The British Periodicals

AND THE

FARMER'S GUIDE.

Great reduction in price of the latter Publication.

LEONARD SCOTT & CO., New York, continue to republish the following British Periodicals, viz:

1. The LONDON QUARTERLY REVIEW, (Conservative.)
2. The EDINBURGH REVIEW, (Whig.)
3. The NORTH BRITISH REVIEW, (Free Church.)
4. The WESTMINSTER REVIEW, (Liberal.)
5. BLACKWOOD'S EDINBURGH MAGAZINE, (Tory.)

These Periodicals show forth the three great political parties of Great Britain—Whig, Tory and Religious—but politics form only one feature of their character. As organs of the most prominent writers on Science, Literature, Religion and Art, they have long been regarded as standard, unrivalled in the world of letters, by the considered indispensable to the lawyer and the professional man, while to the intelligent reader of every class they furnish a more correct and satisfactory record of the current literature of the day throughout the world, than can be possibly obtained from any other source.

The receipt of ADVANCE SHEETS from the British publishers, gives them a peculiar value to those regularly reprinted, as the present state of European affairs, inasmuch as they can now be placed in the hands of subscribers as soon as the original editions.

CLUBBING.—A discount of twenty-five per cent. from the above prices will be allowed to clubs ordering any one or more of the above works. Books for Exportation or Blackwood, or of one Review, will be sent to one address for $20; and so on, of the four Reviews and Blackwood for $30; and so on.

POSTAGE.—In all the principal cities and towns there will be delivered free of postage. But when the Work is sent by mail, the postage to any part of the United States will be but 24 cents a year for "Blackwood," and but 18 cents a year for each of the Reviews.

N. B.—The price in Great Britain of the Five Periodicals above named, is about $31 per annum.

The Farmer's Guide

To Scientific and Practical Agriculture, by Henry Stephens, F. R. S., of Edinburgh, and the late J. P. Norton, Professor of Scientific Agriculture in Yale College, New Haven, Vols., royal octavo, containing 1,600 pp. and numerous wood and steel engravings. This is, confessedly, the most complete work on agriculture ever published, and in order to give it a wider circulation, the publishers have resolved to reduce the price to

$5 For the two Volumes!

When sent by mail (post-paid) to California and Oregon, the price will be $7; to every other part of the Union and Canada (post-paid) $6. This is not the old "Book of the Farm."

Remittances and communications should always be addressed, post-paid, to the publishers,

PERFECT PROTECTION FROM THE ELEMENTS.

WEST'S

PATENT GALVANIC CEMENT

FOR ROOFING.

THE subscribers are now prepared to cover roofs of buildings, with a new and better article than ever before known. The public are aware that our Government has had sufficient experience, and that it has been the study of Architects and Builders for years, to discover an article for roofing purposes, that would stand the weather and the changes of the weather, and be free from cracks, and be at all times a permanent fixture. We, and all who have seen it, believe it to be more than the people wish. The contraction, expansion and rusting of metal roofs, are great disadvantages, that they become leaky, rusty, and require a great deal of some repairs. Shingles are a fire proof, and cannot be used on flat roofs, as the various Compositions and Gravels have been brought into use for roofs, do not stand the action of the weather, and they run when it is warm, and crack when it is cold, and at the end of two years become worthless, and will cost twice the amount of the Galvanic Cement has cost for the last ten years to keep it in good order. The Galvanic Cement has stood the test for ten years in Europe, and has had the testimonials from his long experience, and numerous testimonials from reliable persons, who have had it in continual use for ten years. Persons who have had it on their roofs, stand ready to testify to its merits, and have ordered it for a second roof, the first one having worn out. The combination of this Cement is such that it is calculated for entire new roofs, flat or steep, covering over old shingles without removing them; filling cave troughs, stopping around bottlemouths, chimneys and any tight. Covering canvas, and coating old roofs, and for all other purposes requiring a durable and cheap article. Its adhesiveness and cohesion, prevents metal roofs from rust and undermining, and makes the existence of heat and cold, heretofore the principal agents in the destruction of roofs, or for covering metal and the out-side of wood buildings, making them fire proof. Its appearance is like marble, beautiful for the high palaces or the humble cottage. The undersigned having secured the right to the State of Tennessee, will sell rights of Territory, by Counties or towns, on reasonable terms.

The subscriber is also prepared to cover roofs or buildings, in any part of the State, at short notice.

This roof is now being put on in this city, for the benefit of all concerned, and warranted to excel all other roofs or roofing. The subscriber having resided in the city of Memphis one year, and has had his mode of roofing tested as to its qualities, which has proved satisfactory, to which a number of the most prominent citizens can testify.

See testimonials of the following gentlemen who have used it with benefit and satisfaction:

For further information enquire at the office, where specimens may be seen in R. R. Morgan's A. Historical Rooms, No. 2 Walker's Block, Memphis, Tenn., or address, Box 387, P. O.

W. S. BENNETT, Proprietor.

Attached is a note from John L. Morgan, Esq., Architect, by which may be seen the opinion of Mr. Samuel Sloan, the celebrated Architect, and writer upon Architecture, whose experience with this mode of roofing without a coat, is satisfactory to all.

MEMPHIS, March 12, 1857.

MR. W. S. BENNETT: Sir: I have put on Memphis, for a few days ago, I called upon Mr. Samuel Sloan, the celebrated Architect, and author of the Steam Work of Arch Bridges, and asked his opinion of the Roof on your Cement Roof, upon which you have put up in the city of Memphis, and he said he had no hesitation in saying to me that it is a good and durable roof, and is all that its advocates claim it to be; further saying that he is using it on the new building in Philadelphia.

Respectfully, JOHN L. MORGAN, Archt. etc.

MEMPHIS, March 3, 1857.

W. S. BENNETT, Esq.: Sir: I have put up a roof with your Cement, and I do hereby certify to the public, that I have no hesitation in saying
