DISTRICT COURT.—The term of this Court for 1858, in Delaware County, commences on Wednesday next, June 2d. We are indebted to the Clerk, B. F. LOOFBOURROW Esq., for the following lists of jurors, embracing the regular pannel, as also a special jury detailed for the purpose of trying the case of Jacob Terry and wife against the C. C. & C. Railroad Company:

REGULAR JURY.—Elam A. Vining Berlin; William Ferguson, Brown; Jesse H. Said, Concord; Joseph Slough, Delaware; William Chalkstanik, Delaware; John Moses, Delaware; H. H. Allen, Genoa; Jonathan T. Gardner, Liberty; George A. Gooding, Orange; H. C. Strickard, Scioto; James Richey, Scioto; Wm. M. Warren Scioto.

SPECIAL JURY.—Elijah Young, R. Letts, J. W. Foote, Berkshire; T. J. Scott, Marshall Janes, Berlin; Jonathan Sheets, Brown; Lyman Glick, Concord; Rily J. Lott, Kingston; Denison Searles, Trenton; Eber Humphreys, Liberty; G. W. Wells, Jay Dyer, Genoa; J. A. Fetters, Wm. Tompkins, H. S. Hubbell, J. Q. Adams, Harlem.

We copy on the first page an article strongly commendatory of the Langstoth Bee Hive, from the pen of Mr. STURTEVANT of West Cleveland, an extensive and experienced Apiarian. We learn that Mr. COLVIN is prepared to fill all orders for hives this spring, and so well satisfied has he become of their superiority that he has recently added largely to his territorial right to manufacture and sell them.

O. W. FEMALE COLLEGE.—The examination of the classes in this institution will commence Monday morning, June 7th, and close Tuesday afternoon. The Commencement exercises will be as follows: Wednesday, 9 o'clock A. M., Essays by Graduating Class, in William Street M. E. Church. 2 P. M., Baccalaureate by the President, and Conferring Degrees.

We have been furnished by the officers of the institution with a copy of the "Fifth Annual Catalogue of the O. W. Female College, for the year 1858"—from which it appears the total number of pupils in attendance is 212, classified as follows: Classical 43, Scientific 162, Ornamental 7. The next term commences August 5.

We understand both the county and municipal authorities remitted the usual license fee to Mr. LENT, whose Circus performs here to-day—which action meets the approbation of our citizens generally.

The continued drenching rains keep the earth so saturated with water that even on rolling lands corn planting is rendered difficult, while on the low and flat lands it must, under the most favorable circumstances, be retarded to a degree rendering the securing of a crop exceedingly doubtful.

Wm. W. FAY, for many years a resident of this place, died recently at his new home in Illinois.

We are grieved to learn that Miss Mary Kershner, daughter of Mr Martin Kershner, residing in the southern part of this township, committed suicide on the evening of Friday last by taking strychnine. She was a young lady of no ordinary grade of intellect and personal beauty—universally beloved and of an unblemished character. Her untimely death is lamented by a large circle of friends and relatives. The cause that drove her to commit the deed is shrouded in mystery.—[Springfield Rep.

HOME TESTIMONY.

HARTFORD, Trumbull County, O. March 7th, 1857.

I hereby certify that I have been dealing in the Graefenberg Medicines for the past four years, and can truly say that I have never offered any medicines to the public that have met with the decided approbation of the people like these, particularly the Pills and Catholicon. They will readily perform all and more than is promised for them. I have sold about fifty bottles of the Catholicon the past season, and I hear the best results in every case.

J. H. C. JOHNSON N., Medical Agent.

Read what Dr. Trumbull says of the Graefenberg Medicines. Dr. *T.* is a physician of extensive practice, and one of the most successful in the county (Trumbull) in which he resides.

"This certifies that I have used the Graefenberg Pills and Marshall's Catholicon, sold here by J. H. C. Johnson, in my practice to my entire satisfaction. They are good medicines.

Hartford, Trumbull Co., March 7, 1857.

I am a physician of thirty years' practice. My principal study has been diseases of females. They have generally baffled my best efforts. Obtaining the materials composing Marshall's Uterine Catholicon, I was pleased with them; gave them a fair trial, and found myself abundantly successful. In my future practice I could only anticipate the symptoms of about half the cases, and could not cure one in ten; now I can radically cure at least seventeen in twenty and mitigate the rest. I consider Marshall's Uterine Catholicon the greatest blessing to females I have met with.

J. H. WILLIAMS, M. D., Charleston.

WEST BEDFORD, Coshocton Co. May 24, 1857.

