THE DAILY APPEAL.

WEDNESDAY MORNING, SEPT. 23, 1857.

☞ W. W. GATES, Esq., editor of the *Jackson West Tennessee Whig*, is at present in this city.

☞ We understand that a new daily paper is shortly to be started in this city, to be called the *Evening Liliger*. The more the merrier.

☞ At the last meeting of the City Council, C. S. MALLORY was elected City Jailor, in place of Mr. ENLOE, deceased.

☞ Hon. JERE. CLEMENS, of Alabama, is at present in the city. He is *en route* for the East.

☞ The weather yesterday was quite cool, and in the morning we had a shower of rain, which, however was not sufficient to do any injury to the crops.

☞ Copies of the Mammoth Weekly APPEAL, issued this morning, can be had at the counting-room, with or without wrappers—price ten cents.

☞ L. B. LENT's musical wagon, drawn by twenty-eight horses, made its *entree* in the streets yesterday evening, and attracted considerable attention. The audience at the Circus in the evening was very large.

☞ The interior of the Theatre on Washington street, has been re-decorated and thoroughly renovated, by Mr. ASH, for the coming season, and is now a perfect *bijou*. The announcement of its opening will be made shortly.

☞ Suspicious bills, of the denomination of "ten," have been in circulation in this city, on the Merchants' Bank of Nashville, when there has been no such bills issued. We understand that several persons have been arrested charged with circulating them.

CORRECTION.—We stated in a paragraph on Sunday morning that our friend J. E. R. RAY, Esq., had twice represented Henry county in the Legislature. We should have said Weakly county. We were naturally led into the error from the fact that Mr. RAY was in his youth a resident of Henry county.

GEO. D. PRENTICE, Esq.—This gentleman, the distinguished editor of the Louisville *Journal*, is announced to deliver a lecture in this city, at Odd Fellows' Hall, on the 1st proximo. His subject will be "The present aspect of American Politics," and is said to be free from party bias.

☞ Two of the City Schools for boys are not in session this week, in consequence of the destruction by fire on Sunday morning of the building in which they were held. The Superintendent, we understand, has experienced great difficulty in obtaining houses for the purposes of the schools, a reason we think that should stimulate the City Council to some exertions in that behalf.

WATER-WORKS.—It is not our wish to enter into a discussion of the relative merits of the two propositions entertained by a Committee of the Board of Mayor and Aldermen, for the establishment of Water-Works, or to comment upon the action of that body in the premises. The proceedings relative thereto will be found in the report of their meeting given elsewhere. It is wholly unnecessary for us to speak of the value of Water-Works to Memphis. We have done that time and again. The utter impossibility of Memphis ever becoming a manufacturing town without Water-Works is self-evident to every man of sense. That they will conduce to the comfort, commerce, health and cleanliness of the citizens, no one will pretend to deny. They will also add to the security of property, and lessen the enormous rates of insurance to which the citizens of Memphis are subjected for the want of them. We are credibly informed that the extra rates of insurance annually paid by our citizens over and above those paid in other cities, because of having no Water-Works, would produce a sufficient sum to build the Water-Works. With such a tax imposed every year, is it any wonder that there is a desire upon the part of the business men and property-holders to relieve themselves of this grievous and oppressive insurance tax? Out of the two propositions before it, the city might very materially aid the the work, which will be of advantage to all. We are not disposed, however, to throw out any suggestion that might embarrass the action of the Board, and leave the whole matter to their wisdom to determine best for the public good and desire.

EARLY FROSTS.—As there is considerable anxiety in regard to the injury likely to be sustained by the cotton crop by the apprehended cold weather, and early appearance of frost we give the following table, furnished us by a friend, showing the date of the appearance of frost in this latitude from the year 1835, up to 1856. We are assured, that the memoranda is correct:

1835. October 7th, first frost.
1836. October the 21, first frost.
1837. October the 27th, first frost.
1839. October the 30th, first frost.
1840. October the 3rd, first frost.
1841. October the 23rd, first frost.
1842. October the 26th, a killing frost.
1843. October the 4th, first frost.
1844. September the 29th, first frost.
1845. October the 6th, first frost.
1846. October the 18th, first frost.
1847. October the 14th, first frost.
1747. October the 15th, hard killing frost.
1848. September the 22d, first frost.
1849. October the 8th, first frost.
1850. October the 7th, first frost.
1851. September the 28th, first frost.
1852. November the 8th, first frost.
1853. October the 4th, first frost.
1854. October the 6th, first light frost.
1855. October the 7th, first frost.
1856. September the 24th, a killing frost.

