SHAKE AND BURN! SHAKE AND BURN!!—This is the life of agony endured by the sufferer from Fever and Ague. If any people in the world ever needed an apostle to cast their devils out, it is ours who live in this water-logged country. The miasmatic poison of our Swamps and Marshes becomes a veritable devil in the blood, to revel in the Agues and Fevers which shake and torch us all. Ayer's "AGUE CURE" is said to be the apostle we need, and some of our neighbors who have tried it confirm the report.—*Journal, Plano, Ill.*

SORE THROAT PLAGUE AND SORE THROAT.—This quality of seizing hold and causing the expulsion of depraved humors, is possessed by no other medicine than BRANDRETH'S PILLS. They operate only upon the tissues involved in, that is affected by the disease. In fact, they seize upon those humors, not so much from preference as from natural affinity; because their life is below that of the surrounding parts, and which, settling on the tissues of the throat, they in around the throat region, produce sore throat, *sore throat plague*, and the severe headache and fever. Within an hour after four or six pills are taken these ills felt a decided change in the part affected, a sort of reflective action of the diseased humors ready for expulsion No. 1 pill or weak action effect can ever arise from their use, because "they cannot act upon healthy parts." Taken early they prevent, taken later they cure disease. Of the most important, is their property in that medicine which only extinguishes the disease, and leaves no evil effects behind.

Sold at No. 294 Canal st., Brandreth's Building; and by A. S. Gardner, No. 220 Superior street, Cleveland; and by J. R. Shessin, Hudson, and all respectable dealers in medicines. aw

MATRIMONIAL.

TO THE LADIES OF THE UNITED STATES:

It has been my good fortune to restore to health many thousands of my country-women.

My success has excited the malice of a few envious and slanderous, but their persecutions have served only to extend and establish my reputation. Showers of grateful offerings have fallen upon my pathway, from the fair sufferers whom I have relieved. So long as I am held in affectionate and thankful remembrance by those who have experienced my skill, I can afford to despise the efforts of mischief-makers and slanderers.

My friends have repeatedly urged me to place my medicine for producing menstruation within the reach of the Ladies of the United States; but an indisposition to enter a field so occupied by quacks, with their pernicious nostrums and a fear that unprincipled counterfeiters might palm upon the public their worthless imitations, have hitherto prevented me from establishing agencies for the sale of my "AMIE DE FEMME," in the United States.

At last, I yield to the entreaties of patients and friends and offer to the suffering Females of America a medicine which has rendered me somewhat famous throughout the Old World.

In regard to the efficacy of the "AMIE DE FEMME," I need only say, that it is in liquid form, and is exactly such as I have used in my practice in France, for many years and that it has never failed to secure a satisfactory result.

The "Amie de Femme" and menstruation stand in the relation of cause and effect. It is alike powerful to originate a healthy menstrual flow where it never has existed, and to restore it where it has been from any cause suppressed.

In order to guard against imposition, the wrapper of direction each bottle of the "Amie de Femme" will bear my written signature, and each the bottle and enclosing box will be sealed with my private seal.

Price, $3.00 a package.

LAW MONTHLY.—The Western Law Monthly for September has been issued with its usual valuable collection of matter pertaining to the legal profession.

HARRISON CO. FAIR.—The County Fair will be held at Cadiz on Wednesday, Thursday and Friday, October 5th, 6th, and 7th. The list of premiums is long and liberal and the regulations such as they should be.

THAT YANKEE.—The passer by upon Superior street cannot fail to notice that Yankee, who with carpet bag and umbrella is stalking in upon C. H. Robison's Nonpareil Clothing Warehouse. He is a veritable Aminadab Sleek, hat, coat, pants, straps and all.

BOUND OVER.—De Monte, whom officer McKinstry arrested for burglary at La Grange, was yesterday bound over to the Court of Common Pleas with bail at $600.

Watson will be tried to-morrow.

DOG FIGHT.—A brutal dog fight came off in the vicinity of the city on Monday, at which some 300 two legged brutes looked on the bloody combatants. We do not consider it advisable to follow in the lead of some of our contemporaries and devote quarter of a column to a discription of the scene.

POLICE COURT—BEFORE JUDGE LAWRENCE.—James Brown, James Smith, James Edwards, and Michael Foley, were brought up on a charge of intoxication. Brown and Smith were fined $3,00 and costs, Edwards $5, and Foley $10.

George Stone was fined $10 for petit larceny.

David F. Dorr, for assault and battery, was fined $5 and costs.

PROPELLER MANHATTAN SUNK.—Intelligence was received here yesterday morning that the Propeller Manhattan which left here for Lake Superior on the 25th of August, with a cargo of stone and other articles, had gone to the bottom at Morcean Bay, Lake Superior, near Grand Isle, on the 1st inst. She is said to be a total loss. Insured in the Ætna and Home offices for $7,000. She was owned in this city by the Lake Superior Navigation Company.

