THE DAILY APPEAL.

TUESDAY MORNING, DECEMBER 8, 1857.

☞ An abstract of the President's Message was due last night by telegraph, but had not arrived at 12 o'clock, the hour at which we were compelled to go to press.

☞ If Mr. BENJAMIN WALTON will report himself to the APPEAL office, he can hear of something of interest to him.

PERSONAL.—The Hon. ROBERT W. JOHNSON left this city for Washington in the cars yesterday.

ARRIVAL.—Hon. REDT. TOOMBS was staying at the Commercial Hotel on Sunday. There were eighty-nine arrivals at that house up to 7 o'clock last evening.

☞ For late papers we thank Mr. HUTCHINSON, clerk of the *Minnehaha*, Mr. McDONOUGH, of the *Jagoman*, and Mr. McKEEVER, of the indefatigable and obliging Adams Express.

BURNED OUT.—Postmaster CARROLL yesterday received intelligence from the Post master of Victoria, Mississippi, that the latter had been "burned out of house and home."

DYE GIVE IT UP?—Why is the Memphis Post Office in untidy place? Because it is the next thing to a stable! The man who perpetrated the above, poisoned himself last night with boiled ice cream.

☞ We have been favored by the editor, Mr. WHITE, with the December number of *White's Counterfeit Detector*. It is published monthly at Louisville, at $1 50 per annum. It is well printed and may be regarded as accurate and correct.

REVIVAL IN THE CUMBERLAND PRESBYTERIAN CHURCH.—During the last few days a revival has been going on in this Church, which is still progressing with increased interest. There will be morning and night service during all the greater part of this week.

☞ Mr. WM. G. CRAWLEY is offering a very large stock of select goods at very low prices, at 275 Main street. Now is the time to get bargains. Having purchased his goods with care and at a large profit, he is enabled to sell out at very low rates. See his advertisement in another column.

ROCCO'S POETRY AND CHRISTMAS TOYS.—Our friend ROCCO publishes in this morning's paper, not exactly a Christmas Address, but some readable verses, having as their theme his splendid assortment of toys and holiday presents. All the little boys and girls should read ROCCO's poetry.

STARCHY.—A roller was charged before Esq. EAST yesterday with having been engaged in vending starch without being licensed so to do. He was fined ten dollars and ordered to pay the legal costs. As he reluctantly handed over eleven dollars and a half, a witty bystander observed that the Squire had "taken the starch out of him."

LADIES' AUCTION.—Woman's rights are triumphant in Memphis, and the ladies are to have their own auction. BARNES & Co. will hold ladies auctions of dress goods, trimmings, fancy articles, &c., in their rooms up stairs, every Tuesday and Friday during the present month, commencing the Tuesday afternoon. Now ladies, you have an opportunity of getting "something to wear."

RECORDER'S COURT.—Small crimes were great in numbers on Sunday and yesterday. Recorder EAST had twenty cases before him yesterday morning. The City Attorney wished to prosecute an individual who was found to have concealed weapons about his person, but the Recorder declined to entertain the motion, because the ordinance had not yet been officially published.

CLEAR THE TRACK.—The City Marshal, Mr. UNDERWOOD, is actively engaged in clearing the sidewalks of bales, boxes, barrels and other obstructions. He has also, in accordance with the new ordinance, forbidding the exposure of deadly weapons on the sidewalk, caused the show cases that so plentifully obstructed Front Row, to be removed with their daggers, knives and pistols. In the vigorous performance of his duty he is well supported by members of the City Council.

CONCEALED WEAPONS.—"We deem it our duty to continue reminding the public of the existence of an ordinance against bearing hidden and deadly weapons. Another man was yesterday fined $50 for carrying a pistol concealed about his person." So says the St. Louis *Republican*, and we deem it our duty to remind those who stalk about our streets with pistols and bowie-knives hid about them, as if they were in an enemy's country, or were traveling among barbarians, that the City Recorder will be, in a few days, actively engaged in demanding a heavy fine and costs from such as are found so offending.

CRIMINAL COURT.—This court was yesterday principally occupied with charges of breach of the liquor and gaming laws. In some cases the recognizances were forfeited on account of the failure of the defendants to appear. In over forty cases the defendants were fined fifty dollars for the first offense, and one dollar each on the subsequent charges; a practical exemplification of the French proverb, *Le vin a que le premier pas qui coute*. The Court directed an *ex officio* indictment to be drawn up against D. COCKRELL, charged with maliciously shooting Dr. J. J. HOOKS.

BURNING OF THE RAINBOW.—We learn by a letter we have received from DAVIS EMBREE, Esq., Superintendent Inspector of steamboats at St. Louis, that he feels it to be his duty, by the steamboat law, to investigate closely all such occurrences as the alleged acts of incendiarism of the Pittsburgh cabin boys and cooks of the sunken *North Star* who had been taken on board the *Rainbow*. That investigation will show facts in connection with these fiends in human shape of a most flagrant character; and will also bring to light some interesting particulars respecting the *filling with water of the air-tight life-preservers*, by which many persons were sunk who would otherwise have reached the shore in safety.

