BELL'S SPECIFIC PILLS—WARRANTED IN ALL CASES—Can be relied upon. Never fail to cure. Do not hesitate. Are speedy. Do not nauseate. Do not disappoint. Can be used without detection. Upward of 1000 cures the past month—some of them very aggravated cases. Over one hundred physicians prescribe and use them in their practice, and speak highly of their efficacy, and approve of their simple nature, which is entirely vegetable and harmless on the system. Hundreds of certificates can be shown. Bell's Specific Pills are the original and only genuine Specific Pill. They are adapted for male and female, older young, and the only reliable remedy for effecting a permanent and speedy cure in all cases of Spermatorrhœa, Seminal Weakness, Impotency, with all the train of evils, Gleet, Gonorrhœa and Kindred Vaginal Discharges, Gleet, Stricture, Indurations, Inflammation, Gravel, Deafness, Dimness of Sight, Premature Old Age, Nervous Debility, Weakness or loss of Power, Nervous Debility, &c., &c., all of which arise principally from Secret Excesses or Self Abuse, or some constitutional derangement, and incapacitates the sufferer from fulfilling the duties of married life. In all sexual diseases, as Gonorrhœa, Gleet and Strictures, Suppression of Urine, Inflammation of Seminal Urinary, Sexual, and Nervous Diseases, who will send, free to all, the following valuable work, in sealed envelope:

THE PHYSICAL THOUGHTS.—Dr. Bell's Treatise on Self Abuse, Premature Decay, Impotence, Loss of Power, Sexual Diseases, Seminal Weakness, Nightly Emissions, Genital Debility, &c., &c., a pamphlet of 64 pages, containing important advice to the afflicted, and which should be read by every man. Never, as the means of cure in the severest stages is plainly set forth. Two stamps required to pay postage. Address, Dr. Bell, 80 Chestnut st., Philadelphia, Pa. my9:E3:m,w,f&wy

IMPORTANT TO LADIES—Dr. Harvey's Female Pills have never yet failed in removing difficulties arising from obstruction, or stoppages of nature, or in restoring the system to perfect health when suffering from Spinal Affections, Prolapsus, Uterl, the Whites, or other weaknesses of the Uterine Organs. The Pills are perfectly harmless on the constitution, and may be taken by the most delicate female without causing distress—the same time they act like a charm by strengthening, invigorating and restoring the system to a healthy condition, and by bringing on the monthly period with regularity, no matter from what causes the obstruction may arise. They should, however, not be taken during the first three months of pregnancy, though safe at any other time, as miscarriage would be the result.

Each box contains 60 pills. Price 1 00.

Dr. HARVEY'S TREATISE on Diseases of Females, Pregnancy, Miscarriage, Barrenness, Sterility, Reproduction, and Abuses of Nature, and emphatically the Ladies Private Medical Adviser, a pamphlet of 64 pages, sent free to any address. Six cents required to pay postage.

The pills and book will be sent by mail when desired, securely sealed, and prepaled, by

DAILY LEADER.

A New Poet Laureate.

The *Cornhill Magazine*, in London, paid Tennyson, the Poet-Laureate of England, sixteen hundred dollars for a poem, and the following two stanzas are just one-half of it, or eight hundred dollars worth:

What does little birdie say,
In her nest at peep of day?
Let me fly, says little birdie—
Mother, let me fly away.
Birdie, rest a bit to long?
Till thy tiny wings are stronger;
So she rests a little longer,
Then she flies away.

What does little baby say,
In her bed at peep of day?
Baby, says, like little birdie,
Let me rise and frolic away.
Baby, sleep a little longer,
Until her little legs grow stronger;
And after waiting, like the birdie,
Baby, too, shall fly away.

Isn't that grand? Isn't it the quintessence of poetry? Here's sixteen lines of our own, says an exchange, same style, same measure, and embodying about as much sentiment, for which we will willingly take a quarter:

What does little froggie say,
In his pond at peep of day?
Let me swim, says little froggie—
Bullfrog, let me swim away.
Froggie, wait a little longer,
Till your little legs are stronger;
So he mounts upon a chunk,
And then into the pond ker-chunk.

