SPECIAL NOTICES.

FOR MORE THAN TWENTY years MATHEWS' VENETIAN HAIR DYE has stood the test of trial, and is constantly increasing in public favor.

THE VENETIAN HAIR DYE is the best and cheapest made. Its price is only 75 cents, and each bottle contains double the quantity of dye in those usually sold for $1.

THE HAIR DYE is manufactured by a peculiar process, which renders it infinitely superior to any dye in market. Being complete in one bottle, no preparation is required, which greatly simplifies the application.

IN USING THIS DYE you avoid that rusty, dead appearance by which dyed hair and whiskers are so readily recognized, when an inferior article has been used, as it produces a perfectly natural color of any shade that is required, from a rich brown to a jetty, lustrous black, that will not smut, crock or stain the clothing. Invest 75 cents, and you will be convinced. Sold by all Druggists and Fancy Goods Dealers.

Saturday Evening's Edition.

New York News Items.

NEW YORK, September 23.

The Tribune's special says that since the washing away of the bridges of the Union Pacific Railroad Company over the Kansas river, the President has revoked his acceptance of the 40 miles said to have been completed, and has ordered a re examination of the road by the same commission that Secretary Harlan recommended several months ago. The commission consists of Col. Sampson, of the Engineer Corps, Gov. Crawford, of Kansas, and Hon. E. D. Scott, of Terre Haute. They will, in addition to a thorough inspection, make a map of the full length of the road.

It is not the Hon. J. Richard Barrett formerly Member of Congress from Missouri, who is implicated in the Government boat-burnings on the western waters, as has been stated, but James Barrett, formerly of Springfield, Ill., and supposed to be in Canada. The latter has been a notorious leader of the Knights of the Golden Circle at the West, while the former has been a determined Union man and for the past year a resident of New York City. J. W. Bell, Chief Counsel for the boat burners now on trial, is here endeavoring to induce the authorities to permit Jeff. Davis, Mallory Sedden, and others connected with the incendiary and disbolical scheme, to be sent to St. Louis for the purpose of testifying in the case.

The President recently said to an eminent person that in the event of a reorganization of his Cabinet he should not object to the selection of a thorough Southern man, believing it would strengthen the general desire for conciliation.

The active operations of the United States Sanitary Commission, which during the war was of such incalculable value to our soldiers in the field and in hospitals, will cease altogether by the first proximo, with the exception of its business of collecting soldier's claims, which will continue as long as the necessity for its continance ... the Commission will on closing its business of disbursing, turn over to the Freedmen's Bureau a large amount of its remaining stores for distribution among the destitute colored people of the South.

The Secretary of War has ordered the dishonorable dismissal of First Lieutenant G. Vanderwoort, of the 192d New York Vol., for making or allowing false entries over his own signature on the muster rolls of his company.

The Virginia Colleges are now in the hands of the Lee family. Robert E. is President of the Washington College, and his son, George W. Curtiss, has been appointed Professor of Engineering in the Lexington Institute.

The Board of Inspectors appointed by Governor Fierpont are with two exceptions original rebels.

Paymaster Holt was arrested and held upon charges of malfeasance in his office. He has, however, been released, an investigation proving his entire integrity.

Nearly one hundred and fifty rebels were pardoned to-day.

The East Tennessee & Virginia Central Railroad will be in running order in a few days.

Mexican News.

NEW YORK, September 23.

Documents concerning the free Government of Mexico are published by Mr. J. N. Navero, Consul General of the Republic of Mexico in the United States, including communications from President Juarez, and Mr. Romeo his Minister in Washington, and circulars from his Secretary of State, Mr. Lardo De Tijoda.

Juarez left Chicuahua on the 5th of August and arrived on the 15 h at El Paso, where he established his Government, surrounded by his Cabinet as we have heretofore announced, but notwithstanding that, he has found it expedient to thus temporarily change his capital. He is not only hopeful but confident of an ultimate and complete triumph over the invaders. He has still large bodies of troops. Now that the Imperialists have so greatly weakened their lines by extending them, the Liberals have begun to attack them in detail, and he anticipates decisive victories for his soldiers very soon. He does not think that Maximilian's will be likely to attempt to drive him from El Paso, but even should they succeed in doing so, he has no idea of abandoning his country, but will remove to some other point within its limits, and there continue the struggle sanguine of ultimate success.

