MOORE & HUCHES

Have associated themselves for the transaction of a

General Land Agency Business

IN THE STATE OF ARKANSAS.

THEY will PAY TAXES on lands, and attend to the redemption of forfeited lands. They will make personal examinations and surveys of land, in any part of the State, and report to parties the character of the soil, timber, quantity of arable land upon any particular tract, and any desirable information in regard thereto; and in cases where owners wish to bring their land into market, they will contract to have timber deadened upon it, and will sell purchasers for either the plantations or wild lands of those who desire to sell.

Much free land in this State has been reserved from sale for the last five years, having been reported as swamp and overflowed, and which, by an act of the last Congress was confirmed to the State, and will be subject to entry in a few months. The lists of those lands contain a great deal that has become valuable since the reports, and the time is now fast approaching when their importance as practical surveyors, one of whom has been engaged in the public Surveys of the State for nearly 20 years, and the other in Railroad and Swamp Land Engineering, having thus gained an extensive knowledge of land throughout the State, will be prepared to make good locations for persons desiring to invest money, when this cool-nation of Swamp Lands is offered for sale, or subject to entry either on a stipulated share of the land or commission upon the money invested.

Persons intending locations in Arkansas will find at their office, plats of land unimproved, or farms, with full descriptions of their improvements, quality, locality, &c., so that time will not be lost in examining or choosing suitable places.

They will buy and sell Land Warrants or locate them for holders. Any business in the above line will be promptly attended to.

Patent Roofing.

Important to Architects and Builders.

W. E. CHILDS & CO.'S

Patent Elastic Water and Fire Proof

CEMENT ROOFING.

WE would respectfully announce to the citizens of Memphis, and the surrounding country, that we are prepared to contract and put on, our FIRE AND WATER-PROOF CEMENT ROOFING, in beyond the only article yet invented, that will successfully resist the action of the atmosphere in every climate. It is perfectly Fire and Water Proof, and in point of durability, equal if not superior to any metallic roofing. We can put it on over old tin, tar or shingle roofs, it making no difference how flat or steep the roof may be. We put on our roof for seven dollars per hundred squares feet. We will apply our cement on tin and tout roofs for two dollars and twenty-five cents per square, it being on account of its elasticity and durability, the cheapest paint that can be used. Our cement is the best thing extant, for patching around fire walls, chimneys, skylights, &c. We warrant all our work.

We have all that want new roofs, or their old ones repaired, to call at Rick's stove store, No. 284 Main street, and examine specimens of our roofing. The subscriber having resided in the city of Memphis one year, and has had his mode of roofing tested as to its qualities, which has proved satisfactory, to which a number of the most prominent citizens can testify.

Testimonials of the following gentlemen who have used it, with hosts of others.

For further information enquire at the office, where samples may be seen in J. J. Morgan's Architectural Room, No. 3 Walker's Block, Memphis, Tenn., or address, Box 239, P. O.

C. W. STURDIVANT & CO., Proprietors, Successor to W. S. Bennett.

Attached is a note from John L. Morgan, Esq., Architect, by which may be seen the opinion of Mr. Samuel Sloan, the celebrated Architect, and writer upon Architecture, who is considered with this mode of roofing, without a doubt, is satisfactory to all.

MEMPHIS, March 12, 1857.

MR. W. S. BENNETT: While in Philadelphia, Pa., a few days ago, I called upon Mr. Samuel Sloan, the celebrated Architect, and author of the Home Work on Architecture. I asked his opinion as to the durability &c., of West's Patent Roof, such as you are selling in the city of Memphis, and he stated that he had no hesitation in saying to me that it is a good and durable roof, and is all that its advertisements claim it to be; further saying that he is using it on a fine building in Philadelphia.

Respectfully, JOHN L. MORGAN, Architect.

MEMPHIS, March 3, 1857.

W. S. BENNETT, Esq. *Dear Sir:* The facts within our knowledge of the durability, &c., of West's Galvanic Cement, and Fire Proof Composition Roofing, for our last Spring, we am happy to state has answered our expectations. We can therefore, recommend it to the public as all roofing purposes, and a fire, cheap, fire and water proof roof. It does not get soft and run from the effects of the heat of the sun nor does it harden and crack from the effects of the cold. Anyperson wishing to know more of this article, can call at our manufactory.

N. S. RITCH & CO., Carriage Manufactory, Monroe St., Memphis, Tenn.

TO WHOM IT MAY CONCERN: This is to certify that W. S. Bennett, covered two roofs for me last Spring, with a composition called West's Patent Galvanic Cement; one of them was a new deck, the other an old shingle roof, which are giving perfect satisfaction. The above composition is much more elastic than tarr, and had baffled the skill of carpenters to prevent its leaking, which the composition effectually perfectly tight. I do most cheerfully recommend his mode of roofing to the public, for all roofing purposes, and believe it to be a permanent future substitute for tarr roofs.

D. COCKRELL, Proprietor Commercial Hotel.

SUPERINTEN'T'S OFFICE, MEMPHIS & OHIO R. R. MEMPHIS, TENN., Feb. 19, 1857.

MR. BENNETT, *Dear Sir:* Our Company having been induced to try some more of your Galvanic Cement, and Patent Paint upon them, and so far as my knowledge extends, I can cheerfully recommend it to any who wish a dry roof of any sort. Yours &c.,

H. COFFIN, Superintendent.

MEMPHIS, TENN., Jan. 14, 1857.

