Scene in the Brandreth House.

NEW YORK, May 14.

—(*8 or 9 Gentlemen seated round a table.*)

1st Gentleman—I am house in ownand by the maker of the celebrated Brandreth Pills, which have great merit. I have a brother who lives in New Hampshire, and who was for a long time sick. The doctors around did not seem to help him; his courage and energy failed, his step was feeble, and his countenance and eye indicated consumptive and physical debility. Finally he was persuaded upon to take Brandreth's Pills, and strange as it may appear to you, the first box put him right on his feet; and their use for a few months, restored him entirely to perfect health. He thinks that Dr Brandreth is superior to all living men.

2nd Gentleman—I am from Buenos Ayres. The brother of Rosas was for a long time a bed-ridden paralytic. No idea was entertained that he would ever recover the use of his limbs. His case was supposed helpless; but an enlighten d Jesuit said, "Try a few doses of Brandreth's Pills; they may possibly benefit you." He used a few doses, and was helped. He continued them daily, he increased the pills, night and morning; he began to feel the circulation in the remote extremities. The use of the Pills was further judiciously preserved in; suffice to say, that in less than six months he was perfectly cured, having recovered the use of his limbs completely. He immediately had a picture of Dr. Brandreth painted, as his tutelary saint, and to this day he has burning before it two large candles, which he designs to continue in proof of his veneration for the man whose pills restored him to health. Mr. Graham, U. S. C., at Buenos Ayres, narrated to me the above facts, and I know them to be true.

3rd Gentleman—Brandreth's Pills have made many cures here. A friend of mine of large fortune and high social position, was afflicted with a dropsy. His physicians gave him no hope, advised him to settle his worldly affairs for his time on earth was to be of brief duration. He was directed by a special Providence to Brandreth's Pills; he read over a pamphlet relating to them, he took a first dose; he followed the plan of purgation right onward; his largest dose was fifteen pills in a single day. The absorbants were aroused to action—the excess of watery deposits was removed, and in the very prime of his manhood and usefulness he was restored to vigorous health. Dr. Brandreth's Pills have not begun to be half known yet.

4th Gentleman—I know Brandreth's Pills are a wonderful remedy. In Sagres, Rio Grand, Brazil, they were administered to a man who had been sick for five years, confined to his bed by inflammatory rheumatism. His limbs were contracted and drawn up, his hands closed and stiffened. He took the pills, four in the morning and four in the evening, and drank freely of beef-soup, which was his only diet. In six weeks he was entirely cured, and rode six miles to home, on horseback. This cure, effected by Brandreth's Pills, after many medicines and physicians had failed, caused the son of Dr Brandreth to sell at retail seventeen hundred dollars worth of his pills in that little town in two weeks.

5th Gentleman—A Mr. Underhill, of Westchester county who fought in the war of 1812, is a great admirer of Dr. Brandreth, because, he says, his pills cured his life. He was suffering from a cancerous affection in his left breast, and had been under treatment for three years without any benefit. He finally commenced to try the different patent medicines, but got no better until he began with Brandreth's Pills. These taken every night, in doses varying from five to ten, cured him entirely in two months. Some time after he was badly hurt by a tree falling upon his back, but still he took Brandreth's Pills every day. His surgeon told him they could do no good for a local injury, and that it would be at least a year before he could walk. In three weeks he was restored to health, and ascribes his recovery to them. He swears he will vote for Brandreth as long as he lives.

6th Gentleman—And these Pills are sold at No. 298 Canal street, Brandreth Building!

1st Gentleman—They are, at 25 cents a box, and by A. S. GARDINER, Cleveland. jun1-d&w 182

DYSPEPSIA AND FITS

DR. TRACY DELORME,

THE GREAT CURER OF CONSUMPTION, was for several years so badly afflicted by Dyspepsia, that for part of the time he was confined to his bed. He was eventually cured by a prescription furnished him by a young chambermaid girl. This prescription, given by a mere child, while in a state of trance, has cured everybody who has taken it, never having failed once. It is equally as sure in cases of FITS and DYSPEPSIA. The ingredients may be found in any drug store. I will send this valuable prescription to any person on the receipt of one stamp to pay postage.—Address DR. GROVER AND BAKER'S FAMILY SEWING MACHINES.—The particular attention of ladies is called to the above machine, which possesses the following decided and unmistakable advantages:

1st. Cotton is used as it is purchased—on spools—without re-winding; saving time, trouble and waste.

2d. The trouble and perplexity of filling a shuttle, (as in other machines,) is in this avoided; no shuttle is employed, the under thread being used from a large spool.

3d. It is very simple yet strong in construction, easily learned and kept in order, and does not require to be taken apart to be oiled.

4th. The stitch is always distinct, even and regular, and will not rip though every fourth stitch be cut.

5th. The stitch is as elastic as the most elastic fabric.

This Machine embroiders beautifully.

Ladies and others interested in the saving of labor are invited to call at the sales-room of the subscriber and examine for themselves. The above machines are freely shown and samples of work given at all times.

The services of a lady and the use of a machine can be obtained by the day in families, by calling at the room of Mr. Hopkins. Terms $1.50 per day.

Mr. English's plan embodies the views of the administration on the subject, and provides for a self-supporting system. The whole subject was postponed till the next session.

CONGRESSIONAL.

WASHINGTON, June 4.

HOUSE.—The House passed the bill confirming the settlers in their right to the pre-emption of their lands in Illinois.

They also concurred in the Senate's amendment to the Diplomatic and consular appropriation bill, striking out the proviso confirming the appropriations strictly to the fiscal year ending June 30th, 1859.

Mr. Maynard, from the Committee to examine the merits of Gen. Cellam, late Clerk of the House, submitted a partial report, in which it is stated that they omit race expenditures amounting to between one and two millions of dollars; that they have examined seventy-one witnesses already, and they are not yet able to close their labors, and therefore ask leave to sit at the next session and then submit a final report. Agreed to.

The House passed the bill giving a construction to the 2d section of the act of February, 1853, continuing the pay of certain widows and orphans, and of Revolutionary officers and soldiers, by which their pay will commence from the 4th of March, 1848, and involving the expenditure of a million and a half dollars.

The private calender was then taken up.

Mr. Bocock asked leave to introduce a bill authorizing the Secretary of the Navy to cause to be constructed, without unreasonable delay, by contract or at the Navy Yards, ten propeller sloops of war, or dispatch vessels, with full steam power, and of a draught of water not exceeding 12 feet, to be constructed, equipped and armed both for speed and as war steamers. Also one side-wheel war steamer, of a draught not exceeding eight feet, armed and equipped for service in the Chinese seas.

The bill appropriates for the purpose $1,200,000.

Mr. Sherman, of Ohio, inquired how much the vessels would cost.

Mr. Bocock replied, according to the estimates of the Naval Depot, $2,300,000.

Mr. John Cochrane, of N. Y., gave notice of an amendment providing for 20 such vessels.
