MOONLIGHT EXCURSION.—Arrangements of the most extensive character have been made for the Grand Moonlight Excursion, and we feel certain a large and joyous crowd will be on board the *James Laughlin* to-night. Remember, the boat starts at eight o'clock precisely.

CRIMINAL COURT.—The trial of the slave Reuben (owned by Dr. Laird) for the murder of Nat, a slave owned by Mr. Ben. Reed was yesterday concluded and given to the jury. After being out half an hour the jury returned a verdict of "guilty" of murder in the first degree. His counsel made a motion for a new trial.

The case of Williams, for murder, will probably be tried on Monday.

PIC-NIC.—The grand pic-nic of the Invincible Fire Company No. 5 comes off to-day in a pleasant grove adjacent to the city. The most extensive preparations have been made for the occasion, and everything will be done by the managers to make all who attend feel at home. The company will parade through the principal streets, preceded by the band of Liberty Fire Company No. 3, after which they will repair to the grove, and the balance of the day will be spent in feasting and dancing.

Two MONSTERS.—We learn from passengers on the *Ohio Belle*, that on Sunday last a Deputy Sheriff named Mesnors shot a man named Ben Puckett dead at Grand Gulf. Menges had a warrant against Puckett, and was trying to arrest him. The latter resisted when Menges shot him. Mr. M. was taken before a magistrate, who, after a hearing of the case, discharged him on the ground of justification for the act.

On Sunday last a man named Nath. McCoy shot a negro dead at Vicksburg. The officers endeavored to arrest him, but drawing his revolvers, he kept back the crowd, and succeeded in making his escape.

Fever and Ague.

A case of Eight Month's Standing cured by BOER HAVE'S HOLLAND BITTERS

MICHAEL KELLY, No. 117, Seventh, near Grant street, says:

"Last July, while running on the river, on a cotton-boat plying between Natchez and New Orleans, I was taken with Fever and Ague. For eight long months I suffered with this dreadful disease. The greater part of the time I was unable to work, and spent at least fifty dollars for different medicines, but found no permanent relief. Three weeks ago, one of my friends insisted upon my trying BURKHAVE'S HOLLAND BITTERS, saying that a *cure was guaranteed*. After taking it for one week, I must state, I was a sound man. I have been at work now for two weeks, and have had no return of the Chills and Fever whatever."

I certify that the above statement is true.

SAVANNAH RIVER TRANSPORTATION, BY THE *FASHION LINE*, COMPOSED of the following very light draught steamers, viz: The COLUMBIA, 300 tons capacity, and 16 inches draught of water. The TALOMICO, 400 tons capacity, and 16 inches draught of water. The new iron steamer AMAZON, 500 tons capacity, and 17 inches draught of water. The AMAZON is built of iron, and no expense has been spared in her construction, to make her worthy of the patronage of the public. These boats will compose the line for the approaching season, and will cross their light draught of water, in spite of the high water and low water, to our river ports and shipping as the time may rely on despatch in the forwarding of their goods. The importance of keeping up a water communication between Savannah and Augusta is too apparent to the merchants of Augusta, Savannah, and the interior, to require any advance. Suffice it to say, that the river communication is now, and has been since the commencement of railroads, the cheapest means for freight charges. No better evidence of this can be produced than the exceedingly low rates of freight between Savannah and Augusta, with other points of the river, for a hundred miles on either side of it. N. M. A. COHEN is still the Agent of this line at Savannah, to whom all goods should be consigned, which will be forwarded free of any charge for commission. One of the Boats of this line will be despatched every other day, and discharge at this place tri-weekly. Augusta, June 27, '57. JOHN A. MOORE. jun30-1m

It is astonishing

THAT an article should become so very popular as *Leonard's Solid American Fever and Ague Remedy* has, in so short a time since its first introduction; and it can only be accounted for, that the manufacturer is so skilled in the art of compounding medicines, and is so very conversant with the nature of the disease. His brother upon it shows that he is no novice in his profession, and the high testimonials accompanying the medicine establishes its great superiority over other remedies. See his advertisement in another part of this paper.

To the Million.

Professor Wood, of St. Louis, has, after years of deep study and untired research, succeeded in presenting to the public an article superior to any now in use, and indeed it is truly a wonderful discovery—we advert to his Hair Restorative; the only article that has been completely successful in clearing eye of his gray locks, removing dandruff, itching scurvy, &c. It restores the over-heated to more than the original beauty; adds new lustre to locks already luxuriant; having the effect on coarse, hard hair to render it glossy and wavy; fastens permanently hair that is loose or falling, and many other qualities which will become known as soon as used. The price of sanitized is amply duly developed in the keeping and arrangement of the hair; perhaps from the fact that it is but one portion of the human body that we can train in any way we do, see how important then, having the portion left to our care, that we should use all the means science has placed in our hands to render it beautiful and permanent. If you would have beautiful hair, glossy hair, permanent hair, hair within nature, and other unequally prove rod to extreme old age, don't fail to procure Wood's Hair Restorative.—*Daily Iowa State Gazette.*

Request. THE subscriber has it in contemplation to compile and publish a pamphlet, or book, embracing the leading speeches, Sermons, &c., &c., of the recent Railroad Celebrations at Memphis and Charleston, together with a full account of the visit of the Memphis Delegation to Huntsville, Atlanta, Augusta, Charleston, Savannah, and Macon. To make the pamphlet as complete as possible, he requests that full lists of all the delegates who actually attended the Meetings at Memphis and the places named, be forwarded immediately to him, by mail, at this place. He also requests that the speakers who participated in the different celebrations and receptions send him revised copies of their addresses, should they have them in manuscript. The compilation, if so expected, will make about 300 pages, large octavo, and will be furnished to subscribers, postage paid, at $1 per copy. The Mayor of each town and city where such celebrations, and the delegates generally, will please signify to the subscriber the number of copies they may desire to take. The object of the compilation is to preserve, in a double form, a full record of the rejoicings over an event which rises to the dignity of a Public Work of Public Benefit, rendered memorable by the benign results, political, social, and commercial, which are to flow from it to the end of time. Those of the delegates from Memphis to Charleston, who actually attended, and whose names were published in the *Day* and *Enquirer* of the 26th May, are requested to forward their names through the Post Office to Memphis, June 18th, 1857. P. PRICE. *.* Huntsville, Atlanta, Augusta, Charleston, Savannah, and Macon papers will please copy all but the last paragraph of the above, with the signature, and oblige. jun13 J. P. P.
