Star of the North.

The best Gas Consuming Stove in the World!

THIS is the most wonderful STOVE that has ever been made, and the only one that can keep a CONTINUOUS COMBUSTION of GASES, thereby producing a most remarkable FLAME from ANTHRACITE COAL. By the peculiar arrangement of the apparatus, the oxygen of the atmospheric air is distributed equally over the whole surface of the fire-pot in such a manner that each jet or flame, burning from the conical perforated plate and air-chamber, shall meet in the center of the throat, giv ng no chance for the Gases to escape, unless mingled with the oxygen, which produces a continuous flame, and thereby a large increase of heat. This combustion makes it the most economical heating Stove in the World. Try it, and see if our statement is overrated.

The FLAME produced from these GASES makes one of the most CHEERFUL FIRES that can be imagined, and all from ANTHRACITE COAL.

The fire can be kept up through the whole season, and with very little care.

One year's test has been made by the public, and the manufacturers are satisfied in all they have ever claimed for this Stove.

For sale by the subscribers, the only authorized Agents.

CITY & NEWS ITEMS

SATURDAY MORNING, OCT. 16, 1858.

RETTBERG & HAUSMAN'S VARIETY STORE.—Years ago, perhaps ten, perhaps more, the above gentlemen, with another partner, opened a store for the sale of toys, trinkets, &c., near the corner of Superior and Seneca streets, in what is now occupied as a cigar store. They had a small place, and commenced with a small business, but by pleasant, affable manners and low prices, their trade increased until they were obliged to remove to more commodious quarters, where Ambush now has his barber shop.—Here for several years they carried on their trade, constantly adding to their stock, until their flow of custom obliged them to take the store they now occupy in Northrop & Spangler's Block. Here now is a perfect museum of every thing useful or ornamental in the line of fancy goods. Noah's Ark was nothing to it. He may have had an extensive show of animals, but we think he had but few that are not counterfeited in this store. The variety and extent of their stock is truly surprising. Almost every possible toy that the wildest imagination of childhood ever dreamed of, can here be procured, and throughout the salesrooms, a troupe of children could hardly be taken in an hour, as every step, some new attraction would demand inspection. Among the fancy goods we particularly noticed some delicately carved ivory pins, bracelets, &c., which are exquisitely cut; also some fine bronzes and mantle ornaments. In the basement of the store are packed away innumerable baskets, and all descriptions of willow ware. In this department Messrs. Rettberg & Hausman do a very heavy business both wholesale and retail. In the basement are kept the packages of goods, of which samples are displayed in the store.

Not only are fancy goods kept for sale, but an extensive stock of laces, dress trimmings, ribbons, hosiery, gloves, &c., &c., which are at all times of the latest styles.

In connection with their trade, these gentlemen do a banking business with the countries of Europe, drafts being procurable at all times from them, payable in the cities of Germany and England.

All the goods sold by this firm are imported by them direct from the manufactories of the Continent, enabling them to sell at lower prices than if purchasing of New York importers. A look at their stock is well worthy and will repay one for a visit.

Sabbath School Celebration at Solon.

The Teachers and Children of the several Sabbath Schools of Solon and Chagrin Falls, together with the people generally, assembled according to previous arrangement at the Methodist Church in Solon, on Wednesday, the 13th inst., for the purpose of celebrating as above, and having a good time generally. At 10 A. M., Schools of Solon in carriages, escorted by Assistant Marshal Barnard, and preceded by the Solon Brass Band, *preceded* in the direction of the "Falls," until meeting the "Falls" crowd under Marshal Bosworth, (not of the fields of blood) faced to the right about, making "easy marches" to the commodious church which was the head-quarters for the occasion. Here, tables decked with beautiful flowers and groaning under the weight of dainties with which they were loaded, awaited the eager concourse. After appropriate exercises including "music by the band," said tables were sensibly relieved. Then followed eloquent and interesting addresses by the Rev. Mr. Prosser, of the Bethel Church, Cleveland, and Rev. Mr. Guy, of Chagrin Falls and Solon Station. In short, the thing was a complete success, speaking well for the energy and morals of the district represented. S.

MINISTERS OF THE M. E. CHURCH SOUTH MAY BUY AND SELL SLAVES.—At the recent meeting of the St. Louis Conference of the M. E. Church South at St. Louis, it was resolved by a large majority, to rescind the rule prohibiting Ministers of that Church from buying and selling men, women and children!

A similar expression was made at the late meeting of the Western Virginia Conference of the Methodist Episcopal Church South. The vote concurring with the action of the General Conference stood: For concurring, 35; against concurring, 2; absent, 8. It is said the absent members were mainly with the majority.

☞ Rev. Thornton A. Mills, Secretary of the American Board of Foreign Missions, has been called to the pastorate of the Third Street Presbyterian (N. S.) Church, in Dayton.

CHURCHES AMONG THE BLACKS.—The Baptist Church (African) in Richmond, Va., numbers 2,700 communicants, truly a congregation to be proud of. The Baptists have 52,000 colored communicants in Eastern Virginia alone. There is a colored church in Petersburg, Va., of 1,800 and another of 1,400.

☞ A church in New York city, only two blocks from the 22d Ward Police Station House has been compelled to abandon its meetings on Sundays, on account of the noise made at a drinking house in the immediate neighborhood.

