Real Estate.

Country Residence for Sale,

AT Union Depot, on the Memphis and Ohio Railroad, eleven miles from Memphis, known as the Ferguson place; forty-eight acres of land, seventeen acres of which is set with a choice selection of fruit trees. Improvements are good, and the place is watered both by a well and a never-failing spring. The undersigned purchased said property for a friend, who writes him that he cannot remove to it, and has other interests him to attend to, and that, too, for the purchase money, which would not cover the cost of the improvements. Cost $600, or you may lease a portion. For further particulars, apply to the undersigned at said Depot.

Valuable Plantation for sale.

OFFER for sale my Plantation in Madison Parish, Louisiana. There are about 1 400 acres. It is situated on the Tensas river, and the Vicksburg Railroad runs along the northern boundary; there is a depot on the place, and it is nearer shipping day in the year by railroad, or by Tensas which is to be provided with two steamers, than any principal navigable river. The land is level but on the fertility of which is too well known to require comment and a hole be one and a half of cotton to the acre is a fair crop. The place is provided with a good dwelling and gin house, with four stands, cisterns, &c. On the place are two hundred acres of cleared land, which will be sold at the price of the plain if applied to. I will sell the above land at $40 p. acre $20,000 cash, the remainder in five equal payments, with interest, or I will sell one half of it January next if not sold before that time. I decline selling at all. The present working a number of hands is a rare chance, as wood hands, even are selling around at $40 to $50 per acre. There are on it this year 40 acres in cotton and 160 in corn. Seven hundred can be put in next year.

Persons wishing to become the owner of it are requested to call on G. B. LOCKE, Auctioneer and Real Estate Broker, Memphis, Tenn., or write me at Prentiss, Miss.

Important to Planters & Millers.

FELTON'S IMPROVED
Self-Sharpening Portable Grist Mill.

In Improvement on all Other Patents.

THIS is one of the most valuable inventions of the day. It possessing all the qualifications requisite to make it valuable to the farmer. It is destined to supply a want that has long been felt by the planter of economy; it is so simple in construction, that any person of ordinary skill can run it and keep it in order. The grinding surfaces are of the most durable character, made of very tempered steel, and not liable to get out of order. It will grind wheat, corn, oats buckwheat, drugs and spices, crush and grind corn and cob admirably, or shelled corn and corn and cob may be well ground together. The small size frame mill, with two-horse power, will grind from 8 to 20 bushels of corn per hour, shelled or ear, and from eight to ten bushels of good feed for stock, and requires but little attention, and may be run by gin-boy without increase of expense. The same size frame mill will grind over twice that amount per hour. The mes are not liable to disarrange, or get out of order. Prices, for small size $125; large size $200. We have the right to sell the States of Alabama, Mississippi, Louisiana, Arkansas, Tennessee, Kentucky, and a portion of Texas. A rare chance is now offered for competent and responsible men to engage in the sale of Mills.

Correspondence solicited, and liberal selling terms. All orders, communications, and applications for Rights and Mills addressed to us will receive prompt attention.

The Greatest Invention of the Age!

PERFECT PROTECTION FROM THE ELEMENTS.

WEST'S PATENT GALVANIC CEMENT FOR ROOFING.

THE subscriber is now prepared to cover roofs of buildings, with a new and better article than ever before known. The public are aware that our Government has had scientific men experimenting, and that it has been the study of Architects and Builders for years, to discover an article for roofing purposes, that would stand the sudden changes of the weather, and be impervious to fire and water, and withstand a powerful fire. As yet, nothing has been attained without costing more than the people wish. The contraction, expansion and rending of metal roofs, are so great in changeable weather, they become useless, unless being repaired at great expense yearly. Shingles are not fire proof, and cannot be used on flat roofs, and are the most combustible of all. Tin roofing has been brought into use for roofing, do not stand the action of the weather, but they run while it is warm, and crack when frosty, and at one or two years become crazy, and worthless; whereas, the invention of the Galvanic Cement, has labored for six years to combine articles to obviate those difficulties, and can testify from his long experience, and numerous testimonials from reliable persons, who have used the combination applied to their buildings, that his Cement is the cheapest a best article ever before known. The combination of the Cement is such that it is calculated for using on roofs, flat or steep; covering over old shingles without removing them; living save income, seaming around outhouses, chimneys and any other adventitious objects, nuisance decks, &c. This Cement, by its non-conduction and galvanism, prevents metal roofs from rusting and undermining, and retains the extremes of heat and cold, better than anything ever invented, for entire roofs or for covering metal and the out-side of wood buildings, making them fire proof. Its appearance is elegant; beautiful for the rich palace or the humble cottage.

