THE DAILY APPEAL.

SATURDAY.....JANUARY 17, 1857.

☞ Col. SAM. TATE has been elected a Director of the Memphis and Little Rock Railroad Company, in place of Mr. WILLIAMSON, resigned.

☞ We invite attention to the advertisement, elsewhere, of the resolution passed by the City Council, last evening, in executive session, in relation to the leasing of the Navy Yard grounds.

☞ We have received a charming Christmas story from Messrs. GEO. PATTISON & CO. It is from the pen of CHARLES DICKENS, Esq., and is entitled, "The Wreck of the Golden Mary."

☞ In answer to numerous inquiries as to the time when Col. DILL will return, we will state that we received a dispatch from him on Thursday, intimating that he would be at home about the 1st of February.

☞ We learned yesterday that for some days past, persons have been engaged in chopping wood, at the point on the other side of Wolf river, and bringing it to the city and selling it. This wood belongs to the city, and we doubt not the Mayor will take cognizance of the matter to-day.

☞ There will be services in the First Baptist Church, to-morrow at the usual hours, and services may be expected every Sunday, from that time—Rev. W. CARY CRANE preaching the 2nd and 4th Sundays of each month, and Rev. C. B. HENDERSON the 1st and 3rd, until the services of a regular Pastor is secured.

☞ The special police arrested on yesterday, a desperado who was revelling in liquor in a Cellar House on Front Row, between Adams and Jefferson streets. He made a lunge with a bowie knife at the barkeeper, and would have stabbed him had not his arm been grasped by a person in the room. He was lodged in the calabouse.

☞ Mr. ARMS, the chief engineer and general superintendent of this division of the Memphis and Charleston Railroad, who has been in our town this week, says the Corinthian *Pillar*, informs us that the connection will certainly be made by the middle of March or the first of April. This is much sooner than was anticipated by many, but Mr. ARMS speaks with a full knowledge of the subject and knows what he says to be beyond all contingencies.

☞ A grand Nicaragua meeting will be held at Exchange Building on Monday, the 19th, at 7 o'clock P. M. All those who feel an interest in the settlement and civilization of this country it is hoped will be in attendance.

Come one, come all, we shall have a rich time. We will have speeches from distinguished gentlemen. VENI, VIDI, VICI.

☞ The Paris *Sentinel*, of the 9th, says that reports were in circulation in Henry county that between twenty and thirty whites had been killed by negroes in this city. We are happy to inform our readers of most contemptible that there is not the slightest foundation for such reports. Our police are too vigilant to permit an outbreak of any kind among the slaves, even did the latter feel disposed to have recourse to violence, which we are satisfied they never dreamt of.

THEATRE.—Owing to the indisposition of Miss ALBERTINE, last evening, Miss DEERING played the part of *Fanchine*, in the "*Lady of Lyons*." Miss SUSAN DENIN personating the part of *Claude Melnotte*. The play passed off well, and the audience, by their applause, proved how well they were satisfied. To-night is the last appearance of Mr. CHANFRAU and Miss ALBERTINE at our Theatre.

On Monday night, Miss MAGGIE MITCHELL makes her *debut* before a Memphis audience. Young, handsome, talented, we doubt not she will meet with such a reception as Memphians are powerful for, when a stranger comes among them.

RIVER MATTERS, &c.—There was so little transpiring at the river yesterday that it is easily embraced in a single paragraph. The only arrivals were the *Michigan* and *Emma*, from New Orleans, bound to St. Louis, and the *Bluff City*, from President's Island, with a wood boat in tow. The *Editor* departed for White river, and the *Kate Frisbee* for Napoleon. The river is still falling and a considerable quantity of floating ice passed down yesterday. The *Nebraska* is now loading for New Orleans, and will leave on Monday afternoon next. The *Alonzo* had not arrived from Nashville last night. If she arrives to-day, she will depart to-morrow for points on the Cumberland river. The weather was moderate yesterday, a light rain falling during most of the day. The pavements were very slippery last evening, making it dangerous for pedestrians to walk.

APPEAL NEWS BOX.—We have placed upon the Wharf Boat a News Box, for the reception of papers from our friends on the river. We trust the officers of boats will drop papers therein, for this office, and we will return all due thanks for such favors.

