THE DAILY APPEAL.

THURSDAY MORNING, AUGUST 13, 1857.

NOTICE THIS.

We frequently receive remittances for our paper at rates below those advertised. This is entirely useless, as our rates are fixed and will be departed from in no instance. Such remittances are returned in every instance, and to avoid all trouble and hazard of loss hereafter, we desire the especial attention of all concerned to this notice.

☞ All persons are requested not to purchase papers from our regular carriers, as they are not authorised to sell them. An observance of this request will greatly oblige the publishers.

☞ Thanks to The Adams Express Company for late papers.

☞ There are about fifty visitors at Dunlap Springs at the present time, and the number is daily increasing.

☞ Among the visitors at present in our city, we are pleased to welcome Mr. J. C. Busch, Senator elect from the Chattanooga district.

☞ We invite the attention of our city to the card of Mr. Byan, who proposes delivering a free lecture this evening in Odd Fellow's Hall.

☞ The *News* thinks it a little singular that we should receive into our party deserters from the Know Nothing lodges, inasmuch as they have been pretty soundly buraed by the Democrats. The doors of the church are always open to all who repent, however heinous their sins may have been.

☞ We regret to learn that Mr. James T. Harris, formerly of the firm of Harris & McNeal, of this city, and brother of Judge and Gen. Harris, was shot some days since in Arkansas. The ball took effect in his neck, and, we learn, is believed to be dangerous. We have no further particulars.

Rain.—We enjoyed a seasonable rain yesterday, which commenced falling about noon and continued for several hours. The crops of all kinds will doubtless be much benefitted, as cotton was beginning to droop, and the later corn was greatly in need of another shower to mature the ear.

☞ We are glad to state that Gen. Wall, the Superintendent of the Mississippi Central Railroad, has given Mr. Samuel Wells, the energetic "newspaper" man on the different Railroads running from Memphis, the privilege of running on that road with his news bags. This arrangement will facilitate the circulation of the city papers considerably.

☞ Some of the best planters in the interior of West Tennessee are now of opinion that the cotton crop will prove almost an average crop if the fall should prove favorable. On some of the best cultivated farms in Hardeman, the cotton now begins to present an appearance of great thrift and productiveness, and, with a favorable season, a portion of the planting community will realize excellent crops, though we think that the average yield must fall below the usual crop in the uplands.

The Barbecue at Collierville.—Yesterday was a great occasion in Collierville—the big-hearted Democracy of Shelby, encouraged by the smiles and approbation of beautiful women, were out in full strength, to signalize the recently achieved victory in a manner appropriate and expressive. Long are the hour appointed for the jubilee occasion, the town was thronged with visitors from the country and the city, arriving by the cars and on horseback—a company came in from the neighborhood, preceded by a band of music, and marshalled by gallant sons of Democracy, well organized, and in the full uniform of the red, white and blue.

The most ample preparations had been made for the accommodation of even more than were in attendance. After the crowd had assembled in the grove south of the town, and near the vicinity of the dinner tables, the committee announced from the stand, which had been erected for the occasion, that the first speaker would be the Hon. W. T. Avery, member elect to Congress from this District, who entertained the crowd for some time with a very modest, though felicitous speech, throughout the delivery of which he was frequently applauded. He was followed by Maj. Lockwood and Col. Goodall, of Somerville, both of whom made appropriate and congratulatory addresses.

At this stage of the proceedings, and after the conclusion of Mr. Goodall's address, the company were invited to dinner, the ladies (of whom there was a large number) occupying the tables first, escorted thither by music. We cannot too highly praise the excellent order of things observed at the tables, and the efficient police arrangements that suggested mildly though effectively, the maintenance of order. Committees were appointed, to whom was assigned the duty of waiting upon the guests, and how well they performed their office those who were the recipients of their attentions can testify. All parties seemed to unite in the desire to have the affair pass off with as great *eclat* as possible; the citizens of the town, of whatever shade of politics, vieing with each other in their efforts to please.

