MOORE & HUGHES

Have associated themselves for the transaction of a

General Land Agency Business

IN THE STATE OF ARKANSAS.

THEY will PAY TAXES on lands, and attend to the redemption of forfeited lands. They will make personal examinations and surveys of land, in any part of the State, and report to parties the character of the soil, timber, quantity of arable land upon any particular tract, and in cases where own to be worthless they will not locate them. They will contract to have timber delivered upon it, and will use their influence for either the plantations or mill lands of those who desire to sell.

Much fine land in this State has been reserved from sale for the last five years, having been reported as swamp and overflowed, and which, by an act of the last Congress, was confirmed to the State, and will be subject to entry in a few months. The lists of these lands contain a great deal that has become valuable since its reservation, and the above firm, from their experience as practical surveyors, one of whom has been engaged in the public Surveys of the State for many years, and the other in Railroad and Steamboat Engineering, having thus extended an extensive knowledge of land throughout the State, will be prepared to make good locations for persons desiring to invest money, when this valuable region of Swamp Lands is offered for sale, or subject to entry, either for a stipulated share of the land or commission on the money invested.

Persons purchasing home stead rights will find at their office, plats of land unimproved, or farms, with full descriptions of their improvements, quality, locality, &c., so that they can be at once directed to cheap and suitable places.

They will buy and sell Land Warrants or locate them for holders. Any business in the above line will be promptly attended to.

Stolen.

A YOUNG, spare built man, called at our stable last night, saying he wished to ride into the country a few miles on business, to return same day; stated he was a stranger, and hired a horse. He was seen to take the right road in Hernando. The mare he rode was about 15 hands high, dark bay, with a small star in her forehead, and a peculiar hollow in her back, caused by her being ridden too young. Any information respecting the thief will probably attempt to palm off the mare as a gentler traveler; he had a very fair, smooth face, and spoke with ease and propriety. A liberal reward will be given for his arrest and imprisonment, that he may be brought to justice. Address the undersigned, KIRK, HOWARD & CO.

W. E. CHILDS & CO.'S

Patent Elastic Water and Fire Proof

CEMENT ROOFING.

WE would respectfully announce to the citizens of Memphis, and the surrounding country, that we are prepared to contract and put on, our FIRE and WATER PROOF CEMENT ROOFING, it being the only article yet invented, that will successfully resist the action of the atmosphere in every climate. It is perfectly Fire and Water Proof and in point of durability, equal if not superior to any metallic roofing. We can put it on over old tin, tar or shingle roofs, it making no difference how flatter slope the roof may be. We put on our roof for seven dollars per hundred square feet. We will apply our cement on tin and iron roofs for two dollars and twenty-five cents per square, it being on account of its elasticity and durability, the cheapest paint that can be used. Our cement is the best thing extant, for patching around tar walls, chimneys, skylights, &c. We warrant all our work.

We invite all that want new roofs, or their old ones repaired, to call at Rick's stove store, No. 184 Main street, and examine samples and satisfy themselves of the durability and practicability of using this roofing.

N. B. We are prepared to fill orders for our cement, to those residing at a distance, with printed directions for using it.

Those wishing roofs or roofing done, will please call at Rick's stove store, or address us through the Post Office.

WEST'S

PATENT GALVANIC CEMENT

FOR ROOFING.

THE subscriber is now prepared to cover roofs of all buildings, with a new and better article than ever before known. The public are aware that our Government has had scientific men experimenting, and that it has been the study of Architects and Builders for years, to discover an article for roofing purposes, that would stand the sudden changes of the weather, and be impervious to fire and water, and remain a permanent fixture. As yet, nothing has been attained without coating more than the people wish. The contraction, expansion and rusting of metal roofs, are so great in changeable climates, that they become useless, unless being repaired at great expense yearly. Shingles are not fire proof, and cannot be used on flat roofs, and the various Compositions and Cements that have been brought into use for roofing, do not stand the action of the weather, but they run when it is warm, and crack when frosty, and after one or two years become worse than if not covered whatever, the inventor of the Galvanic Cement, has labored twenty years to number, and to overcome those difficulties, and can testify from his long experience, and numerous testimonials from responsible persons, who have had his combination applied to their roofs, that this Cement is the cheapest and best article ever before known. The combination of this Cement is such, that it is calculated for entire new roofs, flat or steep roofs, old shingle roofs without removing them; lining eave troughs, covering around chimneys, skylights, and any kind of roofs; covering canvas, steamer decks, &c. This Cement, by its non-conduction and calvinism, prevents metal roofs from rusting and corroding, and renders the extremes of heat and cold, better than anything ever invented, for entire roofs or for covering metal and the outside of wood buildings, making them fire proof. It is adapted to all climates; beautiful for the rich palace or the humble cottage.