☞ Bishop Connor, of Pittsburg, is vigorously prosecuting his reforms in reference to Catholic funerals. No carriages are to be allowed except for pall bearers, and the immediate friends of the deceased. Without special permission no more than two carriages will be allowed to enter the cemetery, and before the corpse is permitted to enter the church, the priest must ascertain that all these rules have been complied with.

INCREASE OF STUDENTS FOR THE MINISTRY.—The New York Evangelist states that more than fifty new students have been received at the Union Theological Seminary in that city. At Andover the class entering this autumn is larger than for several years last past. It numbers over 40. The middle class numbers 38, and the senior class 37—whole number 116, or about that, with the expectation, it is understood, of some additional increase.

Princeton and the leading institutions of the various denominations also report largely increased classes.

REV. DR. BOYD.—Many city readers will remember the Rev. A. H. H. Boyd, D. D., of Winchester, Va., the leading man of the South in the General Assembly held in this city.—The National Intelligencer says that Dr. Boyd has been called to the pastorate of the Western Presbyterian Church in Washington City.

THE AMERICAN TRACT SOCIETY.—The American Tract Society, New York Branch, has lately been put to a severe test of its anomalous position on the slavery question, and has met the test in a manner to satisfy anti-slavery Christians that there is nothing more to hope from that quarter. Rev. Samuel Wolcott prepared a brief tract composed wholly of scriptural texts upon slavery, designed to convey in a distinct view the declarations of the Bible on that subject, after the manner of the Society's small tracts on other topics. The Committees of the Society declined to publish it, and in his letter announcing that decision, the Secretary expressed the hope that Mr. Wolcott would let the rejection of his manuscript "rest without noise." Mr. Wolcott makes no noise about it, but he publishes the correspondence and the tract in the Boston Congregationalist, with some comments, in which the folly and the practical infidelity of the management of the Society are faithfully exposed. It is one of the most damaging blows that has been given to the Society.

Every MAN'S LIFE A PLAN OF GOD.—Every human soul has a complete and perfect plan, cherished for it in the heart of God—a divine biography marked out, which it enters into life, to live. This life, rightfully unfolded, will be a complete and beautiful whole, an experience led on by God and unfolded by the secret nurture of the world; a drama cast in the mould of perfect art, with no part wanting; a divine study for the man himself, and for others; a study that shall forever unfold, in wondrous beauty, the love and faithfulness of God; great in its conception, great in the divine skill by which it is shaped; above all, great in the momentous and glorious issues which it prepares. What a thought is this for every human soul to cherish! What dignity does it add to life! What support does it bring to the trials of life! What instigation does it add to send us on in everything that constitutes our excellence! We live in the Divine thought. We fill a place in the great everlasting plan of God's intelligence. We never sink below his care—never drop out of his counsel.—*Dr. Bushnell.*

A MINISTER'S WALK AND CONVERSATION.—The editor of the North Carolina *Presbyterian*, who is at the Virginia Spring, has heard a good story of Speaker Orr and the Rev. Dr. W., of Lexington. Not long since, the story goes, they were both at the warm springs, and met in a public room of the hotel. They had been sitting with other company, and after awhile the Dr. rose and walked across the room with the usual limp in his gait. Mr. Orr immediately recognized him, and asked him if he was not the Chaplain at the University of Virginia at such a time, naming the year. The Dr. replied that he was. "I was there," said Mr. Orr, a student at the University, and I knew you by your limp." "Well," said the Dr. "it seems my *limping* made a deeper impression on you than my *preaching*." The joke placed Mr. Orr in an awkward predicament, and most men would have been unable to extricate themselves, but he replied with ready wit: "Ah, Dr. it is the highest compliment we can pay a minister to say he is known by his *walk* rather than by his *conversation*."

AMERICAN WATCHES.

APPLETON, TRACY & CO.,
WALTHAM, MASS., MANUFACTURERS OF
Patent Lever Watches.

THESE SUPERIOR WATCHES are made to the all of new and original machinery, expressly designed to secure, with a low price, A FINE, SUBSTANTIAL, RELIABLE TIME-KEEPER. The movements are now in construction, and are pronounced by the highest authorities to be FAULTLESS IN PRINCIPLE AND QUALITY, and have been proved by the severest tests to be reliable and unfailing in action. These Watches are manufactured entire from crude materials, in a single establishment, by concentrated and uniform processes—the machinery being arranged upon the same system that has been adopted in the production of the unequaled American Rifle-arms, which enables us to produce a movement at ONE-HALF the price of any foreign movement of the same quality, and we guarantee the perfect performance for ten years, of every Watch manufactured by us.

ALL FOREIGN WATCHES ARE MADE BY HAND, the American Watches being the only ones made by machinery, upon a uniform system throughout. Nearly all hand-made Watches are defective, and are continually retiring out of order. In some parts of the country, it is impossible to find good Watch repairers, and Watch repairing is always uncertain and expensive. The introduction of American Watches has removed this difficulty, and country MERCHANTS, as well as Watch-sellers, can keep Watches as a part of their miscellaneous stock, and thus supply their customers with a NEW STAPLE, which may be used as any other article, without anxiety or hazard. Sold by the trade generally, and by