When the dinner was over, the company again assembled around the stand, and, although a rain had set in, the audience listened attentively to eloquent and appropriate addresses from Judge Dunlap, Mr. Avery, of Holly Springs, and Mr. Busch, of Chattanooga. The speech of the latter gentleman was argumentative and convincing, and received the most enthusiastic evidences of approbation.

The rain still continuing, the company were compelled to disperse, but all concurred in the opinion that it was one of the most orderly and well managed affairs which it was ever their privilege to witness.

The Crops on the Continent.—The latest advices from Europe are to the effect that the crops in all parts of Continental Europe promise a rich harvest. In some parts of Germany farmers have already begun to harvest their rye, and beside meds of new rye flour was in general use and pronounced of good quality. The wheat, a portion in Southern Germany have been much refreshed by the late rains, and promise a good crop. The grape vines in Germany have ceased blooming, and single berries have reached the size of small peas. If the summer should continue as it has begun, the wine of 1857 will be out-done by the product of 1854, both in quantity and quality.

MARRIED.

In this city, last evening, by Rev. J. W. Hatt, Mr. Burrell Palmer to Mrs. Rachel Newson.

Neuralgia.

A gentleman living in Philadelphia says: "In passing through Pittsburgh, some months since, I purchased a bottle of *Burkore's Holland Bitters*. It relieved me so much, that on returning home I bought two more bottles from Dr. Drury, which completely cured me of Neuralgia. I have recommended the article to many of my friends, and four or five of the number say it cured them. I think that my recommendation has done more for its sale than your advertising."

(We are not permitted to publish the name, but any person calling at the store, or communicating with us by letter, will be convinced of the truth of this statement.)

Ague and Fever, or Chills and Fever CURED BY SMITH'S TONIC SYRUP.

THIS justly celebrated medicine has for many years maintained its superiority over all other remedies, for the safe, certain, speedy, and permanent cure for Ague and Fever, or Chills and Fever, whether of short or long standing; and in no case will it fail to cure if the directions are strictly followed and carried out.

This remedy has been extensively used throughout the States of Kentucky, Tennessee, Ohio, Indiana, Pennsylvania, Michigan, Iowa, Wisconsin, Illinois, Missouri, Texas, Arkansas, Alabama, Mississippi, and Louisiana, and has permanently cured over ONE MILLION cases, in all the varied forms, many of which had been of from one to three years' standing, and had resisted all the usual remedies known in the country; and in no case did this medicine fail where the directions were properly followed. In Mississippi especially, and to a large number of respectable practitioners of medicine, in various parts of the country, are hereby prescribed in preference to quinine and all other remedies.

The public are assured that it is not only certain in its effects as a febrifuge, but being composed entirely of vegetable medicines, is perfectly innocent in all ages or circumstances, and may be given to females, infants, and all persons of delicate constitutions, without nauseating, or the least fear whatever of any unpleasant effect.

This medicine is composed of articles of the purest and best quality, and is always made by the proprietor in person after the established forms of pharmacy (which cannot be said of the many quinine pills flooding the Western and Southwestern country) and in this respect alone is rendered greatly superior to the remedies usually prepared and sold in the country.

By its aperient and powerful diaphoretic properties, added to its tonic qualities, it is rendered eminently superior to Quinine and other remedies as a general and popular tonic, in all cases whatever where tonics are proper to be administered. The proprietor, therefore, respectfully invites practitioners and the public generally to give it but a fair trial, and they will then be convinced of its great superiority over all other remedies now in use for the purposes specified.

Persons living in districts of country subject to Ague and Fever, Chills and Fever, or Bilious Fevers, would do well to keep a supply of this valuable remedy always on hand.

The proprietor has now in his possession thousands of certificates of its value, given by persons who have used it, with many letters from merchants who have sold it largely in their country, as well as from many physicians who prefer it to any other in preference to other remedies, attesting its value.
