MATRIMONIAL.

TO THE LADIES OF THE UNITED STATES:

It has been my good fortune to restore to health many thousands of my country-women.

My success has excited the malice of the curious and envious; but their persecutions have served only to extend and establish my reputation. Showers of grateful offerings have fallen upon my pathway, from the fair sufferers whom I have relieved. So long as I am held in affectionate and thankful remembrance by those who have experienced my skill, I can afford to despise the efforts of mischief-makers and slanderers.

My friends have repeatedly urged me to place my medicine for producing menstruation within the reach of the Ladies of the United States; but an indisposition to enter a field so occupied by quacks, with their pernicious nostrums and a fear that unprincipled counterfeiters might palm upon the public their worthless imitations, have hitherto prevented me from establishing agencies for the sale of my AMIE DE FEMME," in the United States.

At last, I yield to the importunities of patients and friends and offer to the suffering Females of America a medicine which has rendered me somewhat famous throughout the Old World.

In regard to the efficacy of the "AMIE DE FEMME," I need only say, that it is in liquid form, and is exactly such as I have used in my practice in France, for many years, and that it has never failed to secure a satisfactory result.

The "Amie de Femme" and my signature stand in the relation of cause and effect. It is alike powerful to originate a healthy menstrual flow where it never has existed, and to restore it where it has been from any cause suppressed.

In order to guard against imposition, the wrapper of directions on each bottle of the "Amie de Femme" will bear my written signature, and both the bottle and enclosing box will be sealed with my private seal.

Price, $2.00 a package.

DR. P. H. RICORD.

PARIS, January, 1857.

LAW LECTURE.—Mr. KING lectures this evening at 8 o'clock at Bryant, Folsom & Stratton's College.

HEAVY WIND.—The wind was very heavy up the lake on Monday night. The *May Queen* was obliged to lie at Pidgeon River through the night and vessels there were driven in spite of two anchors being out. At Toledo the waters washed over the docks and into the warehouses. Here nothing of the kind was known, the lake being quiet.

ARRIVAL OF THE NORTH STAR.—The above boat arrived yesterday afternoon from Superior City. We have the following memoranda of her trip from her officers. Left Superior City on Thursday last; left Ontonagon Friday the 22d; saw *Lady Elgin* at Ontonagon bound down; met Prop. *Gen. Taylor* ten miles below that place on the night of the 22d, schr. *Ford* was at Ontonagon, having lost all her canvas in a gale; Propeller *Eclipse* at Copper Harbor having on board 9 tons Copper being a part of the cargo of the *Mineral Rock*, raised on the 21st; met *Illinois* ten miles below Marquette on the 23d, bound for Portage Entry; Brig Concord at Marquette; reached Detroit Monday at 3 P. M. but were detained there by a heavy wind, through the night. Heavy weather was experienced during nearly the entire trip. The gale of Monday night was unusually severe.

The *Star* brought to Detroit about 400 barrels of Fish, and 30 tons copper. About 4 tons Copper and some miscellaneous freight was brought to this place. The boat will leave on her return trip Thursday night.

☞ A gentleman from Cleveland was victimized last Wednesday, on a steamer at St. Louis, out of $600. A genteel young man represented to the gentleman from the Buckeye State that his $600 eastern funds would be entirely worthless for any practical purposes in Kansas, and that he should not fail to get them exchanged. Fortunately genteel young gentleman had an account at the Merchant's Bank, and kindly volunteered to give him a check for the amount in lieu of his eastern funds. The check was drawn in favor of Wm. B. Austin. Of course it was not paid, and before the victimized gentleman returned to the boat the swindler had vamosed with the $600.—*Ohio Statesman.*

