For Washing Infants and Children.

Mothers and Nurses will find "FONTAINE'S CREAM OF WILD FLOWERS" superior to all spirits, soaps or lotions. It is rich medicated lather penetrating the skin, prevents chafing and eruptions, and promotes that health, delicacy and sweetness so pleasing in children.

FOR REMOVING FRECKLES, ERUPTIONS, &c.—A few applications will produce the most agreeable results in imparting white neck, clearness and beauty to the complexion. F. G. FONTAINE & CO., 125 Broadway, and No. 6 Astor House, New York. Sold by all Druggists. ou19

MATRIMONIAL.

TO THE LADIES OF THE UNITED STATES:

It has been my good fortune to restore to health many thousands of my country-women.

My success has excited the malice of the envious and jealous; but their persecutions have served only to extend and establish my reputation. Showers of grateful offerings have fallen upon my pathway, from the fair sufferers whom I have relieved. So long as I am told in affectionate and thankful remembrance by those who have experienced my skill, I can afford to despise the efforts of mischief-makers and slanderers.

My friends have repeatedly urged me to place my medicine for producing menstruation within the reach of the Ladies of the United states; but an indisposition to enter a field so occupied by quacks, with their pernicious nostrums and a fear that unprincipled counterfeiters might palm upon the public their worthless imitations, have hither o prevented me from establishing agencies for the sale of my "AMIE DE FEMME," in the United States.

At last, I yield to the entreaties of patients and friends, and offer to the suffering Females of America a medicine which has rendered me somewhat famous throughout the Old World.

In regard to the efficacy of the "AMIE DE FEMME," I need only say, that it is in liquid form, and is exactly such as I have used in my practice in France, for many years, and that it has never failed to secure a satisfactory result.

The "Amie de Femme" and mentorium stand in the relation of cause and effect. It is alike powerful to originate a healthy menstrual flow where it never has existed, and to restore it where it has been from any cause suppressed.

In order to guard against imposition, the wrapper of directions on each bottle of the "Amie de Femme" will bear my written signature, and both the bottle and enclosing box will be sealed with my private seal.

Price, $2.00 a package.

DR. P. H. RICORD.

PARIS, January, 1857.

For sale, Wholesale and Retail, by WILLIAM FISKE, No. 22 Superior street, Cleveland, who will supply the "Amie de Femme" at the Proprietor's prices. un10-dkw1y c

DISEASES OF WOMEN;

By Cornelius L. Chreesman, M. D.,

NEW YORK CITY.

AN INSTRUCTOR, A GUIDE, AND A PHYSICIAN

In which is embodied a full and chaste description (knowledge necessary to the welfare of those married or about to be married) of the process of conception, pregnancy and delivery, their pains and dangers, as well as the methods by which many of the latter may be obviated, and teaching how the system may be invigorated and restored to its proper tone, after having been prostrated by complaints incidental to the human frame. Also, much PHYSIOLOGICAL INSTRUCTION which will obviate the necessity of any great amount of sickness, and enable the observant reader to be, to a great extent, her own physician.

TENTH EDITION.

This book is more adapted to the understanding of the non-professional reader, and more skillfully elaborated, plans d, arranged and carried out, than any work of its kind now before the public. While it gives wholesome particulars, and in some respects new information upon some of the most delicate subjects connected with the female system. It should be placed in the hands of every female, single or married.

PRICE 25 CENTS.

This work also sets forth prescriptions used by the doctor in his practice for the positive cure of *Scrofulous Eruptions—Fever and Ague—Severe Coughs and Colds—Rheumatism—Dyspepsia—Falling of the Hair, &c., &c., &c.*, any one of which preparations may prove of great value to the reader.

GROVER AND BAKER'S FAMILY SEWING MACHINES.—The particular attention of Ladies is called to the above machine, which possesses the following decided and unmistakable advantages:

1st. Cotton is used as it is purchased—on spools—without re-winding; saving time, trouble and waste.

2d. The trouble and perplexity of filling a shuttle, (as in other machines,) is in this avoided; no shuttle is employed, the under thread being used from a large spool.

