THE DAILY APPEAL.

TUESDAY MORNING, JULY 28, 1857.

$20 REWARD.

The first and second bound volumes of the WEEKLY APPEAL are missing from our office. They are the only bound volumes of this paper now extant. We will give the above reward for their discovery and delivery at our office, or we will give ten dollars for either of the volumes.

☞ All persons having books belonging to the APPEAL Library, are requested to return them, and all persons are requested not to ask for the loan of books hereafter, as no such request can be complied with.

RAIN.—The city was blessed with two delightful showers yesterday, quite enough to keep down the dust and to replenish cisterns.

MONEY LOST.—A young man connected with this office lost twenty dollars yesterday. The finder will be rewarded by leaving it at our counting-room.

LADIES' AUCTION.—The ladies' attention is called to the sale of Fancy Dry Goods to take place this morning at N. STILLMAN & Co.'s, Main street.

☞ All persons are requested not to purchase papers from our regular carriers, as they are not authorized to sell them. An observance of this request will greatly oblige the publishers.

☞ MR. MCCORD, of the *Southern Parlor Magazine*, has been in the city some weeks, and we are glad to learn has been very successful in procuring subscribers. It will make its reappearance about the first of September.

PUBLIC SCHOOLS.—The Board of Visitors hold an adjourned meeting at DR. GRANT'S office on Jefferson street, next Monday at 4 o'clock P. M. A punctual attendance of the members is expected.

☞ Thanks to the gentlemanly clerks MR. J. B. ARCHER, of the steamer *Northerner*, for late dates from Louisville, and MR. BRUCE, clerk of the steamer *Hickman*, for late Cincinnati dates.

☞ MR. R. M. ROBBINS, of the fine steamer *Editor*, and MR. C. MCLACKLAND, of the steamer *Philadelphia*, will accept our thanks for late files of New Orleans and St. Louis dates.

A SPLENDID STORE.—We learn that the new building to go up on Main street near WEBB & RAWLINS'S, is to be a superb structure. The inside work is to be finished after the style of the warerooms celebrated dry goods house in New York, and is to cost $15,000.

LIGHTNING LINE.—We saw, this morning, goods forwarded by the Adams Express Company from New York in less than five days. This is the shortest time ever made to Memphis. Merchants will bear in mind that time is money. Those going East to purchase Fall and Winter Stocks, can get all necessary information, as to time and rates, by calling on E. T. PIERS, Agent, No. 19 Court street. 1t*

TO THE GENERAL READER.—Our columns have been for sometime past, and will be for a week to come, almost wholly given up to the political discussions growing out of the canvass now going on. When the battle shall have been fought and the victory won, we expect to give more variety to the APPEAL, and adapt its matter more to the taste of the general reader.

DENIE'S POEMS.—Persons in the city who wish to subscribe to this work, noticed elsewhere in an advertisement, will find a list at the APPEAL Counting-room. Many have already testified their appreciation of genius by a liberal contribution to the proposed memorial, and we hope other admirers of the "Young Bard of Memphis" will speedily follow. It is the desire of the publishers to have the work issued as early as possible, and, to enable them to do so, subscribers should signify their wishes immediately.

SCHOOL FUND.—Mr. L. R. RICHARDS, City Register, has furnished the Board of Visitors with a statement showing the revenue collected the past year for free school purposes amounted to $24,000, and that the revenue for the present year will be about $30,000. The Superintendent estimates that, "should there be a reasonable increase of salaries," the probable expenses of the Public Schools for the year ending 30th of June, 1858, "would be $22,000." The whole number of schools is twenty.

THE CANVASS FOR SENATOR.—The canvass for Senator closed last night at Exchange Building, where the two gentlemen asking the suffrages of their fellow citizens, addressed the people. There were originally only two appointments made for the city, and a third appointment, which the Know-Nothing papers announce for this evening, never having been submitted to Mr. WALKER, and engagements out of the city demanding his attention, we are authorized to announce that he will not be present.