"DEBOW'S REVIEW," FOR DECEMBER.—This number completes the Twenty-third Semi-Annual Volume, and it will be a favorable time for new subscribers to record their names. The offices are at Washington City and New Orleans. Back numbers or volumes can be supplied. The first thirteen volumes are condensed into a work in three volumes, entitled "Industrial Resources of the South and West;" price $6. Subscription price of the *Review*, $5. The editor urgently calls upon subscribers for arrears. The December No. contains interesting papers upon the South and the Union, Central America, Texas, a Southern University, Slave Laws of the South, the Present Financial Crisis, Cotton grown in Foreign Countries, California, Mississippi, etc., etc.

ATTEMPT TO BREAK JAIL.—When the turnkey of the jail, Mr. CARMICHAEL, examined the irons of the prisoners yesterday morning, he discovered in a cell, where several prisoners were confined who had been tried and condemned, that the connecting rivet of the chain which fastened two of the number together, had been sawn nearly in two, so that it could be easily broken. Further examination showed that the first course of bricks, to the wall of the building near the floor, had been taken out during the night, by the aid of a small bar of iron. The hole was three feet wide and high enough for a man to pass through. The bed was placed before the orifice, so as to conceal it, and the loose bricks had been carefully replaced. The intention evidently was to resume operations the next evening and then to escape. Among the men in this cell was HEIT, who was condemned to fifteen years imprisonment for committing a highway robbery on Beale street, near the railroad depot.

MEMPHIS, November 17th, 1857.

THE partnership heretofore existing between the undersigned, under the firm and style of "L. VEST & CO.," is this day dissolved, by mutual consent. I hereby retire herself L. Vest's interest in the business of said firm, to be duly authorized to collect the debts owing to it, and assume and undertake to pay its liabilities.

Signed, DANIEL GRAHAM,

River Matters.

The wharf was still very moist yesterday; but a number of boats lay at the landing, and there was a passable look of business. The river was falling pretty rapidly last evening.

The following are the arrivals since our last report: From New Orleans, the *Highflyer*, the *Defender*, the *Antelope*, and the *Uncle Sam*, for Louisville; the *Morrison*, and the *Taylor*, for St. Louis; the *Jagoman* for Memphis, and the *Monarch* for Cincinnati. From Pittsburgh, the *Pringle*, for New Orleans. From the Ohio River, the *N. W. Thomas*, and the *Caddo Belle*, for New Orleans. From St. Louis, the *Lacey*, the *Michigan*, the *McGill*, the *January*, and the *Minnehaha*, for New Orleans. From Cincinnati, the *Ohio Belle*, for New Orleans. From Paducah, the *T. C. Tunstall*, for New Orleans. From Louisville, the *Moser-McLellan*, for Memphis.

The fine steamer *Glendale* plies regularly between this port and Cincinnati. She is one of those boats it is a pleasure to travel upon. The brothers Bugbee, who act as Captain and Clerk, are highly esteemed for their polite attention to their passengers. She leaves for Cincinnati at four o'clock this afternoon.

The *St. Francis* leaves this evening for the St. Francis river; also the *Boone* for St. Louis.

The *Jagoman* leaves for New Orleans on Wednesday night, among the freight brought up by her was 900 bars of railroad iron for the Mobile and Ohio Railroad.

The *Minnehaha*, from St. Louis, passed down last evening. She got aground twelve miles below St. Louis, and lay twenty-four hours before she could be got off.

The *Moser McLellan*, for Louisville, and the *Editor* for St. Louis left last evening.

CINCINNATI.—From the *Enquirer*, December 4: The river is in good boating condition, there being an abundance of water in the channel for the St. Louis boats, and also for the New Orleans boats, if they take the precaution to carry barges along. Between here and Louisville there is an average of about eight feet water, and falling slowly. Business on the landing was not so lively yesterday as it was on the day before.

ST. LOUIS.—From the *Republican*, December 5: The river at this point was about stationary yesterday. The *Hiawatha* from below, reports the river between here and Cairo very low, and difficult to navigate. Her officers say the channel is very crooked in the river, at which five feet scant was the depth, and all the water that could be found. At Hat island boats down reported four and a half feet. The *Hiawatha* found five feet scant. It may be interesting to pilots to know that the best water is now on the Missouri side of Goose island—the usual channel having been on the Illinois side. There is now five and a half feet large on the Missouri side—at least six inches more than on the other side.

