Patent Roofing.

Important to Architects and Builders.

W. E. CHILDS & CO.'S Patent Elastic Water and Fire Proof CEMENT ROOFING.

WE would respectfully announce to the citizens of Memphis, and the surrounding country, that we are prepared to contract and put on, our FIRE and WATER-PROOF CEMENT ROOFING, in being 150, only or more yet invented, that will actually resist the action of the atmosphere in every climate. It is perfectly Fire and Water Proof, and in point of durability, equal if not superior to any metallic roofing. We can put it on over old tin, tar or shingle roofs, it having no difference how flat or steep the roof may be. We put on our roof for seven dollars per hundred square feet. We will apply our cement on tin and iron roofs for two dollars and twenty-five cents per square, it being an amount of its elasticity and durability, the cheapest paint that can be used. Our cement is the best fire retarder, for patching around fire walls, chimneys, skylights, &c. We warrant all our work.

We invite all that want new roofs, or their old ones repaired, to call at Kirk's store, No. 278 Main street, and examine samples and satisfy themselves of the durability and reliability of our roofs, thus roofing.

N. B. We are prepared to fill orders for our cement, to those residing at a distance, with printed directions for setting it.

Those wishing roofs or repairing done, will please call at Kirk's store above, or address us through the Post Office.

☞ County rights for sale.

We have W. E. Childs & Co.'s, Cement Roofing upon some of our building. It gives entire satisfaction, and we consider it the best roofing of which we have any knowledge. We are extensively engaged in building in this city, and have within the last five years, effected such improvements in the various metals and other roofings which have been introduced, and from experience and investigation, we without hesitation, pronounce Childs & Co.'s, preferable to any other.

The Greatest Invention of the Age!

PERFECT PROTECTION FROM THE ELEMENTS.

WEST'S PATENT GALVANIC CEMENT FOR ROOFING.

THE subscriber is now prepared to cover roofs of buildings, with a new and better article than ever before known. The public are aware that our Government has had scientific men experimenting, and that it has been the object of Architects and Builders for years, to discover an article for roofing purposes, that would stand the sudden changes of the weather, and be impervious to fire and water, and remain a permanent fixture. As yet, nothing has been established without cooling, more than the people which. The contraction, expansion and rolling of metal roofs, are so great in changeable climates, that they become useless, unless better repaired at great expense yearly. Shingles are not fire proof, and cannot be laid on flat roofs, and when compared with the cement that never has trouble into see it or nothing, do not stand the action of the weather, but they run when it is warm, and rot when it is cold, and at most over two years become run-up, and worthless; whereas, the inventor of the Galvanic Cement has labored five big years to compete an article to obviate these difficulties, and can testify from his long experience, and numerous testimonials from well-known men, who have had a combination applied to their buildings, that his Cement is the cheapest and best article ever before known. The combination of the cement is such, that it is calculated for entire new roofs, flat or steep; covering over old shingles without removal of them; lining gave troughs, seeming around chimneys and skylights, and for repairing. Covering dat tops, steamer decks, &c. This Cement, by its non-conductors and antipyrene, prevents metal roofs from rusting and anti-rouldering, and retains the rainwater of heat and cold, better than anything ever invented, for cellar floors and for covering metal and the outside of wood buildings, making them fire proof. Its appearance is like slate; beautiful for the rich painter or the humble cottage. The undersigned having secured the right to the State of Tennessee, will sell rights of Territory, by Counties or towns, on reasonable terms.

The subscriber is also on hand to cover roofs of buildings, in any part of the State, at short notice.

This roof is now being put on, the city, for the benefit of all concerned, and warranted to equal all other modes of roofing. The subscriber having resided in the city of Memphis one year, and has had his trade of roofing to extend to its quantities, which has proved satisfactory, to which a number of the most prominent citizens can testify.

See testimonials of the following gentlemen who have used W. West's roofs:

C. W. STURDIVANT & CO., Proprietors.

[Successors to W. S. Bennett.

Attached is a note from John L. Morgan, Esq., Architect, by which may be seen the opinion of Mr. Samuel Sloan, the celebrated Architect, and writer upon Architecture, whose experience with this mode of roofing without a cinder, is satisfactory to all.

MEMPHIS, March 12, 1857.

MR. W. S. BENNETT: When in Philadelphia Pa., a few days ago, I called upon Mr. Samuel Sloan the celebrated Architect, and author of the Sloan Work on Architecture. I asked his opinion as to the durability &c., of West's Patent Roof, such as you have noted in the city of Memphis, and he told me that he had no hesitation in saying to me that it is a good and durable roof, and is sure that its advocates claim it to be; further saying that he is using it on a fine building in Boston.

Respectfully, JOHN L. MORGAN, Architect.

MEMPHIS, March 2, 1857.

