CLEVELAND FEMALE SEMINARY.
S. N. SANFORD, Principal.
THIS INSTITUTION IS IN SUCCESSful operation under the immediate care and instruction of Mr. and Mrs. Sanford, and a large and able corps of accomplished and experienced instructors.
To those who desire for their daughters or wards the advantages of a School of the highest order of excellence combined with the advantages of a well ordered christian home, it is fully believed that the Cleveland Female Seminary presently offers such advantages which few Seminaries in the country can equal, and none can excel. The health, the comfort and the happiness of all the members of the family will be carefully consulted, and their manners and their morals will be watched over with watchfulness and care.
Prof. SAMUEL ST. JOHN, A. B., will, about the 1st of April, commence a course of valuable and highly interesting lectures on Natural Philosophy and Astronomy.
For information or catalogues address
17 2tp S. N. S. FORD, Cleveland, Ohio.

MORNING LEADER.

RELIGIOUS INTELLIGENCE.

Cleveland Bible Society.

The fourth anniversary meeting of this Society was held on the evening of the 9th inst., President Perkins in the chair. Dr. Aiken's Church was well filled on the occasion.

The Annual Report presented by the Rev. Mr. Hoyt, shows the society to be in a flourishing condition. The Society is free from debt, excepting a balance of $848, 14 to the American Bible Society for Bibles purchased. The fund on hand, and the dues to the Society, exceed this debt in the sum of $87,86. This added to the value of books on hand, 862,54, gives to the Society a net total of means in possession amounting to $949,90.

During the past year the usual gratuitous supplies of Bibles and Testaments have been continued to Hotels, Water Craft, Jail, Infirmary, Insane Asylum, Marine Hospital and Mission Sabbath Schools. The Executive Committee have resolved to employ a Bible Colporteur.—The Officers of the Society were re-elected for another year.

The meeting was addressed by Rev. T. C. Hartshorn, agent of the American Bible Society for Eastern Ohio, Rev. Mr. Brewster, and Rev. Mr. Bittenger, of this city.

Y. M. Christian Association.

The Rev. Dr. Bolles will preach the first of series of discourses before the Young Men's Christian Association to be delivered by some of the Pastors of the City, on Sabbath Evening next, in Trinity Church, services commencing at 7½ o'clock. The public, and especially Young Men, are respectfully invited to attend.

"Bible Christian Church."

Corner of Orange and Erwin streets. Services in connexion with laying the foundation of a new Brick Church, will take place (D. V.) on Thursday, July 1st, to commence at one o'clock, P. M. Rev. R. Robins, from London; Rev. T. Stubbs, of Painesville; Rev. W. H. Brewster, Rev. W. Day, and Rev. J Hoidge, Pastor of the Circuit, with other ministers and friends will take part in the meeting.

A Public Tea at 5 o'clock P. M., price 25 cts. Evening service in the Mayflower Church at 7½ o'clock. Addresses will be delivered by the above ministers and others.

The public are respectfully invited to come and help us with their *presence*, with their *hearts*, and *with their hands*.

N. B.—A collection will be taken up after each service in behalf of the said Church.

J. HOIDGE, Pastor.

Cleveland, June 24th.

Here is a Church enterprize eminently worthy of the aid of the Christian public. The Mission Church, after having done good service in forming the nucleus of a growing congregation, has been found too small to accommodate the people who flock to hear the glad tidings of the Bible Christian Church. It has been removed from the leased site on the corner of Orange and Erwin streets, and a lot 68 by 40 feet has been purchased, on which a plain, neat brick Church edifice is about to be erected, at a cost of from $3,500 to $4,000. The new Church will be 63 by 37 feet, with a Basement room 10 feet high, and an Audience Room 2o feet from floor to ceiling. Mr. Charles Barnwell has the contract for the brick work, and the intention is to have the new Church ready for occupancy this season.

The Rev. Mr. Hoidge, Pastor of the Circuit, under whose auspices the Bible Christian Church has been commenced, is no sluggard in the "field white for the harvest." With the labor and zeal of the early Methodist circuit riders he looks after the welfare of all the people under his charge, and his well directed and persevering efforts in behalf of temperance and the virtues which adorn practical piety have been rewarded with numerous "sheaves of rejoicing." Ministers who thus illustrate the mission of Him who "went about doing good," however humble may be their sphere, are the true philanthropists, and the real promoters of religious reformation. Fill their hands generously, for the seed they scatter even by the wayside may some of it fall on good ground, and in due time bring forth an hundred fold.

Camp Meeting.

A camp meeting will be holden on the College camp ground in the vicinity of Berea, commencing on Wednesday, the 25th of August next. The camp ground has been given for the joint occupancy of German and English. A general and cordial invitation is extended to all persons who may desire to attend.

