The Pills are perfectly harmless on the constitution, and may be taken by the most delicate female without causing distress—the same time they are Nature's choice by strengthening the invigorating and restoring the system to a healthy condition, and by bringing on the monthly period with regularity, no matter from what cause the obstruction may arise. They should, however, not be taken during the first three months of pregnancy, though safe at any other time, as miscarriage would be the result.

DAILY LEADER.

The Night Before the Battle.

(For the Cleveland Leader.)

We lay by the fires of the bivouac,
And the foe lay grimly before us;
But we slept as calmly as babes might sleep,
With the fair stars glittering o'er us;
With the silent Pleiads above us there,
Like heavenly watchers o'er us.

We knew we should wake to a bloody morn,
But when the order was given,
We laid us peacefully down to rest
'Neath the roof of the jewelled heaven;
And the light of our dreams of home was fair,
As stars in the boreal heaven.

We knew what rivers of tears must flow
From dear eyes dim with sorrow;
We knew that woe for a thousand hearts
Must spring from our work to-morrow.
For many a manly head must bow
When the stout hands smote to-morrow.

But if to one heart came regret,
'Twas stifled and never spoken;
And our mothers had smiled to see our sleep
In the light of our dreams unbroken.
But we followed our lancers to death next day,
When the spell of our dreams was broken.

Mexico, or Home?

The Mexican government is offering inducements to disbanded soldiers of our armies to go to Mexico—with the unexpressed purpose of their serving it in arms. Of course, if any American citizen chooses to emigrate to Mexico that is his business; but we shall be sorry to see any one leave this country who has strength, skill and industry to labor at any trade, or in any honest and useful calling.

The country needs all its workingmen, and millions more. There are probably hundreds in both the great armies which have just ceased fighting each other, who will prefer the calling of a soldier for the remainder of their lives. It is one of the chief evils of a state of war that it breaks up the regular and industrious habits of the citizens who take up arms; and, while the greater parts of the soldiers will, we believe, return quietly to their homes, and settle down to their accustomed occupations, there is no doubt that a considerable number will prefer the rough life of the camp to the seemingly dull and plodding industries in which civilized man is happiest and most useful to his fellow-men.

To these wild and adventurous spirits Mexico is no doubt a promising field; yet we wish that no soldier of the Union armies might turn his face thither before making at least an attempt to settle down in his own country. The nation owes much to the brave men who have so nobly re-established peace and the supremacy of our flag; and what it owes it will gladly pay. The return to civil life will seem, at first, hard and discouraging to many a brave fellow who will find his place in the workshop filled, and no opening offering immediately. But the spirit which animates the people—the affection which all good men bear to those who have fought and conquered peace for our land, the veneration with which the veterans of the great war are already regarded by men, women and children, the hearty and active good will which is everywhere expressed, will help to smooth the way and make easy the transition.

There are soldiers' employment societies in several of our great cities, and we know that the one at 35 Chambers street is helping many returned soldiers every day to proper employment. Such associations ought to be formed in every city, town and village, in order that, when the soldiers return, they may find such a warm welcome and such ready help as will show them that their greatest happiness and prosperity is to be gained in peaceable pursuits at home. And let no returning soldier refuse such help—for it is not charity. What Americans do to serve one who has fought for the old flag is not benevolence, but only payment of a just and sacred debt.—*N. Y. Post.*

Searching for Booth.

A few days before the news of Booth's being shot reached us, Captain Scott received a telegram from Syracuse, stating that a man had been seen at a country tavern a few miles north of that city, who answered to the description of Booth. He was in a light buggy, had slippers on his feet, was apparently footsore from travel. He had with him a poodle-dog and a flower pot, and drove very rapidly in the direction of Oswego. He was supposed to be Booth making for the frontier, thence to Canada. Captain Scott notified the Chief of Police, who promised vigilance on the part of the police force of the city. The Captain then dispatched detectives to intercept the suspicious personage before he should leave for Canada, if such was his intention. The affair was kept quiet at the time from obvious reasons, but there is no harm in publishing it now, especially as Booth's body is rotting in mid-ocean. We heard nothing farther from the "expedition," until yesterday, morning we found in the Pulaski *Democrat* the following:

"Our Booth—the man with the "poodle dog and house plant," was overtaken and arrested at Watertown, by Provost Marshal Scott and assistants, last week. Booth seemed very much alarmed, and didn't know he was Booth; and we believe that he succeeded in convincing the officials that he wasn't, but lived in Jefferson county, and was on his way home from eildom, where he has been accumulating "spelter" for some time past. We did not get these facts from Captain Scott himself, as we did not see him on his return."

The Captain will be obliged to acknowledge the corn and his detectives—whose activity on the occasion was very commendable—must content themselves with the one thousand dollars reward.—*Oswego Com. Times.*

Meyerbeer's Last Opera.

[Paris Correspondence New York Herald.]

The opera of *L'Africaine*, by Meyerbeer, which has been about to be produced for the last four years, and has therefore kept the musical and artistic world in a state of excitement during that whole time, is finally to be produced tomorrow evening.