3d. It is very simple yet strong in construction, easily learned and kept in order, and does not require to be taken apart to be oiled.

4th. The stitch is always distinct, even and regular, and will not rip though every fourth stitch be cut.

5th. The stitch is as elastic as the most elastic fabric.

¶ This Machine embroiders beautifully.

Ladies and others interested in the saving of labor are invited to call at the sales-room of the subscriber and examine for themselves. The above machines are freely shown and samples of work given at all times.

The services of a lady and the use of a machine can be obtained by the day in families, by calling at the room of Mr. Hopkins. Terms $1,50 per day.

AMUSEMENTS.—Prof. LOVE had another full house at the Melodeon last night, and as usual delighted his audience. His feats are all new and good and well worth seeing.

The MARSH's also had a good house, and played with capital effect. Do not fail to go and see them. They appear to night in the "Queen of the Lurlie."

THE RACES YESTERDAY.—The race at Kendig's Forest Grove yesterday afternoon was well contested, and won by McClane's b. g. "Reindeer" (best three in five; mile heats in harness) in 3:01, 3:01½ and 3:01½; and in the first three heats.

The second race for a purse of $15 was won by Dick Potts' elegant *nag* b. g. "Atlantic Telegraph"—purchased by that gentleman at the enormous cost of fifteen shillings! Three horses were entered, each owner riding another's horse—the last one to the goal winning. "Atlantic Telegraph," gaily decorated with all descriptions of streamers, *jumped* over the course at the rate of one mile in one hour and thirty-nine minutes.

DISEASE AMONG HORSES.—We are informed that cattle and horses in the vicinity of this city are dying in considerable numbers from some unknown disease. Mr. Myers, residing in Brooklyn, has, within a few days past, lost three horses and two cows. It is believed that the animals are poisoned by the grass or some plant they eat. We have been told that the grass in many localities has been struck by a rust which is fatal to any animal that eats it. There might be some mistake about this, but it is a fact that quite a mortality exists amongst cattle and horses.

THE WORKING MEN'S MEETING.—The Old Court House was again crowded last night with mechanics and laboring men, pursuant to adjournment, and a permanent organization effected by the adoption of a Constitution and a name, to wit—*The Working Men's Union*. L. A. HINE, Esq., the talented land reform lecturer, spoke for nearly an hour. At the close of his address, a vote of thanks was tendered him, and three rousing cheers enthusiastically given.—Mr. HINE will deliver another address upon the same subject, LAND REFORM, at the Court House to-night, after which announcement the meeting adjourned. The address will commence at half-past seven, and those who feel an interest in this subject will do well to attend.

Some discussion ensued, in which Messrs. RANSOM, MUELLER and THAYER opposed the repeal, and were in favor of market men congregating together instead of peddling their supplies—*Herald*.

The "Spirit of the Counsel" of our evening cotemporary misrepresents the members who opposed the repeal of certain sections of the market ordinance—no question was at issue in relation to the congregation of market men—as the ordinance requiring market men to congregate had been repealed two years before.—Messrs. RANSOM, MUELLER and THAYER opposed the repeal mainly on the ground, that they were opposed to the free sale of meat on the public streets without any regulations.

As the passage of the ordinance would virtually repeal all Market regulations, Mr. RANSOM said he believed that market regulations were necessary to protect citizens from imposition—and the necessity had always existed in large cities; and that that necessity had created the office of Superintendent of Markets, fixed by statute as much as the office of Mayor. He was not opposed to the free sale of any wholesome articles of food on a person's own premises under proper regulations, but he believed that this was the first instance that a city of this class had ascertained that no market regulations were necessary.

