THE DAILY APPEAL.
THURSDAY MORNING, OCTOBER 15, 1857.

☞ We thank M. S. Berry, Esq., the courteous clerk of the Ocean Spray for St. Louis papers; also to Adams' Express for similar favors.

INQUEST.—Coroner Waldron held an inquest on Tuesday on the body of a man, supposed to be an Irish deck-hand, which was taken from the river.

☞ Rev. Mr. Quintard, of the Episcopal Church, arrived in the city day before yesterday from a visit to the Northern and Atlantic cities.

☞ We invite attention to the card of Mr. Secretary Cobb advertising sealed proposals for a lot in Memphis as a site for the new Court House and Post Office. The Government is a good customer and will pay down in gold.

☞ Mr. E. Hollenbeck is announced this morning as a candidate for the office of Constable in the fifth civil district. Mr. Hollenbeck is an old citizen, a worthy man, and if elected will make a faithful and efficient officer.

LAW.—The number of cases on the criminal docket, set for trial during the present term of Court, is fifteen hundred and seventeen. Plenty of business for lawyers, no suspension with them except when hemp is the agent.

CRIMINAL COURT.—Liquor cases absorbed the principal attention of the Court yesterday. Gatti was fined $20 in one case and a dollar each in fifteen others, for selling liquor in less quantities than a quart. A number of persons charged with gaming submitted their cases to the Court, and were fined $20 each.

Mr. Mike Lawler—It gave us unalloyed pleasure to meet this gentleman who has returned to the city to fill an engagement, we learn, with Mr. Ash at the Washington Street Theatre. Besides being an excellent actor and a first rate fellow, Mr. Lawler is one of the best Democrats afloat.

ARRESTED.—Marshal Reinhardt yesterday received information that a man named Murrell had robbed his employer, at Jackson, in this State, of a sum of money and a gold chain. A description of the thief was given, and we soon our active Marshal had the man in one of the cells of the jail.

FAIR.—On Monday next, the congregation of St. Peter's Catholic Church, hold a fair at the Old Fellows' Hall, to continue for several evenings. The occasion will be a pleasing one we have no doubt, judging from the preparation that is making, and the kind reception that is to be given to all visitors by members of the fair sex.

VIEW OF MEMPHIS.—We are pleased to learn that Prof. J. T. Palmatory & Co. are now engaged in making drawing for their Views of this city, and from what we can learn from the Prof. it will be a fine production, being sixty-two inches long by thirty-six, showing clearly and distinctly every feature in the city, together with every street and the color and design of every house. We hope our citizens will patronize the work of art.

HOLLY SPRINGS.—M. Moran, Esq., agent of the Central Illinois Railroad, well known in this city as the possessor of a good portion of good looks, good humor, and good nature has taken the Union Hotel at Holly Springs, which will from Friday next, the day he enters on possession, be known as the National. It has undergone a renovation, and a thorough course of improvement, and the traveling public cannot do better than patronize Moran.

CLUBS OF NEW SUBSCRIBERS.—We return our thanks to Capt. Wm. Delay, P. M., at Oxford, Miss., for a club of new subscribers to our MAMMOTH WEEKLY; also to JOSEPH BEARD, Esq., at Portersville, Tenn., for a club of twenty-four new subscribers. We shall not abate our exertions to deserve the confidence and patronage of the public, determined as far as we can to give fresh interest to our columns.

OUR BANK NOTE LIST.—As a matter of justice to the free banks of our city, it is proper that we should state that although their notes are quoted in our table at par with the State and Stock Banks, they should really be quoted at par with specie. They pay gold and silver at their counters for their notes when presented, and of course while they continue to do this, their notes should be considered on a par with gold, which now sells at a premium of from ten to twenty per cent over the notes of the State and Stock Banks. We make this statement in justice to the parties concerned.