What do a little piggie say,
In his sty at peep of day?
Piggie, says, the little froggie,
Let me go and root to-day.
Piggie, wait a little longer,
Till your snout grows hard and stronger;
If you stick a bit in longer,
Piggie then may root away.

Sketch of Colonel Baker, the Government Detective.

The Philadelphia *Inquirer* has the following sketch of Colonel Baker, made famous by his operations in connection with the arrest of the assassins of the President, as well as other valuable services:

Lafayette C. Baker, the great American detective, was born in the State of New York, about the year 1825, and is consequently in the prime of life. The early part of his career was marked by no event of particular importance. In 1852 he came to Philadelphia, and became engaged in the mercantile business, which he followed until the time of his marriage, when he moved to Detroit, Michigan, and subsequently to California, where he entered the banking business as an agent for a leading New York house.

The great reign of terror which occured in that State a few days later, and which terminated in the entire assumption of power by the celebrated "Vigilance Committee," is doubtless fresh in the recollection of our leaders. Baker took a prominent part in the orgaization of this committe, and became one of leading members.

When the reign of civil law once more became established, he was appointed Chief of Police in San Francisco. In that position he signalized himself by his energy and his great detective powers, and held it until March, 1861, when he came to Philadelphia. Immediately upon the outbreak of the war he proceeded to Washington, with letters of introduction to Lieutenant General Scott, then commander of our armies, and was by him dispatched to Richmond as a secret agent.

On this dangerous mission he was eminently successful, and started back to Washington with a complete statement of the Rebel forces and maps of the fortifications, etc., of Richmond. He was, however, captured and taken back, but escaped from his captors, and, crossing the Potomac in a small canoe, reached our lines in safety and reported to General Scott. The latter immediately recommended him to Mr. Cameron, then Secretary of War, for permanent employment as a secret Government agent, in which capacity he still continues to act.

He first turned his attention to certain rascally clothing contractors, and by his thorough expose of their dishonest practices was instrumental in saving millions of dollars to the Government.

He next ferreted out a Rebel aid society in Alexandria, which had been conducting the operations of the secret Rebel mail. Then the blockade runners were made to feel the weight of the punishment which they richly deserved for the treason which he proved against them.

His operations among the bounty jumpers of New York, which struck terror to the hearts of that delectable fraternity, are of too late occurance to need detailed mention here. His latest and greatest achievement, the capture of the accursed assassin of our late lamented Chief Magistrate, having been fully detailed in the Inquirer of Monday last, need not be referred to now. Colonel Baker has played the most perilous parts of the war, and his name will be handed to posterity as that of the greatest detective of modern times.

Touching Incident.

Hon. John Covode was in this city on his return from a Southern tour, yesterday. He had lost two sons in the war, as he supposed, two years ago, and falling in with members of one of their regiments who had just been released from the rebel prison at Andersonville, Georgia, made inquiry preparatory to asking where his boys were buried. Judge of his surprise when he was answered:

"You must be prepared to learn, Mr. Covode, that James (the youngest son), couldn't come with us."

"Is my boy alive, then?" he inquired.

"Why, yes They couldn't kill Jim. He has too much scul. He was bound to live. He would have come with us, but he couldn't raise a twenty-five cent piece, the price they asked to release us."

"Whether I would have cried more," said the patriotic old man to us, "to have heard the tidings that I had lost another son, than I did on receiving this intelligence, is doubtful."

That son is now on his way home by the way of Richmond.—*Chicago Journal.*

A Discovery.