The undersigned having secured the right for the State of Tennessee, will sell rights or Territory, to Counties or towns, on reasonable terms.

The undersigned is also prepared to cover roofs of buildings, in any part of the State, at short notice.

This roof is now being put on in this city, for the benefit of all concerned, and warranted to excel all other modes of roofing. The subscriber having resided in the City of Memphis one year, and has had his mode of roofing tested as to its qualities, which has proved satisfactory, to which a number of the most prominent citizens can testify.

See testimonials of the following gentlemen who have used it, with honest others.

For further information, enquire at the office, where samples may be seen in J. L. Morgan's Architecture Room, No. 2 Walker's Block, Memphis, Tenn., or address, Box 230, P. O.

C. W. STURDIVANT & CO., Proprietors.

Attached is a note from John J. Morgan, Esq., Architect, by which may be seen the opinion of Mr. Samuel Sloan, the celebrated Architect, and writer upon Architecture, whose experience with this mode of roofing without a doubt, is satisfactory to all.

MEMPHIS, TENN., March 12, 1857.

MR. W. S. BENNETT: When in Philadelphia, Pa., few days ago, I called upon Mr. Samuel Sloan, the celebrated Architect, and author of the Home Book of Architecture. I asked his opinion as to the durability of your West's Patent Roof, such as you are using in the city of Memphis, and he told me that it was impossible to say to me that it is a good and durable roof, and is all that is advertised claim it to be; further saying that it is using it on a fine building for himself.

Respectfully, JOHN L. MORGAN, Architect.

MEMPHIS, TENN., March 12, 1857.

W. S. BENNETT, Esq., *Dear Sir:* The facts within my knowledge of the durability, &c., of West's Galvanic Cement, are as there is nothing more to add. In the spring, we are happy to state has answered our expectations. We can therefore, recommend it to the public for the purpose it is advertised, as a fair, cheap, and durable roof. It does not get wet and run from the effect of the heat of the sun; nor does it harden and crack from the effect of the cold, as Tin roofing does; to know more of this article, can call at our manufactory.

Carriage Manufactory, Monroe St., Memphis Tenn.

MEMPHIS, TENN., Dec. 8, 1856.

To WHOM IT MAY CONCERN: This is to certify that W. S. Bennett, covered two roofs for me last Spring, with a composition called West's Patent Galvanic Cement at three dollars per square, and I do say that the roof, which are giving perfect satisfaction. He also repaired a dormant window, which leaked badly, and has suffered the skill of carpenters to no effect, it leaks which he succeeded in making perfectly tight. I do most cheerfully recommend his mode of roofing to the public for all roofing purposes, and believe it to be a permanent nature and a fire and water.

D. COCKRELL,
Proprietor Commercial Hotel.

SUPERINTENDENT'S OFFICE, MEMPHIS & OHIO R. R.
MEMPHIS, TENN., Feb. 19, 1857.

MR. BENNETT, *Dear Sir:* Our Company have been troubled very much with leaky cars, and some of your Patent Paint soon dried, and so far as my knowledge extends, I can cheerfully recommend it to all who wish a dry roof of any sort.

Yours &c.,
H. COFFIN, Superintendent.

MEMPHIS, TENN., Jan. 14, 1857.

TO THE PUBLIC: W. S. Bennett made application to us last summer to cover our buildings with West's Galvanic Cement; it being a new thing the city was doubtful; but it applied to our Blacksmith Shop and Engine House attached to the Depot. They have proved so satisfied of a water proof roof, having withstood some of the greatest storms, and are giving good satisfaction. We can only add, try it and you will be satisfied.

CURTIS & KNAPP, Iron Founders.

MEMPHIS, TENN., Jan. 14, 1857.

Mr. Bennett has done some small amount of roofing for me in his patent way, with Cotton cloth coated with Cement; which I find to be a durable roof, and appears to prove a cheap and durable article for roofing purposes.