SUSPENSE.—The public appear to have made up their minds that all the banks are to suspend, and seem to feel all the anxiety of suspense until they do so, if we may judge by the busy tongue of rumor. We heard much last evening of catastrophes that had occurred throughout the Union during the day, but stifling, left in our possession a knowledge only of two facts: that the New York banks were ready to suspend when other banks would keep them in countenance by suspending with them; and that of numerous banks down the river, said to be in the condition of the hangman's tenant, the bank of Louisiana was the only one that had really gone into suspension.

River Matters.

The river was without perceptible change yesterday.

The *Ingomar* left last night for New Orleans taking with her 359 bales of cotton.

The *Evansville* left last night for White River.

The *H. R. W. Hill*, which has been lying here repairing and repairing, is now in beautiful order. She leaves on Friday for New Orleans

The *Ocean Spray* was in last night. She is making her regular trips in regular time, and she always does.

The *Philadelphia* from St. Louis passed down on her way to New Orleans last night. She had plenty of water to Cairo, and found seven feet at Island 34.

The *Soland* was in from Cincinnati. She left last night for the Queen City. Amongst her freight was 30 bales of cotton for Cincinnati.

At St. Louis on Monday business was dull, with no change in the river. The Missouri had 3½ feet on the bars. The Illinois was falling with 3 feet in the channel. At Louisville on Friday, 3 feet in the canal. At Cincinnati on the same date scant 4 feet to Louisville.

As the James Montgomery was making a landing at Columbus, Ky., on the Mississippi, last Saturday, her guards ran over the guards of the wharf boat, and caught the leg of a gentleman by the name of Lassford Bains, a citizen of Friar's Point, Mississippi, and perfectly shivered the bone of his leg from a little below the knee, nearly to the ancle. His leg had to be amputated; but from the loss of blood during the night, and from other bruis a received at the time of the accident, he died Monday morning.

TO ASSOCIATED PRESS OF MEMPHIS.

New York Bank Suspensions.

NEW YORK, October 13, P. M.—It is reported, on good authority, that the banks are all resolved to suspend. The meeting of officers still in session to-night.

LATER.—The banks have resolved to suspend, but make regular exchanges at the clearing-house. A Committee goes to Albany to confer with the Governor with reference to a meeting of the Legislature.

NEW ORLEANS, October 14.—The Union Bank has not suspended. There is a heavy run on all free banks, and great excitement. The branch mint has paid out all the banks $200,000 in silver and bullion and are paying gold, thus affording some relief.

Bank Suspensions.

NEW YORK, October 14.—The Banks of the following cities have suspend specie payment to-day—New York, Albany, Brooklyn, Boston, Hartford, Trenton, Portland, and a general suspension throughout New England is anticipated. Buffalo fell we to carry it.

Wall street is comparatively quiet. There is a moderate run on the Savings Bank of this city which was promptly met, but those in Brooklyn were old and to close.

The officers of the New York Savings Bank are in consultation, and propose paying ten per cent on depositing.

The Bank of Commerce and Chemical Bank continues specie payments. The Manhattan Bank is said to be doing the same, other banks will probably follow, in making partial payments. Nearly two millions in specie were paid yesterday, exclusive of that paid by the Saving Banks.

Gold is selling at 4@5 per cent premium.

The Brokers board passed a resolution to receive certificates for Stock, which rose 8 per cent, and at 2 o'clock the board was all Firmer.

Mechanics Bank held a meeting and expressed entire confidence in the New York banks, and pays dollar for dollar.

WASHINGTON'S HOME.

The following gentlemen were appointed a committee on petition, at a meeting of the Methodists and others of Berthy of Memphis, to receive and collect contributions in aid of the SOUTHERN LADIES' MOUNT VERNON ASSOCIATION, for the purchase of the home of the Father of our Country. We earnestly solicit from the patriotic citizens of Memphis and adjoining country, to contribute their mite towards the almost impalpable object. We need not call on the Ladies, for this object is especially theirs, and we know they will go heart and soul in raising funds to purchase and preserve sacred the hallowed ground wherein lies the immortal Wa SHINGTON:

"Some weeks since, being seriously affected with pain and uneasiness at the stomach, loss of appetite, and at times strong symptoms of dyspepsia, I was induced to try your HOLLAND BITTERS, and I feel it but an act of justice to the article, as well as for the good of those who may be affected with like derangement of the stomach, to state, that the use of one single bottle of this medicine proved of incalculable benefit, having freed the stomach from all sense of depression, and removed every symptom of dyspepsia. I would also remark, that two other members of my family, who were afflicted in a similar manner with myself, were entirely relieved by the use of a single bottle each.