CANDIDATES FOR CONGRESS AT MEMPHIS.—Messrs. AVERY and STEPHENS, candidates for Congress, will make their appearance before their fellow-citizens of Memphis, at Odd-Fellows' Hall, on Wednesday evening next. They should, and will doubtless, have a large audience, to hear the grounds upon which they respectively base their claims to the suffrages of the people. For the first time, in the capacity of candidate for Congress, the little Democratic giant will present himself before his old friends and associates, school-fellows and crones, who place so high an estimate upon his noble qualities of head and heart. They, at least, will go out to greet and cheer him in his aspirations for public favor. Although not of equal age and experience with his competitor, still he is not inferior in those qualities which go to make the character of a useful and efficient Representative in Congress, and he is far ahead of him in the energy, earnestness and enthusiasm which secure triumphs in all the conflicts of men. Superadded to all, he holds to, and will carry with him into the public service, the glorious truths of Democracy as the "lamp to his feet and the light to his path." Like the great statesman of Illinois, he is self-made—the architect of his own fortune, and has worked his way up the "steep of fame," without the aid of adventitious circumstances and appliances, giving evidence that he possesses true genius—"the power to make efforts"—and that this step upon the ladder of fame, will only qualify him to make another and another, until the whole Union will ring of his name. Remember that he will speak here on WEDNESDAY night. Let the PEOPLE go out to hear him.

Agricultural Society.

The Agricultural Society of Shelby county held its regular monthly meeting at the Fair Grounds on Saturday last, and after transacting much important business, in the way of advancing the progress of its handsome improvements, affording the confident assurance to the public that its tastefully arranged fixtures will all be completed by the time of the contemplated fair in the first week of October, it was proposed that the Society should be represented by one or more delegates to the National Fair, at Louisville, in September next; whereupon, on motion of Frank Royster, the President, Col. John Pope was appointed delegate, with authority to appoint one or more delegate who would be disposed to accompany him to said Fair.

On motion, W. J. Rutland, Jas. Hardin and W. H. Lake, were appointed a committee to solicit contributions from the citizens of the county, to aid in defraying the expense incurred in the improvement of the Fair Grounds, and also to collect the membership fees that are due.

On motion, A. F. Lake was appoint collector to collect the donations already generously subscribed by the citizens of Memphis—here being an urgent demand for them to defray the expense in the progressing improvement of the grounds. JOHN POPE, *President.*

JAMES LEATH, *Secretary, pro tem.*

THE LARGEST YET.—In the accounts of hail storms during the last two months, the hail stones have continued to increase fearfully in size. The Fredericksburg (Md.) News tells of one of the articles picked up in the streets of that city after a storm, which weighed one pound six ounces. A fall of icebergs is expected soon.

NEGROES IN CONNECTICUT.—The Black Republican Legislature of Connecticut passed resolves against the decision of the Supreme Court that negroes are not citizens of the United States. But it was not expected that the same Legislature would refuse to alter their State Constitution so as to permit negroes to vote! Yet they have done this at their recent session.

☞ Humphrey Marshall describes the Know-Nothing party as "a broad and quiet river, that takes its noiseless way through the plain, diffusing fertility and beauty on all sides, losing itself only in the expanded ocean of the nation's weal!" An ex-Know-Nothing friend of the Louisville *Democrat* says that, according to his experience, "it is like a country road he once traveled, which, at the start, was broad and plain, straight and smooth, promising a pleasant journey, and speedy arrival at the desired goal, but it soon began to twist around fences and wind through the woods, becoming less distinct at every step, until at last it ended in a rabbit track, and ran into the ground."

River Matters.

THE WEATHER.—The weather in the forenoon was quite warm and sultry, with thermometer ranging about 92 degrees at 11 A. M. Clouds made their appearance about 1 P. M., and showered down pretty extensively for a few minutes. It was not long before it commenced again, and, at the time of writing this, it is coming down in good earnest.

Business transactions at our wharf have been brisker than we have seen for some time. We counted six boats landing and discharging freight at one time.

