2,500 ACRES OF LAND FOR SALE.

A agent for Mrs. Y. W. Alexander, of North Carolina, I offer for sale 1150 acres of Land, lying near the Memphis and Ohio Railroad, between Mason and Stanton's Depots.

Any one wishing to purchase a high, dry, healthy home, could do well to examine this Land. Only about 200 acres of the tract are cleared, the remainder well timbered.

I have also lands of my own directly on the Railroad that I will sell in lots of any size to suit purchasers.

Also a tract near Hernando, adjoining the Wesley and Stanwell road six miles from Wesley and eleven from Somerville, containing three hundred and fifty-six acres, with good improvements.

Address the undersigned at Mason's Depot for further information, or call and examine the land.

J. E. MACLIN.

The Presbyterian Herald, Louisville, Ky.; Nashville Union and Democratic Journal copy four times weekly, and forward bills to this office.

Notice.

I WILL offer for sale to the highest bidder, on the 14th November proximo, my Farm, situated on the Holly Springs road, two and a half miles east from the Hernando depot, containing 320 acres, of which 175 is cleared and under good fence. This place presents superior inducements to those looking for a permanent location for farming purposes or country residence, being in an unexceptionable neighborhood, having a good orchard, plenty of good water, &c., &c.

Twenty-four-third cash, the balance in one and two years, with interest.

Also, at the same time and place, I will sell for cash my stock of Hogs, Cattle, &c., together with my Household and Kitchen Furniture.

MRS. S. S. FORREST.

They will make personal examinations and surveys of land, in any part of the State, and report the entire (the character of the soil, timber, quantity of arable land upon any particular tract, and any desirable information in regard thereto); and in cases where persons wish to bring their land into market, they will contract to have timber deadened upon it, and will use their influence to sell the plantations or wild lands of those who desire to sell.

Much fine land in this State has been reserved from sale for the last five years, because it was reported as a swamp and overflowed, and which, by an act of the last Congress, was confirmed to the State, and will be subject to entry in a few months. SAW MILLS,

MANUFACTURED BY

CLARK & AVERY,

St. Louis, Mo.

AGENT AT MEMPHIS, TENN.

G. McLEAN.

HAVING taken the Agency for the sale of the above Circular Saw Mills, I am prepared to fill all orders for Mills, with or without the power to drive them on the shortest notice.

Persons wishing to purchase Mills, and also desirous that they should be put up and put into operation, can be accommodated.

We do not wish to praise our own work, all we ask of persons wishing to purchase Mills is to examine our work before buying elsewhere, as we think they will give us the preference when they understand it. We are satisfied our Mills will saw more lumber, and in better order in the same number of hours than any other Saw Mill now in use.

Persons wishing to purchase Mills will please address me at Memphis, Tenn.

REED'S

PATENT STEAM ENGINE.

THIS is an improved Engine, for which patents have been issued, and first prize medal awarded to the inventor, both in the United States and Europe. It was exhibited in the Palace of Industry, at Paris, in 1855, where it was tested by the principal engineers of Europe, and proved its superiority over other Engines, consuming about twenty per cent less fuel, and about the same amount of water, &c.

This saving is made by letting the steam in and out on both sides of the cylinder, at the same time, doubling the size of the ports and removing the pressure from the valves.

There are now over two hundred running with entire satisfaction, and the demand is such, that we have established an extensive manufactory, and are prepared to deliver at the shortest notice, Engines and Boilers complete, of all sizes, from two-horse power to two hundred. The smaller ones, up to twelve-horse power, are placed upon the Boilers, with all the pipes attached, ready for operation.

The Boilers are built on an improved plan, being horizontal, with tubes the whole length, making them very efficient and durable. The fire is in a large flue, passing through below the centre, and the heat returns through the tubes, giving the greatest amount of fire surface, in the compact and most compact form. The whole is mounted on wheels, ready for transportation to all parts of the country, and can be put in operation without the assistance of experienced engineers.