NEW CLOTHING HOUSE.—A new wholesale and retail Clothing store has been opened on Water st., in the rooms over Tennis' store, and formerly occupied by Fuller & Co., by M. Liebenthal, who will keep at all times a full and complete stock of all goods in the clothing trade. Mr. Liebenthal has associated with himself Mr. Jacob Heim, for a long time with Koch, Levi & Mayer, and who understands the trade in all its particulars. The new store comprises three floors the entire length of the building, divided into office, stock room, cutting room and sales rooms. The goods sold are manufactured by the employees of the store and orders will be promptly filled. Country merchants will do well to call upon Mr. Liebenthal.

PRESENTATION.—Last evening a pleasant surprise was given to Mr. David H. Boyd, late Foreman of Forest City Hook and Ladder Company, and now First Assistant Engineer of the City, in the shape of an elegant sixteen comb Fire Hat, as a testimonial of regard from the members of the Hook and Ladder to their former leader. The hat was presented in a neat speech by John Downie, and responded to by Mr. Boyd and Chief Engineer Hill. Mr. Boyd is an able and active officer, and we are glad to see this token of appreciation by those who have had opportunity to know him best.

The hat bears a silver plate with an appropriate inscription. Long may it shield the wearer.

LAST NIGHT'S COUNCIL.—The members of the Council were generally in their seats on time last night.

Mr. Christian introduced a resolution that the Board of City Improvements rebuild the bridge across the canal on Commercial street. This matter is one of much importance. The bridge is in a rotten, broken and dangerous condition and needs immediate attention. Several accidents have happened there within a short time, and more will occur if something is not done to prevent.—The resolution brought up some discussion as to who should bear the expense of the new bridge, if built. Some members of the Council considered that a portion of the expense should be borne by the county. It was announced that the County would pay half the expense of a bridge over the river just beyond; but the canal bridge is within the city. The matter was referred to the Board of City Improvements with instructions to close the bridges until they should be repaired or rebuilt.

Mr. Russell moved to reconsider the motion which prevailed at the last meeting, to indefinitely postpone the Railroad Ordinance. He thought all who voted for that motion did not understand that it would kill the bill.

Mr. Rider moved to lay Mr. Russell's motion on the table. (This was sharp in Rider, as parliamentary rules provide that a motion to reconsider must be made at the next meeting after the passage of the motion to be reconsidered, consequently this motion of Rider would forever kill the bill.)

Mr Thompson moved to adjourn.

Mr. Rider's motion finally prevailed and that Railroad bill is as dead as a smoked herring.

Mr. McLane, in the endeavor to do something for his constituents, offered a resolution authorizing the Committee on Markets to go upon the market grounds upon Ontario street (said nothing of the West side market) and make such disposition as they saw fit, of teams and market men, if they thought best to make any change, to "prevent fighting among the market men." Mr. McLane was asked to explain the object of the resolution, but he was speechless and said never a word. So, as nobody could understand the good to result from the resolution, it was sent to the Committee aforesaid to report upon.

Other matters of interest will be found in our regular report.

HOT WEATHER AND WATER.—During the intensely hot weather we have had this season, we have often heard people complain in a most doleful manner of the heat, and yet do not introduce water on their premises with which to keep themselves cool by wetting their door yards and side walks. We would advise those to call on H. P. Bowers, (successor to J. B. Barnes, Plumber,) Atwater Building, who has a large stock of Plumbing Materials, Hose, Pipe, &c., and engage him to put up a cooling institution forthwith. We would advise them to get a Bathing Tub at the same time, and we will warrant that they can keep cool.

FROM WASHINGTON.

WASHINGTON, Sept. 6.

There is no truth in the recent statement from Vera Cruz, that Minister McLane had presented an ultimatum and demanded the immediate ratification of the Treaty, for it is known here that his preliminary points thereof were mutually satisfactory to both this government and that of the Constitutionalists. It was also understood that if the treaty should be ratified on this basis, McLane himself would return it to Washington.

The main points probably, are the right and way across the Northern States of Mexico, from the Rio Grande to Muratlan, and from Arazona Guaymas or some other outlet on the Gulf of California.

The U. S. to have the privilege of transporting troops and munitions of war over those routes, and protect the latter in the case of Mexico's inability to do so.

In consideration of these grants the U. S. agree to pay four millions of dollars, one half to be appropriated for the satisfaction of claims of American citizens against Mexico.

Gen. Harney has acquainted Lieut. Gen. Scott with all circumstances attending his occupation of the Island of San Juan.

It appears he had not been previously specifically instructed to take possession, but sent troops to protect the twenty-five or thirty Americans residing there who had been included in the taxation limits by authorities of Washington Territory.—Our boundary Commissioner Campell has no doubt about the Island belonging to the U S but British Commission made the issue, and hence protect Gov. Douglass. This subject excited much interest in official and diplomatic circles.

To any large numbers testified their respect by visiting him.—This evening an immense concourse assembled in the street opposite the hotel where he addressed them in a masterly speech of an hour's duration frequently exciting most enthusiastic plaudits.
