☞ Col. R. G. PAYNE will address the citizens of Memphis on Tuesday evening next, in reply to ROBERTSON TOPP, Esq.

☞ Persons leaving Memphis for the summer months, and wishing to have the DAILY APPEAL forwarded to any office in the United States, by our regular mail, by calling at our Counting Room and leaving their address,

☞ Copies of the SUNDAY APPEAL can be had at our counting-room this morning until 9 o'clock.

☞ The Rev. W. H. MITCHELL, of Florence, Ala., will preach in the First Presbyterian Church this morning, at the usual hour.

☞ Elder J. R. McCORD will preach in the Christian Church, on Linden street, this morning at 10½ o'clock.

☞ At a late hour last night the body of young HANCOCK, drowned on Friday afternoon, had not been recovered.

☞ There will be three services in Calvary Church to-day—first at 10½ A. M., second at 4 P. M., and the third at 8 P. M. The Church will be closed for enlargement after to-day.

☞ We heard yesterday that Mayor BAUGH had vetoed the ordinance passed at the last regular meeting of the City Council, defining the fire limits.

☞ The paper used by us in working off our daily edition having arrived, the APPEAL will hereafter greet its readers in its usual dimensions, and in a more comely shape.

☞ The July number of the *Tennessee Farmer and Mechanic*, published at Nashville, has been received. It contains a large amount of valuable reading matter. This journal should be sustained.

☞ The subject of market-houses is again being agitated in the community. The City Council meet on Tuesday next, and if the members thereof take into consideration the wishes of their constituents, they will take prompt action on the subject.

MISSING.

The first and second volumes of the WEEKLY APPEAL are missing from our office. They are of incalculable value to us, and worth but little to any one else. Those having them in possession will do us a great favor by returning them.

GRACE CHURCH.—The services will be held in the Young Mens' Christian Association room, on Main street, between Monroe and Union streets. Services during the day as follows:

Sunday School at 8½ o'clock A. M. Divine Service with Holy Communion at 10½ A. M., and also Services at 8 o'clock P. M.

☞ The members of the "Chickasaw Blues" held a meeting on Friday night, and appointed a committee to draft a constitution and by-laws, to be reported to an adjourned meeting, which will be held at Mr. DeBose's office, on Thursday evening next. On Friday evening a meeting of the company will be held at Exchange Building, for the purpose of electing officers.

☞ An late hour on Friday night, the steamer *Chancellor* arrived. In discharging her freight, a deck hand fell overboard. At the time the accident occurred, himself and partner had a bar of railroad iron on their shoulders; the foot slipped, and he was thrown off the gangway plank, the bar of iron depositing with him; with presence of mind he retained his hold, and to this fact is attributable his rescuing from drowning.

☞ MESSRS. PATTERSON & MARSHALL having been turned out by the fire some weeks ago, are once more located at No. 62 Front Row, under the Commercial Hotel, where they will be pleased to see their old customers and as many new ones as may see proper to patronize them. They are clever gentlemen and good business men, which is the best recommendation we can give them. See their card in another column.

☞ It is seldom we are called upon to return thanks for a kind remembrance in the shape of a bouquet, but having received yesterday, one which eclipses any we have seen during the season, containing wild flowers, culled during a ramble through fields, and exhaling fragrance which pertains peculiarly to the farm or plantation, we cannot refrain from expressing ourself to the lady donor. We have no poetical work at hand from which to extract a gem bearing upon the subject. Our language is prose, and our acknowledgment is—*thanks*.

☞ The following is the amount of freight on the Mississippi and Tennessee Railroad for Friday, July 17:

F. Lane & Co., 400 sacks wheat; Titus & Co., 40 sacks wheat; Gates, Wood & McKnight, 163 sacks wheat; Graham & Hill, 95 sacks wheat; W. Howard & Co., 123 sacks wheat. Total, 821. Graham & Hill, 1 bale hides, 1 bag wool; H. T. Farnsworth & Co., 1 package merchandise; John Robinson, 3 packages merchandise, 1 coop chickens; Col. F. M. White, 9 cars wood.