The undersigned having secured the right to the State of Tennessee, will sell rights of Territory, by Counties or towns, on reasonable terms.

The subscriber is also prepared to cover roofs of buildings, in any part of the State, at short notice.

This roof is now being put on in this city, for the benefit of all concerned, and warranted to excel all other modes of roofing. The subscriber having resided in the city of Memphis for many years, and has his mode of roofing tested as to its qualities, which has proved satisfactory, to which a number of the most prominent citizens can testify.

See testimonials of the following gentlemen who have used it, with hosts of others.

For further information enquire at the office, where samples may be seen in J. L. Morgan's Architectural Room, No. 3 Walker's Block, Memphis, Tenn., or address, Box 236, P. O.

C. W. STURDIVANT & CO., Proprietors.

Attached is a note from John L. Morgan, Esq., Architect, by which may be seen the opinion of Mr. Samuel Sloan, the celebrated Architect, and writer upon Architecture, whose experience with this mode of roofing, without a doubt, is satisfactory to all.

MEMPHIS, March 12, 1857.

MR. W. S. BENNETT: When in Philadelphia, Pa., a few days ago, I called upon Mr. Samuel Sloan, the celebrated Architect, and author of the Black Work on Arch Construction. I asked his opinion as to the durability &c., of West's Patent Roof, such as you are now laying in the city of Memphis, and he told me that he had no hesitation in saying to me that it is a good and durable roof, and is all that its advertisement claims it to be; further saying that he is using it on a fine building for himself.

Respectfully, JOHN L. MORGAN, Architect.

MEMPHIS, March 2, 1857.

MR. W. S. BENNETT, Esq., *Dear Sir*: The facts within our knowledge of the durability, &c., of West's Galvanic Cement, are these: The building you covered for us last Spring, we am happy to state has answered our expectation. We can therefore, recommend it to the public for all roofing purposes; as a light, cheap, fire and water proof roof. It does not get sot and run from the effects of the heat of the sun; nor does it harden and crack from the effects of the cold. Any person wishing to know more of this article, can call at our warehouse.

MEMPHIS, Tenn., Jan. 14, 1857.

TO THE PUBLIC: W. S. Bennett made application last fall to cover our buildings with West's Galvanic Cement, it being a new thing thought we would try it; had it applied to our Blacksmith Shop and Engine House attached to the Foundry. They have proved all required of a water proof roof, having withstood some of the greatest storms, and are giving good satisfaction. We can only add, try it and you will be satisfied.

MOORE & MCKENZIE, Foot Jonesboro.

MEMPHIS, Jan. 14, 1857.

Mr. Bennett has done some small amount of roofing for me in his peculiar way, with Cotton and sanded with a preparation the basis of which appears to be Coal Tar. It is a very effectual and light roof, and appears to promise considerable durability, from the preservative qualities of the composition, which penetrates the cloth and protects it from the influence of the air and water. The Compositor does not liquify and run from the effects of the heat of the sun in summer; nor does it harden and crack from the influence in the cold of winter.

PLAN OF THE LOTTERY.

The Numbers from 1 to 60 will be printed on these Numbers on the Tickets printed on separate slips of paper, are encircled with small tin tubes and placed in one wheel.

The first 463 Prizes, similarly printed and encircled, are placed in another wheel.

The wheels are then revolved, and a number is drawn from the wheel of numbers, and at the same time a Prize is drawn from the other wheel. The Numbers thus drawn out are opened and exhibited to the audience, and registered by the Commissioners; the Prize being placed against the Number drawn. This operation is repeated until all the Prizes are drawn out.

APPROXIMATION PRIZES.—The two preceding and the two succeeding Numbers to those drawing the first 7 Prizes will be entitled to the 28 Approximation Prizes, for example: if Ticket No. 11250 draws the first 7 Prizes, those Tickets numbered 11248, 11249, 11251, 11252, will each be entitled to $400. If Ticket No. 560 draws the $20,000 Prize, those Tickets numbered 558, 559, 561, 562, will each be entitled to $300, and so on according to the above scheme.

☞ The 5,000 Prizes of $200 will be determined by the last figure of the number that draws the $60,000 Prize. For example, if the Numbers drawing $60,000 Prize ends with No. 1, then all the Tickets where the number ends in 1 will be entitled to $200. If the Number ends with No. 2, then all the Tickets where the number ends in 2 will be entitled to $200, and so on to 9.

Certificates of Packages will be sold at the following rates, which is the risk:

Certificate of Package of 10 Whole Tickets.....$90 00
" " " 10 Half " 40 00
" " " 10 Quarter " 20 00
" " " 10 Eighth " 10 00

In ordering Tickets or Certificates, enclose the money to our address for the Tickets ordered, on receipt of which they will be forwarded by first mail. Purchasers can have Tickets ending in any figure they may designate.