The last arrival from the Missouri, being the *Thos. E. Tutt*, reports the river falling, with from twenty-five to twenty-seven inches on the worst bars, and from twenty-eight to thirty inches on the crossings generally. The Upper Mississippi is open to Rock island. The *Belfast* has ascended the Rapids and gone on her way above. The late rise of eighteen inches, which we reported in the river at Hannibal, was doubtless the result of the breaking of gorges above, and not really a swell in the river. The water is clear, which is an indication in favor of this presumption. There is three and a half feet water in the channel to Keokuk. The Illinois river is falling, with three feet on the bars. Business was dull on the levee yesterday, and arrivals were not numerous.

LAW SUIT.—The suit of the owners of the *Julia Dean* against the owners of the *Rainbow*, for damages for sinking the former in the Ohio river, by collision with the latter, was filed in the Chancery Court in Louisville on Monday.

BOONVILLE, MO.—The Missouri was rising fast at this place on the 4th inst., with five feet above Weston.

DUBUQUE.—At this point on the 4th inst., the river was slowly rising and clear of ice.

NEW BOAT.—Another boat is about to be added to the Southern trade, the *Caddo Belle*, now at Portland, built for Capt. A. A. Barnes, a good boatman, who has secured a good boat. She was designed for the Red river trade, but ply as a regular packet on that stream between Shreveport and Jefferson.

PINE BLUFF, ARK.—From the *Enterprise*, of December 3rd: The river commenced rising at this place night before last, and is now rising rapidly—rose about 18 feet up to the present writing.

NEW ORLEANS.—From the *True Delta*, December 4th: The levee is again crowded with all kinds of products of human industry. The freight, the field and the workshop, as the Treasury report has it, are all fairly and fully represented—but of all these, the imperial bale enjoys the sovereignty. Sugar and molasses, these *mille doleins* products of Louisiana, are also to be seen in abundance, and flour and corn constantly. The flour inspectors evidently have a busy time of it, and we counted yesterday no less than forty-two different brands. The greatest part comes from St. Louis, though Louisville and Cincinnati also send a fair share to market.

MARRIED,

On the 1st inst., by the Rev. Mr. Thomas, Mr. JOHN S. WILSON to MISS MARY HOUSTON, all of Shelby county, Tenn.

Monetary and Financial.

MEMPHIS DAILY APPEAL OFFICE, TUESDAY, December 8, 1857.

MONETARY—Matters were dull yesterday. Gold sold at from 7½@¾ prem. New York exchange remains at ¾ prem. New Orleans also scarce at from ½@¾ prem.

NEW YORK.—From the *News*, December 2: Money is difficult to place on a profit without risk. The rate are from 7½@8 per cent; the lowest rate for Stock and bank security. The rise in the markets on railroad Securities, in the face of constantly increasing receipts, shows how easy the money market is, and how it is availed of to sustain stock values. The hypothecation of the tenty or eighty millions in the Banks. The Sub-Treasury paid out to-day $270,611 77, and received only $116 487 22, including $94,000 from customs. The balance on hand is $4,239,955 74. The market is in a good condition for raising a government loan, should one be required this winter. The financial market does not improve in activity. Very few bills offer, and the brokers are doing hardly any business. The rates are 7 to 9 ⅞ cent, for favorite endorsed paper, 9 to 12 ⅞ cent for prime notes; 15 and upward for other kinds. There is a good deal of country paper selling at 18 ⅞ cent. The steamer to sail from Boston to-morrow for Liverpool will take about a million of dollars; and Saturday's steamer hence, about $600,000. There is a fair demand for prime commercial bills at 109 to 109¼. The bank of bankers' bills is at 108 109¼, as he sends specie for all he draws. There are 60 bills offered. Sight bills are 109@109¼. Francs 5.31¼@5.27¼. It appears that $1 of the city has to enlarge their discount here last week $600,000. The Exam. Merchant, Commercial, examined and very few changes. Continental, Phenix, City and North American all expanded.

Gold is in demand and active at ¼ to ⅜ of one ⅝ cent premium.

CINCINNATI.—From the *Enquirer*, December 1: The outlook for money continues to improve. The demand for count banks can or are willing to meet. They daily reject very good paper, even from their customers, to the inconvenience of the borrowers, and very little is discounted at 10 to 11, the inside rate. The discounts are quoted at 12 to 15 per cent, but no paper is rejected to their means on hand, owing to the overcautious feeling prevalent in the banking and commercial community. There deposits are large, but as they believe themselves liable to be called upon for them at any hour, they of course have no inclination to invest them on paper of any kind. The demand for exchange is more abundant yesterday than currency, and the market rather brave at ¼ buying and ⅛ selling, at par with par on New York. Philadelphia and Boston the business was light, and Baltimore was heavy. In gold the trade was a small retail one. The demand and supply are both light. The receipts of money continues heavy, especially Illinois and Wisconsin, which some of the bankers will not take at par. Considerable from an hoard their customers. Kentucky Bank paper is bought by the brokers at 60@65 cents on the dollar.