MEMPHIS DAILY APPEAL OFFICE,
THURSDAY, October 15, 1857.

The Augusta, Ga., *Constitutionalist*, of Saturday, says:

BANK OF THE STATE OF SOUTH CAROLINA.—Dispatch received in this city this morning announce that this institution has suspended. This intelligence, coming in the peculiar character of the bank, which is a bank itself in fact, its suspension should create no panic as the State is liable for its issues and therefore danger of ultimate loss to the holders. The other banks of Charleston are not chartered but rather, we assume refer to the suspension of the Bank of the State which they have had to do and which, in the uncertainty for a long time past. A large party in South Carolina have long contended that the Bank of the State should be wound up and we hear that this will be the result of the present temporary suspension.

"The Bank of the State of South Carolina" "The State institution, which has suspended, must not be confounded with "The State Bank of South Carolina," a private corporation, which, as far as we know or believe, is sound and safe.

The latter paragraph, it will be noticed, contradicts a dispatch received here on Tuesday

Another money fear. The New York news and tidings of failures and suspensions and consequent suspension paralyzed all business. Gold was sold at 15 ⅌ cent, something easier than the day before. Exchange may be considered for the time an extinct operation and the West, in the business sense, an old bachelor term. The latest apparent news is that the banks are suspending it, give an idea of the sale of money matters here.

The New York News says the public never thought of a panic so all the bitter and utility and violently contracted their issues, the public saw a panic among the banks and were foolish enough to catch the alarm. Much at bottom is far worse than it has been before at a time of paper currency. Gold will come to us from Europe, but the specie-paying banks of the North of England will not up its rate of interest as soon as it shows that gold is wanted for shipment. New York in addition to the difficulties named, finds here for at parts, and would be soon not to take rather it is but the large sum required there already.

On city banks, it is now one dol, will not stop continuing. The resolutions adopted by for two or thirty days ago, in a meeting of all gen men. The few banks who would in our view of by the other. The Mechanics' Bank has the amount say sum ($100,000 in) a vault, which the chance is it being wanted for security, and yet will not respond to the call of the suffering community. The Chemical now will be in the Sub-Treasury which will enable it to accommodate with a large portion of the present and current business.

Both banks will continue to convert and fix large will not, unless the proportion of the West comes forward and gives to Every from the West. We expect troubles in Louisville and Pittsburgh and New Orleans and wherever on a counties are and

On these six exchanges are wholly destroyed. There are no small issues from the West, and there is a great deal of it passing from hand to hand and held in a merely. Transfer of exchange are very high. The rapidity of feeling we have obtained from T. P. Jam s & Co., No. 62 Wall street, reflects Sales and Eastern 1@1¼ per cent. Philadelphia, Tex; Baltimore, ¼ North and South Carolina 10 County Pennsylvania 1@1 Bank Island St. Virginia old, 10; Virginia, new bank, 10; Can da, 6@7.

Foreign exchanges are in favor of the buyer with but few prices. The rates are 109@110 for Sterling, nearly at 109, and for Francs 5 75@5 40 with at air quality.

The New York Dry Goods says:

The mercantile world is in a state of suspension, the banks are at any rate, that they shall take no pay out the issue of all the notes of bank in the country. A Committee has been to Albany from the merchants to show the Legislature and Governor the necessity of some from their institutions. If to the same money as heretofore they are not put out notes. An present would there be enough banks and stop the constant drain of specie which the country is now. But should not the working men demand and have the specie through the State Treasurers in spite of the banks? We think so.

The Philadelphia Journal of Thursday, as an instance of the price of silver, reports:

Pennsylvania railroad, confirmed one of the best security on the list, sold yesterday at 90.