"We shall reap if we faint not."

The Five Points Mission of New York is a field of labor that yields the fruits of a true Christian charity. Mr. Van Meter, the Agent, in a printed circular, gives an interesting sketch of his recent journey to the West with seventy-three Children of the Mission, for whom he procured permanent homes. We copy from the circular some illustrations of the good work being accomplished by this agency:

"You saw the parting of the husband and three little daughters with the wife and two little ones who remained in this Maelstrom, because we *had not money* to buy the ticket. His heart and arms were strong for work but it could not be had, so the family must be ever more broken up. He bowed his head and wept as I have seldom seen a man weep. In Carlinville a husband and father rise before the congregation and say, 'this family must not be separated.' Every heart beats in sympathy. Money is raised to pay their traveling expenses. A house is pledged; beds, tables, chairs, stove, provisions, everything is provided. The next morning the telegraph flashes the welcome news to the wife and little one, you put them on the 'lightning express' and in *forty eight hours* after starting, strong men who greeted us upon our arrival, turn away to hide the manly tear as these parted ones are in each others' embrace. We must not intrude just now upon the happiness of that new home. Little Lizzie, whose mother is in the penitentiary, is saved. We arrived in a western city before breakfast. Soon a wealthy, pious, childless citizen, came in and saw her. He left the hotel, and shortly after a carriage stops and he helps out a lady. Look at them in the parlor with Lizzie on their lap. Now that carriage drives away, bearing to their home the most precious treasure they ever had. The nameless babe, eight months old, is the only child of an influential family of ample fortune, in a large city. One who has long lived in a beautiful but childless home, took a little cast-off babe. He says, "I thank you. I thank God for driving away our desolation—for making us so happy." A poor little news-boy, whom I took on a former occasion, writes: 'I thank you for getting me such a home. You know I was a poor boy; no home; nobody cared for me. I could hardly read a word—I could not write my name. Now I am in the fourth reader, and at the close of the session I took the *third* premium in writing. All are so good and so kind to me. The young men in Oberlin are educating him. The young ladies in Oberlin took one of our little girls to thoroughly educate. In a letter they say, "she has become so amiable that she draws all hearts to herself.—We cannot tell you how tenderly we love her. Her progress in school, and in music and drawing, is rapid. She is all we could ask for, and we thankfully bless God for the privilege of engaging in so blessed a work."

The President of one of the largest female colleges in America, whose pupils are educating one of our girls, says: "She is one of our best pupils. We think our dear little Katy a great acquisition to our college, and we would regret the loss of no one of our pupils more deeply than we should her." The poor lame girl from the attic in Pearl street, whose mother I found drunk on the floor, and whose little sister has long been on the street to beg, is the only daughter of a wealthy, pious merchant. I sat recently in a home of wealth, in a large city, and listened to the playing upon the piano of one who often begged at the Five Points, but who now is the only child; a beautiful, modest, talented girl. I remember when we felt discouraged with reference to her, but, how true, "in due season we shall reap if we faint not." Another, for whom we often prayed, and who now is a member of one of the best high schools in the land, said to me, while her face beamed with a heavenly smile, and the tear of gratitude and love trembled in her eye, "O, sir, I want to tell you what the Lord has done for my soul since I saw you. I have found the Savior. He has put a new song in my mouth." Thank the Lord, "we *shall* reap if we faint not."

☞ Father Right Reverend Bishop Rappe, of Cleveland, delivered a practical discourse on last Sunday, at the Catholic church in this place. He dwelt mainly upon the vices of the times, prominent among which was that of intemperance. It is said by those present, that the address was an exceedingly forcible and effective one.—*Youngstown Republican.*

Robert Dale Owen Converted.—Private letters from the Hon. Robert Dale Owen, U. S. Minister at the court of Naples, written to his friends at New Harmony, announce the gratifying intelligence that he has become converted to the Christian religion. Mr Owen is well known throughout this State for his scholastic attainments, but his influence has ever been weakened heretofore by his heterodox views of Christianity.—[Vincennes (Ind) Gazette.

Dentistry.

DENTISTRY.—THOSE HAVING sets of Teeth which they carefully keep in the drawer or find troublesome to carry in the pocket, are especially invited to call at DR. HALLIWELL'S Dental Rooms. To such a liberal arrangement will be offered. Having made arrangements, I am prepared to use the Vulcanized Compound, instead of Gold or Silver for Artificial Teeth, which has the high reputation to say that it is superior to any other substitute, combining lightness, cleanliness, durability and neatness. One tooth or an entire set can be inserted so life like as to defy the closest observer, and a perfect fit warranted.—Silver and Gold Plates as usual, from $10 to $50 per call set. B. A. HALLIWELL'S, M. D.
Over Chisholm's Drug Store,

CLEVELAND
TOOTH MANUFACTORY
General Office and Laboratory
No. 190 Lake st., Cleveland, O.
IMPROVEMENT IN DENTISTRY, PATENTED BY M. L. WRIGHT, M. D., D. POLLOCK, M. L. WRIGHT, AUGUST 11, 1857.
ARE MANUFACTURING
Partial Sets, Half Sets and Whole Sets OF PORCELAIN TEETH.

