Patent Roofing.

Important to Architects and Builders.

W. E. CHILDS & CO.'S

Patent Elastic Water and Fire Proof

CEMENT ROOFING.

WE would respectfully announce to the citizens of Memphis, and the surrounding country, that we are prepared to contract and put on, our FIRE and WATER-PROOF CEMENT ROOFING, it being the only article yet invented, that will successfully resist the action of the atmosphere in every climate. It is perfectly Fire and Water Proof, and in point of durability, equal if not superior to any metallic roofing. We can put it on over old tin, tar or shingle roofs, it having no difference how tarry or steep the roof may be. We put on our roof for seven dollars per hundred square feet. We will apply our cement on tin and iron roofs for two dollars and twenty-five cents per square, it being an amount of its elasticity and durability, the cheapest paint that can be used. Our cement is the best fire retant, for painting around the walls, chimneys, skylights, &c. We warrant all our works.

We invite all that want new roofs, or their old ones repaired, to call at Rick's store, above, No. 384 Main street, and examine our samples and satisfy themselves of the durability and practicability of using this roofing.

N. B. We are prepared to fill orders for our cement, to those residing at a distance, with printed directions for using it.

Those wishing roofs or repairing done, will please call at Rick's store above, or address us through the Post Office.

CINCINNATI, January 7th, 1857.

We have W. E. CHILDS & CO.'S Cement Roofing upon some of our buildings. It gives entire satisfaction, and we consider it the best roofing of which we have any knowledge. We are extensively engaged in but doing in this city, and have within the last five years, covered buildings with all the various metallic and other roofing which have been introduced, and from experience and investigation, we without hesitation, pronounce CHILDS & CO.'S, preferable to any other.

The Greatest Invention of the Age!

PERFECT PROTECTION FROM THE ELEMENTS.

WEST'S

PATENT GALVANIC CEMENT FOR ROOFING.

THE subscriber is now prepared to cover roofs of buildings, with a new and better article than ever before known. The public are aware that our Government has been at immense expenditures, and that it has been the study of Architects and Builders for years, to discover an article for roofing purposes, that would stand the vicissitudes of the weather, and be impervious to fire and water, and remain a permanent fixture. As yet, nothing has been attained without cooling more than the price will bear. The contraction, expansion and rending of metal roofs, are so great in changeable climates, that they become useless, before repaired at great expense yearly. Shingles are not fire proof, and cannot be used on flat roofs, and the various Compositions and Cements that have been brought into use for roofing, do not stand the action of the weather, but they run when it is warm, and crack when frosty, and after one or two years become useless by, and worthless; whereas, the inventor of the Galvanic Cement has labored twenty years to compound a composition that will withstand the test of time from his long experience, and numerous testimonials from reliable persons, who have had his combination applied to their buildings, that his Cement is the cheapest and best article ever before known. The combination of this Cement is such, that it is calculated for entire new roofs, flat or steep; working over old shingles without removing them; lining gave troughs, seaming around battlements, chimneys and sky lights. Covering canvas, steamer decks, &c. This Cement, by its non-conduction and calcinism, prevents metal roofs from rusting, undermining, and resisting the extremes of heat and cold, better than anything ever invented, for entire roofs or for covering metal and the out-side of wood buildings, making them fire proof. Its appearance is like slate; beautiful for the rich palaces or the humble cottage. The undersigned having secured the right for the State of Tennessee, will sell rights of Territory, by Counties or towns, on reasonable terms.

The subscriber is also prepared to cover roofs of buildings, in any part of the State, at short notice.

This roof is now being put on, the Hospital, for the benefit of all concerned, and warranted to excel all other roofs of roofing. The subscriber having resided in the city of Memphis for years, and has had his mode of roofing tested as to its qualities, which has proved satisfactory to which a number of the most prominent citizens can testify.

See testimonials of the following gentlemen who have used it, with hundreds others.