Proceedings of the City Council.

The Board met on Monday evening in special session, according to an adjournment. Aldermen Hughes in the chair.

The object of the meeting was to entertain the following proposition:

To the Board of Mayor and Aldermen of the City of Memphis:

GENTLEMEN: The undersigned, commissioners appointed by the act chartering the Memphis Water-Works Company, respectfully petition your honorable board to grant to them the exclusive privilege for the term of, and pursuant to said charter, passed 23d February, 1856, of supplying the city and citizens of Memphis with good pure water, by means of Artesian wells or otherwise; also to grant to them the privilege of laying mains and pipes to carry out the object of the charter.

In consideration of the right and privilege here asked for by your petitioners, for said company, they will agree and bind themselves, in case they succeed in obtaining a sufficient supply of water to establish the works, to supply the city of Memphis with such water as may necessary to use in cases of fire, free of charge; the city in all cases to furnish her own fire-plugs, pipes, &c., extending from the sidewalks to the mains, and to lay the same down at her own expense.

If the city shall think it proper to build at her own cost, three or a less number of reservoirs of the capacity not to exceed three millions of gallons each, and as many as six fountains, all for the public use, and for the benefit of the city, the said company will keep them supplied with water free, the city to furnish and lay, and keep in repair, all of said reservoirs, fountains, and the pipes, &c., connected with them.

W. A. BLYTHE,
E. WICKERSHAM, and others.

And also the following upon the same subject proposed by Alderman Lofland of the Second Ward:

1. Water-Works in Memphis shall be erected by a Joint Stock Company of —— shares of $25 each.

2. Two-thirds of the stock shall be subscribed for by the city, payable in the Bonds of the corporation.

3. To secure the payment of interest and principal of the bonds, there shall be a lien retained on the Water-Works and fixtures.

4. The income arising from the Works shall be applied exclusively to the payment of the interest, and to establish a sinking fund for the payment of the bonds.

5. One-tenth of the bonds shall mature in twelve years, and one-tenth every year thereafter until all become due.

6. All persons who subscribe and pay for stock shall be entitled to a deduction of from fifteen to forty per cent. on their water bills.

7. The Company shall be managed by a board of nine directors—six to be elected by the City Council and three by the individual stockholders. The stockholders shall elect one of the directors President, and fix his salary.

8. The Board of Mayor and Aldermen shall take immediate action to learn as near as practicable the amount of means necessary to erect such works as the present and future wants of the city may require, and immediately thereafter order an election held to ascertain if the voters of Memphis are in favor of applying to the ensuing Legislature for power to issue the bonds, and for a charter, &c.

Alderman Copeland offered a resolution that the proposition be adopted by the board.

Alderman Lofland objected to the resolution on the ground that it was granting a monopoly which would be injuicious to the interests of the city.

Alderman Copeland replied, still adhering to his position and advancing in its support, the advantage to the city, in being entirely free from the expense attending the erection and maintenance of the Works. He would ask of the Aldermen of the Second Ward, whether the party, who proposed to give the bonus of $20,000 for the privilege, would give the city its water for public use, free of charge, as in case of the first proposition.

Alderman Lofland offered a substitute for Mr. Copeland's resolution, that the Mayor be authorized to order an election to take the sense of the citizens on his proposition. Alderman Faulkner was opposed to the first proposition.

Alderman Finnie called for the reading of the proposition of Alderman Lofland, and said he preferred it to the offer.

Alderman Erwin offered an amendment to Mr. Copeland's resolution, providing that no person should be taxed for water that did not wish to use it, and that the company commence operations within ninety days.

Alderman Street was opposed to the proposition of the first parties, but deemed, in case it should be adopted, that some obligation be taken from the company to bind them to a compliance with the terms of the proposition.

Alderman Hughes thought the passage of the resolutions would be precipitous on account of the slight understanding of the organization of the company making the propositions, and desired to have a further discussion and understanding about the matter. He wished the Board before acting in the premises, to recur to the information contained in a report made to the Board, by Mr. Douglass when he was an Alderman.

Alderman Hughes offered in lieu of Mr. Copeland's resolution, that a committee be appointed to confer with the parties making the proposition, and ascertain the best practical method of establishing Water Works.

Mr. Wickersham, by courtesy of the Board, addressed them, explaining the objects of the company, and deferring to the reference to the committee for a further investigation.