☞ E. Ruffini will sell off his stock of Hats and Caps at lower prices than any other establishment in Cleveland. Remember 57 Superior street. 2w

THE EPIDEMIC AT THE OHIO PENITENTIARY.—We learn that the number of cases of typhoid fever at the Ohio Penitentiary has largely increased, there being now some fifty or sixty sick. The hospital room is not large enough to accommodate all the sick, and the officers have been compelled to use the chapel as a hospital. There are two or three who are not expected to recover.—*State Journal, 16th.*

☞ The New York Tribune cannot comprehend the passion that some persons have for a seat in Congress, and answers the question: "What is it to be an honorable member?"—thus: "It is to live in mean hotels and pay magnificent bills. It is to be obliged to breathe bad air, to sit in an uncomfortable seat, to be bored by long speeches, to be importuned for pamphlets, to attend to the business of other people, neglecting one's own; to exist in a perpetual fuss of franking, to watch your district much more closely than you watch the kingdom of Heaven, to miss your night's rest, to be slandered, to be bothered, to be importuned, to be embarrassed, to make speeches listened to by nobody, to mail them to everybody to be read by nobody, to frank until your arm aches, and to miss the greatest growler in the district at last.

YESTERDAY AFTERNOON'S REPORT

PRESIDENT'S MESSAGE.

TRINITY BAY, Aug. 19.

To the President of the United States: Your message in reply to that of the Queen was transmitted to Valentia at 7 o'clock this morning. Its transmission was delayed until then for some cause occurring at Valentia with which I am yet unacquainted.

Signed, DeSAUNTY,
Chief Electrician at Trinity Bay.

FROM NEW YORK.

NEW YORK, Aug. 19.

Col. Thomas Allsopp, the alleged conspirator against the life of Napoleon, went out as a passenger in the Persia yesterday.

The Cable demonstration in Brooklyn passed off without an accident.

The investigation yesterday of the Committee of the celebration into the cause of the fire at City Hall, did not lead to any satisfactory results. There is strong reason to believe that the fire was set.—Mr. Edge, the Pyrotechnist, stated to the Committee that after the illumination and fireworks were all over, he went over the whole of the building, and found it all safe. It is now stated that $50,000 will be required to make necessary repairs.

Morgan Heim, the young man who killed his sweetheart, and afterwards shot himself, died yesterday morning.

ALBANY, Aug. 19.

The American General Committee of this county have adopted resolutions affirming the Binghamton platform, declaring their readiness to unite which any party for the overthrow of the democracy who is willing to go for the admission of Kansas as a Free State.

LAST NIGHT'S REPORT.

FROM NEW YORK.

NEW YORK, August 16.

The joint Committee on the Cable Celebration had a meeting to-day and fixed upon the first of September for the grand celebration. It was also decided to send a deputeh to the Lord Mayor and Common Council of London informing them of the fact.

The British born people of this city intend to have a special celebration of the event and a meeting was held to-day to take the initiative in the matter.

The frigate Niagara has been examined and pronounced to be in good condition and to have sustained no injury during her cable expedition. Some alterations, however, are to be made in her rig. Her spars have been proved to be too light for her and will be changed to heavy ones. Her crew will be removed to the North Carolina, where those whose times have expired will be paid off, and the remainder attached to other vessels

Some $60,000 of the amount stolen from the Hatters' Bank of Bethel, Ct., in bills on that bank, have been conveyed in a mysterious manner to the Police of this city—the holders doubtless finding them not merchantable commodity.

NOMINATIONS.

CINCINNATI, Aug. 19.

Hon. B. Stanton was unanimously nominated to Congress to-day by the Republicans of the Eighth District.

Wm. Hubbard was nominated to Congress to-day by the Democrats of the Eighth District.

FIRE.

ROCHESTER, Aug. 19.

The Edge Tool Factory of D. R. Barton on Brown's Race and a building adjoining, formerly a cotton factory were burned last night. Loss $30,000. Insured $15,000.

CELEBRATION.

ALBANY, Aug. 19.

The following is Mayor Perry's reply to the Telegraph despatch from the Mayor of New York:

To the Hon. DAN'L F. TIEMAN:

Albany will joyfully respond to her sister Cities. Our celebration on the 1st of September shall be, so far as we can make it, equal to the great and glorious triumph of science it is designed to commemorate. ELI PERRY.

MILITARY DEMONSTRATION.

PORTLAND, Me., Aug. 19

One of the most imposing Military demonstrations ever had in this state took place in this city yesterday, on the reception of the Montreal Rifle Corps. The days' proceedings ended by a Levee at the residence of the Mayor. During the review several persons were accidentally shot.—Lieut. Proctor of the Boston Fusileers received a blank cartridge in his arm; Chas. Sutherland, member of the Highlanders was shot in the thigh; Corporal Santier, of the Montreal Rifles, narrowly escaped death, a charge passing through his chapeau.