For further information, enquire at the office, where samples may be seen in J. L. Morgan's Architectural Rooms, No. 3 Walker's Block, Memphis, Tenn., or address, Box 220, P. O.

A Hatchet is a note from John L. Morgan, Esq., Architect, by which may be seen the opinion of Mr. Simon Shaw, the celebrated Architect, and writer upon Architecture, whose experience with this mode of roofing, without the cement, is satisfactory to all.

MEMPHIS, March 12, 1857.

MR. C. W. S. BENNETT: When in Philadelphia, Pa., a few days ago, I called on Mr. Samuel Sloan, the celebrated Architect, and author upon Architecture, whose experience with this mode of roofing, without the cement, is satisfactory to all.

MEMPHIS, March 12, 1857.

MR. C. W. S. BENNETT: When in Philadelphia, Pa., a few days ago, I called on Mr. Samuel Sloan, the celebrated Architect, and author of the Roman Work on Architecture. I asked his opinion as to the durability &c., of Walls Paper, which I was about to use in the city of Memphis, and he told me that he had no hesitation in saying to me that it will last as long as the house, and that its adhesion, takes it to be; further saying that he is using it on a fine building in himself.

Respectfully, T. JOHN MORGAN, Architect.

MEMPHIS, March 2, 1857

W. S. BENNETT, Esq., Dear Sir: The facts within your knowledge, of my experience, &c., of West's Galvanic Cement, are these: The building you covered for me last Spring, was as big, if not as hot, as any in Memphis. We can say more, recommend it to the public for all roofing purposes, as a light, cheap, fire and water proof roof. Since the roof has stood out and run from the effects of the heat of the sun, it has hardened and crack from the effects of the cold. Any person wishing to know more of that article, can call on me at my manufactory.

N. S. BRUCE & CO.,
Carriage Manufactory, Court St., Memphis, Tenn.

MEM PHIS, TENN., Dec. 8, 1856.

TO WHOM IT MAY CONCERN: This is to certify that I S. Amerine purchased two rolls of your best Spring "A composition called West's Patent Galvanic Cement," one of them was a new roof, the other an old shingle roof, which I put on last perfectly satisfactory. He also repaired a dormant window, which leaked badly, and had baffled him after repeated efforts to prevent its leaking, which he succeeded to make a perfectly tight. I do most cheerfully recommend his mode of roofing to the public, and will cordially recommend the Cement, believe it to be a permanent fixture against fire and water. D. COCKRELL.

Superintendent Construction Quartermaster Department.

SUPERINT'S OFFICE, MEMPHIS & CLARK'S BARRAGE, MEMPHIS, TENN., Feb. 19, 1857.

MR. BENNETT: Some time since, I commenced being troubled very much with leaky carts, put some of your Patent Paint upon them, and so far as my knowledge extends I can now pronounce it to any what it is, a perfect roof of any sort. Yours, &c.

H. COPPIN, Superintendent.

MEMPHIS, TENN., Jan. 14, 1857.

TO THE PUBLIC: W. S. Bennett made application to me last summer to cover our building with West's Galvanic Cement; I tried it, but thought it would be better if I had it applied to our Blacksmith Shop and Engine House attached to the factory. They have proved all required of a water proof roof, having withstood some of the greatest storms, and are giving good satisfaction. We can only add, I shall use it when I need a roof.

CURTIS & KNAPP, Iron Founders.

MEMPHIS, Jan. 14, 1857.

Mr. Bennett has done some small amount of roofing for me in his peculiar way, with Galvanic Cement with a preparation for heat of which appears to be Coal Tar. It is a very effectual and light roof, and appears to promise considerable durability, from the present relative quality of the material, which penetrates like cloth and protects it from the influence of the air and water. The Composition does not crack and run from the effects of the heat of the sun in summer; nor does it harden and crack from the influence in the cold of winter.

The Number and Prize drawn out are opened and exhibited to the audience, and registered by the Commissioners; the Prize being placed against the Number drawn. This operation is repeated until all the Prizes are drawn out.

