MATRIMONIAL.

TO THE LADIES OF THE UNITED STATES:

It has been my good fortune to restore to health many thousands of my country-women.

My success has excited the malice of the envious and jealous; but their perversions have served only to extend and establish my reputation. Showers of grateful offerings have fallen upon my pathway, from the sufferers whom I have relieved. Being as I am cold in affectionate and thankful remembrance by those who have experienced my skill, I can afford to despise the efforts of mischief-makers and slanderers.

My friends have repeatedly urged me to place my medicine for producing menstruation within the reach of the Ladies of the United States; but an indisposition to enter a field so occupied by quacks, with their pernicious nostrums, and a fear that unprincipled counterfeiters might palm upon the public their worthless imitations, have hitherto prevented me from establishing agencies for the sale of my "AMIE DE FEMME," in the United States.

At last, I yield to the entreaties of patients and friends, and offer to the suffering Females of America a medicine which has rendered me somewhat famous throughout the Old World.

In regard to the efficacy of the "AMIE DE FEMME," I need only say, that it is in liquid form, and is exactly such as I have used in my practice in France, for many years, and that it has never failed to secure a satisfactory result.

The "Amie de Femme" and menstruation stand in the relation of cause and effect. It is alike powerful to originate a healthy menstrual flow where it never has existed, and to restore it where it has been from any cause obstructed.

In order to guard against imposition, the wrapper of directions on each bottle of the "Amie de Femme" will bear my written signature, and both the bottle and enclosing box will be sealed with my private seal.

Price, $3.00 a package.

DR. P. H. RICORD.

PARIS, January, 1857.

GROVER AND BAKER'S FAMILY SEWING MACHINES.—The particular attention of Ladies is called to the above machine, which possesses the following decided and unmistakable advantages:

1st. Cotton is used as it is purchased—on spools—without re-winding; saving time, trouble and waste.

2d. The trouble and perplexity of filling a shuttle, (as in other machines,) is in this avoided; no shuttle is employed, the under thread being used from a large spool.

3d. It is very simple yet strong in construction, easily learned and kept in order, and does not require to be taken apart to be oiled.

4th. The stitch is always distinct, even and regular, and will not rip though every fourth stitch be cut.

5th. The stitch is as elastic as the most elastic fabric.

This Machine embroiders beautifully.

Ladies and others interested in the saving of labor are invited to call at the sales-room of the subscriber and examine for themselves. The above machines are freely shown and samples of work given at all times.

The services of a lady and the use of a machine can be obtained by the day in families, by calling at the room of Mr. Hopkins. Terms $1,50 per day.

Benediction by Rev. W. H. Goodrich.

THE DAYTON FIREMEN AFFAIR.—Great excitement is felt in the city in relation to this affair. Various statements have been made on both sides, laying the blame of the matter alternately upon one side and the other. We yesterday published a card from the Foreman of Co. No. 6, exhonorating that Company from blame and affirming that they had nothing whatever to do with it. This statement is entitled to consideration, as both sides should have a chance to be heard. We must say, however, that the balance of the testimony is against that Company. While we give no opinion in the case we wish to see the matter fully investigated and the guilty parties brought to justice.—Two prominent and responsible citizens yesterday stated some facts to us which have a bearing upon the case.

One of them was passing up the street on Thursday evening in company with another gentleman and met a gang of rowdyish persons having firemen's uniform on, who were walking upon the sidewalks four and five abreast, crowding, by the means, all whom they met, into the street. A number of ladies were thus widely pushed from the walk, and coarse, insulting remarks made to them. After passing, our informant asked his companion, who has until recently been a member of the department, who the persons were, and was told that they were members of No. 6. They were shouting and making much disturbance and were evidently under the influence of liquor.—The other gentleman referred to is a well known business man whose word we have the utmost confidence, and his statement of the fight is as follows:

He was walking up Pittsburgh street about 10 o'clock upon the east side, the street being still and quiet, when he saw upon the other side four men in the uniform of the Dayton company walking arm in arm toward Ontario street in a peaceable manner, making no noise or disturbance whatever. At a little distance behind them was a confused company of men who by fast walking, overtook the Dayton men, and, without a word or provocation of the latter, commenced beating them with bottles, apparently, as the sound of breaking glass was heard.—The melee lasted but a moment when the assailants ran away, some down the bank and some up the street. Our informant ran across the street, and before the attacking party got away, saw and recognized some of the members of Co. No. 6. He raised the injured man and helped convey him away. Two highly respectable Germans will testify to the same facts, as they were with this gentleman at the time of the fight, and recognized some of the men. We give no names here, but the above persons are responsible for what they say.

What the Dayton men had done or where they had been previous to this, we know not, but this is given by the gentleman as a true statement of the fight.

Yesterday afternoon, Marshal Gallagher arrested Jim Green, Dick VanTassell, and four or five others, supposed to have been engaged in this disgraceful affair, and lodged them in the county jail. They will be brought into the Police Court this morning, and the case probably continued. We are assured that a thorough investigation shall be given to the matter, and the truth brought to light.