Mr. H. B. Kingsley—Sir: I have been selling the medicines of the Company for the last two years, and have invariably found them to give good satisfaction; and the Pills I have sold to a great many families as regular family medicines, and will say that the trade for them becomes a staple article. Marshall's Uterine Catholicon is a medicine that has done a great amount of good in Female Diseases. One lady I sold it to said she had received more benefit from one bottle than she did from a long course of medical treatment by the most skillful physicians.

Yours truly, JAMES WILSON.

THE CLEVELAND

WOOL DEPOT.

Established in the Winter of 1854,

HAS been in operation over four years, during which period, though its progress has been impeded by the stringency of 1857 and 1857, the practicability of its plan has been clearly demonstrated. That the house offers superior advantages to the WOOL GROWERS OF THE WEST, as a medium for passing their wools into the hands of the manufacturer, is now a matter of question. Without entering into any large number of Wool Growers over a wide range of country, who have availed themselves of these advantages during the last four years, and who can testify to the satisfaction, and the receipts have been larger from Merchants and Wool-buyers than from Wool growers, and this may be accounted for mainly from the fact, that, as a class, Wool-growers have been more easily influenced and misled than the former, by the statements of a few opposers who have an object in view in having for their object the withstanding of the wool trade, or the enhancement of prices to the producers.

The past year, characterized as it has been by the most disastrous commercial embarrassments, has tested the most unfortunate for negotiating and managing sales of wool, and the fact that the concern has been remarkably successful, notwithstanding these disadvantages, and given almost universal satisfaction to consignors, should, we think, inspire every large number of Wool Growers with confidence from wool growers.

To those who have been prejudiced by false rumors, and who have manifested a want of confidence, we have frequently made advances and offered prices higher than those charged for their wool. Such advances, however, should not be required, as the enterprise was started for her benefit, and into it great pains have been already kept in view, and we hope the encouragement will be such as to enable us to continue our business. Indeed, we could, from partiality to the present year, assume sufficient to withstand such influence and fulfill our wishes for an extensive sale.

This year must be a peculiarly favorable one for wool-growers to test the merits of the Wool Depot system, and we be united during the year with those who are disposed to consign to us, that they will avail themselves of

Better Prices

than they can obtain by any other method, and would, we trust, become permanent friends of the enterprise.

At this House, the

Wool is Closely Classified!

into different STYLES and GRADES, thus rendering it more attractive to the manufacturer, who frequently does not visit the market to purchase manufactured. Here he can obtain the particular grade of wool adapted to the quality of goods he manufactures, and can thus afford to

Pay 3 to 5 Cents a Pound More

Than under the old system of employing agents and subagents to canvass the country to procure his stock. Here he can find uniform grades. Which are WELL KNOWN to Eastern Manufacturers, that the only expense attending their buying is a letter or telegraphic dispatch, ordering a by payment of the quality.

☞ To those who wish to consign Wool to us, we will forward sacks, and by express or other conveyance, and marked so that no other directions would be required save the West reach us.

Wool Twine

For tying up Wool, will be sent to those ordering, at manufacturers prices.

than heretofore, if desired.

Hoping to receive a much extended patronage from the Wool Growers of the West, we remain, with promise undivided attention to their interests, and remain

THE EXILES OF FLORIDA.

By JOSHUA R. GIDDINGS.

Illustrated With Six Fine Engravings.

One Volume, 12mo. 320 pp.

THIS work will portray, with characteristic fidelity, the crimes and sufferings of the victims of American slavery, that the Marshals who fled from South Carolina and other Slave States, seeking protection under Spanish laws. It will also show the bad faith exercised towards the Indians of Florida, as also found to present a true view of the long-fought FLORIDA WAR.

The object of the work is to operate upon the political morality of the country, by calling forth the sympathies and moral feelings of the people, and by condemnation of the tyranny of the Executive and its supporters, should commanda share of the attention of every American.

The long and distinguished services, high personal character, and known ability of the Writer, will be a sufficient guarantee for its execution.

The Washington correspondent of the New York Evening Post, who examined some of the sheets, speaks thus of it:

"I have examined it with pleasure and instruction. The work will prove a valuable history of important events which will undoubtedly be passed over by those who claim to be the historians of this country, either on account of the 'peculiar institution' which it concerns, or because they have not the facilities for acquiring information on the subject. To any other man than Mr. Giddings, the subject of the Spanish Maroons or Seminole slaves would become complex and remote. Perhaps there has been no subject which he has more thoroughly investigated in the course of his public duties, for any that he comprehends better than this. The book will cover a vast deal of important information besides that of which it is the especial object of the author to treat. The character of Osceola, as delineated by the pen of Mr. Giddings, is grand to contemplate. His parentage, marriage, romantic life and noble death make up the most thrilling and instructive episode in the work, and while this whole is produced in the usually earnest, clear and concise style of the author, it is also beautified with a romance more charming than can be gathered from the world of fiction."