APPROXIMATION PRIZES.—The two preceding and the two succeeding Numbers to those drawing the first Prizes will be entitled to the 20 Approximation Prizes. For example: if Ticket No. 11250 draws the $70,000 Prize, those Tickets numbered 11248, 11249, 11251, 11252,—will each be entitled to $400. If Ticket No. 560 draws the $20,000 Prize, those Tickets numbered 558, 559, 561, 562, will each be entitled to $300, and so on according to the above scheme.

☞ The 5,000 Prizes of $20 will be determined by the last figure of the number that draws the $70,000 Prize. For example, if the Number drawing $70,000 Prize ends with No. 1, then all the Tickets where the number ends in 1 will be entitled to $20. If the Number ends with No. 2, then all the Tickets where the number ends in 2 will be entitled to $20, and so on to 9.

Certificates of Packages will be sold at the following rates, which is the lowest:

Certificate of Package of 10 Whole Tickets.....$80 00
" " " 10 Half " 40 00
" " " 10 Quarter " 20 00
" " " 10 Eighth " 10 00

In ordering Tickets or Certificates, remit the money to our address for the Tickets ordered, on receipt of which they will be forwarded by first mail. Purchasers can have Tickets sent to any figure they may designate.

The list of drawn numbers and prizes will be forwarded to purchasers immediately after the drawing.

Purchasers will please write their names, ages, and give their Post Office, County and State.

☞ Information of any Prize is drawn and payable in full without deduction.

☞ All Prizes of $1,000 and under, paid immediately after the drawing—other Prizes at the usual time of thirty days.

☞ All communications strictly confidential.

Clarion, and Augusta (Ga.) Constitutionalist. jan28

Your Attention.

THE quickest, cheapest, easiest and pleasantest mode of washing yet discovered. No beating, pounding or rubbing, but an entire revolution in washing.

The Launderer's Secret,

is a process by which nearly all the labor necessary for washing clothes is dispensed with.

The "Launderer's Secret" has been thoroughly tested by the most critical and fastidious housekeepers, and has not failed in a single instance to give entire satisfaction. The tendency of the mixture is to loosen the adhesive property of the dirt from the fabric, so that it will be easy to take the garment a beautiful white appearance, and the clothes that generally fade after each of the ordinary washes, compound, &c., by this process are warranted to remain firm; the color is not changed in the least; nothing injurious or injurious is used, and consequently a large amount of fuel is saved; the wear and tear of clothing, instrument necessarily attend washing is done away with; and persons in easiest removed, and not one-fourth the labor is required to do the washing. Unlike the ordinary process, the whole family washing is performed in simple water, and any kind of fabric can be washed with perfect safety. It is manufactured in a very short time and at a trifling expense, and is for sale at the manufactory, at wholesale price of the cheapest soap.

The original and only patent right for this question offered and where introduced it has met with general approbation. Men and women both unite in one strain of praise to the Inventor, and say that it is the best article a day to perform, by the process can be done in one hour. The cost is not near so great, and the clothes have a more uniform and clear appearance. Perhaps the opportunity for procuring this invaluable discovery will pass once more again. It will be withdrawn very soon. Will you go on with the old process, doing your washing in half a day, using a large amount of fuel, turpentine and rosin, to the wash and washboard, instead of spending your clothes much easier and cheaper in an hour.

Believing it best to the wants in each family, of every the appearance of your clothing (a Matter of Consequence) to your own hands, we respectfully to lift your orders.

The recipe is printed on the paper with full and complete instructions for making and using.

Persons wishing to see this great discovery will address, or call on the undersigned, who is ready to give the information, and exhibit the amount of fuel you can't send either, bank bills will do.

In all cases where this mixture does not do all that is promised to it Rights result, in all cases, to return to all to take back the Rights.

Address, enclosing $2 in gold, postage stamps, or bank bills. WASHINGTON J. JOHNSON,
