The subscriber having purchased and refitted the building situated on Sandusky street, near Delaware Run, known as the "OLENTANGY IRON WORKS," will be happy to see and wait upon his old customers and all persons wishing articles in his line. He has on hand a larger and finer assortment of

CARRIAGES AND BUGGIES

than heretofore offered for sale in Delaware. The undersigned would inform his friends and customers, to whom he is so much indebted for their liberal patronage, that he is sparing no pains or expense, in order that he may furnish work in his line, of a style and quality, equal to any made in the Western country, (or Eastern either). He has made arrangements by which he receives the duplicate of all new styles of Carriages and Buggies, as fast as they are introduced in Philadelphia and Cincinnati, and keeps experienced workmen at all the different branches of his business. He can with confidence say, that he has not a job on hand, neither will he have, which is not of

THE LATEST STYLE.

Finally, he would say he thinks his work is not *to be man any where*. Having the disposition, means and ability, he will please you if you but give him a call.

All work manufactured at his establishment warranted.

FURNITURE.

A. WELCH would call attention to the large and select stock of superior

Cabinet Furniture, Chairs, Bedsteds, Mattrasses, &c. &c.

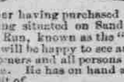
to be found at his Ware Rooms on the west side of Sandusky street, one door North of Clancy's Hardware Store. His stock comprises a general assortment of City Made Furniture as well as articles of his own manufacture—all which will be sold for prompt pay at the lowest possible rates.

He has also received a supply of the celebrated Dodge & Co's. *Patent Spring Bedsted*, an article that will repay a careful examination, as they are the very best spring bottom bedsteds manufactured. Please call and see.

UNDERTAKING.

He is prepared to respond promptly to all calls in this line—will manufacture to order Coffins of any desired style—and constantly keeps on hand a supply of the justly celebrated

Patent Metallic Burial Cases,



The superiority of this description of casement for the remains of deceased friends is universally acknowledged where they have been used—being air-tight, they are especially well designed for keeping a corpse in warm weather or for an unusual length of time, as well as in preserving it from the encroachments of water &c. after interment. "True it is, the body so deposited is nothing but dust, and it is a wise and holy law of nature, that to dust it shall return; but still how much more consolatory to the surviving friends is the reflection, that this body shall be permitted to pass again into, and form a part of its native element by the aid of time and natural causes alone, instead of being immersed in water and exposed to the depredations of insects; by which the remains are consumed before their ordinary and natural decay; or how satisfactory it would be to feel assured, that the remains in the earth where it had been placed, without disturbance from the knife of the dissector, or any other human agency?"

A HEARSE, accompanied by a careful driver, will at all times be procurable for funeral occasions.

DENTISTRY.

THE subscriber, a Resident DENTIST, has recently introduced into this place a process of inserting NEW TEETH ARTIFICIAL TEETH; and he is now prepared to make for those who may desire it, a superior style of

Porcelain Teeth,

according to the Parkerbloat Patent. This work he will warrant to be superior to any other Porcelain work; and its adaptation will be apparent on an examination of the work. He is also making the work of recent introduction denominated

Cheoplasty,

and in making this style of work, he can give better satisfaction in adaptation to the mouth than by any other style of work. The adaptation is perfect.

He has been making for the last three years, and is now prepared to make a superior quality of

Continuous Gum Work,

as patented by Dr. John Allen, of New York. And in this work he will defy the world to beat it for natural beauty and comfort. He has adapted this work in such a manner in cases for the last three years, and it is still giving the very best of satisfaction.

He is also prepared to furnish the VULCANISED RUBBER TEETH, which are said by some to be the best.

He is prepared to make ALL OTHER KINDS OF WORK, Gold, Silver, and Tallium in all styles and at all prices.

TEETH PLUGGED with the Gold Foil, which is recommended for twenty five or thirty years. Children's Teeth carefully attended to, and treated on principles of regulation. He will have on hand hereafter Material of all kinds, and will be prepared to do all kinds of work on the shortest notice. All work will be warranted as GREAT as can be had elsewhere, when executed in the same workmanlike manner, and will be warranted to give perfect satisfaction—and if not so, it will be taken back and thoroughly tried to make it right, and if he fails he will refund all money received. He will have on hand in a few days SAMPLE WORK of all the above styles.

To those who may require the services of a dentist will find it greatly to their interest to call and examine his sample work, and mode of operating.

TERMS CASH. ☞ Office on Sandusky street, in the Stone Building, second floor, south side.

Patients, the gorgeous sunshine, is no longer obscured, or altered, for with remedy not only relieves, but BOTH ACTUALLY CURE this horrible disease.

