world. Some may have more in quantity, which is useless, but we have dozens of glasses of every age, number, size and quality that have ever been found beneficial to the human eye. We have French, English, German Munich Lenses all pebbles. Either set in bows, or ready to fit any kind of frames that may be required, Gold, Silver or Steel. It is only after careful examination that we select and recommend John Burt's patent Pebble Periscopic Glasses. A few reasons for our choice, first
THEY ARE PEBBLES,
and cut as hard as cut glass like a diamond. This establishes their durability. Also their high refractive power which is in exact ratio with their hardness.—This latter property enabling a person to see better without so much as parent magnifying power is the secret why they do not tire the eye like other glasses. Being of pebble they are always cool; not heating to the eye like glass. We might fill a half dozen columns in giving facts and explaining principles, but call and see for yourselves, and in the mean time do not allow yourself to be deceived by Prof. this or Prof. that, but remember that John Burt's Periscopics are the best in the world, and that we are their