A resolution referring the whole matter to a committee for its investigation, was finally adopted. The following gentlemen were appointed: Messrs. Martin, Finnie and M. Lofland. Mr. Hughes was added, by motion, to this committee. Mr. Street made a report from the Finance Committee, relative to the purchase of a lot for the Hook and Ladder Co, at the corner of Adams and Second streets, and the Committee authorized to close the contract for its purpose, at $8,000.

The Committee were also authorized to close a settlement with A. M. Ferguson for the purchase of a lot on DeSoto street, at $1,000, for Fire Co. No. 7.

Some other unimportant business was transacted, and the Board then adjourned.

River News.

We have nothing new to report at the landing to-day. Business was quite dull, and the weather unusually cool for the season. The arrivals yesterday were very few, but there are several boats now due that may be expected early to-day.

The prompt St. Louis packet *Editor* came in early yesterday morning from that point, with a good freight. Her officers, as usual, furnished us with a file of late papers.

We are indebted to the fine mail packet steamer *Pennsylvania*, which passed up yesterday, for a file of late New Orleans papers.

The *Ocean Spray* will be in port to-day, from St. Louis.

The *J. E. Woodruff* passed up since our last, for Louisville. Freights at New Orleans, for the Ohio river, is represented as being exceedingly scarce.

The *City of Memphis* and the *T. C. Twitchell* are due from below to day. The *David White* left New Orleans yesterday for Louisville.

The punctual packet *Kate Frisbee* will be in port this evening from Napoleon.

The steamer *Diamond* is due to-day from Louisville, on her way to New Orleans. The *Wm. Morrison* is due to-day from St. Louis, destined for the same point.

The *Fanny Bullitt* has gone on the ways at Paducah for repairs.

The steamers *Pete Whetstone* and *Crescent* will be due to-night from above, on their way to New Orleans.

The St. Louis *Republican* of the 19th says:

The river at this point is still falling steadily. There is six and a half feet in the channel to Cairo. We have no news of any important change in any of the upper rivers. The weather continues hot, and was somewhat showery yesterday. Arrivals are numerous and the Levee is crowded with boats.

From the Louisville *Courier* of Saturday we take the following:

The river is going down to low-water mark at a more rapid rate than could be hoped, even by the propeller fleet. In the canal, last evening, there were less than three and a half feet water, while on the shoalest bars not over three feet are reported. The weather continues unusually warm, too warm for the season, with the thermometer nearly up to ninety in the shade, a sure precursor of a storm or rain. A good shower fell in the evening, with more last night.

The Cincinnati *Enquirer* of the 19th says:

There is but little or no change in business matters upon the river or at the landing since our last report. The arrivals are but few, and so, also, the departures. The mail-boat pilots announce the water in the channel hence to Louisville count, with only four feet water on Medoc Bar, the channel running down through the chute, the old low-water channel among the logs. The *Superior* rubbed the bottom all the way through. She had a heavy freight on board.

We take the following from the New Orleans *Delta* of the 18 h:

The weather for the last few days has been quite warm for the season, and so was the day, after which a fresh sea breeze springs up and it becomes very pleasant. The health of the city continues good, and business is beginning to improve. Cotton is coming in slowly, and lively times may be looked for again. The lower rivers continue in good navigable order for middling-sized boats, but up freights still remain scarce.

MARRIED.

On the 22d inst., at the residence of the bride's father, W. H. Allen, Esq., of Montgomery county, Tennessee, by the Rev. J. W. Hannah, Dr. H. M. AGEE, late of this city, to Miss CARRIE ALLEN.

In Immanuel Church, at LaGrange Tennessee, on the 14th inst., by the Rev. Mr. Page, Mr. JAMES R. ANDERSON, Esq., of Holly Springs, Miss., and Miss LIDE G. SMITH.

What it is doing for the sick.

The editor of the Kittanning *Free Press* says: "After one of the best physicians in this place had failed, BURNHAM'S HOLLAND BITTERS cured me of the worst form of Dyspepsia."

FRANCIS FELIX, only manufacturer of the original "Extract of Coffee," says: "I know that your HOLLAND BITTERS is one of the best medicines in the world for disordered stomach or liver."

Dr. LUDWIG, editor of the '*Fackel*,' Baltimore, pronounces it a medicine deserving the confidence of the public.

Dr. EHRHART, the leading German physician of Pennsylvania, has prescribed it frequently during the last three years, with marked success, in debilitated states of the digestive organs, or of the system generally.