It is said that the performance of this opera will require seven hours time, and that Mme. Meyerbeer, who has been implored by the managers to permit it to be "cut" to a reasonable length, looking upon such a mutilation of the illustrious *maestro's* work as a sacrilege, has positively refused. The curtain will fall upon the performance at two o'clock in the morning. One of the *entre actes* will be three-quarters of an hour in length. The rush for places has been immense. For a month past, the bureau of the director has been besieged by persons imploring his influence to aid them in obtaining seats any time within the next month. For the first representation it is supposed that seats bought up by speculators will command a premium of five hundred francs each. The first representation of this opera will certainly be what the French call a "solemnity," and it is said that the Emperor himself has delayed his departure for Algeria one day in order to "assist" at it.

"Taken to the Woods."

The prospect is that we will never again have occasion to refer in poetical terms to that glorious old "Sun-Set" in the West, as it is announced that little Sammy Cox of Columbus is "going to the woods"—not to the grand old forests of the Buckeye and Hoosier States, but to the Woods of New York City—to Ben. and Fernando. There appears to be too much loyalty in the winds that sweep the broad fields and smilling prairies of the great West to suit the anti-conquering-rebellion proclivities of "the Buckeye who went abroad." He is to take lessons in the new Biology, as taught by Rev. Chauncey Burr to the Rebel sympathizers in Gotham.—*Cin. Times.*

MEDICAL.

MEDICAL SUCCESS EXTRAORDINARY.

100 DOLLARS PREMIUM!
SEMINAL WEAKNESS,
Or Spermatorrhœa, Gleet, &c., and
IMPOTENCY CURED,
AFTER ALL OTHER TREATMENT FAILS.
DR. A. GIBSON,

Formerly of New York City, will pay one hundred dollars for the proof that he ever fails to cure the above-named disease. He will pay the same sum for the proof that any other Physician in the United States treats the same disease with equal success.

After many years of laborious study and extensive experience, Dr. Gibson is happy in being able to announce to the unfortunate, that he has perfected a system of treatment for

THE SPEEDY AND PERMANENT CURE

of the above, and also all contagious diseases of the Reproductive Organs, with all bad effects arising therefrom, including Gonorrhœa!

DEBILITY OR NERVOUS PROSTRATION.

He has succeeded in curing cases in this city, some of whom had expended hundreds of dollars with self-styled physicians, who profess to treat all private maladies with secrecy, and without exposure of secret particle of benefit.

Dr. Gibson does not boast that he is a member of some College in London or Paris, as perhaps some others do for the purpose of enamoring the innocent, and who hold out great expectations never to be realized. But what Dr. G. might boast of is this, that he is able to give entire satisfaction to those who repose confidence in his ability and integrity, and that he has perfected an American system of treatment which challenges any Physician of London or Paris, or any patent medicine, to equal for the radical cure of seminal weakness, and all diseases or derangements, both mental and physical, arising from sexual or secret abuse.

Dr. Gibson also claims for his new treatment the following advantages over all others yet discovered: 1st and first, the agents used are free from all disagreeable; he uses no relics of the dark ages, such as Mercury, nor any other deleterious drug; secondly, no restrictions in diet or business is required; thirdly, his treatment is positive and certain in all cases. He stands prepared to go into any public or private hospital in the United States and demonstrate the immense superiority of his new treatment over any other now known to the world, in point of promptness, permanency, mildness, and an entire exemption to the patient.

Dr. Gibson is permanently located in Cleveland, and has during the last five years performed many cures of disease which had for years resisted all other modes of treatment. References can be given to prominent citizens of the Western Reserve, in Cleveland, Boston, New York and other cities, in regard to skill and integrity in all professional transactions. Dyspepsia, Rheumatism, Scrofula, all Diseases of the Urinary Organs, and all Chronic Diseases treated with superior success.

DR. SEELYE'S LIQUID CATARRH REMEDY.
Cure Warranted,
IF DIRECTIONS ARE FOLLOWED.
☞ CALL FOR A CIRCULAR DESCRIBING ALL SYMPTOMS.
SYMPTOMS:
The symptoms of Catarrh, as they generally appear, are at first very slight. Persons find they have a cold, that they have frequent attacks, and are more sensitive to the changes of temperature. In this condition, the nose may be dry, or a slight discharge, thin and acrid, afterwards becoming thick and adhesive. As the disease becomes chronic the discharges are increased in quantity and changed in quality; they are now thick and heavy and are hawked or coughed off. The secretions are offensive, causing a bad breath; the voice is thick and nasal; the eyes are weak; the sense of the smell is lessened or destroyed; deafness frequently takes place. Another common and important symptom of Catarrh is, that the person is obliged to clear his throat in the morning of a thick or slimy mucus, which has fallen down from the head during the night. When this takes place the patient may be sure that his disease is on its way to the lungs, and should lose no time in arresting it.
The above are but few of the many Catarrh symptoms.
A single Bottle will last a Month—to be used three times a Day.