The list of drawn numbers and prizes will be forwarded to purchasers immediately after the drawing.

Purchasers will please write their signature plain, and give their Post Office, County and State.

☞ Remember that every Prize is drawn and payable in full without deduction.

☞ All Prizes of $1,000 and under, paid immediately after the drawing—other Prizes at the usual time of thirty days.

☞ All communications strictly confidential.

DOVER, N. H., Feb 2, 1856.

PROF. O. J. WOOD & CO.—Gents: Within a few days we have received so many orders and calls for Prof. O. J. Wood's Hair Restorative, that feeling we were committed to it and to Boston for a quantity, (the six dozen you forwarded all being sold,) while we might order a sufficient from you. Every bottle we have sold seems perfect proof of three or four new customers, and the reputation and patronage it received from the most substantial and worthy citizens of our vicinity, fully sustains the merit of this a most valuable preparation.

Send us six or a dozen more, the one gross at $1 size; and one dozen $2 size; and I believe we remain very respectfully,

(Signed) DANIEL LATHORP & CO.

HICKORY GROVE, St. Charles county, Mo., November 19, 1856.

PROF. O. J. WOOD—Dear Sir: Some time last summer we were induced to try a bottle of your Hair Restorative, and its effects were so wonderful, we feel it our duty to you and the afflicted, to speak of it.

Our little son's hair for some time had been perfectly covered with sores, and some called it scald head. The hair came out entirely from the affected surface, where a friend, seeing his sufferings, advised us to use your Restorative; we did so with little hope of success, but to our surprise, and that of all our friends, the sores and pimples removed the disease entirely, and a new and luxuriant crop of hair soon started out, and we can now say that our boy has as healthy a head of hair as ever adorned a crop of hair as any other child. We can, therefore, and do hereby recommend your Restorative, as a perfect remedy for all diseases of the scalp and hair.

We are, yours respectfully,

GEORGE W. HIGGINBOTHAM,
SARAH A. HIGGINBOTHAM.

GARDNER MANOR, June 22, 1856.

PROF. O. J. WOOD—Dear Sir: I have used two bottles of Prof Wood's Hair Restorative, and can truly say it is the greatest discovery of the age for restoring and cleansing the hair. Before I used it I was a fright to my entry. My hair has now attained its original color. You can recommend it to the world without the least fear, as my case was one of the worst I had.

Yours respectfully,

DANIEL N. MURPHY.

O. J. WOOD & CO., Proprietors, 313 Broadway N. Y. (In the great N. Y. Wire Railing Establishment,) and 114 Market st reet, St Louis, Mo.

IMPORTANT INSTRUCTIONS.—The single rate of letter postage by either of the above lines (and the same in respect to the British lines) to or from any point in the United States, Great Britain and Ireland, or France, or from any point in Great Britain, is 24 cents—prepayment optional. Newspapers, each two cents United States, and two cents Great Britain; pamphlets, each two cents; whether the proper is sent from or received in the United States. British newspapers usually come through Great Britain, in the open mail, must be prepaid 24 cents when the Atlantic conveyance is by United States packets, and 5 cents when by British packets, except from California or Oregon, when the sum to be prepaid is, in the former instance, 32 cents, and in the latter, 10 cents. Thus, in the one case, the Atlantic sea postage is to be collected at the sailing office, in the United States, and in the other, it is to be collected in the United States, and the sum will be added, to an additional 24 cents charge in the United Kingdom. When sent to France, Algeria, or cities in Turkey, Syria and Egypt, in which France has postoffices, via England, or to other foreign countries, without passing through the United Kingdom, they will be charged, with 1 cents, or fraction of a fraction of an ounce, United States postage—pre-payment required.

Books are to be of a size for postage to from Bremen, the Bremen line, 10 cents—prepayment optional. Newspapers, each 2 cents, being the United States and German postage—pre-payment required. Letters and newspapers to other parts of the continent may also go by this line, subject to various rates; for which see Foreign Postage Table.

Single rate of letter postage to or from France or Algeria, 10 cents the quarter ounce—pre-payment optional. Newspapers, periodical works, books stitched or bound, raw silk, calamanders, papers of music, photographs, manuscripts and printed matter, postage reduced to France, Algeria, or cities of Turkey, Syria and Egypt, in which France has postoffices, via Alexandria, Alexandria, Beyrout, Constantinople, Smyrna, Malta, Gibraltar, Gallipoli, Heraklia, Inebolt, Jaffa, Kerasund, Latakia, Mersina, Mitylene, Mondania, Rhodes, Salonica, Samsoun, Sinope, Smyrna, Trebizond, Trebizond, Tripoli in