But one trial will serve to prove the fact. Do not delay to an early grave, when a sure remedy is at hand. This Wonderful Remedy has done more to alleviate human suffering than all other means put together. It has the *great last sale of any medicine in the world* for Pulmonary Complaints, from Maine to the most retired dwellings in Oregon, or wherever Consumption is known, Asthma, Pa'ns, carrying health and joy into the abodes of family.

The remedy speaks equal to it in building up a system, that, under the influence of various diseases, lurkships, or exposures, has run down and lost its natural tone and vigor, the great remedy is its power over the lungs, it heals the ulcerated Bronchial, and arrest the deposit of tubercle in the lungs, and it has cured more than a million in this section.

Take Cod Liver Oil, Cherry Syrups, Cherry Pectorals, Tonics, Expectorants and Pulmonary pulled nostrums for this disease; combine all their virtues in one, and we should not have a remedy which would, at all, compare with this Pulmonary Balsam. Yet there are many who have been deceived by advertising that they can cure consumption, and they can not prevent people from dying, and they can not even relieve the pain, even your hacking cough, for a short time as we can furnish in one mouth. This may look like boasting, but it is the solemn truth.

The medicine is a pure vegetable compound, but readily prepared for using in a liquid form, according to the directions which accompany each bottle.

Testimonials are promptly made by mail and express. Less than half a dozen bottles are usually sent by mail. Half dozen bottles are more than usually cure a common case, if there is a direct express line; if not, they are sent by mail, in a strong pasteboard box.

PRICES.—One bottle, $7.00; three bottles, ordered at one time, $18.00; half dozen, $36.00; one dozen, or any number greater, at the rate of $3.00 a bottle.

The postage in the United States, not over 3,000 miles, is fifteen cents for one bottle, and twenty cents for two. In all cases the amount should be inclosed in money or stamps in remitting to the proprietor, Dr. Newton.

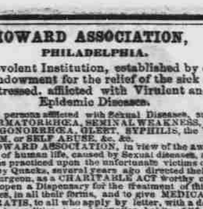
REV. L. L. LANGSTROTH'S PATENT MOVEABLE COMB Bee Hive.



THE subscriber having purchased the Patent Right for the above valuable Hive, in several counties in Ohio, and prepared himself for their manufacture, at his Mill in Scioto township, Delaware County, Ohio, now offers it for sale. This Hive is the result of twenty years of patient study and experience of a PRACTICAL AND SCIENTIFIC BEE KEEPER; and in offering it to the public, the undersigned feels that he is NOT OFFERING THE mere contrivance of a scheming speculator, but the whole of REV. L. L. LANGSTROTH'S GENUINE WORTH, which will MEET THE WANTS AND DIFFICULTIES which have for hundreds of years thwarted the aims and hopes of the bee-keeper. It is exceedingly simple in its construction and arrangement, while it gives to Apiarians perfect control, not only of his bees, but of the worm or any other enemy to their prosperity, by having free access, not only to every part of the hive, but to every inch of comb in it, and that without the slightest danger or injury to either himself, the bees, honey, comb, hive, or anything else.

To enumerate fully all its advantages would require too much space for an advertisement; but the following are some of them:

Destruction to and prevention of injury by Bee Moth.

Ventilation to every inch of the hive, and the comb in it, without injury.

Knowledge (not conjecture) of the precise condition of the bees and their prospects at pleasure.

Swarming the bees, (at will,)—thus saving the necessity of watching for swarms.

Multiplying the number of swarms at pleasure.

Preventing natural swarming.

Strengthening weak or small swarms stamy and at all times.

Taking the honey in any form or quantity desired without destroying the bees.

Selecting and taking the new and leaving the old honey, at will.

Feeding the bees in cold (or warm) weather, without expense.

Protecting the bees in extreme cold weather.

Adaptation of the hive to the size of the swarm—large or small.

Preventing the (too great) accumulation of drones, which consume but do not gather honey.

Ascertaining when the queen is lost or dead, and supplying the colony with another.

In short, there is no operation necessary to be performed which cannot be safely and easily done with this hive, and it opens to every intelligent man, a new, easy, safe and certain mode for successful bee culture.

The best proof of its superiority is the fact of its supersedding all other hives and RETAINING ITS SUPREMACY wherever it has been tested; yet it is so simple that all who see it are struck with wonder that it was not sooner discovered or invented. My Agent (Dr. G. W. Newlove,) will be happy to show the hive, with and without bees in it, to those who may call at my place.

Price for hive and individual right, $10.

RICHARD COLVIN,
5 miles west of Delaware, on the S. M. & P. R. R.

N. B. The inventor of the above hive has published a most valuable work on Bees, which is the result of 19 years of arduous study and costly practical experiment, which every bee keeper should read and study. It may be had (by those who wish it) of my agent. Price $1.25.

Bees will be transferred from any hive into the Langstroth hive by Mr. Newlove, at my place, free of charge.