W. S. BENNETT, Esq.: Dear Sir: The facts within our knowledge of the durability, &c., of West's Galvanic Cement, are these: The building you covered for me last Spring, we are happy to state has answered our expectations. We can therefore, recommend it to the public for all roofing purposes; it is light, cheap, fire and water proof roof. It has been put on and run from the effects of the heat of the sun; it has not cracked or run from the effects of the cold. Any person wishing to know more of its merits, can call at our manufactory.

N. S. BREON & CO.,
Carriage Manufactory, Monroe St., Memphis, Tenn.

MEMPHIS, TENN., Dec. 8, 1856.

TO WHOM IT MAY CONCERN: This is to certify that I, S. Bennett, have roofed over the back building with a composition called West's Patent Galvanic Cement; one of them was a new deck, the other a old shingled. Both have given perfect satisfaction. He also installed a dormant window, which leaked badly, and had tried the skill of carpenters to prevent its leaking, which he succeeded in stopping the leak. I do not hesitatingly recommend his mode of roofing to the public. For all roofing purposes, I believe it to be a permanent fixture against a fire and water. D. COCKRELL,

Proprietor Commercial Hotel.

SUPERINTENDENT'S OFFICE, MEMPHIS & OHIO R. R.,
MEMPHIS, TENN., Feb. 19, 1857.

MR. BENNETT, Dear Sir: Our Company having been troubled very much with leaky cars, put some of your Patent Paint upon them, and so far as my knowledge extends, I cheerfully recommend it to any who wish a dry roof of any sort. Yours, &c.,

R. COFFIN, Superintendent.

MEMPHIS, TENN., Jan. 14, 1857.

TO THE PUBLIC: W. S. Bennett made application to us last summer to cover our buildings with West's Galvanic Cement. We gave him a trial, believing that we would try it; had it applied to our Blacksmith Shop and Engine House attached to the Foundry. They have proved so satisfactory that we have concluded to use it on all the greatest stores, and are giving good satisfaction. We cheerfully add, that we can with confidence be applied.

CURTIS & ELLIOTT, Iron Founders.

MEMPHIS, Jan. 14, 1857.

Mr. Bennett has done work with a small amount of roofing for me in his peculiar way, with Cotton cloth sealed with a preparation the basis of which appears to be Coal Tar. It is a very effectual and light roof, and appears to promise considerable durability, from the preservative qualities of the composition, which penetrates the cloth and produces a hard and tough substance, hard and water Tar Composition does not limite and run from the effects of the heat of the sun in summer; nor does it harden and crack from the influence in the cold of winter.

This operation is repeated until all the Prizes are drawn out.

APPROXIMATION PRIZES.—The two preceding and the two succeeding Numbers to those drawing the first 6 Prizes will be entitled to the 32 Approximation Prizes. For example: if Ticket No. 11250 draws the $60,000 Prize, those Tickets numbered 11248, 11249, 11251, 11252, will each be entitled to $250. If Ticket No. 360 draws the $20,000 Prize, those Tickets numbered 348, 349, 350, 352, will each be entitled to $250, and so on according to the above scheme.

☞ The 5,000 Prizes of $20 will be determined by the last figure of the number that draws the $60,000 Prize. For example, if the Number drawing $60,000 Prize ends with No. 1, then all the Tickets where the number ends in 1 will be entitled to $20. If the Number ends with No. 2, then all the Tickets where the number ends in 2 will be entitled to $20, and so on to 0.

Certificates of Packages will be sold at the following rates, which is the lowest:

Certificate of Package of 10 Whole Tickets $50 00
" " 10 Half " 30 00
" " 10 Quarter " 20 00
" " 10 Eighth " 10 00

In ordering Tickets or Certificates, enclose the money to our address for the Tickets ordered, on receipt of which they will be forwarded by first mail. Purchasers can have Tickets ending in any figure they may select.

The list of drawn numbers and prizes will be forwarded to purchasers immediately after the drawing.

Purchasers will please write their signatures plain, and give their Post Office, County and State.

☞ Remember that every Prize is drawn and payable in full without deduction.

☞ All Prizes of $1,000 and under, paid immediately after the drawing—other Prizes at the usual time of thirty days.

☞ All communications strictly confidential.

Address orders for Tickets or Certificates of Packages to

S. SWAN & CO., Atlanta, Ga.

☞ Persons residing near Montgomery, Ala., or Atlanta, Ga., can have the order filled, and save time, trouble and expense, by sending to the Agents in those cities.

☞ A list of the numbers that are drawn from the wheel, with the amounts of the prize that each one is entitled to, will be published after every drawing in the following papers: New Orleans Delta, Mobile Register, Charleston Courier, Nashville Union, Atlanta Intelligencer, New York Weekly Day Book, Savannah Morning News, Richmond Dispatch, New York Dramatic and Sporting (Mike) Clarion, Augusta (Ga.) Constitutionalist.