The officers of the Mexican Republic who have arrived here, leaving El Paso about the beginning of the present month, say that the people of that town were unanimous in an enthusiastic reception of President Juarez.

Gen. Negrete, with one hundred officers, had gone to the interior to collect and discipline the recruits, and expected to be able to raise a large force in a short time.

The Herald's special says the Bench family, arrested by order of General Baker, for stealing and branding government horses, and in whose behalf Judge Wylie issued a writ of habeas corpus, have not yet been disposed of before a military court. The President set aside Judge Wylie's writ not so much to take these men out of the civil courts, as to deny a precedent, which it would, if established, open the prison doors to Wirz or any other criminal who might choose to avail himself of the writ.

The statement in the Washington column of the New York Tribune, that Col. Wm. Thorp is entitled to the credit of ferreting out the rebel incendiartes and steamboat burners on the Mississippi River, does great injustice to the late Col. Sanderson, of Philadelphia, to whom it really belongs. Col. Sanderson was at the head of the detective service in the Department of Missouri, and died at his post from excessive application to business. Col. Thorp was only phonographic reporter to Col Sandesoh, and was never Chief of the secret service there, as stated in the Tribune. This correction is due to the memory of a faithful officer, who literally sacrificed his life in the service of his country.

The World's special says it may be safely asserted that nothing definitely has been determined upon relative to the trial of Jeff. Davis. The new rumor that it is to take place in Richmond, about the middle of October, is merely groundless. The President has only gone so far as to declare that when it does come off, that it shall be before a civil tribunal. There is good authority for declaring that two or three members of the Cabinet are opposed to giving Jeff. Davis any trial whatever. They prefer that he should leave the country forever.

Steamboat Trial.

NEW YORK, September 23.

Shot Himself.

CLIFTON, CANADA, September 22.

IMPOTENCY CURED,

DR. A. GIBSON,

Formerly of New York City, will pay one hundred dollars for the proof that he ever fails to cure the above named diseases. He will pay the same sum for the proof that any other Physician in the United States treats the same diseases with equal success.

Over twenty years of laborious study and experience Dr. Gibson is happy in being able to announce to the unfortunate, that he has perfected a system of treatment for

THE SPEEDY AND PERMANENT CURE

of the above, and also all contagious diseases of the Reproductive Organs, with all bad effects arising therefrom, including General

DEBILITY OR NERVOUS PROSTRATION.

He has succeeded in curing cases in this city, some of whom had expended hundreds of dollars with selfsty'ed physicians, who profess to treat all private maladies with success, and without receiving the least particle o benefit.

Dr. Gibson does not boast that he is a member of some College in London or Paris, as perhaps some others do for the purpose of ensnaring the innocent, and who hold out great expectations, never to be realized. But what Dr. G. might boast of is this, that he is able to give entire satisfaction to those who repose confidence in his skill and integrity, and that he has perfected an American system of treatment which challenges any Physician of London or Paris, or any patent medicine, to equal for the radical cure of seminal weakness, and all disease or derangements, both mental and physical, arising from sexual or secret abuse.

Dr. Gibson also claims for his new treatment the following advantages over all other yet discovered:—and first, the agents used are in no respect disagreeable; he uses no relics of the dark ages, such as Mercury, or any other deleterious drug; secondly, no restriction in diet or business is required; thirdly, his treatment is positive and certain in all cases. He stands prepared to go into any public or private hospital in the United States, and demonstrate the immense superiority of his new treatment over any other now known to the world, in point of promptness, permanency, mildness, safety and convenience to the patient.

Dr. Gibson is permanently located in Cleveland, and has during the past five years performed many cures of diseases which had for years resisted all other modes of treatment. Reference can be given to individuals of the first respectability in Cleveland, Boston, New York and other cities, in regard to skill and integrity in all professional transactions.—Dyspepsia, Rheumatism, Scrofula, all Diseases of the Urinary Organs, and all Chronic Diseases treated with success.

PRIVATE AFFAIRS,

IN WHICH

All Classes are Interested.

Farmers Drovers, Merchants, Lumbermen, Mechanics, Miners, Bankers, the rich and the poor, should ask themselves if the slightest SYPHILITIC, or so-called PRIVATE DISEASE, taint is lingering in their systems, if so, they should apply in person, if possible; if not possible in person, by letter, and receive by return mail a blank circular of questions, which will enable any one to know positively just how they stand.

