THE DAILY APPEAL.

WEDNESDAY MORNING, JULY 1, 1857.

☞ We this morning publish, as usual, the semi-monthly official returns of the list of letters remaining in the Memphis Post-office.

☞ We are indebted to Mr. McLaughlin, the gentlemanly clerk of the fine steamer *Woodford*, for late St. Louis and Louisville papers.

☞ The gentlemanly clerk of the steamer *Memphis* has our thanks for a full file of late Cincinnati papers.

☞ Major Redman, U. S. Mail agent, has our thanks for a package of late New Orleans papers.

☞ Messrs. Geo. Pattison & Co. have laid on our table the *Pictorial Brother Jonathan* for the 4th of July.

☞ A city contemporary, speaking of the steamer *James Johnson*, says: "She went and tied herself up at Mound City." Smart boat, that.

☞ We invite attention to the action of the firemen of this city, published in another place, in relation to the liberal donation of Mr. Chas. Potter.

☞ Hon. F. P. Redmond, Arkansas State Senator, representing the counties of Phillips and Monroe, is now on a visit to the city, and stopping at the Commercial.

☞ Building and Loan Association—The Members of this Association will please take notice that this is the day for them to walk up to the captain's office and settle. Sale of funds to-night at Esquire Horn's office will be positive.

☞ The *Evening News* accuses us of telling a story when we stated that the Know-Nothing candidate for City Marshal was elected by a majority of only 33 votes. All we have to say is that we took the statement from the *News* itself.

☞ An election was held in the Third Ward yesterday for a Member of the City Council. It resulted thus:

R. S. Jones	120
A. J. White	111
Jones' majority	9

Mail Robbery.—Mr. Samuel Y. Page, deputy postmaster of Purdy, and the son of Gen. Page, United States, was arrested last week for robbing the mail, and is now in jail at Purdy. The evidence produced seems to be pretty strong against the prisoner. Mr. Page is quite a popular candidate afloat in McNairy county. Rumors of his guilt are disseminated, and to this extent he will undoubtedly receive tribute his crimes. A check on the Bank of Memphis in possession, which was stolen from the mail bag of John Page, a farro bank, was received at Memphis from Mr. M. Hudgins, a merchant of Mound City, Ill. J. P. Page, county, as one which he had received in payment for goods sold in the city. A detective left here sent to New Orleans and Mobile, after money was received by the parties named in the check, but no money was addressed, but no money could be collected. Mr. Page's family is a very respectable one, and they have the sympathies of the community in their affliction.

Vote of Thanks.—At a meeting of a Committee from the following Fire Companies, viz: Nos. 3, 4, 5 and 6, and Hook and Ladder Company, held on Monday night, Lewis Amis, Jr., was called to the Chair, and W. S. Fulton was appointed Secretary.

After the objects of the meeting was stated, the following resolution was unanimously adopted:

Resolved, That we tender to Charles Potter, Esq., our heartfelt thanks for his generous donation of six hundred dollars for our exertions at the fire on Front Row, on the morning of the 25th ult.; his kind appreciation of our services, extended as it is in so substantial a manner, will be an additional incentive to our future energy and efficiency. I. N. HENKEL, J. D. DANBURY, W. H. AXTELL, EDWARD O'NEILL, J. E. CHADWICK.

Resolved, That the city papers be requested to publish the above proceedings.

LEWIS AMIS, Jr., *President*.

W. S. Fulton, *Secretary*.

Vote of Thanks.—At a meeting of Invincible Fire Company No. 5, held at their hall last night, the following was unanimously passed:

Resolved, That the sincere and warm thanks of this Company be tendered to Charles Potter, Esq., for a munificent donation for services rendered by us at the late fire.

J. C. HOLST, *Secretary*.

☞ At a meeting of Relief Fire Company, No. 2, held Monday evening, June 29th, the following preamble and resolutions were reported and unanimously adopted, and ordered to be published:

Whereas, This Company has received from one of its spirited citizens and enterprising merchants, Mr. Charles Potter, the donation of $100; therefore be it

Resolved, That Mr. Charles Potter is entitled to and is hereby tendered, the warmest thanks of this Company for his timely aid and the benevolent spirit manifested in our behalf.