CHICAGO.—From the *Times* of December 2: There is no improvement in the money market, since yesterday, and matters are now exceedingly stringent. Western currency is very scarce, and also at everybody seems anxious to lose. The banks, of course, are unable to afford relief to any extent, and thus a general feeling of distrust is prevalent. Eastern exchange commands ¾ per cent, and is in demand. Gold is as scarce as ever at 60 7 per cent., but is not so much called for.

EVANSVILLE.—From the *Journal*: The calls on Kentucky banks, and on the Bank of Indiana for redemption, are unabated. The branch bank in this city redeemed $10,000 of its issues during last week, which is one-fourth of its entire present circulation. The branch at Vincennes has also been heavily called upon during the past week. The Kentucky branch bank paid on Friday last $6 000. These calls were all from Ky. Bay & Co., the Cincinnati agents of the State Bank of Ohio.

MEMPHIS DAILY APPEAL OFFICE, TUESDAY, December 8, 1857.

COTTON—The cotton market has experienced a change during the last week for the worse. Since news of Russian events in Europe has begun to reach us, on the eve of the intelligence the business for that day has come to a stand—hold and gloom suspending operations. From that, beginning with the next morning, there has been a gradual recovery, until the arrival of another Atlantic steamer produced again a stagnating effect. Since the last European news reached us, the recovery of confidence has not exceeded the first shock caused by discouraging intelligence. The gloom has remained entirely broading until another week's arrival shall give doubt, by clearly indicating the prospects of the future. But, although dull, depressed and hesitating has prevailed the market during the past few days, there has been no loss of confidence. Holders refuse to sell at low prices and on Friday, Saturday and yesterday, but little stock changed hands.

The transactions of the past week are as follows: Monday—moderate sales at 10@10¼ for middling, closing at 10 bottom. Tuesday—market inactive, from 11@11¼. Wednesday—a change of price, but market unsettled, waiting for the next European news. Thursday—a decline of ⅛@¼ cent, limited sales at 11@11¼ cents. Friday—market dull, ex'ctme rains 10@12 cents. Saturday—market, nominal and very few sales at small sales at 10@11 cents.

Yesterday the market remained much in the same condition as on Saturday, though a little more Cotton was sold. Prices were unsettled and are no guide for the future, perhaps 10¼@11¼ might be considered the rates of actual sales.

December 2, Charleston, market dull and drooping, decline of ⅛ to ¼, sales at 11@12c. December 4, Savannah, market unsettled, correct quotations impossible, sales for the week range from 10 to 12c. December 5, Holly Springs, market active on it Thursday at 11@12½c, after receipt of America's advices there was a decline of ¼ to ½c.

The Savannah Republican of December 4, says:

A season similar to the one we are now passing through has probably never been experienced in our city. The cotton crop has been marketed in a most irregular manner, without any apparent corresponding cause, the slightest ray of light being able to disperse it, and assign a reason which in ordinary times would be called unfavorable, have elevated it, and some thory established to sustain the hoaxing only to be completely overthrown by the next intelligence. The only thing which has continued uniform and without cessation, is the excitement and anxiety pervading the mercantile community.

We copy the following from the New Orleans *Price Current*, December 2:

Our last report closed upon a dull and drooping market, and naturally passed very heavily, with sales of about 3,500 bales at very irregular prices but mostly at a decline of full ¼ cent ⅝ ⅛. On Monday there was a little of a disposition of buyers and sales were off cited to the extent of about 8,000 bales, without material change in prices, though at easier rates for the lower grades. Tuesday, there was without much apparent movement, and, indeed, the market has worn rather a quiet appearance for some days past the demand not being general in its character, but mainly confined to the prime operations rather to the extent of about 8,000 bales; making a total for the past three days of 20,500 bales, taking nearly for great Britain, but mostly for France, the Continent, Spain, Mexico, &c. The market closing ⅛@¼ rather more favorable to buyers, especially for the Middling grades, at our quotations, which are reduced to conform to the Liverpool notices as having occurred on Saturday.

The receipts at this port since 1st September, (exclusive of the arrivals from Mobile, Florida and Texas) are 486,—000 bales, against 548,794 bales to same date last year, and the increase in the receipts at all the ports, up to the latest dates as compared with last year is 213,000 bales. By the exports from the Unit d States to foreign countries, as compared with the same dates last year, there is an increase of 61,552 bales to Great Britain and a decrease of 16 352 bales to France, and of 9,659 to other foreign ports.

The rates were as follows:

Inferior	7¾@8 ⅝	Middling	11¼@11¾
Ordinary	9¼@10	Good, Middling	12 @12¼
Good Ordinary	10¼@10¾	Middling Fair	12¼@—
Low Middling	11 @11¼