RIVER, WEATHER, &c.—The river was gradually receding last evening. The weather was clear and warm. Latest advices from Nashville report the Cumberland river falling with only two feet water on Harpeth Shoals. The Ohio, Missouri and Upper Mississippi are all reported falling.

The fine steamer *Ben Franklin* will arrive this morning from New Orleans, and in the afternoon will proceed on her way to Cairo. We call the attention of persons going up the river to this fact.

The popular *Kate Frisbee*, ever punctual, will arrive at an early hour this afternoon from Napoleon, and depart on her return trip at two o'clock to-morrow afternoon.

The *Eclipse*, under command of the veteran Captain BEARDY, will arrive to-morrow afternoon from St. Louis, and leave on her return trip on Tuesday.

N. B.—As this will probably turn out to be the hottest week of the year, it may be mentioned that the observations taken at 2 P. M. does not give the highest temperature attained either on Wednesday or Thursday. On Wednesday, between 2 and 4 P. M., the mercury rose nearly reached 104°, and on Thursday, about the same time, it was a little above 98°. Of course, these observations are made in the shade. I am informed by a gentleman who made the experiment, that under the direct rays of the sun, the mercury rose up to 124 deg. on Wednesday afternoon.

Sec'y Board of Health.

FOURTH OF JULY.—The Boston *Traveler* remarks that the anniversary of the signing of the Declaration of Independence has not occurred on Saturday since 1826. This is the longest interval to the regular cycle of 28 years, the other intervals being respectively 7, 5 and 6 years. The anniversary will next happen on Saturday in 1863; also in 1868, 1874, 1885, 1891 and 1896—only six times in the remainder of this century.

PUBLIC SPEAKING LAST NIGHT.—Pursuant to notice given, ROBERTSON TOPP, Esq., addressed some three hundred citizens of Memphis, last evening, at Odd-Fellows' Hall. He seemed to forget, if we are any judge, the issues in the present canvass, and presented issues that even his own party knew nothing of. His speech should be termed a lecture, and we trust he will not take us to task for thus characterizing it. His reference to the French Revolution, to the despots of Europe, to the time when ROBESPIERRE, MARAT, &c., reigned triumphant, was a rich treat.

We have heard other public lecturers discourse upon the same subject, but never was historical recollections more forcibly impressed upon our memory than in listening to the eloquent TOPP, last night. We had in our mind's eye the battles which NAPOLEON had fought—we followed him through Spain, Italy—crossed the Alps with him and accompanied him to Moscow. We saw that city in flames, and viewed in the back-ground NAPOLEON *standing* upon his honors. And by the way it was a master stroke of policy to introduce that painting of NAPOLEON and his Marshals, when adversity stared them in the face.

Mr. TOPP was peculiarly facetious when he referred to the boys' playing ball, and he there made a point which his chequers did not fail to profit by. He also referred to the Minnesota Bill—(which he did not explain)—of course the intelligent audience assembled understood it (?)

It is not our purpose to follow him in his remarks, as we did not go to the meeting for the purpose of reporting his speech, even were we capable of reporting such a speech. Trusting to memory is bad, we know, but as no aware were reserved for reporters, all we can do is to ask the assemblage who listened to the speaker's remarks, to view dispassionately everything he said, and, if they can, (Utah and all other Territories included,) come to a conclusion, (unbiassed by the proud position which the speaker holds in this community,) in relation to the real issues between the Democratic and Know-Nothing parties, we are satisfied.

As announced elsewhere, Col. PAYNE will address the citizens of Memphis, in reply to Mr. TOPP, next Tuesday evening. We ask for him a fair hearing, and trust the American party will treat courteously him whom we name as respondent.

What pleased us most last night was the marked attention paid by Democrats to Mr TOPP's remarks. We can only ask that those opposed to Col. PAYNE in politics will compert themselves in the same gentlemanly manner that the Democrats did last night, and we know we do not ask in vain, for our opponents are chivalrous.

FUNERAL NOTICE.

The friends and acquaintances of Major WILLIAM EFFRIS, President of the Gas Company, are invited to attend his funeral at 10½ o'clock, A. M., to-morrow, (Monday,) the 20th inst., from the residence of R. K. DUNBAR, Esq., on Jefferson street.

