EAGLE THE FIRST—BY ALFRED TENNYSON.

He clasps the crag with crooked hands,
Close to the sun in lonely lands,
Ring'd with the azure world he stands,
The wrinkled sea beneath him crawls;
He watches from his mountain walls,
And like a thunderbolt he falls.

EAGLE THE SECOND—BY G. WHILLIKINS.

With hooked claws he clasps ye fence,
Close by ye lion roast; gazing thence
He spies a mice, what's got no sense.
Ye mice beneath can't well see him;
He watcheth from his lofty limb,
Then jumpeth down and grabbeth him.

P. S.—The difference, though only faint,
'Twixt that and this I now will paint,
His eagle's wild, my eagle ain't.

THE HORTICULTURAL SOCIETY.—Meets in the Weddell House at two o'clock this afternoon.

CLEVELAND BAPTIST ASSOCIATION.—The Anniversary of the Cleveland Baptist Association, held at Euclid on the 8th and 9th inst., was one of more than usual interest.

The introductory sermon was delivered by Rev. S. W. Adams, D.D., from the words of Christ—"If any man thirst let him come unto me and drink."

The spiritual wants of the soul, and the free and ample provision made to satisfy them, were clearly and amply set forth.

Rev. D. T. Carnahan followed with a stirring appeal in behalf of the Ohio Baptist State Convention, and the faithful and self denying band of missionaries under its employ, when a collection was taken for the object amounting to $23.

In the afternoon letters from the Churches composing the body—fifteen in number—were read, giving an account of their present condition, and progress during the year. Some of the Churches report large additions. The First Baptist in Cleveland have received by baptism 78, the Erie street 46, and the Third 23; Painesville 30—in all 214,—being an increase of about seventy in each one hundred of the whole body.

The reading of the letters was followed by a discourse from Rev. S. B. Webster, from the words addressed to Christ after his resurrection—"Abide with us." The subject was appropriate and listened to with attention.

In the evening Rev. E. T. Brown, of Warren, preached an interesting and profitable discourse from ii. Thess., 5, 19—"Quench not the spirit."

All present must have been impressed with the variety, and, at the same time, the relative importance of each theme presented in the several discourses of the day—the great provision and gracious invitation of the Gospel, as presented in the morning; the abiding presence of Christ, without whom we can do nothing, in the afternoon; and the ever-dwelling and constant influence of the Holy Ghost, so essential to the comfort and usefulness of the christian and the salvation of the sinner, in the evening.

The exercises of the second day were introduced by a prayer meeting at 7½, conducted by Rev. W. T. Smith, of Cleveland, in which a large number, mostly laymen, took a part.

At 8½ o'clock the Association resumed its business, when the reports of Standing Committees were made, accompanied with appropriate remarks.

On the reading the report on Foreign Missions, by Rev. D. S. Watson, Dan'l B. Rouse announced the sad intelligence, just received, of the death of Rev. Justus H. Vinton, for twenty-six years missionary among the Karens, in Burmah. Subsequently Rev. S. W. Adams introduced some resolutions noting the event and commending him as an active, persevering, and useful laborer, which were adopted and ordered to be printed.

The report on Domestic Missions was read by Rev. Wm. Shank, and adopted after some remarks.

After the reading of the report on Ministerial Education by Rev. S. B. Page, Rev. Prof. J. Stevens, of the Fairmount Theological Seminary, Cincinnati, made an earnest appeal in behalf of young men called to the ministry but needing aid. His remarks made a deep impression, especially those concerning Anthony Burns, now a student at Fairmount. He alluded to the fact that it cost the U. S. Government more than $60,000 to get him taken from Boston back to slavery, and hoped that those who love freedom and that Gospel which this man, now redeemed, desired to preach, would not be unwilling to grant him the means of getting an education, as well as others in the seminary equally needing aid. A collection was then taken for the object, and such was the interest especially felt in Burns that another was taken at the close of the meeting for him alone.

At 10½ o'clock Rev. H. Davis, D. D., of Columbus, preached an excellent discourse from John 17: 18—"As thou hast sent me into the world, even so have I also sent them into the world."

The report on the Bible Cause was then read by Rev. S. W. Adams, accompanied with remarks by Rev. S. B. Webster.

The report on Obituaries showed that but eleven deaths had occurred during the year, which, considering the number of members in the churches composing the body—about twelve hundred—was regarded as remarkable; especially that in the largest, Dr. Adams', now numbering 351, only one death had occurred—that of the wife of Deacon White.

