MOORE & HUCHES

Have associated themselves for the transaction of a

General Land Agency Business

IN THE STATE OF ARKANSAS.

They will PAY TAXES on lands, and attend to the redemption of forfeited lands.

They will also attend to transitions and examiners of land, in any part of the State, and report to parties the character of the soil, timber, quantity of arable land and any particular tract, and any desired information in regard thereto; and in cases where one can wish to bring their land into market, they will contract to have timber deadened upon it, and will do anything for other than the plantations or wild lands of those who may wish to sell.

Much fine land in this State has been rescued from sale for the last five years, having been reported as exempted and sold, and which, by an act of the last Congress, was confirmed to the State, and will be subject to entry in five months. The lists of these lands contain a great deal that has become valuable since its reversion, and the above firm from their experience as practical surveyors, and of many years, have made it their to the public business of the State for many years, and the other in Railroad and Internal Land Engineering, having thus gained an extensive knowledge of the resources of the State, will be prepared to make good locations for persons desiring to invest money, when this can't realize of thousands in other hands of value, or locations for either for a stipulated share of the land or cash for upon the money invested.

Persons requiring homes in Arkansas will find at their office, plats of land, improved, or farms with full description of their improvements, and will be pleased to see that they can be at our office or the steamboat landings.

They will buy and sell Land Warrants or locate them for holders. Any business in the above line will be promptly attended to.

W. E. CHILDS & CO.'S

Patent Elastic Water and Fire Proof

CEMENT ROOFING.

WE would respectfully announce to the citizens of Memphis, and the surrounding country, that we are prepared to contract and put on our FIRE and WATER PROOF CEMENT ROOFING, in being the only article yet invented, that will successfully resist the action of the atmosphere in every climate. It is perfectly Fire and Water Proof, and in point of durability, equal if not superior to any metallic roofing. We can put it on over old tin, tar or shingle roofs, it making no difference how flat or steep the roof may be. We put on our roof on at 25 dollars per hundred square feet. We will apply our cement on tin and iron roofs for less dollars and twenty-five cents per square, it being on account of its elasticity and durability, the cheapest paint that can be used. Our cement is the best time extent, for patching shingle roofs, gutters, chimneys, skylights, &c. We warrant all our work.

Whatever all that want new roofs, or their old ones repaired, be call at Rick's store store, No. 261 Main street, and examine specimens and satisfy themselves of the durability and practicability of using this roofing.

N. B. We are prepared to fill orders for our cement, to those residing at a distance, with printed directions for using it.

Those having roofs or repairing done, will please call at Rick's store store, or address us through the Post Office.

CHICAGO, ILLINOIS, January 7th, 1857.

We have W. E. Childs & Co.'s Cement Roofing upon some of our buildings, and it has been years, current warehouse it the best roofing of which we have any knowledge. We are extensively engaged in fitting up warehouses, and we find it to be a great saving, current savings with all the various metallic and other roofings which have been introduced, and from experience and investigation, we consider it, cement, preferable. Childs & Co.'s, preferable to any other.

CINCINNATI, O., May 28th, 1857.

W. E. CHILDS & Co.—The roof on our pork house gives entire satisfaction. It has proved itself both Fire and Water Proof.

Some four months since, a large fire occurred directly adjoining us, and our roof was severely tried by the flames and burning brands, but stood the test unharmed. We cordially commend this roof to most trial.

The Greatest Invention of the Age!

PERFECT PROTECTION FROM THE ELEMENTS.

WEST'S PATENT GALVANIC CEMENT FOR ROOFING.

THE subscriber is now prepared to cover roofs of buildings, with a new and better article than ever before known. The public are aware that our Government has had scientific men experimenting, and that it has been the study of Architects and Builders for years, to discover an article for roofing purposes, that would stand the sudden change of the weather, and be impervious to fire and water, and remain unchangeable. As yet, nothing has been attained without costing more than the people wish. The contraction, expansion and rending of metal roofs, are so great as to be impracticable, that they become useless, unless being repaired at great expense yearly. Shingles are not fire proof, and cannot be used on flat roofs, and the various Compositions and Cement that have been brought into our roofing, do not stand the action of the weather, but there rots when it is warm, and crack when frosty, and after one or two years become crazy, and worthless; whereas, the inventor of the Galvanic Cement has labored twenty years to combine articles to obviate these difficulties, and can testify from his long experience, and numerous testimonials from responsible persons, who have had his combination applied to their buildings, that his Cement is the cheapest and best article ever before known. The combination is composed of Gum Elastic, which is calculated for entire roofs, flat or steep, covering over old shingles without removing them; lining cars for refrigerators, covering around chimneys, skylights and sky lights. Covering carpets, counter decks, &c. This Cement, by its non-conductor, prevents sweating, preserves metal roofs from rusting and undermining, and resists the extremes of heat and cold, better than anything ever invented, for entire security to any roofing metal and the suitable of wood buildings, making them fire proof. Its appearance is like slate; beautiful for the rich palace or the humble cottage.

The undersigned having secured the right in the State of Tennessee, will sell rights of Territory, by Counties or towns, on reasonable terms.

The undersigned is also prepared to cover roofs of buildings, in any part of the State, at short notice.

Persons desiring information, will call for the benefit of all concerned, and warranted to cover all other modes of roofing. The subscriber having resided in the city of Memphis for the last ten years, and had his roofs of this kind, as to its qualities, which has proved satisfactory, to which a number of the most prominent citizens can testify.

The attention of persons and countries is respectfully solicited to this institution. He states himself, from the patronage he has already received, that he will meet a continuance, by his one aiding real to the interest of his pupils.

Terms, &c., made known on application at the College, 262 Main street.

I have the honor to refer to the following gentlemen, and others, who have kindly consented to act as a Board of Visitors for Examination, being practical business men.