An employee in the Surgeon General's office has discovered a new use for petroleum, which it is said will materially affect the market value of that commodity and coal. His invention consists of a simple process of adhering the debris or dust of coal mines and yards with petroleum into lumps or blocked masses, which ignite readily without the use of soft coals or kindlings, lasts longer, and gives out a more intense heat than ordinary anthracite, and costs about one-half as much. Competent judges assert that this invention will cause a material revolution in the prices of coal. The inventor was led to his experiments by an article in the *Tribune*, speaking of the waste of coal involved in this dust, and the annoyance it proved at the mines and expense involved.—*Washington Cor. N. Y. Tribune.*

"The profits of cotton-growing have become so enormous that it is said the whole valley of the Nile has been converted into one vast cotton plantation. In place of producing breadstuffs for the inhabitants, with a vast surplus for exportation, the inhabitants are now supported with grain from Asia. The rebellion in America has thus revolutionized the industrial pursuits of the East. While the cotton-fields of the West have been converted into corn-fields, the rice and wheat-fields of the Orient have become as fertile in the great Southern staple as the sea-islands of South Carolina. With the suppression of the rebellion there will be a return to the cultivation of cotton, and the cheapness and abundance of its production will probably arrest the cultivation of it in Egypt."

The Springfield *State Journal* has been shown by some gentlemen from Iowa the identical "Kirkham's Grammar" which Abraham Lincoln studied while living in Petersburgh, Menard county, Illinois, about the year 1830. It was presented by Mr. Lincoln to the present Captain R. B. Rutledge, now of Burlington, Iowa, with whose father Mr. Lincoln boarded at the time. It originally bore upon a fly-leaf the name of Abraham Lincoln, with these not unfamiliar lines: "Steal not this book," &c.; but this has been torn out by subsequent usage. The volume, which is highly valued for its associations, is still the property of Captain Rutledge.

MEDICAL.

PRIVATE AFFAIRS,
IN WHICH
All Classes are Interested.

Farmers Drovers, Merchants, Lumbermen, Mechanics, Miners, Bankers, the rich and the poor, should ask themselves if the slightest SYPHILITIC, or so-called PRIVATE DISEASE, taint is lingering in their SYSTEMS, if so, they should apply in person, if possible; if not possible in person, by letter, and receive by return mail a blank circular of questions, which will enable my one to know positively just how they stand.

To the intelligent reader it is not necessary to publish the names of the many complications and forms assumed by this terrible scourge, yet it may be advisable to mention as most prominent SYPHILIS PRIMARY, SYPHILIS SECONDARY, and SYPHILIS TERTIARY, the latter involving the bones in its deadly pollution.

Every one should know, also, that many of the most obstinate and worst ULCERS THE THROATS proceed from this cause, and will, if not properly handled, ultimately result in loss of voice. Look to your throats, and consult the letter, or apply at

DR. DeHART'S
UNITED STATES HOSPITAL
AND
Private Medical Dispensary,
230 Jefferson Avenue, Detroit, Mich.
Near the Michigan Exchange Hotel.

Where every form of urinary and all other diseases of the procreative and urinary organs of both sexes are more successfully managed than at any other kindred institution in the country. Every one should know that whilst the slightest constitutional contamination exists, marriage is impossible, for the most reason that where offspring ensues disease is nearly always entailed. This, therefore, to expect the worst impediments to matrimony.

YOUNG MEN,

Suffering mentally and bodily from certain early improper practices, will find this a Dispensary where they are no uncertainty about getting relief, but where every case of such nature is cured perfectly. No books published by our house from this institution, by which the minds of the young are poisoned and they thereby ruined.

LADIES,

Married or single, requiring a Female Regulator, should enclose one dollar and three postage stamps, and by return mail they will receive with full directions the only reliable Female Regulator in use. This Regulator is fast becoming the favorite of ladies everywhere, simply because its action is mild and safe and can always be depended upon in removing obstructions from the system, and any other cause.

All correspondence strictly confidential. Letters on consultation should contain one dollar and a postage stamp for answer. Office and rooms arranged that patient never sees each other.

Consultation and advice at the office, free to the poor, every Saturday afternoon from 2 to