THE ART OF PEDDLING.—Genius will occasionally meet us in every kind of business; that genius which will distinguish its possessor from all others of his class, and will make him preeminently successful in his career. Not only in the studio of the painter or the attic of the poet do we find these bright scintillations bursting forth, but in many of the "humbler walks of life" will we stumble upon some native born "genius" who has a knack in his profession that distinguishes him from all competitors. The world is full of peddlers; we meet them at almost every corner, but not one in a hundred has the real talent which will distance all opposition. We have all known the "razor strop man" who has sung "a few more left" throughout the Union. For a time he was unequaled and the acknowledged master of the peddling ground; but then Ross, the Premium Soap man, sprung up, and throughout New England, at every State or County Fair, he may be seen in his complete Continental suit of knee-breeches, silk hose, long waistcoat, embroidered coat, and cocked hat, singing the merits of his soap.—Whether the Fair be held on Boston Common, or among the hills of "old Varmount," Ross is ever one of the attractions of the place, and we have seen him, in ten minutes, draw away the crowd from an exciting horse race to listen to his songs and stories. His genius has, in five years, rendered him a wealthy man. On Thursday last, we saw another genius in the peddling line. He was mounted on a wagon at the corner of Superior and Seneca streets, and was accompanied by his fiddle, singing an impromptu song, which was decidedly rich and ingenious. Catching up any little incident which he noticed in the crowd, he would straightway "make a note of it" in his song, bringing all into good rhyme and metre. In his wagon was some kind of magnetic oil, which another man was selling to the audience, while the singer kept them in a roar of laughter at his jokes and hits upon the dress, appearance or actions of any one about his stand.—Who the man was, we do not know, but he will not fail to draw a crowd wherever he goes. So much for the science of peddling.

Arrival of the Persia and Vigo.

NEW YORK, Oct. 26.

The Royal Mail Steamship Persia, from Liverpool at 4 P. M. of the 16th, and the Vigo from the same port on the 13th, arrived this morning.

A prospectus had been issued for the formation of a company for the Galway Line, with a capital of 500,000 pounds sterling, in ten pound shares.

The race for the Cesarewitch Handicap was won by "Rocket," by a head. The American mare "Priceless" and the "Brewer" running a dead heat for second place. The fact that "Priceless" had for a second time run a dead heat for this race, though this time for the second place only, was the most remarkable incident connected with the Cesarewitch.

At a regular meeting of the Iron Masters at Birmingham, a greatly improved tone was observable; buyers were numerous and prices were firmly maintained, while the principal manufacturers were reluctant to enter into contracts for delivery at distant dates.

The officers and crew of the ill fated Austria had published a letter claiming that they did all that was possible for them to do under the circumstances, and that the Captain did the same.

FRANCE.—The mediation of a friendly power has been accepted by France and Portugal in the dispute between them. It was suggested that the Portuguese Government should order the Charles Georges to be given up on condition that the French ships of war should previously withdraw from the Tagus, and return to France, so as not to let it appear that the surrender was made under the menace of their guns.

The decree permitting the importation of foreign iron into France was about to be renewed with certain modifications.

The Duke de Malakoff was married to Madam Paniega, in the Imperial Chapel at St. Cloud on the 12th.

The monthly statement of the Bank of France shows a decrease of bullion of 1,770,000 pounds. The discounts had increased 1,350,000 pounds.—Latest accounts from Paris say that no doubt was entertained of a pacific solution of the difficulty with Portugal.

AUSTRIA.—A panic was prevailing on 'Change at Vienna, caused by the fears of the speculators at the approaching resumption of cash payment by the bank.

The Cologne Gazette says that Austria will demand explanations from the Pope respecting the augmentation of the French forces at Rome.

PORTUGAL.—The free importation of breadstuffs is permitted until the end of May, 1859.

The Vice-Consuls of Spain and France at Tetuan, Morocco, have been assassinated. No particulars are given. Energetic measures to obtain satisfaction were expected.

A Paris telegram says the two ships of war lately sent to Lisbon, would proceed to Tetuan to avenge the massacre.

TURKEY.—The Turks in Candia had again made such a display that it was feared the massacre of the Christians was intended. Great excitement prevailed.

Two additional battalions of troops were to be sent to the Island.

Reports are revived that the Port has refused to cede the Island of Perim to England.

INDIA.—The Bombay mail of the 24th of Sept. had arrived at Suez.

The disarmed troops at Mooltam mutinied on the 21st of August and their almost total extermination was the consequence.

The fugitive rebels from Potzee were defeated with great slaughter on the 5th of Sept.

Four emissaries of Nana Sahib had been captured at Gwalior endeavoring to corrupt the native troops, who informed their officers of them.

The culprits were executed.

The Gwalior Fugitives after occupying the town of Patun, and seizing a large amount of treasure and forty guns were again defeated in the field on the 1st of Sept., and dispersed in all directions.