REPUBLICAN STATE CONVENTION

DETROIT, Aug. 19.

The Republican State Convention assembled here to-day organized by appointing Austin Blair, of Jackson county, President. After disposing of unimportant business the Convention proceeded to the nomination of State Officers, which resulted as follows:—For Governor, Moses Wisner of Oakland county; Lieut. Governor, E. B. Fairfield of Hillsdale Co.; Secretary of State, Nelson G. Isbell of Livingston Co. The Convention is in session this evening, and will not probably conclude its business until to-morrow.

IMPROVEMENT IN DENTISTRY, PATENTED BY M. L. WRIGHT, M. D., D. POLLOCK, M. L. WRIGHT, AUGUST 11, 1857.

ARE MANUFACTURING

Partial Sets, Half Sets and Whole Sets

PORCELAIN TEETH.

SUPERIORITY OF THEIR METHOD of producing Artificial Teeth over any other known method:

1st. IMPLICITY.—One piece chemically united in all its parts, and of the same quality of material.

2d. SOLIDITY.—That compels nature to adapt herself to the model of her own impression. THIS adaptation one attained—*comfort and utility ever after.*

3d PURITY.—The entire Plate and Teeth are impervious to the action of any known chemical agent; hence in issue or health, proof against the corrosive and offensive secretions of the mouth common to gold plate work, and other known methods.

4th. COLOR—Bright, lively, and a good imitation of nature.

N. B.—Any method of producing sets of Artificial Teeth hitherto fully united in one piece, that will pass the critical ey of this digest, is a counterfeit of *true* Porcelain.

PATRONAGE.—Since April, 1856, we have inserted *Five Hundred and Seven Cases.* Of this number, *eighty-six* sets have taken the place of Gold Plate work. In the last mentioned cases all have given their testimony to its superiority, and so with all other cases where our terms have been complied with. In no case where teeth have been paid for have there been any dissatisfaction.

TERMS.—According to the nature of the case, and given after examination.

PAYMENT.—Upon the receipt of the order, or on delivery. Persons with Gold Plate can apply their plate in part payment.

GUARANTY.—*Satisfaction*, provided the terms of payment and Special Instructions have been complied with.—Persons wanting information, ref. ence will be given to those in constant need of our work.

We prefer to apply partial sets soon after the extraction of the natural teeth—one week is long enough to intervene between the extracting and the application.

To our patrons, and those who desire to become such, we will say that our arrangements are such that we can and will apply an *entire double set of teeth fitted, satisfactorily* within two days after the arrival of the patient.

TO THE DENTAL PROFESSION.

Those of you favorable to this enterprise, we will m arrangements with you, by which improvements may be taken of your patient's cases, as articulating, models, &c., &c., and forwarded to us by Express, and without delay returned fitted with reasonable accuracy to the fitting and articulating model. We will also make Block Work to order on reasonable terms.

Testimonials and References.

are observed with much interest for the last two years, above method of producing Artificial Teeth, and believe statements of this circular correct.

T. GARLICK.

I have investigated with care, for the last three years the above method of making and applying Artificial Teeth to the Laboratory of Dr. Wright, and a work well and can say with confidence that his plan is the best known one, and entirely successful when made under his observation The superiority of this kind of Dental work over gold or any kind of metallic plate, cannot be questioned, and the statement in Dr. Wright's Circular of the number of cases where this work has taken the place of gold plate, is true. Much of this work on gold plate has been furnished by the best Dentists in the country. I am not conversant with the process of Porcelain work in the hands of others than Dr. Wright. H. A. ALLEN, M.

N. B.—Having learned that persons claiming to do this work, and in many cases claiming to be our agents for the same, we will say that up to this date we have no agent in the U. S. A., who have any right from the above patentee to such claim, and in those cases it is either an infringement or an imposition—if an imposition, let it work its own cure; if an infringement, we will in due time attend to that.