Resolved, That Mr. Potter is, by the vote adopting this resolution, unanimously elected and declared an honorary member of this company for twenty years.

Resolved, That he has the best wishes of this Company for his prosperity and happiness through life, and for his entire exemption from loss or danger by the element which we are banded together to combat.

Resolved, That these proceedings be entered upon the minutes, and the Secretary instructed furnish Mr. Potter with a copy of the same.

R. B. MILLER, *President*.

L. Gove, *Secretary*.

Superintendent of the City Schools.

Editors of the City Papers:

As a candidate for the office of Superintendent of the City Schools, I reply to the call of "An Alderman," in the Appeal of Saturday last, that I have long been in favor of what is known as the "Two-Sessions-a-day" system. In making up this opinion, I have been governed by the following, among other considerations:

1. The present system does not afford sufficient time to the teachers to hear properly the recitations of pupils, and impart instruction in the various branches taught in our public schools. In a word, the teachers and pupils, under that system, are not brought together a sufficient length of time daily for the essential purposes of moral instruction and correction.

2. One of the objects of parents in sending their younger children to the city schools—and by no means an unimportant one—is, *to keep them out of mischief*, and from running about the streets and contracting bad habits. This object, of course, is in great part defeated by the "One-Session-a-day," or "Five hour" system—and from two o'clock in the afternoon till night, the little boys and the big ones too, are thrown upon the town.

I have become a candidate for Superintendent at the suggestion of some friends. I want something to do. I need the office, and I think the office needs me, or I should not be a candidate. But I shall not engage in a "scramble" for it. If the Board of Visitors, soon to be appointed by the Board of Mayor and Aldermen, see fit to elect me, I shall undertake the responsibility with diffidence, but with a determination to do my whole duty. It will be my constant aim to elevate the public schools, and with the co-operation of the Board of Visitors, to make them the best in the country.

J. P. PRYOR.

Memphis, June 30, 1857.

The Appointment of Col. Cuming as Governor of Utah.—We believe we are not too premature in announcing this morning, that Col. Cuming, of Missouri, has been appointed Governor of Utah, and that he intends moving his family thither, with the view of making the Territory his permanent residence. Col. Cuming is a gentleman of tried integrity, and of large experience in frontier life. Possessing great personal courage, of a conciliatory nature, yet prompt and energetic in the discharge of duty, he will bring to the important responsibilities which he has assumed the most essential qualities for success in the delicate, and even dangerous, mission which has been confided to him.

The difficulties to be encountered in Utah are more numerous and complicated than are now generally supposed. Among them may be incidentally mentioned that Brigham Young claims a title to all the lands in the Territory, and has never recognized the United States surveys. None of his followers have purchased lands in accordance with our laws. Hence one of the delicate duties of the Federal Courts of that Territory will be to establish and maintain the rights of those who may hereafter purchase, in accordance with our laws. Not an individual in all Utah now holds a foot of land the title of which is derived from the United States, and it follows, under this strange condition of things, that all parts of the Territory are at the present time open to pre-emption.—*Washington Union.*

Lime Sunk in the Mississippi.—The Natchez *Courier* learns that, in the storm of Tuesday week, a flatboat laden with 4,000 barrels lime was sunk near the mouth of Cole's Creek, a few miles above that city. There were five men on board, who just managed to escape with their lives.

A Chance for a Man of Business.

WILL be engaged in a different business, we propose to sell our stock of Liquors and Groceries on the premises to out and after a date of the store house. The stock has been purchased within the last six months, and currently rules cut a great portion of which has advanced in the city market since the date of purchase.

J. BOYD & CO

WANTED.

A SITUATION as Book-keeper, by a Gentleman who has been engaged in business for the last eighteen months in this city. He has a very extensive acquaintance throughout the country. The best city reference given. Address Box 37, P. O. JUN29-6tw*

Dissolution.