The British captured 30 guns. A private telegram says that renewed alarm had arisen at Calcutta so that the troops were kept under arms.—7,000 insurgents were said to be in the Province of Calcutta, but avoiding engagement. The story is pronounced a fabrication.

It was rumored at Canton that one of the Commissioners who met the Ambassadors in the north, and who bears the character for conciliation, had been appointed Viceroy of the Canton Province.

The town of Namton was spared by the British, though the forts were destroyed. The report that the palace was sacked was entirely unfounded.

LAST NIGHT'S REPORT.

FROM BALTIMORE.

BALTIMORE, Oct. 26.

Geo. Peabody, of London, has added $200,000 to the Peabody Institute fund for the erection of the edifice now going up in this city. This, with his previous gift to the Institution, makes more than a half million dollars.

FAILURE.

PEORIA, Ill., Oct. 26.

Great excitement exists here on account of the failure of Curtiss & Co., Bankers of this city.—Threats are made of mobbing the banking house and the private residences of the members of the firm. The military have been notified to be in readiness for any attack.

THE GREAT WONDER OF THE NINETEENTH CENTURY!

PROF. WOOD'S HAIR RESTORATIVE.—Sept the St. Louis (Mo.) Democrat: Below we publish a letter to Dr. Wood, of this city, from a gentleman in Mexico, where it speaks strongly of the superior merits of his Hair Tonic. Such testimony must have its effect, when coming from a reliable source. If certificates are guarantees of truth, the Dr. needs no testimonials nor useless puffery from the press.

BATH, MAINE, Jan 20, 1858.

PROF. O. J. WOOD & CO.—Gentlemen: Having my attention called, a few months since, to the highly beneficial effects of your Hair Restorative, I was induced to make application of it upon my own hair, which had become quite gray, probably one third white; my whiskers were of the same character. Some three months since, I procured a bottle of your Hair Restorative, and used it. I soon found that it was proving what it had wished. I used it about twice a week. I have since procured another bottle of which I have used none. I can now certify to the world that the gray or white hair has totally disappeared, both on my head and face, and my hair has resumed its natural color, and I believe more soft and glossy than it has been for twenty-five years. I am now a gay young old, my good wife, at the age of fifty-two, has used it with the same effect.

The above matter I deem due to you for your valuable discovery. I am assured that whoever will rightly use it, under directions, will not have occasion to contradict my statements. I am a citizen of this city, and have been resident here for the last fifteen years, and am known to nearly every one here and in adjoining towns. Any one you make of the above, with my name attached, is at your service, as I wish to preserve the benefits of such to others as well as myself.

I am truly yours, A. C. RAYMOND.

BALTIMORE, January 22, 1858.

WOOD'S HAIR RESTORATIVE.

PROF. WOOD—Dear Sir: Having had the misfortune to have the best portion of my hair, from the effects of the yellow fever in New Orleans in 1853, I was induced to make a trial of your preparation, and found it to answer to the very thing needed. My hair is now thick and glossy, and no words can express my obligations to you in return for the afflicted such a treasure. FINLEY JOHNSON.

The undersigned, Rev. J. K. Bizzy, is a minister in regular standing, and pastor of the Methodist Church in Brookfield, Mass. He is a gentleman of great influence, and universally believed. WM. DYER.

BROOKFIELD, January 12, 1858.

PROF. WOOD—Dear Sir: Having made trial of your Hair Restorative, it gives me pleasure to say that it effects my hair excellent in removing inflammation, dandruff, and a constant tendency to itching, with which I have been troubled from my childhood; and has also restored my hair, which was become so gray, to its original color. I recommend no other article with anything like the same confidence at present. Yours truly, J. K. BRAGG.

The Restorative is put up in Bottles of three sizes, viz: Large, medium, and small. The small holds half a pint, and retails for one dollar per bottle—the medium holds at least twenty-per cent. more in proportion than the small, and retails for two dollars a bottle—the large holds a quart, (forty per cent. more in proportion,) and retails for three dollars to the.

WHY IS THE DEMAND SO GREAT FOR

DR. MANN'S

AGUE BALSAM?

BECAUSE IT WILL, in all cases, safely and effectually cure that much dreaded scourge of the West—Chills, Fever and Ague—from one, unit, and in all cases will counteract the poison of Malaria, or which fact thousands do testify, and, unlike all other nostrums, it is only recommended in one case of ague, and at a time, it is unexpressed. We will offer a few evidences of its worth, by men of influence and high standing.

