# Commercial Matters.

MEMPHIS DAILY APPEAL OFFICE, Thursday Evening, April 17, 1858.

COTTON—The cotton market was on Saturday last as we note a similar report, merely remarking that nearly 500 bales were sold at a decline of ¼c. A private dispatch from New Orleans received and dated yesterday, reads: "The news has revived the market; nothing doing the morning." Spinners generally expect nothing more than a temporary recession of business from the decline in the British market. The decreased stocks are larger than with cotton.

Interior.....8¾ @ 9¼ | Mobile.....10¼ @11

Good Ordinary.....9 @ 9¾ | Middling Fair.....12 @12½
Low Middling.....8¾ @9¼ | Fair.....12½ @13

From the New Orleans Delta, April 10: We stated in our last review that owing to the unfavorable news by the Persia, the cotton market had been somewhat unsettled, during the decline on the Low Middling and Middling grades of low, ordinary and good ordinary qualities, the influence of the Liverpool accounts had rendered buyers unwilling to realize an improvement of ¼@¼c. The prices were quoted through this evening at the close of the week, as follows: Ordinary to Low Middling, 12 cents; Middling, 12½ cents. The sales of the week, 12,500 on Monday, 15,500 on Tuesday, 15,500 on Wednesday, 4,500 on Thursday, and 2,500 on Friday, amounting to a total for the week of 51,000 bales. Stock on hand 7,321 bales.

We modify our quotations as follows:

# Monetary and Financial.

MEMPHIS DAILY APPEAL OFFICE, Thursday Evening, April 15, 1858.

NEW YORK.—From the News, April 9: The money market continues well supplied, without any increase in the proportional rate of the best first class business. Contingent premiums. Loans are easy at 5 to 6 ⅌ ct. for first class borrowers, and deposits are made with brokers at 4 ⅌ ct. on call. Prime commercial paper is in good request at 10@12 ⅌ ct. for prime names of indorsed, and 6 to 7 for outside and paper. The banks hold a large amount of Treasury specie, which they seem willing to divide with their partners and over. The greatest uneasiness is betrayed among capitalists and all outsiders of the stock board to touch stocks, while there is no large an amount under hypothecation. Numerous sales were made at 86, at which rate 10,000 bonds were sold.

The Tribune says: The business of the market yesterday and to-day were indicative of a tortoise in the club of speculation. The movements have been feverish and irregular, but the undertone has been stronger and more observed, and the rebounding step of the market have apparently put upon more solid foundation. In short, the condition of the market is more favorable for a fresh outbreak of speculation, which, nevertheless, if the recession, severe check, is quite as likely to inflate stocks as it is to so intimate value as to direct favorably the prices of individual, dividend-paying investments. In a word, stocks are active and powerful, and are tending to bear upon the stock market with great force, as soon as people recover from even a well grounded alarm.

There is no activity in foreign exchange, and rates are lower. Sterling could not be sold to any extent at over 9½@9¾ ⅌ ct. The demand for specie and specie could not be sustained, lifting immediately followed by a cessation of demand.

BANK EXAMINERS.—The banks of St. Louis virtually resumed specie payments on the 1st inst., by reducing the rate of Eastern exchange to ¼ ⅌ ct. premium. On the first of May the banks of Georgia will resume, and on Monday next the law of October requires the banks of Pennsylvania to resume.

PHILADELPHIA.—The Ledger says: As business quickens there is more and more demand for money, but all good, live paper made is freely discounted by the banks. The right class of money borrowers is with those falling parties who have renewed paper maturing, and, with such, there is little or no accommodation, referred at bank or on the street. Unfortunately for the parties interested, the first paper was fixed at too short time, consequently with some making related paper to meet the renewed obligations, have been much less than we generally expect, and confidence has been so shaken by the general break down, that borrowing on temporary loan is quite out of the question. Big rains have lifted the market from its lowest point. The result is more uneasiness, will be further extension, or assignments and a final closing up of concerns. It is now evident that the source of all hardships is to be met from the yields and savings of new business—the greater portion of old credit is irretrievably gone.

## CARSON'S PUMP SHOP,

On DeSoto Street, BETWEEN UNION AND BEALE.

THE undersigned would respectfully inform the citizens of Memphis and the vicinity, and his numerous customers living at a distance in the country for their past patronage in his line of business, which business has hitherto been confined to the manufacturing and putting in the Chain-Pump alone, and still believing them to be the best pump in use, when made of good materials and properly put up, (and the contest when not so made and put up,) he would respectfully inform them and the public, that he is now prepared to furnish all kinds of Pumps, Pipe, Hydrants, &c., on the shortest notice, and warrant the same to give satisfaction, or no pay.

I have in the last year attached machinery to a number of my Chain-Pumps with entire success. I have also used large Balance-wheels on Hand Chain-Pumps with equal success. In one case I have used the wheel 15in.-Chain and of Second Button, which is quite expensive, but it "hadeth not away."

"MEDIUM IN PARVO."

I have constantly on hand a GREAT PUMP-BOX, embracing two complete, separate and distinct Chain Pumps, intended for double tenements, (and double prices,) two persons can draw water from this box, at the same time having no interference with each other whatever, being no hole left in the partition, well or pump, large enough for an urchin, dog, cat, or goose to crawl from one tenement to the other. I would refer you concerning the Pump, to F. G. Stephens at J. R. Merriweather & Co.

W. CARSON.

P. S. I am prepared to ship Pumps on orders in short time, up or down, east or west of the Mississippi river. W. C.

## THE LIVER INVIGORATOR

PREPARED BY DR. SANDFORD.

Compounded Entirely from Gums!

IS one of the best Purgative and Liver Medicines now before the public, that sets as a Cathartic, yet a milder, and more effectual than any other medicine known. It is not only a Cathartic, but a Liver remedy, and acts on the Liver to effect its morbid matter. It does so the stomach and bowels to carry off that matter, thus accomplishing two purposes effectually, without any of the painful pains experienced in the operation of most Cathartics. It strengthens the system at the same time that it purges it, and when taken for a few months to purge, will strengthen and build it up with unusual rapidity.

The LIVER is one of the human body; and when it has the powers of the system, it cannot be healthy and active. The Liver is the great active agent in the process of the system, which when the stomach are at fault, and the system suffers in consequence of an accumulation of matter, it is the Liver, having ceased to do its duty. For this reason, the Liver has a vast deal more to do than any other organ, and when taken for a month or two, it generally requires the many demangements to which it is liable.

To prove that this remedy is the best, we will give a portion of its testimonials, which are but a few of its 0 m. has but to be read to be certain.

These Gums remove all the system, supplying in their place, vigorous health, digestion, well, PURIFYING and health to the whole system, and the LIVER in particular.