To the intelligent reader it is not necessary to publish the names of the many complications and forms assumed by this terrible scourge, yet it may be advisable to mention as most prominent SYPHILITIC PRIMARY, SYPHILIS SECONDARY, and SYPHILIS TERTIARY, the latter involving the bones in its deathly action.

Every one should know, also, that many of the most obstinate and worst ULCERS AND THROATS proceed from this cause, and will, if not properly handled, ultimately result in loss of voice. Look to your throat betimes, and consult by letter, or apply at

DR. DeHART'S
UNITED STATES HOSPITAL
AND
Private Medical Dispensary,
130 Jefferson Avenue, Detroit, Mich.
Near the Michigan Exchange Hotel.

Where every form of SYPHILIS and all other diseases of the prostrative and urinary organs of both sexes are more successfully managed than at any other similar institution in this country. Every one should know that whilst the slightest constitutional contamination exists, marriage is impossible, for the good reason that where offspring ensues disease is nearly always entailed. This, therefore, is one of the worst impediments to matrimony.

YOUNG MEN,

Suffering mentally and bodily from certain early improper practices, will find this a Dispensary where there is no uncertainty about getting relief, but where every one of such cases are cured permanently. No books published by nor issued from this institution by which the minds of the young are poisoned and they thereby ruined.

LADIES,

Married or single, requiring a Female Regulator, should enclose one dollar and three postage stamps, and by return mail they will receive, with full directions, the only reliable Female Regulator in use. This Regulator is fast becoming the favorite of ladies everywhere, simply because its action is mild and safe and can always be depended upon in removing obstructions from colds and any other cause.

All correspondence strictly confidential. Letters on consultation should contain one dollar and a postage stamp for answer. Office and rooms arranged that patients never see each other.

Consultation and services at the office, free to the poor, every Saturday afternoon, from 3 to 5 P. M. Office and Dispensary open from 8 A. M. to 8 P. M., daily, except Sundays. All necessary surgical operations performed.

Address, DR. DeHART,
Post Office Drawer 625, Detroit, Mich.

Enclose two postage stamps and send for circular of questions, and, if properly answered, medicines can be sent to any part of the country. Remember these cases must be cured or the worst consequences follow. ma9:1y da.w

Golden Periodical Pills,

FOR FEMALES.

Infallible in Correcting Irregularities, Removing Obstructions of the Monthly Turns, from whatever Cause, and ALWAYS SUCCESSFUL as a PREVENTATIVE.

It is now over thirty years since the above celebrated Pills were first discovered by Dr. DUPONCO, of Paris, during which time they have been extensively and successfully used in most of the public institutions, as well as in private practice, of both hemispheres, with *unparalleled success in every case*, and it is only at the "urgent request" of the thousands of Ladies who have used them, that he is induced to make the Pills public for the alleviation of those suffering from any irregularities whatever, as well as to prevent an increase of family, where health will not permit it. Females peculiarly situated, or those supposing themselves so, are cautioned against using these pills while in that condition, as the proprietor assumes no responsibility after the above admonition, although their mildness would prevent any mischief to health, otherwise the Pills are recommended.

Price, $1.00 per Box. Six Boxes $5.00.

DR. SEELYE'S

LIQUID

CATARRH

REMEDY.

Cure Warranted,

IF DIRECTIONS ARE FOLLOWED.

CALL FOR A CIRCULAR DESCRIBING ALL SYMPTOMS.

SYMPTOMS:

The symptoms of Catarrh, as they generally appear, are at first very slight. Persons find they have a cold, that they have frequent attacks, and are more sensitive to the changes of temperature. In this condition, the nose may be dry, or a slight discharge, thin and acrid, afterwards becoming thick and adhesive. As the disease becomes chronic the discharges are increased in quantity and changed in quality; they are now thick and heavy and are hawked or coughed off. The secretions are offensive, causing a bad breath; the voice is thick and nasal; the eyes are weak; the sense of the smell is lessened or destroyed; deafness frequently takes place.—Another common and important symptom of Catarrh is, that the person is obliged to clear his throat in the morning of a thick or slimy mucus, which has fallen down from the head during the night. When this takes place the person may be sure that his disease is on its way to the lungs, and should lose no time in arresting it.

The above are but few of the many Catarrh symptoms.

A single Bottle will last a Month—to be used three times a Day.