THE COPARTNERSHIP heretofore existing between the undersigned in the Livery business, under the name and style of "Ferrell & Young," is this day dissolved by the withdrawal of the latter from the firm.

N. F. FERRELL, H. C. YOUNG.

MEMPHIS, June 30, 1857. JUN30-4tw

For Rent.

A LARGE and roomy Dwelling House on Adams street, near the intersection of Adams and Second streets. It is large enough for one family, or divided into two families, and adjoining the residence of the subscriber. Possession given immediately.

SALVATION, YE AFFLICTED!

W. A. GLIDDON,

GUTTA PERCHA TRUSS MANUFACTURER,

NO. 1 HAGAN'S BUILDINGS,

Adams Street, opposite the Worsham House,

MEMPHIS, TENN.

THANKFUL for the extensive patronage received within the last four years, I am now better prepared than ever for fitting and curing the worst forms of Hernial rupture. I can, besides, furnish, ready-made or manufactured to order, superior Bandages for Various Ends, Instruments for Prolapsus, Shoulder Brace and Bandage of various kinds. Artificial Legs and Hands made to order; in short, I can easily procure instruments of every kind, owing to arrangements made in New York and Philadelphia. The following certificates, among others, speak for themselves:

I, the undersigned, hereby certify that on the 27th of June, 1854, I was fitted by WM. A. GLIDDON with one of his Trusses. My age is seventy-one, and I been ruptured for nearly forty years. It is now several months since I have left off wearing the instrument, and so far I have experienced no return of the complaint. I cordially recommend Mr. Gliddon as a Truss-fitter to the community at large, satisfied that he understands his business and trade.

(Signed) JOHN G. BOSTICK.

MEMPHIS, August 28, 1856.

By the advice of Dr. A. K. Taylor, Professor of Anatomy, Memphis Medical College, I called on Mr. WM. A. GLIDDON, and had a Truss made for me and applied. My case was an Inguinal Hernia. The instrument was fitted in April, 1854, and I have not number myself perfectly cured. My age is thirty-four, and occupation that of a cotton builder. I can cordially recommend Mr. GLIDDON to all who have need of a truss, satisfactorily to be fitted with Hernia. (Signed) CLARK BARBER.

MEMPHIS, January 6, 1857. jun14-dawly

Sundries.

Port of Memphis.

Arrivals and Departures.

TUESDAY, June 30.

Memphis, Cincinnati to Memphis.
Empress, New Orleans to Louisville.
Wm. Baird, Louisville to Memphis.
R. J. Lackland, New Orleans to St. Louis.
Woodford, Louisville to New Orleans.
St. Francis, Memphis to Wittsburg.

Editor, Memphis to St. Louis.

River Matters.

The river was falling very fast last evening. Since it commenced receding it has fallen near two feet, and last night was falling at the rate of one inch an hour. Advices from upper streams report them all falling. The weather was cloudy yesterday, and in the early part of the day we were visited by several showers. In the morning it was quite cool, but at evening the weather had become close and oppressive.

The *Belfast*, which departed for Cairo during Monday night, may be expected here this evening on her way to New Orleans. Those going South could not get on board a better packet.

The fine packet *Winchester* is due from St. Louis to-morrow evening. She is the fleetest packet that comes to our port, and has gentlemanly and accommodating officers. Her accommodations for passengers are superior. Persons getting on board of her on Friday evening have a surety of reaching St. Louis on Sunday.

The *Falls City* is due to-day from New Orleans, on her way to St. Louis.

The *Robert J. Ward*, we understand, is laid up at Louisville for the season.

The fine packet *Memphis* arrived from Cincinnati during Monday night, and is advertised to depart at 5 o'clock this afternoon on her return trip. Take accommodations on board this steamer are good, and we commend her to those of our readers who desire going up the Ohio, as a safe passenger packet.

MARRIED.

