Fine Arkansas Cotton Plantation FOR SALE.

CONSISTING of 1130 acres choice land, situated in Arkansas county, six miles from White river, and fourteen from Arkansas, known as the Cotton Plant. The land lies very level. A never failing stream of water runs through the tract. The improvements consists of a good dwelling and necessary houses, gin and mill, young orchard, two hundred acres of open land, one hundred and fifty of which have been in cultivation three to four years. The mill is well adapted to cotton or grain, and produces all in the great abundance. It is confidently asserted that to the planter or the speculator no place presents a better or surer investment.

Persons desirous of looking at the place will take the packet at this place Fridays or Mondays, at To-clock P. M., and they will be landed in forty hours at St. Charles, the shipping point. C. W. Bohanan, at St. Charles, will take pleasure in showing the place and giving any further information.

For terms &c., apply to or address the Compting House of Harris, Hermsey & Co., Memphis.

Tennessee FARMER AND MECHANIC.

L. P. WILLIAMS, Editor. Dr. R. H. Henderson, E. Tenn., Col. H. D. Gibson, W. Tenn., Associate Editors.

VOL. II. NASHVILLE, JULY, 1857. NO. 7.

All Letters to be addressed to L. P. WILLIAMS.

FALL WORK. THE SUMMER HAS GONE, and FALL work must be done upon the FARM and PLANTATION, and in the GARDEN, and to make this work profitable, it should be well done. The TENNESSEE FARMER AND MECHANIC is filled every month with just such plain, practical and reliable information as will materially assist in accomplishing this end. It will be round worth ten times the subscription money to every person engaged in these occupations.

Every Farmer in the Southwest would find the Journal a benefit to his out-door labors, as the articles are prepared with a direct reference to this latitude and its productions, giving the most approved methods of cultivation, harvesting and preparation for market.

SOUTHWEST. This Journal is a large octavo, containing 48 pages of READING MATTER every month, besides advertisements, and will contain more than six hundred instructive articles, each and every one of which, are plain and interesting to the farmer, or mechanic. It is hardly possible that any one, whether a FARMER, PLANTER, GARDENER, BRICK-MAKER, BRICK-LAYER, STOCK-RAISER, or the CULTIVATOR of only a VILLAGE LOT should read a Journal of this character without obtaining information that would render it a labor more profitable.

LABOR SAVED IN ALL. Payment can be secured from $500 to $2000 a year, in plowing, sowing, cultivating and harvesting, and then attempt to save two dollars of labor out of one, thirteen hours. New Coaches, fine teams and careful drivers, and time and money saved—no mistake.

The British Periodicals AND THE FARMER'S GUIDE.

Great reduction in price of the latter Publication.

LEONARD SCOTT & CO., New York, continue to republish the following British Periodicals, viz:

1. THE LONDON QUARTERLY REVIEW, (Conservative.)
2. THE EDINBURGH REVIEW, (Whig.)
3. THE NORTH BRITISH REVIEW, (Free Church.)
4. THE WESTMINSTER REVIEW, (Liberal.)
5. BLACKWOOD'S EDINBURGH MAGAZINE (Tory.)

These Periodicals still present the three great political parties of Great Britain—the Tory and Radical, but politics form only one feature of their character. Articles on the most profound writers on Science, Literature, Morals and Religion, have made these pages more good, instructive in the world of letters, being considered indispensable to the scholar and the professional man, while the intelligent reader of every class they furnish a more correct and satisfactory record of the current literature of the day throughout the world than can be obtained from any other source.

THE ARMY AND NAVY SERIES from the British publishers, give additional value to these reprints, especially during the present state of European affairs; these alone are worth the price of the Periods, if used as a guide to the events of the day.

Labor-Saving Machines.

Important to Planters & Millers.

FELTON'S IMPROVED

Self-Sharpening Portable Grist Mill.

An Improvement on all Other Patents.

THIS is one of the most valuable inventions of the day. It possesses all the qualifications requisite to make it valuable to the Planter. It is designed to supply a want that has long been felt by that portion of community, and is so simple in construction, that any person of ordinary intelligence can take it to pieces and put it together in a few minutes. The stones are of superior quality, harder than any imported steel, and not liable to get out of order. It will grind wheat, corn, oats, buckwheat, peas and spices; grind corn and cob admirably, or shelled corn and corn and cob may be well ground together. The stones are so adjusted that it can be ground finer or coarser at the pleasure of the miller. Clocks are furnished to attach to the frame which indicate when it is time to put on more grain, which is indicated by the ringing of a bell. The frame is constructed of the best seasoned timber, and not liable to get out of order. It will grind at the rate of 4 bushels per hour, and will last a lifetime. The stones are so arranged that they can be used on either side, and when one side is worn, the other can be put in its place. It is so simple in construction, that any person of ordinary intelligence can take it to pieces and put it together in a few minutes. The stones are of the most durable character