The Philadelphia Pennsylvanian of Thursday says:

The action of the Legislature at Harrisburg is regarded with much solicitude, but as yet very little progress seems to have been made towards any particular result. A dozen or more of the multiplicity of measures, propose it is to be hoped that the whole subject will receive proper consideration of the next Legislature. As it is, the Legislature seems to have no regular tasks to work upon. The bills, which are asking action, have not done it is proper to present these evidence of their credit, which it was in vain from the first would be sufficient for such purposes. Our citizens are not to be blamed, but suffering their August interest to be obtained. They are sent to the Legislature to act wisely in the 4th. Nothing is left to act upon the whole subject by the Legislature about to be convened.

From the New York Dry Book we learn that the Committee appointed at the recent Erie Railroad meeting, to receive subscriptions toward relieving the road from its embarrassments, met and reported subscriptions to the amount of $100,000.

The Louisville Democrat of Sunday informs us that there was no change worth mentioning.

The Evansville Journal of Friday, says that Cincinnati runners have, within four weeks, taken about 60,000 in coin, principally within the last ten or twelve days; and the circulation of the banks has been reduced, in the same time, to about $50,000. None of the banks are resuming any of their notes, but will receive them as they come in, till a change in the aspect of affairs.

From the Cincinnati Commercial of Saturday, we learn that a change on New York continues exceedingly severe, and the supply not over half equal to meet the demand a few days more.

The St. Louis Leader of Monday reports:

The arrangements of yesterday were, and consequently up to all banks activities has continued during the week without a break, and we add, in the end, with the virtual refusal to permit Fellow's and suspensions of Louisville, Pittsburgh, New Orleans, Philadelphia, Tex; Baltimore, Nashville and North and South Carolina 10 County Pennsylvania 1@1 Bank Island St. Virginia old, 10; Virginia, new bank, 10; Can da, 6@7.

The bills, which are asking action, have not done it is proper to present these evidence of their credit, which it was in vain from the first would be sufficient for such purposes. Our citizens are not to be blamed, but suffering their August interest to be obtained. They are sent to the Legislature to act wisely in the 4th. The Bonds now on its for the exhibits up to the present time when not half of them can reach Harrisburg before the expiration of the session; which the Senate by different resolution of special payments as early as the middle or February, by the distribution of 18 to 14, in Legislature, their energies are concerned. Nothing is left to act upon the whole subject by the Legislature about to be convened.

Commercial Matters.

The Zoonograph.

THE superiority of the Ambrotype over the Daguerreotype is universally acknowledged, and they in their turn are totally eclipsed by the ZOONOGRAPH, which is the result of a new chemical process discovered by Professor REMINGTON, and perfected after much labor and perseverance.

These pictures are more clear in their outlines, brilliant in tone, life-like in expression, durable, richly colored and elegantly finished, than any style of Photographic picture that it has ever been our pleasure to examine critically.

CLARKE'S GALLERY contains everything requisite, every convenience and facility that can be desired or obtained to execute in the most perfect manner any of the various styles of photographic work. It will kindly repay a visit, and especially so to those who desire artistic pictures

We can also assure the public that Prof. Remington is in possession of several processes and materials in his art, that no other person in this part of the country is possessed. As a consequence he is enabled to give a beauty, finish and life to his pictures that we shall in vain look for from other artists

Give them a call and judge for yourselves.

Prof. Haskell's Electric Oil.

A sample of this wonderful Medicine for the cure of Rheumatism, Deafness, Piles, Corns and all nervous diseases, Toothaches and Pains has been received by HARBIN & CO where it can be obtained. The suffering should purchase a bottle immediately. See advertisement in another column.

PROF. HASKELL.—The following testimony in favor of Dr. Haskell' Electric Oil is furnished us for publication:

PROF HASKELL—Dear Sir: I feel it to be my duty to inform the public, through you, what your wonderful "Electric Oil" has done for my family. My wife has been a sadly troubled with failing of the womb and pains in the back and breast. I bought one bottle of your Oil yesterday and to-day she is entirely free from pain and sends her warmest respects for