NEW WATER TANK — ARRANGEMENTS FOR SPRINKLING THE STREETS NEXT SUMMER.—Mr. TUCKER, the gentleman to whom we are so much indebted for sprinkling the streets last summer, purposes the building of a large wooden tank, capable of holding twenty-five to thirty thousand gallons of water, said tank to be sunk in the bluff, if the approbation of the City Council can be obtained. Mr. TUCKER labored under a great many difficulties the past summer, having to get his water from the bayous, and was necessarily not enabled to sprinkle as many streets as he desired to. He seeks to remedy the difficulties of last season, by the procurement of a steam engine at a cost of $2 500 or $3,000, and by this power raise the water from the river to a level with the highest eminence in the city. If the plan which he has in view succeeds, as to us it seems a very feasible one, he will be enabled to fill cisterns in different parts of the city, by the use of hose, which he intends purchasing also. Besides sprinkling the principal streets, it is his intention to sprinkle Front Row, that docty summer promenade. Sprinkling the streets, twice a day for a month, as this has been, will be of a great benefit to the greater, and be a saving to the city of considerable money. What he asks from the City Council is so reasonable that we think he will meet with no refusal, as the benefits which he will confer upon our citizens will be appreciated by all. Mr. TUCKER is anxious to have it so early day for the North to procure his engine, hose, &c., and it is desirable that he should know as early as possible whether he will be permitted to build his tank and place it at his levee.

IN A TIGHT PLACE.—The following good one, whether true or not, is worthy of insertion, even at the expense of some of our "old residenters." We copy from the St. Louis *Republican*, of Monday last. All this is supposed to have happened a very long time ago.

We Saturday heard a good joke told upon one of our most popular river captains, and which we think is worthy of publication.

In nursery language, "once upon a time," he was in Memphis and found himself flat broke. The river was low, and as it was a severe winter, all shore work was entirely suspended. He was in a decided "fix" without money and had no friends. The desperate state of his fortunes required something to be done and as "necessity is the mother of invention," he set his wits at work. He had observed a large tent which had belonged to a strangling company of "showmen," and who had decamped without paying their bills and left the canvas, tent, poles, beneath which they played their tricks, as assets for their creditors. He conceived the idea of making a Barnum of himself, and hoodwinking the people. After laying for sometime, he found a man who had "levied" upon the tent to secure a bar bill, which the former proprietors had run up, the items of which might be "stored" as numerous and exceedingly expensive. The negotiations were at once opened between the "honored" Captain and the dispenser of alcohol. The result was, that the tent was "sold" to the latter at a certain price and upon the condition the bar-keeper should act as treasurer, for the purpose of securing his "real." It was also agreed that he should take the responsibility of having the printing done and advertising the appearance of the Memphis "Giraffe" it was agreed upon, and in a few days our senses a flaming poster, announcing that the "Giraffe had arrived." Of the little hope in Memphis looked at it with astonishment, and run to their papas for a little loose change to see the "beast." The excitement spread, and people of all ages were seized with a desire to witness the "greatest curiosity of the age"—the "greatest curiosity of the age"—had arrived. A negro who "blew a rifle," and a Teutonic gentleman, who was fond of beer and could "beat" a drum, were secured to attract the attention of the "curious," and to attract attention—hand organ had not reached Memphis at this period.

An historical account, elaborate and scientific, of the Giraffe, had previously appeared in the city papers, such very learnedly classed it among the Mammal's species, and in many of its peculiarities similar to the celebrated Prock.

In fact no adjective was spared in presenting it to the ardent gaze of the inquisitive Memphians, (there's a word for you) as the greatest natural curiosity of the age, combining at once in its organization all the qualities of the ostrich, camelopard, centipede and amphibious.

The animal it was also alleged was alive and kicking, having been taken in one of the Islands of the Pacific ocean, by a whaling vessel, and put up with a small tub, bored in the box to let air, but which was soon plugged up by the speculative crew to see the effect upon the brute, which in a few days became torpid, and exhibited all the powers of a dead subject. It was decided to call it the genus Bunk, to be found in great quantities in the American bottom, and on a Frenchman's table called the frog.