TO THE PUBLIC: W. S. Bennett made application to us last summer to cover our buildings with West's Galvanic Cement; it being a new thing thought we would try it; had the Blacksmith Shop and Engine House attached to the Foundry. They have proved all required of a fire and water proof roof, having withstood our greatest storms, and are giving good satisfaction. We can only add, try it and you will be satisfied.

CURTIS & KNAPP, Iron Founders.

Mr. Bennett has done some small amount of roofing for me in his peculiar way, with Cotton stuff mated with a composition of his own, and which appears to be good. It is a very effectual and tight roof, and appears to promise considerable durability, from the preservative quality of the composition, which penetrates the cloth and protects it from the influence of the air and water. The Composition does not liquify and run from the effects of the heat of the sun in summer; nor does it harden and crack from the influence in the cold of winter.

PLAN OF THE LOTTERY.

The Numbers from 1 to 50,000, corresponding with these Numbers on the Tickets printed on separate slips of paper, are enclosed with small tin tubes and placed in one wheel.

The first 687 Prizes, similarly printed and enclosed, are placed in another wheel.

The wheels are then revolved, and a number is drawn from the wheel of numbers, and to the same time a Prize is drawn from the other wheel. The Number and Prize drawn out are opened and exhibited to the audience, and registered by the Commissioners; the Prize being placed against the Number drawn. This operation is repeated until all the Prizes are drawn out.

APPROXIMATION PRIZES.—The two preceding and the two succeeding Numbers to those drawing the first 7 Prizes will be entitled to the Approximation Prizes. For example: if Ticket No 11250 draws the $70 000 Prize, those Tickets numbered 11248, 11249, 11251, 11252, will each be entitled to $400. If Ticket No. 580 draws the $10,000 Prize, those Tickets numbered 548, 549, 581, 582, will each be entitled to $300, and so on according to the above scheme.

☞ The 5,000 Prizes of $20 will be determined by the last figure of the number that draws the $70,000 Prize. For example, if the Number drawing the $70,000 Prize ends with No. 1, then all the Tickets where the number ends in 1 will be entitled to $20. If the Number ends with No. 2, then all the Tickets where the number ends in 2 will be entitled to $20, and so on to 9.

Certificates of Packages will be sold at the following rates, which is the risk:

Certificate of Package of 10 Whole Tickets			$50 00
" "	"	10 Half "	40 00
" "	"	10 Quarter "	20 00

Fire and Inland Navigation

Risks accepted at terms consistent with solvency and fair profit.

Special attention given to Insurance of DWELLINGS, and Contents, for terms of 1 to 5 years.

The process of this corporation has been stable and equal, respond through seasons of financial embarrassment, or pressure, while it was exempt from sweeping conflagrations and maritime disaster. Being long established on a cash basis, the troubles of the credit system affect us in no material particular.

During "hard times" the security of reliable insurance is an important desideratum, the ability of property owners to sustain loss being then much lessened.

Agencies in all the principal cities and towns throughout the State. Policies issued without delay, by any of the undersigned agents of the company.

☞ Business attended to with promptitude and fidelity.

IMPORTANT INSTRUCTIONS.—The single rate of letter postage by either of the above lines (and the same in proportion for fractional parts of a pound) between the United States, (except Oregon and California) for or from any point in Great Britain, is 24 cents—prepaid or unpaid. Newspapers, each, 2 cents United States, and two cents British; each country to collect its own postage, whether the paper is received in Europe or in the United States. British newspapers usually come with postage paid by a penny stamp equal to two cents in The United States. Letters for any part of the British Islands, or for the continent of Europe, to pass through Great Britain, in the open mail, must be prepaid 24 cents to the Atlantic, and 24 cents to be paid by United States packets, and 8 cents when by British packets, except from California or Oregon, when the sum to be prepaid is, in the former instance, 28 cents, and in the latter, 10 cents. Thus in the one case, the Atlantic ocean postage is to be collected at the mailing office, in the United States; and in the other, left to be collected, together with the British transit and other foreign postage, at the office of delivery. Between Great Britain and Oregon and California, the single rate of letter postage is 29 cents.

Pamphlet works and pamphlets may be sent from the United States to the United Kingdom, and vice versa, at two cents of United States postage, if they do not exceed two ounces in weight, and at 4 cents per ounce, or fraction of an ounce, when they exceed that weight; to be collected in all cases in the United States; and the same will be subject to an additional like charge in the United Kingdom, when sent to Prussia, Algeria, or cities in Turkey, Syria and Egypt, in which France has postoffices, via England, or to other foreign countries, without passing through the United Kingdom, they will be chargeable with 1 cent an ounce, or fraction of an ounce, United States postage, in addition to the required foreign rate of letter postage to or from Bremen, by the Bremen line, 10 cents—pre-payment optional. Newspapers, each 2 cents United States and 2 cents German postage—pre-payment required. Letters and newspapers to other parts of the continent may also go by this line, Cuxhaven being the place of exchange. For foreign postage Table.

Single rate of letter postage to or from France or Algeria, 15 cents the quarter ounce—pre-payment optional. Newspapers, periodical works, books stitched or bound, music, plans, maps, prints, patterns, models, photographs, circulars and all other kinds of printed matter, addressed to France, Algeria, or cities of Turkey, Syria and Egypt, in which France has postoffices, via Alexandria, Alexandretta, Beyrout, Constantinople, Dardanelles, Smyrna, Tripoli, Tunis, Tangier, Mogador, Mazagan, Saffi,