FULTON, Ill., Sept. 20th, 1857.

DR. MANN—Dear Sir: For several years past I have used your AGUE BALSAM in my daily practice, and have closely observed its effects in hundreds of cases, and in no case has it failed to produce the most happy effect. I can most cheerfully recommend it as a certain specific for Chills, Fever and Ague, and Malarious Diseases.

Truly Yours, H. AUSTIN, M. D.

Marshall, Mich., Feb. 11th, 1857.

DR. MANN & CO.—I have sold a large amount of your AGUE BALSAM in this vicinity, and from my personal knowledge of it, I believe it the best remedy for Chills, Fever and Ague that has ever been sold in this place.

Respectfully Yours, G. A. HYDE,

Ashtabula, Ohio, Jan 1st, 1858.

MESSRS. S. K. MANN & CO.—Gents: In continuing the sale of Ohio and Michigan for the sale of the different remedies of which we have control, our attention has been called to procure the great name that your AGUE BALSAM has caused for THE PEOPLE'S OWN REMEDY, and its sales more rapid than all others. It is destined to supersede all other ague remedies in the market.

Very Truly Yours, A. & S. HENDRY.

New York, Feb 23, 1858.

MESSRS. S. K. MANN & CO.—Gents: I have, at our house in St. Louis, sold your AGUE BALSAM three years, and have carefully observed its effects in curing, and in most all cases, we believe its equal exists in all the world of medicines. To my personal knowledge, it has cured permanently every time, and I have known it used after other remedies had been tried in vain, with the most happy result. And what is more REMARKABLE, I have never known a case but what remained cured, for at least that period. I have no hesitation in recommending it as a perfect triumph over Chills and Fever.

Respectfully Yours, PROF. O. J. WOOD.

BOERHAAVE'S

HOLLAND BITTERS

THE CELEBRATED HOLLAND REMEDY FOR

DYSPEPSIA,

DISEASE OF THE KIDNEYS,

LIVER COMPLAINT,

WEAKNESS OF ANY KIND

FEVER AND AGUE.

And the various affections consequent upon a disordered

STOMACH OR LIVER,

such as Indigestion, Acidity of the Stomach, Colicky Pains, Heartburn, Loss of Appetite, Inappetence, Costiveness, Blind and Bleeding Piles. In all Nervous, Rheumatic, and Neuralgic Affections it has numerous instances proved highly beneficial, and in others effected a decided cure.

This is a purely vegetable compound, prepared on a chemically scientific principle, after the manner of the celebrated Holland Professor, Boerhave. Because of its great success in most of the European States, its introduction into the United States was intended more especially for those of our fellow-land scattered here and there over the face of this mighty country. Meeting with great success among them, I now offer it to the American public, knowing that its truly wonderful medicinal virtues must be acknowledged.

It is particularly recommended to those persons whose constitutions may have been impaired by the continuous use of ardent spirits, or other forms of dissipation. Generally instantaneous in effect, it finds its way directly to the seat of life, thrilling and quickening every nerve, raising up the drooping spirit, and, in fact, infusing new health and vigor in the system.

NOTICE.—Where we expectate find this a beverage will be disappointed; but to the sick, weak and low spirited, it will prove a cordial aromatic cordial, possessed of singular remedial properties.

CAUTION.

The great popularity of this delightful Aroma has induced many imitations, which the public should guard against purchasing. Be not persuaded to buy anything else until you have given Boerhave's Holland Bitters a fair trial. One bottle will convince you how immensely superior it is to all other imitations.

AT THE WEDDELL HOUSE,

For a few days, where he will be happy to consult with those who are laboring under CHRONIC, OR LONG STANDING DISEASES, of every nature.

Dr. Blain's long sojourn among the Indians, where he obtained the knowledge of the GREAT MEDICINE, has given him a thorough knowledge of their remedies, and medicines obtained from nature's vast laboratory, being the spontaneous growth of our great forests and vast prairies. Nature's Healers are renowned by nature's own remedies, which have been so successfully placed within our reach by an all-wise Creator. Sufferers, who have been unsuccessfully treated by others, are particularly invited to call.

P. S. Dr. Blain having made women, and her diseases a specialty for nine years, trusts that he can cure, with the Indian Remedies, many who have given up hope from other sources. Consultation and advice free to all. oc26