SUPERIORITY OF THEIR METHOD of producing Artificial Teeth over any other known method:
1st. IMPLICITY.—One piece chemically united in all its parts, and of the same quality of material.
2d. SOLIDITY.—That compels nature to adapt herself to the model of Teeth, instead of the reverse. This adaptation ascertained—*comfort and stability ever after.*
3d PURITY.—The entire Plate and Teeth are impervious to the secretions or any other substance, hence no disease or health, proof against the corrosive acids, hence no corrosion of the mouth common to gold plate work, and other known methods.
4th. COLOR.—Bright, lively, and a good imitation of gum.
N. B.—Any method of producing sets of Artificial Teeth is cheerfully united to any one that will not pay the extra 2 dollars charged, is a counterfeit of true Porcelain.
PATRONAGE.—Since April, 1856, we have inserted *Five Hundred and Seven Claps.* Of this number, *eight-six cases* have taken the place of Gold Plate work. In the last named case all have given their testimony to its superiority, and so will all other cases where our terms have been complied with. In no case where teeth have been paid for have there been any dissatisfaction.
TERMS.—According to the nature of the case, and given after examination.
PAYMENT.—Upon the receipt of the order, or on delivery. Persons with Gold Plate can apply their plate in part payment.
GUARANTY.—Satisfaction; provided the terms of payment and special instructions have been complied with. Persons wanting information, reference will be given to those in constant use of our work.
We prefer to apply partial sets soon after the extraction, in the natural teeth—one week is long enough to intervene between the extraction and the application.
To our patrons, and those who desire to become such, we will say that our facilities are such that we can and will supply an entire double *set of teeth fitted*, satisfactorily within two days after the arrival of the patient.
TO THE DENTAL PROFESSION.
Those of you who are favorable to this enterprise, we will make arrangements with you, by which impressions may be taken of your patrons' cases, manufacturing models, &c., &c., and forwarded to us by Express, and without delay returned filled with teeth, ready for immediate insertion and attaching model. We will also make Block Work to order on reasonable terms.

Testimonials and References.

have observed with much interest for the last two years, above method of producing Artificial Teeth, and believe it meritorious of this circular correct. T. GARLICK.

I have investigated with care, for the last three years, the above method of making and applying Artificial Teeth to the Dentists, Dr. Wright, and know it to be, and can say with confidence that it is perfect, and the inventors are, and entirely successful when made under his observation. The superiority of this kind of Dental work over rubber or any kind of metallic plates, cannot be questioned the state ment in Dr. Wright's Circular of the number of cases where his work has taken the place of gold plate, is true. Much of his work on gold plate had been furnished by the best Dentists in the country. I can speak confidently of the success of Porcelain work in the hands of others than Dr. Wright. H. A. ACKLEY, M. D.
Late Prof. of Surgery Cleve. Med. College.

N. B.—Having learned that persons claiming to do this work, and in many cases claiming to be our agents for the same, we will say that up to this date we have no agent in the U. S. A., who has any right from the above patentees to such claim, and in no case is it either an instrument or an impression—if an impression, let it work its own cure; if an instrument, we will in due time attend to that.
M. L. WRIGHT, M. D.,
may29 Acting for the Company.

DOCTOR HALLIWELL, DENTIST and Graduate of the Cleveland Medical College, continues to supply the loss of Teeth, which never change color or decay, without stopping or wire of any description, which so perfectly resemble nature that the practised eye of a Dentist could not detect. No extraction of roots, or any painful operations of the following charges: A single tooth, $1—full setts from $20 upwards.
Dr. H. having made arrangements he is prepared and will insert full setts of true Porcelain Teeth, patented by Dr. Lovett, (see opinions of the press.)

☞ For City News, see first page.

For Market Reports and Marine News, see fourth page.

McHenry.—We below give a sketch of the life of McHenry written by himself and sworn to be true. He has certainly seen enough of the ups and downs of life to make his narrative interesting and amusing. He is a rough, sanguine sort of fellow, with all the characteristics of the Scotch blood he professes to have in him, and the lecture he proposes to deliver to-night will doubtless amply repay those who hear it.

