Have associated themselves for the transaction of a

General Land Agency Business

IN THE STATE OF ARKANSAS.

THEY WILL PAY TAXES on lands, and attend to the redemption of tendered lands.

They will make personal examinations and surveys of land, in any part of the State, and report to parties the character of the soil, timber, quantity of arable land upon any particular tract, and any desirable information in regard thereto; and in cases where owners wish to bring their land into market, they will locate a tract to have timber deadened upon it, and will on purchaser for either the plantations or wild lands of those who desire to sell.

Much due land in this State has been reserved from sale for the last five years, having been recorded as swamp and overflowed, and which, during an act of the last Congress, was confirmed to the State, and will be subject to entry in a few months. To those who may desire to make a good deal that has become valuable since its reservation, and the above firm, from their experience as practical surveyors of the State for many years, and the former Surveyor of the State Swamp Land Region, feel they have peculiar advantages for locating such lands in all parts of the State, will be prepared to make good locations for persons desiring to invest money, when their good report of located lands is offered for sale, or subject to entry, either for a stipulated share of the land or commission upon the money invested.

Persons desiring homes in Arkansas will find at their office plats of land unimproved, or farms, with full descriptions of their improvements, dwellings, fences, &c., which can be at once directed to cheap and suitable places.

They will buy and sell Land Warrants or locate them for holders. Any business in the above line will be promptly attended to.

Architects and Builders.

W. E. CHILDS & CO.'S
Patent Elastic Water and Fire Proof
CEMENT ROOFING.

WE would respectfully announce to the citizens of Memphis, and the surrounding country, that we are prepared to contract and put on our FIRE and WATER PROOF CEMENT ROOFING, it being the only article per invented, that will successfully resist the action of the atmosphere in every climate. It is perfectly Fire and Water Proof, and in point of durability, equal if not superior to any metallic roofing. We can put it on over old tin, tar or shingle roofs, it making no difference how flat or steep the roof may be. We put on our roof for seven dollars per hundred square feet. We will apply our cement on tin and iron roofs for less dollars and twenty-five cents per square, it being on account of its elasticity and durability, the cheapest paint that can be used. Our cement is the best fire retant, for patching around fire walls, chimneys, skylights, &c. We warrant all our work.

We invite all that want new roofs, or their old ones repaired, to call at Rick's store, No. 184 Main street, and examine samples and satisfy themselves of the durability and practicability of using this roofing.

N. B. We are prepared to fill orders for our cement, to those residing at a distance, with printed directions for using it.

Those wishing roofs or repairing done, will please call at Rick's store, or address us through the Post Office.

CINCINNATI, January 7th, 1857.

We have W. E. Childs & Co.'s Cement Roofing upon some of our buildings. It gives entire satisfaction, and we consider it the best roofing of which we have any knowledge. We are extensively engaged in building in this city, and have within the last five years, covered buildings with all the various metallic and other roofings which have been introduced, and from experience and investigation, we, without hesitation, pronounce Childs & Co.'s, preferable to any other.

CINCINNATI, O., Mar 29th, 1857.

W. E. CHILDS & Co.—The roof on our work house gives entire satisfaction. It has proved itself both Fir and Water Proof.

Some four months since, a large fire occurred directly adjoining us, and our roof was severely tried by the flames and burning brands, but stood the test unharmed. We cordially recommend this roof as a good thing.

CHILDS & Co's, Patent Cement Roofing, is now used here on our best class of buildings, and we find it superior to any other kind now in use, not excepting the metallic. We consider it to be all we was a cheap, durable and excellent roof. J. A. D. DECAMP, Builders.

The Greatest Invention of the Age!

PERFECT PROTECTION FROM THE ELEMENTS.

WEST'S
PATENT GALVANIC CEMENT
FOR ROOFING.

THE subscriber is now prepared to cover roofs of all buildings, with a new and better article than ever before known. The public are aware that our Government has been at scientific men experimenting, and that it has been the study of Architects and Builders for years, to discover an article for roofing purposes, that would stand the sudden changes of the weather, and be imperviously Fire and Water Proof, and remain a permanent fixture. As yet, nothing has been attained without costing more than the people wish. The contraction, expansion and rending of metal roofs, are so great in changeable climates, that they become useless, unless being repaired at great expense yearly. Shingles are not fire proof, and cannot be used on flat roofs, and the various Compositions and Cements that have been brought into use for roofs, do not stand the action of the weather, but turn soft when it is warm, and crack when freely, and at or one or two years become rotten, dry, and worthless; and I have twenty years to contend against, and have labored twenty years to combine articles to obviate those difficulties, and can testify from his long experience, and numerous testimonials from responsible persons, who have had his combination applied to their buildings, that his Cement is the cheapest and best article ever before known. The combination of this Cement is such that it is calculated for entire new roofs, flat or steep; covering over old shingles without removing them; lining gave brands, and laying around brickwork, chimneys and sky lights. Covering car tops, steamer decks, &c. This Cement, by its non-conductors and galvanic, prevents metal roofs from rusting and underlaying, and resists the extremes of heat and cold, better than anything ever invented, for entire roofs or for covering over old ones. I have the undersigned for testimonials of qualities. Rev. Robert Allen, Rev.