The closing sermon of the Anniversary was delivered by Rev. Mr. Gleuville, of N. Y., from Heb. 2: 3—"How shall we escape if we neglect so great salvation?"—A common text, but treated in a manner that showed the speaker to possess more than an ordinary power of thought and language, and made a very appropriate and impressive close of one of the most fully attended, harmonious, and profitable sessions of the body held for years past.

After a few remarks from Rev. J. Phillips, and a vote of thanks to the citizens of Euclid for their generous hospitality to friends from aboard, and a brief address by the Moderator, and prayer, the Association adjourned to meet with the First Baptist Church in Cleveland, on Tuesday before the 2d Wednesday in June, 1859.

SHALL IT BE ALLOWED?—We have before mentioned that preparation is being made at Dayton for a grand military display on the 3d of July. We now learn that invitations have been extended to military companies here, and that the Grays and the Artillery are specially urged to go. It is sincerely to be hoped that they will not comply with the request, for we need them at home to join in the celebration now in progress of being arranged.

A citizens' meeting has been called for Saturday night, at the Old Court House, and General Pitch is feeling the financial pulses of our railroad companies, hotel keepers, merchants, and others, with satisfactory results. Let every one attend the meeting, and contribute by his presence and voice to aid in the preliminary preparations. The general feeling is that we ought to celebrate, and all that is needed to accomplish the wish, is that each one contribute his mite.

Let us attend the meeting, appoint the necessary committees, stand ready to contribute "a wee bit," and we will keep our fine military at home to do honor for ourselves to the day in which our freedom from British tyranny was declared.—*Review of yesterday.*

We join in the expression of the *Review*, and hope that the meeting to-day will be largely attended, and such arrangements made as will result in a celebration worthy the day and the occasion.

MORNING LEADER.

RELIGIOUS INTELLIGENCE.

Plymouth Church, Brooklyn.

Last Sunday one hundred and sixty-three persons were added to Henry Ward Beecher's Church. Only a month previous two hundred joined. The scene last Sunday was one of great interest. The venerable Dr. Lyman Beecher occupied the pulpit with his distinguished son. After the reception of the new members, and a short sermon by the Pastor, an invitation was given to all Christians without regard to sectarian denomination, or whether members of churches or not, to partake of the Lord's Supper. The communion rite was administered to about two thousand persons.

Episcopal Convention of Ohio.

The Episcopal Convention of Newark was very largely attended both by the clergy and lay representatives of the Parishes. The prosperity of the Gambier Institutions elicited general congratulation. The Trustees elected at the Convention are:

For three years.—Rev. Dr. Bronson, Rev. Dr. Claxton, President Lorin Andrews, John W. Andrews, Esq.

For two years.—Rev. Dr. Burr, Rev. J. McElroy, Hon. R. C. Hurd, Hon. Columbus Delano.

For one year.—Rev. Dr. Nicholson, Rev. Dr. Butler, E. T. Sterling, Esq., Kent Jarvis, Esq.

A subscription of $1500 was raised towards preparing additional rooms in Bexley Hall for the use of Theological students. More than $5000 had been expended during the year in assisting thirty-nine young men who are preparing to enter the Ministry, and the Missionary Committee expended $2,600 in aiding to sustain forty-two stations, or feeble parishes.

American Baptist Society.

At the thirty-fourth annual meeting of the American Baptist Missionary Society, held in Philadelphia, the report exhibited shows that the Board has issued forty-eight new publications the past year, thirty-eight of which are bound volumes. Pages printed during the year, 28,380,000. Besides these 70,000 copies of the "Young Reaper" have been issued monthly.—The entire number of publications now embraced in the Society's catalogue is 527, of which 240 are bound volumes. Of the tracts 238 are published in English, 15 in German, 11 in Swedish, and 6 in French.

By means of colportage over 20,000 bound volumes and 187,000 pages of tracts have been distributed the last year, and the Society, by its colporteurs, has made 220,000 visits during the last five years. The labors and immediate results of the Society's colportage for the last five years is as follows: 7,735 weeks' service; 135,766 volumes sold; 13,400 volumes given away; 1,199,000 pages of tracts distributed; 14,140 sermons preached; 8,233 prayer meetings held; 240,000 families visited; 2,849 persons baptised, (the baptised being but a small portion of the number converted;) 165 Sabbath Schools formed and 74 churches constituted; and thus far an outlay by the Society of not over $44,000 total donations.

The Board during the year has distributed gratuitously not less than 6,300 volumes and 250,000 pages of tracts. The Benevolent Fund of the Society is now overdrawn $288 02. The receipts for benevolet purposes, from churches Sunday Schools and individuals, are $14,072 17, which is an increase of $2,635 44 over the receipts from the same sources last year. The expenditures in the Benevolent Department have been, $1,002 02; in preparing church history $1,100; in the business $42,857 71. Total expenditures for the year $60,430 87.