1st. That I am a native of Scotland; that I was born in Lanarkshire, in the year 1825; that I resided in the vicinity of the village of Springburn and Calamchie until the year 1839; in the latter part of the summer of which year I left Scotland, alone for Canada, on the barque *Jamaica*, commanded by one Captain Martin. Having reached Quebec, I came up to Montreal, and remained in that city for some days in company with some other emigrants. I then went to St. John's, Lower Canada, and engaged there with one Smith, who had formerly been a soldier in her Majesty's service, (I think in the 71st Regiment.) I continued in Smith's employ at Chambly until the Spring of the year 1840, when I went to Whitehall, and from thence to New York city.

2nd. I remained in New York city and Brooklyn until June 1841, living during a portion of that time with a family of the name of Baxter, Twelfth street. I then enlisted in the United States army, and remained in such service until June 1846 when I was discharged at Fort Gibson. During the time I was in the American service I served in Florida about two years, and was stationed at Fort Leavenworth and Fort Coffee.

3rd. After I was discharged I went to New Orleans, and was employed by Col Hunt, Assistant Quarter Master General in his department; and remained in New Orleans, so employed, until the month of October, 1846, when I was ordered to Tampico, Mexico, as a Quarter Master's hand or orderly, under Captain Kalbfell, of the 3d Artillery. I remained in Mexico until the termination of the Mexican war, in the summer of 1848, when I returned to New Orleans, and there resided until the Spring of 1850, being during a portion of such time employed as a baker and furniture-car man. I then left New Orleans and went to Charleston, South Carolina, and there shipped for Liverpool, under Captain Pierce, on the ship *George A. Hopley*. I made two voyages on that ship, and afterwards sailed out of Charleston and Keywest for various ports of the United States on the Atlantic, and continued so employed until the Spring of 1851.

4th. In the Spring of 1851 I came to Buffalo, went down to Black Rock, and shipped on the *E. G. Merrick*, commanded by one Capt. O'Brien, under the name of J. McHenry. In the month of July I had a row with the mate of the vessel, and was committed to jail in Sandusky, on a charge of having stabbed the mate in such row. I remained in gaol at Sandusky until about the 1st of March, 1852, when I was discharged without a trial, no one appearing to prosecute. I then came down to Buffalo and immediately shipped as Robert J. McHenry on the Virago. Remained on board of that vessel for a short time. Was on the brig *Cumberland*, and then went cook on the *St. Laurence*.—After this left her and sailed on the *Pocahattan* in Lake Erie until I was discharged from her a few days before Christmas of that year.

5th. After leaving the *Pocahattan* I went to New York, and in the month of February 1853 I sailed from that port to Vera Cruz, on the brig *Brewsmille*, Captain Rogers. Having arrived at Vera Cruz, I left the shipand went to the City of Mexico, and remained there for about six weeks, then proceeded to the Pacific shore, and shipped in the steamer *Columbus* for San Francisco.

6th. I only remained a few days in San Francisco when I went to Big River, in Mendocino county, and worked at some mills there until December. I then went to Capt. Richardson's mills, on Albion River, a distance of about eight miles from the first mills I worked at, and there remained a short time, when I went back to San Francisco, and made two trips on the big *General Wolcott*, Captain Falkner, from that port to Columbia River. I left that ship in May 1854, and went up to Chipps' Flats, and got there in the following month, and commenced boarding at the house of one Samuel Davidson, of that place. I remained in that part of California until July or August 1855, when I went to Honey Lake, and stayed there for some time, when I went to San Francisco, and sailed from thence in December 1855, on the steamer *Sierra Nevada* for the Isthmus. I then went to Virgin Bay, and, in company with one John D'Chine, a Frenchman, opened a boarding house. There our partnership, however, only lasted a few weeks, when we both joined General Walker's army. In the month of February, after a good deal of trouble, I left Nicaragua, and reached New Orleans about the 1st of April, 1857, on the steamer *Empire City*.

7th. I stayed in New Orleans but a few days, when I came up North as far as Cleveland, having some intention of sailing on the lakes, when, on the 11th day of April 1857, I was arrested at Cleveland charged with being William Townsend, the supposed murderer of William Hamilton Nellis and Chas. Richards.

8th. After I was arrested, I requested Mr. Jones, an Attorney at Law in Cleveland, to assist at the examination about to be held before the United States Commissioner. He consented to do so, and I then confided to him a history of my previous life; but as I was without means to procure witnesses to corroborate my statements, he said he would collect such evidence as he could obtain at or near Cleveland for me, and that in the event of my being removed to this Province, I would have nothing to fear, as I would be brought into and tried in the county where Townsend had lived for many years, so that it would be impossible for me to be convicted as William Townsend, as hundreds of witnesses could be found here to prove that I was not William Townsend.

9th. After the examination before the United States Commissioner, I was brought over to this Province, and confined in the gaol of this county, on the 13th of June last.

10th. Feeling confident that I could run no risk of conviction in being tried here as William Townsend, I took