The steamer *Editor*, commanded by the veteran, J. F. Smith, took moorings at the foot of Monroe street, at about 2 o'clock, P. M. She is off this evening for the Mound City. She is a boat that we can recommend to the traveling community, as she embraces every attention and convenience necessary for the comfort of passengers. Mr. R. M. Robbins will be at the desk to book all freights and passengers bound for St. Louis, that are aboard by 3 o'clock this afternoon.

The steamer *Hickman*, well known to the traveling public during the summer season, has her sign out for the Queen City, this evening, at four o'clock. Capt. Pepper, formerly of the *Memphis*, has given her a new coating paint inside and out, and has laid a new carpet in her cabin, and everything looks comfortable. Remember the hour of departure, and do not fail to be on board.

The fine steamer *Northerner* left port at her regular hour, 4 P. M., for Louisville, with a small trip of passengers and freight.

The fine steamer *Winchester* is the next packet from St. Louis to this point. She will be in Thursday morning.

The new and fine steamer *Rosebelle* is the next packet due from Cincinnati. We learn from Mr. Bruce, clerk of the steamer *Hickman*, that freights are so scarce that it will be uncertain as to the time she will be here.

We clip the following from the St. Louis *Republican*, of July 28:

THE RIVER—BUSINESS.—MORE BOATS LAID UP.—Since our last report the river has fallen at this point some five inches, and to Cairo there is an abundance of water in the channel for all navigable purposes. The river from St. Paul down is falling very rapidly, with three feet three inches on the Lower Rapids. The *Fred Lorenz* reports the *Mensfield* hard aground on the Lower Rapids, and the *Minnesota Belle* had also been aground. But we are informed that at *Beef Slough* the worst part of the channel is to be found. The Missouri is rising very slowly, or on a stand. Business was not very brisk on the levee yesterday, and the weather was hot. Arrivals were not numerous yesterday, two of which, the *E. A. Ogden* from Omaha and *Ella* from Nashville, have left up.

To the Editors of the Appeal:

Hearing it rumored that the steamer *Northerner* is going to St. Louis, I take this method of stating she will run to LOUISVILLE as long as the water in the Ohio permits, which will be at least three or four weeks, and, quite likely, all the summer. Yours, truly,

JAS. F. SMITH.

☞ Jones says that it's all folly for his friends to tell him that he mos'nt enlarge his fobs, when he is doing all he can to contract them.

MEMPHIS COTTON QUOTATIONS.

Ordinary	10 @10¾	Good Middling	12¾@13
Good Ordinary	10¾@11	Middling Fair	13¼@14

Middling	12 @12¼		

Business in our city for the past week has been about nominal. We do not see any change in the markets for Breadstuffs or Provisions.

The Wheat crop is yielding abundantly, and it is coming into market very fast, as the prices for a few days past have been a little stiffer than days previous. Our quotations will be found below. We notice the rise of wheat this year in Indiana, has been estimated at eighteen millions bushels, being about five millions over that of last year. We think the day is fast approaching when superior flour will be bought at two dollars per barrel.

The present crops of corn and cotton look very distressing, and we may easily believe, with the fine seasons we have had for the past month, that there will be an abundant crop of corn made, and with a fair fall a fair average crop of cotton.

Rich's Safes Tested.

THE numerous parties who have purchased from us RICH'S SAFES, made by Stearns & Marvin, are naturally interested in every result testing their fire proof qualities. We have received a letter which we append in full, to generally, to an inspection of Mr. S McMANUS' Safe as taken from the ruins of his store, consumed Thursday morning, June 18.

Although the books and other valuables were removed from the Safe previous to its abandonment to the flames, the interior was found in the best condition, the iron bolts unhardened and perfect condition of the interior, as satisfactorily exhibits its superior Fire-Proof qualities as though the books had been allowed to remain.

The Safe referred to may be seen on the sale walk, in front of our stores, Nos. 12 and 14 Front Row.