The manager of Ballou's Vinegar Factory says: "I used it myself, and was therefore induced to try its effect upon my wife, (troubled with the debility common to all of a consumptive habit,) and really it is doing her more good than anything she has ever taken."

Select School.

Mr. J. P. HARLOW, for some years Teacher in the City Schools, desires to inform the citizens of Memphis, that on the 28th inst., he will open a Select School for Boys, in the basement of the First Baptist Church. Terms of Tuition, $4 per month. School hours from 8 to 12 o'clock A. M., and from 2 to 5 o'clock P. M.

Clerk's Sale of Valuable Real Estate.

PURSUANT to a decree of the Law side of the Common Law and Chancery Court of the City of Memphis, rendered at the April term, 1857, of said Court, in the case of Jas. Robertson, *exparte* I will on TUESDAY, THE 27TH OF OCTOBER NEXT, on the premises, offer for sale the following

Valuable Real Estate,

being the lot surveyed by E. S. Todd for Willoughby Williams, numbered 56, bearing where the north line of Walker street intersects the west side of Orleans street, running north with Orleans street twenty chains, seven links to a stake; thence west twenty chains seven links to a stake at the intersection of Orleans street with the old Holly Springs road; then west six chains twenty-seven links to a stake; thence north twenty chains seven links to a stake; thence east with Walker street to the beginning—containing twenty acres. This beautiful and desirable property has been subdivided into

Six Building Lots,

One of which contains the present residence of James Robertson. This lot is tastefully improved and well set with ornamental trees, shrubbery &c.

TERMS OF SALE.—Individuals of the place are invited to attend, when and where the property will be sold, one third in cash, the balance in one and two years, with interest.

sept15-tf WILLIAM J. WRIGHT, Clerk.

HIDES.....Hides declining. We quote dry flint at 15 to 16c.; dry salted 12 to 14c.; green 7c.; green salted 8 to 9c. Owing to unfavorable advices from New York, where there is at this time an accumulation of 300,000 hides against 30,000 of same date last year, hides have declined from 2 to 3c. ⅌ lb in all the Western and Southern markets. At St. Louis, where there was an active demand for hides last week, the market is dull and drooping with a decided decline of 2 to 3c. ⅌ lb. Later in the season the report demand for Europe may induce an advance in prices.

LEATHER.....There has been no material change in the Leather Market since last report. We continue to quote Oak Sole 28@40c. Hem Sole 31@35. Skirting 41@42c. Calf Skin $30@$40 ⅌ doz.

COTTON CROP.

The New York *Shipping and Commercial List* has prepared its annual statement of the Cotton crop. The total receipts at all the shipping ports for the year ending August 31, were 2,847,339 bales, showing a decrease of 566,326 bales as compared with the crop of last year. We annex a comparative table of receipts showing from what source they were derived:

RECEIPTS OF COTTON AT THE PORTS OF THE UNITED STATES.

	1856-'7.	1855-'6.	1855-'6.	1854-'5.
N. Orleans	1,346,905	1,232,644	1,661,433	1,332,644
Mobile	528,674	474,966	529,723	454,595
Florida	155,448	152,592	144,168	136,597
Texas	110,325	80,727	116,095	80,721
Georgia	216,005	178,691	209,445	178,494
S. Carolina	412,734	412,235	403,376	430,272
N. Carolina	11,524	26,139	26,698	16,146
Virginia, &c.	34,346	32,661	24,079	38,661
Tn. crop, lbs	2,930,027	2,587,239	2,627,845	2,847,339

Included in the last item are 7,161 bales received from Memphis, Nashville, &c., Tenn., at New York, Philadelphia, and Boston.

The total exports from the United States to foreign ports during the year ending August 31, were 2,351,657 bales, divided as follows:

TOTAL EXPORTS OF COTTON FROM THE UNITED STATES TO FOREIGN PORTS.

	1856-'7.	1855-'6.	1855-'6.	1854-'5.
To Great Britain	1,348,748	1,249,213	1,021,016	1,249,970
To France	374,058	409,301	480,437	413,207
To N. of Europe	165,172	135,870	234,966	245,748
To rest of foreign ports	175,189	149,149	140,126	144,431
Total bales	2,063,167	2,341,933	2,354,645	2,253,357

The following will show the stock of cotton (in bales) on hand at the dif ferent ports of the United States on the 1st September:

STOCK OF COTTON ON HAND IN