A dispatch was received last evening from Dayton to the City Marshal, saying that Kuntz was living and might recover.

THE "DAYTON INFANT."—Mr. John W. Van Cleve, the first male child born in Dayton, and who in consequence was known by the above title, lately died in that city. He had grown up with the city, and from the little collection of log huts around which he played in his juvenile days, he has seen a city of twenty-five thousand inhabitants spring forth, full of enterprise and busy with manufactures. The joke of being the "infant," is that after he was considerably emaciated by sickness he weighed more than two hundred pounds.

His death will be much lamented by his numerous friends.

☞ The Hecker Band will play on the Square this evening, when the following selection will be performed: 1. Liberty Quick Step—Downing; 2. "Dry Up" Polka—Cootes; 3. Aria and Chorus—Spohr; 4. Hail Columbia. Concert to commence at 7½.

THE SPY PIED.—This filthy black mail sheet was again issued last Friday, containing the usual amount of slanderous inuendoes on whomsoever Ormsby, the publisher, had a spite against. On Saturday a young man, whose sister's name was mentioned in that sheet, took the law into his own hand, by piecing the form of the *Spy*, and giving Ormsby a well deserved thrashing. We hope the fellow will continue to receive such hints till he discontinues his disreputable business.

☞ E. RUFFINI's Fall stock of Hats and Caps has arrived. It embraces the newest fashions and all styles, and of course will be sold at lower prices than ever. All work in the line of Furs can be done promptly at his establishment, as he has had great experience in Europe and this country. He is now engaged in manufacturing for the winter trade. sep7

FROM NEW YORK.

NEW YORK, Sept. 13.

We have private advices from London by the Vanderbilt, which state that Prof. Hughes would have his machines in readiness to work the cable on or about the 8th inst., on which day the Atlantic Company expected to dispatch a special steamer to Trinity Bay with one of Prof. Hughes assistants on board. We may, therefore, hope to see the cable in complete working order on or about the 25th inst.

In answer to the absurd theorizing of the many dunces who are daily proving to their own satisfaction, the impossibility of working the cable by the Hughes system, it is sufficient to say that with instruments hastily constructed and, in many respects very imperfect, Prof. Huges has transmitted intelligence, reliable and continuous, through 2,900 miles of the Atlantic Cable. This was while the cable was at Keyham, since then about 2,200 miles of the same cable has been submerged between Ireland and New Foundland and with electrical result nearly 50 per cent., so the telegraph electricians assert, more favorable than whilst it was coiled at Keyham.

Prof Hughes ought to be presumed to know by this time the capacity of his own invention and he says unhesitatingly that he can transmit intelligence through the cable, reliable and continuously, at the rate of from three to six words per minute.

Medicines.

WHY IS THE DEMAND SO GREAT FOR

DR. MANN'S AGUE BALSAM?

BECAUSE IT WILL, in all cases, speedily and effectually cure that much dreaded scourge of the West—Chills, Fever and Ague—without fail; and in all cases will counteract the poison of malaria, as which fact thousands do testify, and, unlike all other nostrums, is only recommended for one class of diseases; and as it is clear, it is unimpeached. We will offer a few evidences of its worth, by men of influence and high standing.

Princeton, Ill., Sept. 20th, 1857.

DR. MANN—Dear Sir: For several years past I have used your AGUE BALSAM in my daily practice, and have closely observed its effects in hundreds of cases, and in no case has it failed to produce the most happy effect. I can most cheerfully recommend it as a certain specific for Chills, Fever and Ague, and Malarious Diseases.

Truly Yours, H. AUSTIN, M. D.

Monmouth, Mich., Feb. 20th, 1858.

DR. MANN & CO.—I have sold a large number of your AGUE BALSAM in this county, and from my personal knowledge of it, I believe it the best remedy for Chills, Fever and Ague which has ever been used in our State.

Respectfully Yours, G. A. HYDE.

Ashtabula, Ohio, Jan. 1st, 1858.

MESSRS. S. K. MANN & CO.—Gentlemen: In consequence of the Status of Ohio and Michigan being so full of your AGUE BALSAM, I feel it my duty to inform you that I have sold it for the last year, and it has proved to be the best remedy for Chills and Fever, and Ague which has ever been used in our State.

Respectfully Yours, G. A. HYDE.

MESSRS. S. K. MANN & CO.—Gentlemen: I have sold your AGUE BALSAM in St. Louis, and your AGUE BALSAM does cures, and never a penny returned to sell. I sold a dozen of your AGUE BALSAM, and it did what it was recommended to do. It is the best medicine in the world of medicine. I know it to be true, for I have cured myself and family with it. I know it to be a good article, for I know it myself. I know it to be a good article, for I know it myself. I know it to be a good article, for I know it myself