At the Worsham House, Memphis, on the 29th of June, by Rev. Dr. Speer, Col. J. B. Beard, of Louisiana, to Miss Cornelia M. E. Newhall, of the city of Lynn, Massachusetts.

From the Louisville Democrat.]

☞ We were gratified to see a large and interested attendance of many of the principal citizens of Louisville at a meeting called for the purpose of hearing from Mr. Brooks, of New York, a history of the Southern Pacific Railway, its means, prospects, and the resources that secure its construction to the Pacific. Mr. Brooks interested his audience for two hours and a half, in a clear, sensible, and honest statement of the whole matter. There are from six to seven millions of this stock held in Kentucky, and if all its holders could have heard the lucid statements of Mr. Brooks, we think their stock would have appreciated in their hands.

At the late hour at which we go to press, we cannot give even an outline of the speech, but one or two points must be mentioned. In the first place, the capital stock of the company, by the charter, consists of all the real and personal estate of the company, and that may be almost infinite. In the second place, the Directors have full power to determine the price of shares of stock, and to limit the call upon them.

And as the Directors have sold the shares of stock, valued at one hundred dollars, at five dollars, there can be no further call upon those shares. But Texas gives ten thousand acres of land and upwards of five thousand dollars for each mile of the road that is constructed, and this will make a large fund for building the road. In every points of view, this road is a necessity of commercial existence. The business of the world has long required a safe, easy, and expedious highway for intercourse between the two hemispheres. Long before the time of Columbus, it was sought for, and has been ever since. North America is the only power that possesses the locality for this highway, and the means to build it.

But the pressing want now is, in the condition of that monarch called King Cotton. His Barons are becoming hampered. The subjects of his reign are increasing beyond the means of his Territorial power. The cotton crop of last year was a very large one, but the manufacturers not only used it all, but used their reserved stock, and then could not supply the demand. This year the crop is a diminished one, there is no reserved stock, and the demand for cotton goods has increased. In consequence of this state of things, cotton has advanced fifty per cent. in price. Our old cotton Territory is diminishing in productiveness. England has failed at her attempt in cultivating cotton in India; Brazil finds it more profitable to cultivate coffee and sugar than cotton; the valley of the Nile is too much occupied in producing beans and other necessaries of life for the Egyptians, to produce much cotton, and France takes all the crop. The belt of land in Texas, lying between the 30th and 35th parallels of latitude, and extending from the Eastern to the Western boundary of Texas, has the soil and all the climatic conditions for an immense productiveness in cotton. This strip is about 240 miles wide, and has a length equal to the entire space between the Eastern and Western boundary of Texas. Through the centre of these latitudes the Southern Pacific Railway is located, and thus occupies one of the most fertile regions in the world. Cotton, all the cereals, and sugar, can be profitably cultivated in it, and the land privileges granted to the Railroad Company, at $2 per acre, is worth nearly eighteen millions of dollars. The stockholders are owners of this land, and they get it at a cost of thirty-eight cents per acre.

As the culture of cotton must seek this region to supply the increased demand, this road becomes a necessity, and it is now in course of construction. Seventy miles are now under contract. The prospective means of the Company are ample for carrying that road to the Pacific, and under the present judicious and skillful management of the able officers of this great enterprise, we have no doubt these prospective means will become realities. But we cannot pursue the subject further for want of time. We say, however, to the stockholders, do not sell your stock at a sacrifice. It is worth every dollar you have paid for it, and is certain to increase rapidly in value.

Fever and Ague.

A case of Eight Month's Standing cured by BURKHAVE'S HOLLAND BITTERS.

MICHAEL KELLY, No. 117, Seventh, near Grant street, says:

"Last July, while running on the river, on a cotton-boat plying between Natchez and New Orleans, I was taken with Fever and Ague. For eight long months I suffered with this dreadful disease. The greater part of this time I was unable to work, and spent at least fifty dollars for different medicines, but found no permanent relief. Three weeks ago, one of my friends insisted upon my trying BURKHAVE'S HOLLAND BITTERS, saying that a cure was *guaranteed*. After taking it for one week, I must state, I was a sound man. I have been at work now for two weeks, and have had no return of the Chills and Fever whatever."

