REV. DUDLEY A TENG, of the Episcopal Church, a young man of the highest order of talents, formly Rector of Trinity Church, Columbus, and known to most of our church going citizens, met with a serious accident at his residence in Pennsylvania last week, which has since resulted in his death. While witnessing the operation of a threshing machine, the sleeves of his loose wrapper caught in the cogs of a revolving wheel and drew in his arm, which was terribly lacerated. Mortification having commenced, the arm was amputated near the shoulder, but the unfavorable symptons still continued, and death ensued in a few days after the operation had been performed.

On Fridoy the 23d inst., Rev. Dr. NAST, of Cincinnati, will deliver, at the Chapel of the University, two lectures on the Evangelical Alliance—one at 4 o'clock p. m., the other at 7 p. m. These lectures have been delivered at Covington, Cincinnati and other places with great eclat. Our citizens are invited indiscriminately and gratuitously to a rare entertainment of which we trust they will avail themselves.

The Premium List and Rules and Regulations for the next Annual Fair of the Delaware County Agricultural Society, will be found in our columns to-day. The exhibition takes place on the 29th and 30th September, and the 1st of October next. In the course of a few days pamphlet copies of the list will be ready for distribution and procurable of the Secretary, Mr. E. PRATT, and at the store of R. E. HILLS & SON.

Those two ornamental structures on the public square—the old Court House and the Thespian Building—will soon be among the things that were. Workmen are now engaged in removing both of them.

Charade.

Three syllables, my name compose,
As I my theme pursue,
My first of letters two suppose,
And those are found in blue.

My second stands upon the shelf,
And holds the dainties rare,
And we would not, at least ourself,
Object to such a share.

My third will call a lovely maid,
At least it speaks her name;
My whole much honor has been paid,
But now, dishonor, shame.

Kind reader, know that letters eight,
Compose my hidden theme,
I pray you guess and then to state,
The answer of our scheme.

Answer next week. ISAAC.

Answer to Geographical—the Ohio Wesleyan Female College, Delaware Ohio, STOCTON.

THE LEGISLATURE.—The Wooster Republican says that after a worse than useless session of 100 days, most of the time being spent in Legislating for "nigger" driver's of the South, the Ohio Legislature has finally gone home temporarily; having first resolved to hold an Extra session next winter at an additional expense of not less than $75,000 or $100.000.

"BLACK REPUBLICAN".—A MISNOMER.—The Cleveland Plaindealer says that "henceforth the term *Black* Republican becomes a misnomer. We have no further use for it.

Lord John Russel said in parliament that he had rather bribed voters should escape than that "wealthy bribers should go unpunished." Good.

The "Central Bank" a private institution belonging to John C. Ramsey, Henry B. Curtis and Mrs. E. C. Plimpton, at Mt. Vernon, has made an assignment. It became crippled by failure of Eastern correspondents and by inability to make home collections. The partners claim to be abundantly able to pay all their liabilities.—[Zanesv. Cour.

Chinese coolies are arriving at Havana in great numbers. In one week, 3000 were landed. They command twenty-two ounces a head, as there is a steady demand for their services.

The cost of drawing, lithographing and coloring the pictures which appear in the third volume of reports on the Pacific Railroad Survey ordered by Congress is 105,204. Rather a costly book.

SUPREME COURT SALARIES.—The House of Representatives on the last night of the session, passed the Senate Bill, fixing the compensation of Supreme Judges hereafter elected, at three thousand dollars per annum.—[Ohio Statesman.

HOLLOWAY'S OINTMENT AND PILLS.—It is dangerous to suppress an abscess with the astringent ointments in common use. Holloway's famous urgent operates on a different principle. It does not close the issue superficially, while

"Foul corruption mining all within
Infects unseen."

but purges the cavity of all acrid and inflammatory matter, and expels every particle of the discorous virus which generates the *pus*. Consequently, there is no danger of the disease breaking out in another place. The same principle applies in all eruptive and glandular affections. The Pills, which are a certain remedy for all complaints of the stomach, live, and bowels, may be beneficially used as an aperient medicine, while the Ointment is removing any external disorder.

MURRAY AND LANMAN'S FLORIDA WATER.—Chemistry involves coarse imitations of the scent of flowers from many revolting ingredients; but the refreshing odor which exhales from Murray's floral essence, as the swing in the breezes of the tropics, cannot be stimulated.—Hence the superiority of this celebrated perfume the concentrated essence of flowers, gathered in the groves of Florida, over other scented waters; hence, too, the tenacity with which it clings, without change, to whatever it touches. We know of nothing that can approach it in delicacy and imperishability, except the finest Eau de Cologne; and it is preferred by the ladies of South and Central America, Mexico, and the West Indies to that famous article. Its costs, we believe, only a florin, half the price. As there are imitations, it is necessary to inquire for *Murray and Lanman's Florida Water.*

THE WORST OF ALL THE ISMS.—"Don't talk to me about your political isms!" said a facetious old valetudinarian. I tell you there is no isms earth, but such as Rheumatism." The venerable sufferer was right. St. Lawrence's gridiron or Quattimodo's pallet of fire was not more emphatically a bed of torment than the couch of the martyr to Rheumatism. It is generally considered by the faculty one of the most obstinate as well as one of the most painful of maladies, and it certainly does resist all ordinary remedies with extraordinary pertinacity. Skill and science, however, in this age of progress seem to master all opposition, and even this painful disease entrenched among the muscles, and intortisht as it were with the sinews and tendons of our frames, is compelled to yield to the curatives they have provided.