The day at length arrived, and a large audience were in attendance, the bigger "them" the fife, and the Teutonic or Helvetic gentleman belabored most numerously the parchment which must have once been the skin of some veteran webfoot of the genus Avis, commonly called a sheep. The crowd purchased their tickets and walked into the pavilion, in the centre of which stood a gigantic object resembling a shrivelled elephant, but which was really a huge bargain, beneath which the Giasculis was supposed to be. The crowd, after waiting for a few minutes, began to manifest some symptoms of impatience, when the Captain appeared and told them to excuse him until he went out to secure the services of two or three negroes to remove the covering, at the same time admonishing the gentlemen not to provoke the animal, and requesting the ladies and little children not to be scared, as the creature was perfectly docile, and retired.

His story was perspicuous, and at last some of the audience unable any longer to restrain their impatience, tore the tarpaulin down, when, to their astonishment, was revealed an old wind-broken, ring-boned, spavined horse, which had generously been donated to the public service, and who had picked up a scanty living by picking grass in the streets of Memphis, for several weeks—for at this period, Memphis was very dull, and the vegetation had no very lively competition to prevent its occasional appearance. If the old horse had been asked if he was the Giasculus, he would have undoubtedly honestly replied, neigh, provided he had the strength to have any utterance to such a monosyllable. As it was, he looked dreamlessly upon the crowd who at first were indignant, but who in an instant discovered the ruse, and roared with laughter. A few "put out" in search of the Captain, but he had settled with the landlord, and taken a small share of the profits and left. It is said he found his way to a small cabin several miles above, where he brooded 'till navigation opened. This is an "ornetrue" tale, and the rehearsal may revive afresh to the memory of many, although it happened in the days of *yore*.

SALVATION, YE AFFLICTED!

W. A. GLIDDON,

GUTTA PERCHA TRUSS MANUFACTURER,

NO. 1 EAGAN'S BUILDINGS,
Adams Street, opposite the Worsham House,
MEMPHIS, TENN.

THANKFUL for the extensive patronage received within the last four years, I am now better prepared than ever for fitting and selling the worst forms of Hernial Rupture. I can, besides, furnish, ready-made or manufactured to order, superior Stockings for Varicose Veins, instruments for Prolapsus, Shoulder Braces and Bandages of various kinds. Artificial Legs and Hands made to order; in short, I can easily procure instruments of every kind, owing to arrangements made in New York and Philadelphia. The following certificates, among others, speak for themselves:

I, the undersigned, hereby certify that on the 27th of June, 1854, I was fitted by WM. A. GLIDDON with one of his Trusses. My age is seventy-one, and I been ruptured for eight five years. It is now several months since I have left off wearing the instrument, and so far I have experienced no return of the complaint. I cordially recommend Mr. GLIDDON as a Truss-fitter to the community at large, satisfied that he understands his business and trade.

(Signed) JOHN G. BOSTICK.

MEMPHIS, August 28, 1855.

By the advice of Dr. A. K. Taylor, Professor of Anatomy, Memphis Medical College, I called on Mr. WM. A. GLIDDON, and had a Truss made for me and applied. My case was an inguinal Hernia. The instrument was fitted in April, 1856, and I now consider myself perfectly cured. My age is thirty-four, and occupation that of cistern builder. I can cordially recommend Mr. GLIDDON to all who have been so unfortunate as to be afflicted with Hernia. (Signed) CLARK BARBER.

MEMPHIS, January 8, 1857. Jan14-dawtf

☞ If any one should ask us what, in our opinion, arrived at by an impartial test, was the best and most honestly compounded remedy for preserving, beautifying and restoring gray hair to its original color, we should, without hesitation, say Prof. O. J. WOOD'S Hair Restorative.

His preparation thousands have tested, and are ready to endorse its excellence. Thousands more have need of the same preparation, and we would advise all whose hair is in the least diseased, to go at once to O. J. WOOD & CO.'S store, 114 Market street, and lay in a supply of his invaluable Restorative.

To be had of O. J. Wood & Co., 114 Market street, St. Louis, and of druggists generally. dec12-dawtw

LOOK! LOOK!

HAPPY AND GLORIOUS NEWS!