UTAH—THE SALT LAKE COUNTRY.—Salt Lake is situated between the fortieth and forty-second degrees of north latitude, and is not less than thirty miles in length from north to south, varying in width from five to thirty miles. Its elevation above the gulf of Mexico is two thousand four hundred feet, and it forms the bottom of a vast basin, surrounded by mountains, five or six thousand feet high. Part of the banks and bottom of the lake are composed of rocks and salt strings, and the waters are entirely impregnated with a saline substance, so that evaporation shows thirty-three parts in one hundred of salt, while the water of the sea shows only four parts in one hundred. The waters of Salt Lake, therefore, are of an extraordinary density. No fish can live there, and the borders of the lake are sterile. Happily, in this accursed lake there is a narrow passage leading to another lake called Utah, (the name of an Indian tribe,) the level of which is one hundred feet above the surface of the first. The water in Utah Lake is drinkable, fresh and limpid. The richness of the country in the neighborhood of these lakes caused Brigham Young to resolve upon settling the Mormons at this spot. He was doubtless wisdom, that it was better for him to become exclusive master of this great basin, where the distance and nature offered an impregnable fortress, than to go to California and encounter the hostility of a crowd of gold-seekers. The resemblance of Salt Lake to the Dead Sea could be presented as a providential design, and an indication of the place where the New Jerusalem should be founded. The colony chose a position extremely advantageous, upon the strait between the two lakes, and founded there the city of Deseret, a name which signifies "beehive" in the pretended "Reformed Egyptian" language. The aspect presented by this young city is very picturesque. It is divided into twenty quarters, each forming a separate inclosure. The houses are built of adobes, or brick dried in the sun, are only a story high, and are surrounded by gardens. The springs, which descend the mountains, now in little rivulets into the gardens and streets. The stores are numerous and elegant. The State-house is ninety-nine by forty feet. The town is protected by a fortified inclosure, and the number of inhabitants is about thirty thousand. The neighboring country is highly cultivated, and returns with usury the products which are confided to it. The waterfall between the lakes is utilized for turning numerous mills. In fact, this colony is a new and striking example of the creative and directing genius which agents to us the privilege of the Anglo-Saxon race.

RETURNING.—Nineteen wagons, containing upward of a hundred Mormons, direct from Salt Lake, passed through our city to-day on their way back to the States. They have abjured the Mormon doctrine, as practiced in Utah, and express great dissatisfaction at the state of affairs in that country. They report having had great difficulty in getting out of the Mormon Territory, being compelled to travel cautiously from one settlement to another, and finally to separate and leave in small bands to prevent suspicion and evade the watchful spies of Brigham Young.—*Omaha (Nebraska) Arrowhead, July 9.*

INCEST.—Eber M. Conant, of Windham, was committed to jail here yesterday on the charge of incestuous connection with his two daughters, aged thirteen and fifteen respectively, they being the forced and unwilling victims of his lust. He had his examination before Justice Treat, of Windham, and was bound over in $5,000, and in default of bail, was committed. Conant is respectably connected, his father and relatives being wealthy—but so outrageous was the offence that he could not get bail in Windham. The people were so much incensed against him, that the testimony of the poor girls, that they could hardly keep their hands off from him. Words can give no adequate expression to the indignation excited by such a brutal and fiendish act. He is in the hands of the law, and it is hoped will repelve his due penalty.—*Portage County (Ohio) Democrat.*

Later from Kansas.

ST. LOUIS, July 17.—The Democratic Advocates from Kansas says, Gov. Walker has issued a proclamation with the intention of putting down all opposition to that Territory's laws by force, and warn citizens of Lawrence not to organize under the Topeka charter. Rumor says seven hundred troops have been ordered to march against Lawrence.

Kansas Affairs.

ST. LOUIS, July 18.—Gov. Walker's proclamation was out of a Committee of the citizens of Lawrence framing a charter for submission to the people, essentially different from the Legislative grant. Walker pronounced this treasonable and ordered troops to the vicinity of Lawrence to prevent further proceedings. He intimated that Walker's design was to have the country from Kansas, turned out to have been merely speculative.
