COMMERCIAL.

FINANCIAL, ETC.

The business of the past week has continued without any material change from that of the week previous. A moderate degree of activity prevails in the market for grain, fluctuating somewhat, however, according to the tenor of eastern advices. The market for wheat, which opened buoyant at the date of our last weekly review, was depressed by unfavorable foreign news, but fully recovered on Thursday, when some 20,000 bus good red changed hands at $1.30, which was the full price at the opening of the week. A reported decline of 2c in New York, again depressed it, and on Friday a corresponding decline was submitted to here; sales that day being generally at $1.28. On Saturday the market receded to $1.26, and this morning sales were made at $1.24; the decline keeping pace with the fall in New York.

Corn has sold at an advance of 1c on last week's quotations, selling to some extent at 62c from store. Oats have ruled dull with sales at a wide range of prices, evincing the great disparity in the quality of the new and old crops. The range has been 40@50c for poor new to good old. Barley and Rye make their appearance rather scantily.

Dairy products are dull. Eggs have largely advanced.

In money matters there is no change to note. Currency is in good supply. We give below the quotations of our brokers for foreign money.

In eastern cities the plethora of idle money continues, and there is no probability of any tightness for a long time to come. Money on call is freely offered at 3 per cent, and on short loans at 3@4 per ct. The September business which usually throws a large amount of paper on the market and creates a stringency, has been finished without making any perceptible difference in the supply.

Land Warrants are quoted 1@2c lower in Thompson's Reporter of Saturday. We give the rates below.

We annex the quotations for foreign money in this city, our own currency being the standard.

REVIEW OF THE GENERAL WHOLESALE AND PRODUCE MARKET, for the week ending Monday Evening, Oct. 4th, 5 o'clock, reference being had to the tables.

ALCOHOL.—Alcohol has declined since our last report, and we quote it now as follows:

76 per cent	36c per gal.
95 do	40c do
98 do	40c do

These are manufacturer's prices. This article is one of growing commercial importance from the increased demand for it, in the manufacture of burning fluids.

FISH—We put down our rates for Nos. 1 and 2 Mackerel — In other kinds there is no change. Lake Fish are out of season, and there is nothing doing.

FLOUR—There has been no change in the general characteristics of the market this week. There has been no speculative demand, and very few sales have been made of shipping lots. A wide range may be noted in the quotations, of good extra—brands reported as "good" selling all the way from $5@$5.50, as will be seen from our weekly summary.

RYE FLOUR—Not much in market. From mills, for city use, it is selling at $4.50.

CORN MEAL—Selling from mills at $3.62½ per cwt.

FRUITS—We quote green apples 75c@$1.25 for common fruit to choice winter. Supply for city consumption good at those prices. Nothing doing in dried fruits. Apples are in initially $1.50@$2. Cranberries are in good supply, and late receipts are riper and in better order than those received earlier. We quote them $7.50@$8.

GRAIN—WHEAT—The market has fluctuated considerably the past week; opening on Monday buoyantly at $1.30; declining to $1.26 on Tuesday, recovering on Thursday, and finally falling to $1.24 on Saturday, with a reported decline of 2c in the New York market of last day which caused a further decline, and sales on change this morning, were made at prices equivalent to $1.24 on track. The enormous receipts at the Lake Ports, the absence of any speculative demand, and the limited market to be found abroad at present rates, combine to depress prices, and it is doubtful whether any permanent improvement can be secured. The price in New York prohibits the exportation of anything but stumptail, and the market abroad for this is of course limited.—To begin a foreign demand for our rapidly marketing surplus, holders must come down to figures which will leave a margin for foreign shipments. It is noticeable that No. 1 wheat, suitable for manufacturing the higher grades of flour, is comparatively scarce, and in New York has shared much less than the poorer qualities in the fluctuations of the market.

The receipts of grain for the past week at Chicago and Milwaukee have been very large; at the latter place amounting to 276,000 bushels—a larger amount than in any previous week—and in Chicago, to 605,212 bus. In Chicago, the Express says, the receipts of flour and grain, not including barley and rye, from January 1st to the present time, amount to 18,296,945 bus. The smallest in store last Saturday, was equivalent to 1,516,562 bus.

CORN.—The closing sales of the week were made at 60c; at which figure a considerable sale was made on Saturday to make up a cargo. The New York market of Saturday is reported dull and drooping.

OATS—But few sales have transpired, and those at widely varying prices, according to quality. We note sales at 40@42c for new; 48c for a mixed lot new and old; and 55c for a lot of prime old.

BARLEY—Several lots have been sold during the week at 70c for good new. Receipts continue light.

RYE.—Very little doing. Nominal at 65c.

HIGHWINES—May be reported lower; having in one instance sold at 20c. They are generally held at 21c, and lots have been sold at 21½c.

LUMBER—No change to report.

OILS AND PAINTS—Nothing to note. An improved demand and a trifling advance is noted in whale in New Bedford, but our market is not affected so far. Linseed has declined 3c in Cincinnati, but our own dealers are firm at our quotations.

PROVISIONS.—MESS PORK—We quote $16.25@$16.50.—Very little doing. Our packers are making active preparations for the fall business, and are waiting only the advent of cool weather.

BACON—Hams are in some request with light supply.—Shoulders and poorer grades of hams are slow of sale. The former are held ½c lower, and we quote them 7c.

LARD—We quote No 1, at 8@8½c.

CHEESE.—Continues steady at 7@7½c. Sales are mostly restricted to the retail trade.

EGGS—Have advanced largely, and sales have been made at 12½, with a continued light stock. The advance has been simultaneous in all the Western cities.

The N. Y. Tribune says: We add to our list a quotation for Extra Western Eggs, inasmuch as some packers out there have the art of putting theirs up so as to sell in this market nearly or quite on a par with the best state eggs. Let the packers imitate their example if they expect to make money in the trade.

BUTTER—There is a steady but limited demand for Central at our quotations. In Western Reserve there is little doing.

SEEDS—Timothy is in some demand with sales at $1.75@$2.00.

SALT.—Remains stationary at $1.45 from dock. No variation in sacks, which we quote 95@1c for ground alike, and 1½@2½c for Marsh City.

SUGARS—We narrow the range of our quotations for white coffee, and crushed, powdered and granulated, ½c. See table.

MOLASSES—We quote N. Orleans and Cuba 2c lower.

TALLOW—No sales to note.

VEGETABLES—Potatoes are selling at 40@50c.