The greatest wonder of the world has at last been discovered—a specific in disease—DR. SLEDGE'S NERVOUS TONIC, for the cure of Chills and Fever, and a preventive to all grades of Fever, as well as a cure. It has been fully tested for the last four years, and it is now conceded by scientific men to be one of the greatest discoveries known to man. This will be disputed by thousands, no doubt, but it is so. Read, look, and judge for yourselves.

Fifty thousand dollars will be paid to any person who will produce its superior. The Medicines can be found in all the Drug Stores and towns throughout the entire West. J. M. SLEDGE.

Certificates.

MEMPHIS, October 2, 1856.

This is to certify that we have been selling large quantities of Dr. Sledge's Celebrated Remedies, and take great pleasure in recommending them to the afflicted as possessing remarkable properties in controlling the diseases for which they are recommended, and we have no hesitancy in giving our testimony in favor of their superiority over other preparations for the same disease, as they never fail to give universal satisfaction to all those who use them.

THE ONLY MEDAL AWARDED

BY the New York Exhibition to the English or foreign Sauce Manufacturers has been obtained, amongst numerous competitors, by LEA & PERRINS, for their

Worcestershire Sauce,

whereby further testimony is afforded of its being the best Sauce extant.

The celebrity of this Sauce has extended to every quarter of the globe, and its efficacy in promoting the general health is becoming daily more observed and acknowledged.

In the United States it is held to be the most agreeable condiment, and is esteemed for its tonic and invigorating properties, its habitual use enabling the stomach to digest the food.

On the Continent of Europe, these qualities have been testified to by a gentleman, who writes to LEA & PERRINS thus: "I have carried a bottle of your Worcestershire Sauce in a tour I have just completed through Spain and Portugal, and believe I owe my present state of health to its use; your Sauce is stomachic, and I think most medicinal. I can with truth say there is nothing in a traveller's baggage so essential to his comfort, at least in those countries, as your Sauce."

In India, also, where it is found at the mess of every regiment, a medical gentleman writes from Madras to his brother in the same profession at Worcester, in the following terms: "Tell LEA & PERRINS that their Sauce is highly approved in India, and that it is, in my opinion, the most palatable as well as the most wholesome Sauce made."

This Sauce is suitable for every variety of dish, and the universal demand which its excellence has created has led to many imitations being offered to the public, under a variety of names, but the genuine may be known by the names of "LEA & PERRINS" being impressed upon the patent metallic capsules, or patent glass stopper of the bottle, as well as the labels and wrapper.

RICH'S

Fire-Proof Safes!!

FACTS SPEAK LOUDER THAN WORDS!!

AT the great fire which broke out in Warren and Murray streets, New York, 4th November last, my store property to the amount of

$600,000!!

was destroyed, several of these Safes were tested with results similar to the following:

NEW YORK, Nov. 11, 1856.

MR. EDITOR:—In the fire at No. 39 Warren street, on the morning of the 4th inst., my most valuable books and papers were exposed for 36 hours in one of Stearns & Marvin's Fire-Proof Safes.

We say fire proof, not because they are so labeled, but because we have so proved them. Our books and papers came out uninjured, save the binding of the books, occasioned by steam.

Our store was five stories above ground, and two stories below, occupied from cellar to garret. The intensity of the heat can be attested by any fireman who witnessed it.

No furnace could be contrived by the ingenuity of man to create a more intense heat. We voluntarily give this tribute to the value of these Safes, and select your widely circulated commercial journal to inform the mercantile community what estimate to place upon Stearns & Marvin's Wilder Patent Salamander Safes.

Respectfully,
HAVILAND, HARREL & RISLEY,
Wholesale Druggists.

In this connexion the Manufacturers write us: "We have made these Safes over 14 years, have sold over 8,000—Had 218 tested in accidental fires in the United States and Canada, and never yet had a customer to lose a dollar by fire from one of them. We think they have caused a high reputation, as they are readily sold here in preference to other Safes at 25 to 50 per cent. less price." A full stock kept constantly on hand by

LOWNES, ORGILL & CO.,

Just Received, This Day,

Strayed or Stolen,

FROM the subscriber, at LaGrange, Tenn., on the night of the 23d of December last, a small iron GRAY MARE, about sixteen hands high, four years old last spring. She has a small lump on her withers, about the size of a large marble, caused by the saddle. She was shod before when she left. No other marks remembered. Any information will be thankfully received and liberally rewarded by the subscriber.