We have it on unquestionable authority—the testimony of patients themselves—that Rheumatism, however deeply seated, may be cured by the regular and persistent application of Holloway's Ointment. This, we feel assured, will be welcome intelligence to thousands of sufferers, bed-ridden by the disease or limping with stiffened joints along the pathway to the tomb. In a climate where the quicksilver sometimes makes a leap of thirty degrees up or down, the complaint is of course a prevalent one, and in our new settlements at the West, along the alluvial borders of our great rivers, in the hemlock swamps of the South, and in all low and damp locations, few such persons reach the age of forty years without a rheumatic visitation. It is clear, therefore, that a preparation which will afford immediate relief, and effect eventually a thorough cure of the complaint, must be of especial value to the people of this country. We cannot reasonably doubt, in view of the well attested statements which have been laid before us, sustained as they are by circumstances within our own knowledge, that the Ointment referred to will effect that object, and among all benefits which that celebrated physician and philanthropist have conferred upon mankind, this is certainly not the least important. Many an industrious tiller of the soil, whose services are needed in the field, is at the moment languishing on a bed of sickness; the lands that should guide the plow or grasp the spade, rendered powerless by Rheumatism.—Many a toiler in every branch of productive labor is similarly stinted, and we can imagine with what joy these sufferers would hail the means of immediate cure. To all such we feel justified in recommending this balsamic remedy, to the application of which, with the aid of a few doses of Holloway's Pills to regulate the internal organs, would, we feel assured, restore them to health and usefulness.—*N. Y. "Sunday Times."*

SPRING MEDICINE.

GET THE PUREST.
GET THE CHEAPEST.
GET THE MOST EFFICACIOUS.

In short, get THE BEST, which are *Dr. Roback's Scandinavian Blood Purifier and Blood Pills.* These wonderful Medicines are entirely vegetable, leave no bad effects, and can not by any possibility injure the most delicate constitution. Never were a good Spring Medicine more necessary as now, for in addition to the Skin Diseases and deranged Stomach and Liver, which every Winter produces, it is most evident to all who are accustomed to note the powerful influence of cold or ill that the mind has upon the body, that the anxiety of mind caused by the late wide-spread money troubles, has injured the general health of almost every one. Nothing strengthen and purify yourselves with the Scandinavian Remedies, and you will probably save yourself from serious illness the coming summer.

It has become an established fact that Dr. SANFORD'S INVIGORATOR will cure Liver Complaint, Jaundice and General Debility. Many people, personally known to the whole world, cannot be doubted, have given their certificates to prove this, and with such a mass of evidence who can doubt. It is truly the world's friend, and will give relief when all other remedies fail, and in some instances that have come under our observation it proved the means of snatching its victims from the grave. We wish all who need medicine would try one bottle, for it will surely give relief.

OHIO WHITE SULPHUR.

THESE CELEBRATED SPRINGS, (heretofore known as "Hart's Springs,") on the Scioto River, 1 mile south Scioto Bridge Station, on the Springfield and Delaware Railroad, 5 miles from Delaware, on the Cleveland and Columbus Railroad, and 17 miles from the city of Columbus, will be opened to the public seeking health or pleasure, on the 25th of May, under auspices and with appointments that will make it First Class in every particular.

The present proprietors of the Ohio White Sulphur have liberally added to the buildings and general accommodations of the estate, and have fitted and furnished the whole on the suggestions of taste and luxury.

THE CHARMS OF THE CENTRE GRAVE.

The scenery of and near the domain has been thought to be the finest in Ohio, the air is pure and healthy, and the medicinal properties of the wonderful Spring (acting 120 gallons per minute) are now admitted to possess curative and recuperative influences superior to the famed White Sulphur of Virginia.

There are attached to the establishment all the accessories found at the first Summer Hotels of the country.

The lawns and grounds about the Hotel are spacious and well kept, and the beautiful drives through the old forests and along the romantic river are singularly attractive, though quite secluded.

Carriages and omnibuses are always in readiness at Columbus and Delaware to convey parties to the Springs.

Arrangements can be made for rooms by addressing ISAAC PAUL, Columbus, Ohio.

I had had a violent cough for the eight months previous, accompanied with profuse of enormous quantities of purulent matter, such as issues from an old sore; sometimes I spit a pint at a time. The quantity of matter in the chest becomes great as to cause an enlargement sensible to the touch of the breast. When the access broke, the flow of matter was so profuse as nearly to choke me to death.
