Commercial Matters.

HIS DAILY APPEAL OFFICE, SATURDAY, April 17, 1858.

COTTON.—The market was again stagnant yesterday. Prices were a shade easier, but nothing can be to justify a change in quotations. To day, probably, no business will be done, as the steamer's news will produce a more settled feeling. Math specula ion is ellsi as to the probable effect of the approaching rise in the river, and consequent overflow, upon the cotton business. The same topic, we observe, is also an element in the business calculations of the New Orleans merchants. The sales yesterday were: Tot 7 m, 20 at 9¾, 52 at 9¾, 26 at 10¾, 98 at 11, 12 at 11¼, 258 at 11¼, 37 at 11¾. Total 487 bales.

Monetary and Financial.

MEMPHIS DAILY APPEAL OFFICE, SATURDAY, April 17, 1858.

LOUISVILLE.—From the *Journal* April 12: We have little any change to notice in the money market. Exchanges continue to moderate respond at ¾ @ cent for Eastern and New Orleans. In unimcent money very little transaction has taken place. Tennessee bank notes continue at 2½ cent. discount, with a tendency to improvement. Illinois bank notes are about ¼ discount. The broken table Indiana, Ohio, and Missouri money at par from their customers Gold is very dull at ¼@¾ premium.

CINCINNATI.—Fr m the *Times*, April 10: Eastern exchange, which for weeks had been heavy at the quotations, declined in the beginning of the week, and are now firm at the undermentioned quotations. Considerable quantities of currency have been, and will continue to be, received here from points West and North, per express, which, while they increase the ease of money, render Eastern funds more plenty. Gold has been dull, and New Orleans at the quotations. In notes real money there has been some improvement. Missouri paper, quoted at ¼@¾ discount yesterday is now taken at par from depositors. Indiana stock is still in full discount. The Tennessee and Ohio have been lowered to ¾¾ discount, and some of the other notes of Western banks held at ¼, no par at Louisville. Virginia and Wisconsin are rather better, and the Southeastern banks are improving, owing to a prospect of resumption here.

NEW ORLEANS.—From the *Delta*, April 12: The last day of the week, at this season of the year, is usually dull, and such was the course of business to-day, and the change from the course of business to-day, and the change from a large amount of money has changed hands. The general Money market has, however, been very quiet. Holders of money are forced to lend at low rates, and prefer rates and protections, and talk about overdue, and war, and so on. The effect of this has been to make rather heavy overdue, the bank does not care, and is one of the best guarantees on the Mississippi river. The crop is all ready planted. Twenty-five thousand do lars to be paid in hand. For further particulars apply to

To my Customers at Large,

In Tennessee, Mississippi, Alabama and Arkansas. my Debtors and Creditors, or to whomever else these Presents shall come—Greeting:

Whereas, private matters of no consequence to anyone save myself, caused me suddenly to leave for the North, on the 28 of December, 1857, and return to my post on the 20th of January, 1858 these presents are to be made known that I, WILLIAM A. GLIDDON, Gutta Percha Trade Manufacturer, am again to be seen at the old stand on Adams street, short and hearty, and as willing as ever to attend to my own business and disregard that of others—a point which, were it more generally adopted by the masses, would enhance the peace of mind of many.

Furthermore, I have succeeded in constructing a Trunk during my absence, whereby any one, white or black, chin or stent, male or female, absent or present, can get fitted without sending me their measure, only stating the size of the Rupture, and whether double or single. These instruments will be covered by Vulcanized Gutta Percha Cloth, a stupendous improvement on what I have hitherto used. The valuable opinion of medical gentlemen, to whom I can refer in this city, is the best criterion in substantiating the fact of my having succeeded in making a Truss that will be the thing for the present and future generations.

Also, I would beg leave to state that, should any one from unfortunate accidents lose a leg, I can supply him with another—not of flesh, but of steel; having been appointed Agent by Mr. Jno F. Ord, of Philadelphia, for the adjustment and sale of his Metallic Skeleton Leg, Ankle Supporter, and numerous Surgical Machinery for the Treatment of Deformities.

Specimen of LEG can be seen at my office, where I will attend to all orders in the above line.

Specimen of TRUSS can be seen at my office, where I will attend to all orders in the above line.

A RETIRED PHYSICIAN 75 Years of Age,

Whose cause of life have nearly run out, discovered while in the East Indies, a certain cure for Consumption, Asthma, Bronchitis, Coughs, Colds and General Debility. The remedy was discovered by him when his own child, a daughter, was given up to die. He had heard much of the wonderful restorative and healing qualities of preparations made from the Plant Indian Hemp, and the thought occurred to him that he might make a remedy for his child. He studied hard and succeeded in realizing his wishes. His child was cured and is now alive and well. He has since administered the wonderful remedy to thousands of sufferers in all parts of the world, and in no instance has it failed to cure them completely healthy and happy. Without to do so much as a wonder will send to each of his advertised fellow-beings as regret it, this recipe, with full and explicit direction for making it up, and successfully using it. Her quite moderate charge for making up the Medicine—three cents to be returned as postage on the recipe, and the remainder to be applied to the payment of the advertisement.

The ingredients may be found in any drug store. I will send this valuable prescription to any person on receipt of one stamp to pay postage. Dr. Hostetter's

HAVE received the warmest encomiums from the press and people throughout the Union. As a valuable tonic for the cure of Dyspepsia, Flatulence, Constipation, and general nervous debility, it cannot be approached. Every day new cases of its great effect are chronicled through our principle public journals. There is nothing equal to the enjoyment, to that which the afflicted experience when using this valuable specific. In all cases, its mild sure and vigorous action upon a languid stomach, and the cleansing of the entire human body, should recommend it to all classes of our community. Mexican Mustang Liniment.

ITS wonderful cures are unequaled by any other preparation in the history of the Materia Medica, ever acquired the same patronage, was subjected to the same number of severe and different trials, and met with so few failures as the MUSTANG LINIMENT. It has justly been styled a Panacea for all external Wounds, Cuts, Swellings, Sprains, Bruises, or Eruptions on Man or Beast. It is so far a medicine of surprising virtue, that Physicians are compelled to prescribe it; and from some remarkable cures of Chronic and Distorted Rheumatic cases it has naturally attracted much attention from the great scientific minds of the age. No family can afford to be without a bottle of the Mustang Liniment in the house. Beware of imitations.

The genuine Mustang is sold by all respectable dealers in all parts of the world.

Important Notice.

THE sole solution to the mysterious office performed by my "ELECTRIC OIL" that I or any Physiologist can thus far discover, and that is its probable inoculation with the Nerves or Nervous Fluid of the human body. This is more evident from the sudden change in the nerves of sensation, (these little monitors of suffering,) noticed by all who use my (genuine) "Electric Oil," from 29 South Eighth Street, near Chestnut. It is a most important discovery, as the people will soon know, from actual experience. It relieves suffering as does no other known medicine and that suddenly.