MISSIONARIES TO JERUSALEM.—Messrs. James Barclay and wife, missionary to Jerusalem, and R. G Barclay, physician to the mission at Jerusalem, sailed from Boston on Wednesday for Alexandria, Egypt.

[Communicated.]

Reformation of Outcast Females.

EDITOR LEADER:—Do you not think it is to be regretted that among all the Benevolent and Educational Institutions of this city, there exists not one for the reformation of outcast females? Is it not very painful to read the records of arrest and imprisonment of these unfortunate and erring ones, and know that immediately upon their liberation they will have to recur again to the same dreary round of sin and sorrow and shame! "They will have to recur"—I say; and it is bitterly true. For the tenacious grasp on life is as strong within them as within us; and if we will but strip the matter of its sophistry, shall we not find it as *sacred* too? I will not stop to trace out and analyze the *causes* of their deep misery and disgrace, though something pertinent might be said on that score, also. Let us accept the matter as it stands, for an argument. We say—and rightly—that their modes of life are a pestiferous evil. *Their modes of life*, remember, rather than *themselves*; for who will take it on himself to declare them one and inseparable! Are not the gates of regeneration open to them, also! And has society no duties to perform toward them, save those of scorn and punishment! Do we adopt the true method of extinguishing the iniquity! Will branding a criminal cast out his criminality! It is better to starve than to do wrong: better to perish utterly from the earth than taint its beauty with pestilence; but if t' is so hard for the loftiest natures to learn, is unspeakably harder must it not be for those whose whole existence is a continuous scene of retributive suffering. This arbitrary severance of humanity into classes of innocence and crime—these yawning chasms and impassible gulfs—shall the first be never obliterated: shall the latter never be bridged across! Are there, in your beautiful city of Cleveland, no true brothers and heroic sisters who will take these poor daughters of wretchedness by the hand, leading them into other paths! Will these festering ulcers of populous communities heal themselves! Are there no tender hands whose slight touch is very purity! O, if only the avenues to worthiness and true life were thrown open, how many would gladly cast off the garments of their shame, and walk meekly and reverently forth.

From one Institution alone (the Five Points House of Industry) in New York City, there issues annually an army of five hundred such reclaimed ones, carrying the blessed influences of their regeneration into all the homes they enter. Why may not a similar institution be organized here! The annual expense of 100 beneficiaries would be absolutely less than the yearly cost of the maintenance of an equal number of prisoners: and who shall estimate its higher benefits, or tell where they would end!

I am only a stranger in your city. I know nothing of your municipal organization; nothing of your ordinances and laws. But, standing yesterday at the door of my Hotel, I saw several of these poor creatures (all of them, I should judge, under 20 years of age) pass by in charge of a policeman; and I could not suppress a shudder as I witnessed his contemptuous insolence of carriage towards them, and their precocious hardihood and abject shame.

I think the matter is at least worthy of one systematic effort in another direction. Your citizens are public spirited; they have erected many handsome edifices; established many charitable associations; wrought many valuable improvements: do you not think they would (if the matter were adequately placed before them) endeavor to inaugurate another era for those out of whom all faint resemblance of the image of God is fast being burned and sweltered!

Very Respectfully Yours,
RICHARD REALF

Cleveland, June 11th, 1858.

The timely suggestions of our correspondent should command the attention and secure the prompt, concerted action of the philanthropic of all creeds and classes in our city. The evil deplored by a stranger is just as apparent to our citizens, but less observed because familiarized by its frequency. Humiliating as is the fact, it is patent to the public that the records of our Police Court are a daily brand of shame upon the reputation of Cleveland, for they are little else than a record of the degradation of woman and the men who degrade her and themselves. The fallen of both sexes are fined, imprisoned, discharged, re-arrested, fined, imprisoned, over and over again, and, each time sunk lower and lower in vice and sensuality, are turned out to occupy their haunts of pollution or fester in the gingshops; the latter the prolific fountains from which flow most of the business of the Police and Criminal Courts of Cleveland and Cuyahoga county.

This is but part of the humiliating record.—The Police officers who with alacrity drag fallen men and women to prison, reeking, inflamed, or stupefied with liquor and debauch, often from the doors and very bars of the dram shops, except none of the authority conferred by the laws of the State and the ordinances of the city to stop the illegal traffic. They are a dead letter, so long dead that the dram shops keep open their portals day and night in the most public as well as the retired portions of the city, selling liquors to be drunk on their premises with the same publicity as the merchant disposes of his dry goods. Prosecuting Attorneys and Grand Juries ignore these flagrant violations of law and public security from term to term as though official oaths had become mere mockeries, and tippling houses the cherished and sacred institutions of community. Is it a wonder then that the temporary sojourner suggests a reformation founded on true humanity!