I certify that the above statement is true.

THOMAS ADAMS,

Diamond House, or R. Chester's Gothic Hall.

Scalding for Bugs Abolished.

THE Subscriber is now manufacturing in Memphis a preparation for the destruction and prevention of Bedbugs, which has been tested for the last two years at present years in quite a number of cases, and not the slightest failure has come to the knowledge of the subscriber. The materials of which it is composed are all costly, and the amount of labor required to perfume it, so effectually as to render its application to those who may avail themselves of its use, places it above any mere catch-penny preparation.

A person wishing to get the article, can by sending to the residence of J. N. Jones, on Vance street, money put up with full directions, at fifty cents for a small, and $1 for large size bottle—one of the latter size is sufficient for two or three bedsteads; large size for double that number—or the subscriber will send it to the end of the bedsteads at home, to be used by him before sleep in the downhill of life.

It does not injure furniture in the least.

Coal Mine for Sale.

I WILL, as the Commissioner appointed by the Union Equity and Criminal Court, in the case Smith & Matthias against Corporeal, Executor and Devisee, on Monday, the 6th day of July, 1857, County Court day, at the Court House door, in Morganfield, Union County, Kentucky, offer for sale, at public auction, on a credit of six, twelve, and eighteen months, the undivided interest of said Corporeal, Executor and Devisee, being one-fourth part of the United Coal Mines, or so much thereof as will be sufficient to pay the sum of $3,688, and costs forth part of the same of said. The purchaser will be required to give bond, with approved security, to have the force and effect of a replevin bond, drawing interest from date. A lien will be retained on the property sold, to secure if a purchaser money.

This Coal Mine is one of the finest, (one of the richest mines in the State, in fact, and minerals) about two miles from the Ohio river. There are about 1400 acres of land in the tract, with the Tennessee river, where you cross one Coal, of three, four and five feet in thickness, and the strata of Cannel Coal of much value, of twenty-six inches in thickness, or blind with nine inches of bituminous Coal, and two inches of fire clay, which Coal produces 1,000 gallons to a bushel, and 50 gallons of oil to the ton of coal. According to Owen's report, the strata from which Coal is now being taken out is about five feet in thickness. This mine is now in successful operation, with railroad depot, and every facility for taking out and carrying the Coal to the river. Indeed this may be said to be one of the very best Coal Mines, taking all things into consideration, in the State of Kentucky. An interest (being one-fourth) was sold a few days ago for $40,000. Another interest, beside the one now offered, could also be bought.

Persons wishing to purchase will do well to examine the premises.

jun16-dlw THOS. S. CHAPMAN, Commissioner.

A RETIRED PHYSICIAN

Whose sands of life have nearly run out, discovered while in the East Indies, a certain cure for Consumption, Asthma, Bronchitis, Coughs, Colds, and General Debility. The remedy was discovered by him when his health was shattered by disease, and he was left on a barren spot of the wonderful restorative and healing qualities of a certain plant growing in the East India Forests. It occurred to him that he might make a remedy for his child. He studied hard and succeeded in producing his remedy. His child was restored, and is now alive and well. He has since administered the wonderful remedy to thousands of sufferers in all parts of the world, and he has never failed in making the most completely healthy and happy. Wishing to do as much good as possible, he will send to each of his afflicted fellow-beings who request it, this recipe, with full and explicit directions for making it up, and successfully using it. He requires each applicant to enclose him one dollar, which is to be returned as postage on the recipe, and the remainder to be applied to the payment of this advertisement.

Address, DR. JAMES PERRIN,

No. 19 Grand street, Jersey City, N. J.

N. B.—Dr. H. James has neither agent nor office in New York; so none have authority to purchase and advertised. The recipe is sent from NO PLACE but No. 19 Grand street, Jersey City, N. Jersey.