Cleveland, with the other cities and towns of the country, has enjoyed a protracted and pervading religious revival—a wide field is opened in our very midst for the good work of verifying that it is truly a religious reformation. "The Greeks are at our doors," and our correspondent has invited attention to the claims of a class for succor, charity, and reform, claims recognized by the founder of Christianity when He said to the woman condemned to death—"Go thy way and sin no more."

DEATH OF A MISSIONARY.—The Rev. Justus H. Vinton, a distinguished Baptist Missionary at Rangoon, Burmah, died on the 31st of March, of fever. He was one of the most self-sacrificing and devoted of men, and his death is a heavy blow to his many friends in Burmah and this country.

NO ELECTION.—The Episcopal Convention of Minnesota which recently convened at St. Paul, adjourned without electing a Bishop, owing to a disagreement between the clerical and lay delegates.

meeting of the Disciples of Lake and Geauga counties, will be held under their large Tent near the Female Seminary, in Painesville, commencing Friday, June 11th. Elder J. H. Jones, and other Ministers from abroad, are expected.—*Painesville Telegraph.*

IMPROVEMENT IN DENTISTRY.
PATENTED BY M. L. WRIGHT, M. D.
D. POLLOCK, M. L. WRIGHT,
AUGUST 11, 1857.
ARE MANUFACTURING
Partial Sets, Half Sets and Whole Sets
OF
PORCELAIN TEETH.

SUPERIORITY OF THEIR METHod of protecting Artificial Teeth over any other known method:
1st. IMPLICITY.—One piece chemically united inhabits gums, and of the same quality of material.
2d. SOLIDITY.—That cement is not to adapt herself to the shrinkage of her own impressions. This adaptation once attained—comfort and stability ever after.
3d. PURITY.—The entire Plate and Teeth are impervious to the action of any known chemical agent; hence in contact or health, proof against the corrosive and offensive secretions of the mouth common to gold plate work, and other known methods.
4th. COLOR.—Bright, lively, and a good imitation of life.
N. B.—Any method of producing sets of Artificial Teeth hermetically united in one piece, that will not pass the ordeal of this digest, is a counterfeit of *true* Porcelain.
PATENT SAME.—Since April, 1856, we have inserted *Five Hundred and Seven Cases*. Of this number, eighty-nine are now taken the place of Gold Plate work. In the last named cases all have given their testimony to its superiority, and we wish all other cases where our terms have been complied with. In no case where teeth have been put for use there been any dissatisfaction.
TERMS.—According to the nature of the case, and given after examination.
PAYMENT.—Upon the receipt of the order, or on delivery. Persons with Gold Plate can apply their plate in part payment.
GUARANTY.—Satisfaction, provided the terms of payment and Special Instructions have been complied with.—Persons wanting information, reference will be given to those in constant use of our work.
We prefer to apply partial sets soon after the extracting of the natural teeth—one week's long enough to intervene between the extraction and the application.
To our patrons, and those who desire to become such, we will say that our arrangements are such that we can and will apply an entire double set of teeth fitted, satisfactorily within two days after the arrival of the patient.
TO THE DENTAL PROFESSION
Those of you favorable to this enterprise, we will make arrangements with you, by which impressions may be taken of your patients's cases, to articulating, models, &c., Articulated to be sent Express, and returned in ten days fitted with reasonable accuracy in the fitting and articulating model. We will also make Block Work to order on reasonable terms.

Testimonials and References.
have observed with much interest for the last two years, above method of producing Artificial Teeth, and believe statements of this circular correct.
T. GARLICK.
I have investigated with care, for the last three years the above method of making and applying Artificial Teeth in the Laboratory of M. Wright, and cheerfully say, and can say with confidence that his plan is the best known one, and entirely successful when made under his observation. The superiority of the kind of Dental work over that of an all metallic plate, cannot be questioned, and the state ment Dr. Wright's Circular of the number of cases where his work has taken the place of gold plate, is true. Much of this work on gold plate had been furnished by the best Dentists in the country. I am not conversant with the use of Porcelain work in the hands of others than Dr. Wright.

N. B.—Having learned that persons claiming to do this work, and in many cases claiming the same as their discovery, we will say that up to this date we have no agents in the U. S. A., who have any right from the above patentee. If persons who have cases fitted, be in either an infringement or an imposition—if an imposition, and it was so represented to our agent, we will in due time attend to that.
